ASKS \$10,000 FOR JILT

Beautiful Polish Girl of Detroit, Begins Action Against Rich Cleveland Man

PAPERS SERVED AT WEDDING Plaintiff Says That Defendant's Failure to Wed Her, After Engagement Had Been Made, Placed Her in a Very Embarrassing Position—Gave Betrothed Sacred Prayer Shawl.

Detroit, Mich., Oct. 13.—Miss Florence Galowsky, a pretty Polish girl, of Detroit, is suing in the United States court here, Henry L. Crystal, a wealthy Cleveland man, for \$10,000 for breach of promise to marry.

Attired in a pretty blue hat trimmed with feathers of the same hue, a smart jacket and gown of silk, the complainant made a stunning picture yesterday. She is a dark, shapely woman, a beautiful type of her race.

Her memory was very keen as to the events leading up to and following her jilting by Crystal. The plaintiff and defendant, who had not seen each other for nearly two years, did not speak or recognize each other in any way. Crystal, after keeping company with Miss Galowsky over a year during the summer and fall of 1903 and the spring of 1904, broke off the engagement, Miss Galowsky says, for no apparent reason and Jan. 3, 1905, married Miss Sadie Applebaum, another Detroit girl, in Fellowship hall.

The serving of papers in the breach of promise suit was dramatic, one of Sheriff Dickson's deputies serving them on Crystal at the wedding, which was a society affair. Later the validity of the service was questioned because Hoffman had been elected sheriff and during the latter's troubles Dickson held over. Judge Swan decided at that time that the service was valid, thus holding that Dickson was sheriff.

A feature of the case is a bundle of papers in which there must be nearly 100 love epistles which are to be read in court during the trial.

Miss Galowsky was the first witness. Her story as drawn out by Attorney Frank H. Dohany, was: "My engagement to Mr. Crystal was announced June 21, 1903. I was a member of Temple Bethel. My mother returned from Europe in September, 1903, bringing with her my wedding trousseau."

"She also brought as a present for Mr. Crystal a 'talith,' a prayer shawl. It is a very sacred thing and is only given to a bride on her wedding day. It is carried into the family. He accepted it at our house and thought much of it."

MORTGAGE MADE IN ITALY.

Unusual Document Has Just Been Recorded in Kossuth County, Special to Times-Republican. Algona, Oct. 12.—Attorney Bonar, of Kossuth county, has just recorded a real estate mortgage drawn up in classic Rome, which was given to a member of the Italian parliament. The scrivener who drew it up had a hazy notion of the proper way to describe Iowa real estate, so the mortgage simply conveys "my farm in Kossuth county, Iowa." The consideration is \$25,000 francs, or \$5,000 in our money, and the instrument covers a forty which is already incumbered for \$800, so that the security is inadequate, but the mortgagor agrees to make up the deficiency by including other lands.

Tyler of the Iowa Library commission. She is a graduate of the academy, Andover, Mass., Iowa College at Grinnell and of the University

The complaint against Moore was made by O. L. Stroud, Oct. 12. Considerable interest is manifested in the grand jury case. Moore is a well known barber and has a large clientele. MUCH CABBAGE NEAR BRISTOW.

Estimated That 500 Cars Will Hardly Move the Crop. Special to Times-Republican. Bristow, Oct. 12.—This part of the state is proving its ability to grow cabbages with great success, and nearly a thousand acres will be harvested this vicinity this year. The farmers experimented with the crop last season and found it so successful that a larger acreage was planted this season, and 950 acres of the vegetables are now being marketed. It is estimated that it will take five weeks to market this crop which will be marketed at Omaha, St. Paul and Minneapolis.

A Dreadful Trio.

There are three common diseases, Scrofula, Catarrh and Consumption. The first and second commonly go hand in hand, and sometimes the third joins them—a dreadful trio! Why call attention to them? Simply to tell what will cure scrofula and catarrh and prevent consumption, according to incontrovertible evidence, it is Hood's Sarsaparilla. In the fall progress of these diseases is most rapid and we would advise that treatment with this great medicine be begun at once.

For Sunday Reading

An Exotic Religion in New York. Some four hundred people are to be found in New York who believe that a Christ is now living on earth. This statement is made by J. A. Dobson in the Broadway Magazine (September) in giving an account of what has been called "the most peculiar religion in New York."

It is the "revelation of Baha-Ullah, whose son, the present head of the faith, lives in Acca (Acree), on the Bay of Acca, in Asia Minor. The people who believe in this man are called Bahaists or Babiets, and the man is called Abbas Effendi. Baha-Ullah, as he is called, was born in Persia in 1817, of "ancient royal lineage." He "dreamed of his dreams and wrote down on tablets and parchments the old testament of his belief." In 1868 he was exiled to Acca, where he remained for the rest of his life, promulgating his religious beliefs and bringing up his son in the faith. Of the latter, Mr. Dobson writes: "Abbas Effendi, the son, and the one whom the Bahaists consider the messiah, now occupies his father's place, having succeeded in 1892, and is, in turn, an old man. His liberty is restricted by the Turkish government, which treats the Bahaist. It is said, with even worse brutality than it does the Christians, but in spite of his imprisonment, the faith has spread marvelously in the half-century, and something of the spirit of the quiet, simple, old man, humbly tending his garden and his flowers, reading his books and meditating in his bare little room, has crept into his writings and into the hearts of his readers and followers."

There are 10,000 Bahaists in the United States. They are drawn from the intelligent classes, the faith is said to be particularly attractive to artists. Generally those who had previously had humanitarian principles at heart, says Mr. Dobson, are enrolled among them. One of the number of Bahaists is Mrs. Phoebe Hearst, mother of William R. Hearst. Her conversion was effected after a pilgrimage to Acca, where she personally learned the principles of the faith from Abbas Effendi.

Club Woman as Religious Problem.

The Sub woman seems rather to supplement the church woman than "supplant" her, by the account Mrs. Charlotte Perkins Gilman gives of her relations. The Woman's Home Companion (July) prints Mrs. Gilman's vigorous contribution to the question. She thinks it rather a "pitiful thing" that the church should add this one more complaint to her others about "the young men" and "the working people" not coming to church. "As regards the question of allegiance she insists that 'the church must prove its place as a leader of life if it wants followers.' The world needs 'broad, general, swift, good work in a thousand lines of social progress,' says Mrs. Gilman, and considerable initiative in this line she attributes to the woman's club. She does not, however, exclude all other churches. "A healthy, prosperous church today, like Dr. Hainsford's, in New York, spends two-thirds of its efforts on humanitarian work—like a good woman's club." But while the woman's club is doing some things not done by the churches, this activity is in no way detrimental to the church. Thus: "If the membership of our women's clubs could be shown to increase, at the expense of the membership of our churches, or if the new activity in education and reform were at the expense of earlier activities in charity and philanthropy, there would be some ground for fear of the club movement, or at least the defender of the club would have to show that women in clubs did more to serve God and man than they had previously done in the churches. "No such contrast need be made. Our church membership is still composed mainly of women, and the good works of the church were never so widespread and efficacious as today. "While there are some club women who do not go to church, an equally large number of church women do not go to clubs, still in most cases the strong worker in the village improvement society is also a strong worker in the church. Quite aside from any such numerical balancing as this we have two things to be measured—the effect of the club membership on the woman herself, the other effect of the club work on the world. I think it can be shown that on both lines the club will be found a fellow servant of the church, a developer of character, and a means of social service. As to worship, I have yet to hear of a woman's club whose meetings coincide with church services. They do not conflict in the slightest, but may be of wide help to each other and to humanity."

Beautiful Women Use and Recommend Newbro's Herpicide. MISS MILDRED HOLLAND. The Charming and Derservedly Popular Theatrical Star, Writes as follows: "I am delighted with Newbro's Herpicide. It is just what I have been looking for. I find that it not only prevents dandruff, but that it stops the hair from falling out. It is a most delightful hair dressing, and no lady's toilet table is complete without it." (Signed) MILDRED HOLLAND. A woman to be pretty must have pretty hair. There is a subtle charm about beautiful hair that lends more to personal adornment than all of the skill of all of the "beauty doctors" combined. The hair need not be of extraordinary or abnormal length, but it must have that distinctiveness of appearance that comes from intelligent care, and is the result of perfect hair health. The most cultured ladies in every community use Newbro's Herpicide; and when you see a head of hair that glistens with beauty and is radiant with life, it is a fairly good indication that Newbro's Herpicide has been used. "A common cause of dullness of the hair is the presence of fine dust and soot in the streets that is kept in constant motion by trolley cars, automobiles, etc. This fine dust—frequently laden with disease germs—adheres to the hair and dulls its natural luster. A delightful way to cleanse and beautify the hair is to moisten a cloth with Newbro's Herpicide and draw it carefully thru the hair, taking one small strand at a time. It may be done daily, or less often, as desired. The result of this cleansing process will prove a surprise, not only in the amount of dirt removed, but in the added beauty of the hair and the sense of cleanliness and comfort that follows. Shampooing will also remove this dust, but too frequent washing of the hair is harmful. Newbro's Herpicide is the Original remedy that "kills the dandruff germ." It eradicates dandruff and stops falling hair. It is the only real scalp prophylactic in existence. A delightful and refreshing hair dressing. Stops itching of the scalp almost instantly. At DRUG STORES—Send 10c in stamps to THE HERPICIDE CO., Dept. L, Detroit, Mich., for sample. AT LEADING DRUG STORES OR SENT PREPAID FROM DETROIT, MICH., UPON RECEIPT OF \$1.00.
