Fat Men Can't Get Work. Employment agents say it is almost as hard for fat men to get work as for the gray-haired.

Employers of labor hold that a fat man is indolent. They declare that the hustler, the fast, nervous, energetic type of workers, is simply rather than fat, and they say that the sinewy chap does 20 per cent more work than the soft fat fellow.

Hence it is not uncommon for employment agents to advise fat patrons to diet and reduce their weight before beginning to canvass for a job.

CATTLE UNCHANGED

Demand Was Small Today For Offerings, Which Were Poor in Quality

STRONG TONE IN HOG MARKET

There Was Active Bidding by Eastern Buyers, But Packers Held Back, Waiting for a Decline, and Prices Advanced But Slightly—Small Demand From Any Source For Sheep.

Chicago, Nov. 1.—Cattle—There was not any material change in prices today. Arrivals were poor in quality, and there was small demand. Packers were the best purchasers of native stuff. There was fair inquiry for butcher cattle.

Salesmen have been extremely conservative in quoting the advance in the market this week, for they realize that many cattle are dammed up in the country ready to come at the first signal and that the market would be again thrown into a state of demoralization if a big run should appear.

As long as the money stringency is on packers will likely buy cautiously, and anything like an excess would surely bring about lower prices.

Lots of cattle are 25c higher than the recent low spot, but, even so, are not selling very well. This is only a temporary inflation, due to the sudden contraction in receipts, and does not signify that prices will hold up in the face of liberal offerings.

Hogs were strong. Eastern buyers and scalpers were active bidders, but packers did not take hold readily, apparently hoping for a decline, and prices advanced but little.

Packers have loosened up considerably. They have been cleaning up their shelves and getting in money, but make no secret of the fact that they are unalterably opposed to a higher level and that they will resort to strenuous measures to keep prices at or under the present level. Export business in provisions has improved and the outward movement is being stimulated by the packers, who want to turn their holdings into money and find the markets abroad offer a better opportunity for doing so than the home trade.

Sheep were dull, and steady, with but little demand from any source.

Supply has been cut somewhat this week but a raft of western stuff on the trashy order has been dumped onto the market and it has been distinctly a bad market. For old feeders ewes there have been bargain opportunities galore. On footless market it is an uncertain, catch-as-get-catch-can trade at an old-price-to-get-rid-of-the-stuff. Always at this season the range shoots in a lot of this stuff and the money stringency coupled with the high price of wool makes it hard to negotiate. It is a 1 1/2 @ 2 1/2 cent market on old ewes. Good feeding lambs are on a \$6.40 @ 6.60 market with \$6.50 the common price for good ones. Feeding wethers scarce at \$4.50 @ 4.75. Feedings yearlings are on a \$4.75 @ 5 basis.

Chicago Livestock. Chicago, Nov. 1. Cattle—Estimated receipts for today 6,000; steady to strong; natives, 3,600 @ 5.50; stockers and feeders, 2,400 @ 4.50.

Hogs—Estimated receipts for today 11,000; strong to 5c higher; light, 5.70 @ 6.25; heavy, 5.50 @ 6.00; mixed, 5.50 @ 6.00; rough, 5.40 @ 5.50; bulk of sales, 5.70 @ 5.90.

Sheep—Estimated receipts for today 6,000; steady; 2.50 @ 2.75; yearlings, 6.00 @ 6.75; lambs, 4.25 @ 6.35.

(The Day Before. (For Comparison.) Chicago, Oct. 31. Cattle—Estimated receipts for today 10,000; steady; natives, 3,500 @ 5.00; stockers and feeders, 6,500 @ 4.50.

Hogs—Estimated receipts for today 9,000; strong to 10c higher; light, 5.70 @ 6.25; mixed, 5.50 @ 6.00; heavy, 5.35 @ 6.25; rough, 5.35 @ 5.55; bulk of sales, 5.65 @ 5.85.

Sheep—Estimated receipts for today 12,000; steady to strong; 2.50 @ 2.55; yearlings, 6.00 @ 6.75; lambs, 4.25 @ 6.75.

Wall Street Urges Fish and Harriman to Bury the Hatchet, For Good of All

FIGHT MAY BE CARRIED ON

Participants May Desire to Continue Controversy—Wall Street Wakes Up to Importance of the Situation—Harahan Returns From Conference in New York.

Chicago, Nov. 1.—Attorneys for E. H. Harriman are preparing to enter appearance on Monday before Judge Farlin Q. Ball of the superior court, who issued the temporary injunction by means of which Stuyvesant Fish tied up 286,731 shares of Illinois Central stock controlled by Harriman.

Following this the attorneys will have twenty days in which to answer the bill introduced by Mr. Fish's lawyers, so it is doubtful whether the case can be disposed of before December 18, the date set for the adjourned meeting of stockholders.

Meanwhile big financial interests in New York are pressing both Fish and Harriman to agree to a settlement out of court. The issue raised by Fish, that it is against public policy for the Union Pacific to own and vote stock in a similar corporation, is recognized by lawyers as being a grave one.

It is argued that with the finances of the country in their present demoralized condition any court action affecting such vast interests is to be avoided if possible. So long as the fight was confined to the adherence of Fish and the supporters of Harriman the other men of Wall Street were willing to remain innocent bystanders. It now appears, however, that the results may be more far-reaching.

It is hardly probable that Fish will accept less than full control of the Illinois Central.

On the other hand, a compromise means a defeat for Harriman. It would be a blow to his prestige and it may be he will prefer to fight the case on its merits.

There has been a conference in New York all this week between the Harriman attorneys, at which Ralph M. Shaw has been present, representing the Chicago counsel, President J. T. Harahan, who also has been in New York, returned yesterday. The contemplated action of Monday will be formal and will not outline the Harriman defense.

A meeting is to be held in New York today at which the lines east of the Mississippi and north of the Ohio river will appoint the five members of the joint committee on uniform classification. The full committee will include the representatives from the western and the southern classification territories. Since the proposed rules form the basis for freight rates, the action of the committee will be of widespread interest to shippers.

Deaths at Creston. Creston, Nov. 1.—Word was received here yesterday announcing the death of George Cook at his home in Lincoln township.

James C. Welch, an old settler of this county, yesterday, at the home of his daughter, Mrs. Charlotte Marcus, he leaves a son and three daughters to mourn his death. Funeral services will be held Saturday.

Passes Anti-Spitting Ordinance. Special to Times-Republican. A resolution to pass a delayed meeting of the city council every member of that body was present with the exception of one, and the most important action to be taken during the evening was the passage of an anti-spitting ordinance.

The measure was introduced by Councilman Kime, and was supported by every member of the council present.

Hague Conference Not a Failure. (New York Tribune.) We are very far from conceding that the congress is or is to be a failure. It is a great thing to get practically all the nations of the world together in peaceful council. This is the first time in history that that has been done.

In the former congress at The Hague only two American nations participated. It is a great thing to have the once despised and rejected states of Latin America recognized as equal sovereignities, and also recognized—some of them—as the peers of any in the world in both intellect and money.

Some twenty years ago European statesmen and publicists were habitually speaking of the South American states as barbarous affairs, which would doubtless be "rushed" and annexed by European powers at some not distant time. Now European statesmen are confessing that they have something to learn in diplomacy and in constructive statesmanship from those very states. We think the whole attitude of Europe toward the American continents will be changed, and changed in an eminently desirable direction, because of this congress at The Hague.

Her Idea of a Setter. (Yonkers Statesman.) Mr. Flatbush—I have just bought a Gordon setter.

Mrs. Flatbush—Well, I hope to gracious it will set better than our other hens!

Society Event. Sarah Berks took Electric Bitters for headache, and can now meet her social engagements. 50 cents. McBride & Will Drug Co.

Proposed the Phonograph. An electrician of New York has a collection of prophecies about the phonograph. It is interesting to note that Emerson prophesied the phonograph in 1844, saying: "We make the new saint our portraits now; by-and-by we shall organize the echoes as we now organize the shadows."

Maury, in 1844, prophesied more clearly than Emerson, saying: "I have been in the proposed rules form. Instead of speaking thru a trumpet at a piece of paper. Instead of saying, 'I wrote you a letter last Monday' the phrase would have been, 'I spoke you a ream.'" Tom Hood prophesied in his "Comic Annual" for 1839:

"In this century of inventiva, when 'In this century of inventiva, when 'In this century of inventions, when a self-acting drawing paper has been discovered for copying invisible objects, who knows but that some future Daguerre or Herschell may find out some sort of Boswellish writing paper to repeat whatever it hears?"

STOP WOMAN AND CONSIDER. First, that almost every operation in our hospitals, performed upon women, becomes necessary because of neglect of such symptoms as Backache, Irregularities, Displacements, Pain in the Side, Dragging Sensations, Dizziness and Sleeplessness.

Second, that Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, has cured more cases of female ill than any other medicine known. It regulates, strengthens and restores women's health and is invaluable in preventing women for child-birth and during the period of Change of Life.

Third, the great volume of unsolicited and grateful testimonials on file at the Pinkham Laboratory at Lynn, Mass., many of which are available to time being published by special permission, give absolute evidence of the value of Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's advice.

Lydia E. Pinkham's Vegetable Compound. For more than 30 years has been curing Female Complaints, such as Dragging Sensations, Weak Back, Falling and Displacements, Inflammation and Ulceration, and Organic Diseases, and it dissolves and expels Tumors at an early stage.

Mrs. Pinkham's Standing Invitation to Women. Women suffering from any form of female weakness are invited to write Mrs. Pinkham, Lynn, Mass. for advice. She is the Mrs. Pinkham who has been advising sick women free of charge for more than twenty years, and before that she assisted her mother-in-law, Lydia E. Pinkham in advising. Thus she is especially well qualified to guide sick women back to health. Write today, don't wait until too late.
