Have You Tricky Eyes?

YOU may have "tricky" eyes and not know it. And the defect, whatever it is, may be causing you considerable inconvenience. In looking over the below illustrations, a FEW of these ocular "tricks" may be brought into view. We have, in our Mr. Innes, an expert graduate optician who is able to readily test your eyes, to see whether or not there are any "tricks" bothering you. His tests will cost you nothing.

A SINGULARITY IN OPTICS
RAPID ROTATION OF THE ABOVE DISC IS SAID TO AFFECT EVERY PAIR OF EYES SOMEWHAT DIFFERENTLY. THIS IS DUE TO DIFFERENCES OF FOCUS IN THE INDIVIDUAL EYE.

A TEST OF BINOCULAR VISION
ROTATION OF THIS DISC SHOULD IMPART A SPRINGLIKE EFFECT TO THE DESIGN. IF THE IMPRESSION BE UNMODIFIED BY ROTATION THERE TRICKS OF VISION MUST BE SOME ECCENTRIC.

A RAPID RECOGNITION

True worth will out. Mr. Innes, when first he arrived in Marshalltown, was of course unknown to you. It's DIFFERENT now. He has already fitted so many eyes (difficult cases too) that it is becoming more and more the custom to see "Innes" the moment any irregularity of the eyes is suspected. Why delay, when a complete, intelligent and conclusive test by a master will cost you nothing?

Deafness Cannot be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.
