

LIFE ROOT IN ZOA-PHORA

Proof of the Value of This Important Medicinal Agent.

FOR WOMEN

Great Physicians Recommend It for the Cure of Woman's Ills.

The National Standard Dispensary is a medical work of nearly two thousand pages, acknowledged as standard authority by the medical profession everywhere. It is edited by such world-famed physicians as Hobart Amory Hare, M. D., professor of therapeutics and materia medica in the Jefferson Medical College of Philadelphia, Henry H. Rusby, M. D., of Columbia University, New York, and others of equal prominence.

This great medical authority describes the action and use of the best medicines recognized in the pharmacopoeias of the United States, Great Britain and Germany, with numerous references to others. In discussing the properties of Life Root, the best of authorities explain the wonderful action of this medicine on the delicate menstrual organism of women. The remedy favors an increased discharge when the menses are too scanty and painful, and regulates the menstrual function when irregular or too profuse.

This medicinal plant, Life Root, with others of equal value, are found in Zoa-Phora. Your druggist will supply you with this remedy, already prepared, compounded in just the right proportions, and put up in sealed, sterilized, dollar bottles. Ask him for Zoa-Phora—no further explanation will be needed.

Each package contains complete and explicit directions for using the medicine, also a copy of "Dr. Penzance's Advice to Women," a little book of great value, explaining about the various forms of womanly weakness and disease and the proper treatment for their cure.

THE POINT

To give your most serious consideration when about to entrust your soiled linens to a laundry for attention is the facilities it possesses for doing high quality work. When you select the Meeker Laundry as your headquarters for such work, you derive the highest point of satisfaction in the laundering of your linens.

Summer Time

This is the season when families enjoy to the fullest extent their own homes. There is the lawn, the garden, and the flowers, all of which are important features of the home.

R. A. SALISBURY
