"Cold Facts on Hot Air." We never realized how much science and skill was employed in building stoves and ranges until we got hold of a copy of the Cutler & Proctor Stove Co.'s book called "Cold Facts on Hot Air" the other day. The Cutler & Proctor people are stove and range experts and have figured out ways and means of getting a wonderful amount of heat out of a small amount of fuel in their Air-Blast Heaters, and they also build steel ranges of the most perfect construction, with the best covers ever designed. Both their Air-Blast Heaters and Steel Ranges, in all styles and sizes, are sold right here in this city under an absolute guarantee. A GOOD STORY. Told by a Former Coffee Slave. The relief which comes by leaving off coffee and drinking Postum Coffee, is so striking that people like to tell others who may be in the condition they got out of.

The use of Postum is on the increase in this country and the famous beverage made from the famous field grain has been the means of restoring to thousands of former coffee drinkers, good digestion, steady nerves and sound sleep.

About 18 months ago," writes a Kansas woman, "I was a most miserable person. I am 28 years old and all my life I have been subject to headache, which seemed to get worse with each attack so that about every week I would have a spell that laid me up two days.

"Whenever I would go out anywhere I'd come home with a spell and then would not eat anything—just drink coffee. I had nervous chills and my memory was getting very bad.

"My friends thought I would not live long, and I was little more than a skeleton. At last a friend advised me to quit coffee and eat Postum. It seemed silly to think coffee was the trouble but I am thankful I tried it out, for I am now in perfect health, have no headaches or dizzy spells, no more nervous chills and my nerves are strong and steady. My mind is clear and my memory all right, in fact I am like a different person.

"Constipation was one of my old troubles, I had to take something all the time. Now I am never bothered this way and everyone remarks how well I am looking. I am getting fleshy and am glad to tell others that Postum has done it all for me.

"A few times when out of Postum, I have returned to coffee and every time I'd go to bed with a raging headache, so that's proof that coffee was at the bottom of my trouble." Name given by Postum Co., Battle Creek, Mich. Read, "The Road to Wellville," in pkgs. "There's a Reason."
