GRAIN MARKETS WEAK

Leading Longs Were Heavy Sellers of Wheat, and Weather Was Favorable

CORN PRICES SAG HEAVILY

Selling by Cash Houses Was Extensive Today—Active Trading in Oats, Cash Houses and Pit Traders Being Lively Sellers—Quiet Tone in Provisions, Which Were Easier.

Chicago, June 15.—All the grain markets were weak at the opening today. The weather in the west and northwest was considered highly favorable for the growing crops. Leading longs were heavy sellers of wheat, September opening at 91 1/2 to 92 1/2, and declining to 90 1/2. Minneapolis, Duluth and Chicago receipts were 275 cars. The market rallied sharply at the end of the first hour, on covering by shorts. Later the greater part of the advance was lost, and the close was steady, September up 1/4 to 92 1/2 to 92 3/4.

Corn prices sagged heavily. Cash houses let go of extensive lines. September opened at 51 1/2 to 51 3/4, and declined to 51 1/2. Receipts were 608 cars. Prices advanced along with wheat and the market was strong the remainder of the day. September closed 1/4 to 51 1/2 to 51 3/4.

Trading was active in oats, and cash houses and pit traders were lively sellers. September opened at 35 1/2 to 35 3/4, and sold to 34 1/2 to 35. Receipts were 134 cars.

Provisions were quiet and easier.

TRADE CONDITIONS BETTER.

Weather and Crop Improvements An Aid to Trade.
New York, June 15.—Bradstreet's today says:
Weather, crop and retail conditions over a wide area of country have changed for the better this week, and the feeling is more optimistic than for some months past. In the northwest, parts of the central west and in some sections of the south higher temperatures have encouraged free re-buying of summer goods and made for more cheerful prices as to the wheat and cotton crops. It is noted that retailers' stocks the country over are large, that reduction sales are numerous, and that filling in orders from jobbers and manufacturers are a negligible quantity as yet. It is noted that fall trade reports are good in most sections, in a few being in advance of a year ago.

Better Steers Steady to Strong; Lower Grades 15 to 25 Lower
HOG MARKET ABOUT STEADY
The Supply Today Was About Equal to Needs of Trade, and Local Buyers Were All Fairly Active—Sheep and Lambs Close Lower Than Week Ago—Other Markets.

Chicago, June 15.—Cattle were nominally steady, there being no fresh receipts except a few ordered loads. The market closes weak, steady to strong, on the better class of steers, and 15 to 25 lower on lower grades. Receipts for the week were much more liberal than the previous week.
Receipts were exceptionally heavy this week and the behavior of the market was peculiar. The total supply footed up close to 67,000 head against 64,000 last week, and 50,000 a year ago. This excess was largely in common and medium grades, and the price of the week was broken in that department. Since packers have been ostracized from the cow market, they have been good buyers of the light cattle and up to the week's close the advance in prices was not strong enough to hold the prices up.
The cattle showed enough vitality to meet with approval from exporters, prices were steady and even strong for the best kinds. Shippers were good, active buyers all week, although they did not buy as many as last week. All of the good to choice steers were readily all week, and prices for the high-class cattle of suitable finish are 10 to 15 cents higher than a week ago. Above the \$6 mark, the market was very active and strong and all the good steers found quick outlet.

Stocks and Feeders.

The week as a whole has been a disappointing one, so far as stockers were concerned. Packers did not clean up this class of cattle, and local speculators accumulated a pretty good showing before the week was over. It is evident that the country still thinks there is nothing worth coming after, for buyers were extremely scarce again this week, and nearly all who did come wanted good to choice feeders with weight and quality. Naturally these cattle were hard to get for they were worth more to packers than to outside buyers. However, the fact that the common to medium killing cattle delays 25 to 35c this week put more steers of the good feeder class within reach of farmers, and so the volume of such of farmers, and so the volume of business was a little larger than last week, or the week before, the still very small. Country buyers did not take kindly to common and medium killing the week, and at this decline it that class was much larger than it has
