

CURE RUPTURE IN ONE TREATMENT

NO KNIFE NO TRUSS NO PAIN

My DePew Method Cures Rupture in One Treatment and Without Detention From Business.

You undergo no Dangerous Surgical Operation. You wear no Truss or Appliance of any kind. You suffer no Pain. You are not kept away from your Business and your Rupture is Cured Forever and held as firmly as though you never had a Rupture in your life.

READ THESE OVERWHELMING PROOFS

The originals are on file at my office and can be seen at any time.

DO YOU KNOW

That twenty persons out of every hundred are afflicted with rupture and that you are one of the twenty?

Are you willing to stand aside and give way to nineteen out of every twenty you meet? If you have any pride in the attainment of a high degree of physical development you will not neglect your rupture. Ruptures do not "cure themselves." I want to help everyone who wants to help themselves, but I have no time for the merely curious. Now if ruptures could not be cured, it would be a cowardly and cruel act on my part to draw attention to its incalculable effects, but it is curable. Former patients of mine have passed all forms of physical examinations, and unless they told it, the examining surgeon did not even discover that they had been afflicted with a rupture. One of the features of rupture is that it is not always accompanied by acute pains and consequently some do not and will not allow themselves to believe that it amounts to anything.

Are you willing to go to a hospital and have a knife cut you open, and then carried to bed after being sewed, up and lie there for weeks, and you can come to my office for your rupture and the torturing truss and without suffering any pain? Are you willing to go through life wearing a torturing truss, when in a few moments as it were, you can be forever cured?

Plainfield, Ill. July 7, 1907.

Dear Doctor:—I received your kind letter some time ago, and I am ashamed to admit that you were long with my other work, so the delay.

My boy whom you treated is as well as the day he was born and there has been no return of it here. I thank you, Doctor, although he was treated three years ago. Any information which I can give you I will gladly do. I saw Henry Harder some time ago and he is all right. You remember he was first once treated from Plainfield nine years ago.

Well, Doctor, I will have to close with thanks from my good wife, Mr. son Willie says to send love to that good old Grandpa.

Yours in haste,
D. H. DE PEW.

Since the doctor wrote the above I have also cured his sister of a bad rupture.

Plainfield, Ill. Oct. 29, 1907.

HOURS 9 TO 5, SUNDAYS 9 TO 12

THE DE PEW METHOD

As I have originated and applied it, solves the problem for the business man, the merchant, the banker, the clerk, the working man, the man in the shop or on the farm. The man of affairs cannot afford to lose his time and the DePew Method has solved that problem for him. The man who holds a salaried position and who depends upon his daily efforts for his sustenance, cannot afford to be away from business very long and to him my methods are even more important than they are to the man who can afford to be sick, but whose business will not permit his absence from its management. Do not ask me to send you any treatment as I have no home cure schemes for selling worthless trusses or any C. O. D. propositions. I must have my patients under my personal care. While with me you are assured every benefit of my original discoveries. You may bring your family physician with you if you like as I court the fullest investigation of my methods.

After making a thorough examination of your case I will tell you whether your case is a curable one by my method or not. I cannot tell that until I have first made an examination. All ruptures are not alike. Some I can cure and others I cannot. It all depends upon the anatomical conditions as I find them. If I accept your case for treatment I do not ask you to pay me one dollar until you are satisfied that you are cured.

SELF PRIDE

alone should be enough to make every ruptured person seek a cure. The satisfaction of being able to look every man or woman in the eye, and know that the rupture is gone is worth more than can be valued in dollars to the one who has a rupture.

Granted, then, that the sufferer from rupture is himself entirely to blame—yes, is almost a criminal if he remains uncured—the point arises, why should he come to me for treatment? The answer is most simple—because I am experienced and best equipped to handle these cases. There is only one gauge of a medical man's standing, and that is his ability—HOW MANY CURES DOES HE MAKE?

I offer the accompanying testimonials as evidence of my ability:

I limit my practice to treating rupture only. For over twenty years I have specialized rupture and my success is due to the fact that I have mastered rupture and know that the methods or treatment originating and perfected by myself are correct. It is the result of my life's work.

All cases vary in their complications and severely, therefore the treatment must be a personal matter between the patient and the specialist.

Dr. DePew has cured patients who have followed every line of occupation involving the hardest kind of physical labor and subject to every possible strain that could be brought to bear upon the affected parts.

Cured patients are as enthusiastic over this method as he is himself, and it would be a difficult matter to convince one of them that there is a rupture that cannot be cured by this process.

Chicago, Ill. June 14th, 1907.

H. H. DE PEW, M. D.
Dear Sir:—Replying to your kind inquiry of the 11th inst. regarding the rupture of the 12th inst. is at hand and in reply I will say that, as far as I know, I am cured. The fact is I have not had any trouble and have almost forgotten that I was ever ruptured. That old truss is in one of my bureau drawers and about the only time I think of the trouble is when I happen to see it. Guess I will keep away after wearing one nearly all my life.

Met. Doctor Jennings this morning and told him that I had a letter from you. He said, "I wish the doctor would come down here. I have three or four cases ready for him."

Yours very truly,
E. D. STILES.

Bloomington, Ill. June 21, 1907.

H. H. DE PEW, M. D.
Dear Sir:—I am feeling fine and am glad I do not have to wear a truss any more. I was cured of my rupture on Dec. 12, 1905, in a single treatment, throwing my truss away after wearing one nearly all my life.

I feel indeed a great relief, and I fully appreciate your great work.

Yours truly,
LOUIS LARTZ,
640 W. JACKSON ST.

Chicago, June 13, 1907.

H. H. DE PEW, M. D.
Dear Doctor:—I am very glad to let you know that I am feeling fine, cured of my rupture August 12, 1905. I feel as if I was never ruptured and doing heavy work right along, and I thank you very much for your kindness.

Yours truly,
CHAS. ANNECELLI,
No. 75 Banker St.

Chicago, June 13, 1907.

H. H. DE PEW, M. D.

Chelmshe, Ill. June 17, 1907.

H. H. DE PEW, M. D.
Dear Doctor:—Excuse me for not having written you before this time. I am all O. K. never felt better in my life. I wish I could talk with you any time. I am glad to see you. I have been talking about your cure here in Chelmshe, and believe some of the boys will come in and see you. I never put my truss on since the day I took your treatment 20 months ago.

I tell you, doctor, I wouldn't take \$2,000 to be the way I was before I got treated. I am glad to see you and will see all the men that are ruptured and tell them about you, and I can't say too much for the good you have done me. If you have got some patients that are afraid of your treatment, please show them this letter and they can write me a letter and I will be glad to answer them.

HENRY CAPELIN,
Chelmshe, Ill.

Bloomington, Ill. Nov. 10, 1907.

DR. H. H. DE PEW, Des Moines, Ia.
Dear Friend:—You letter Nov. 7th duly received and very glad to hear from you and to learn that you have opened an office in Des Moines, Iowa, for the cure of rupture. I will say and hope that the public of Iowa will appreciate your coming as a general cure rupture. Allow me to express my thanks to you for the benefits received under your care. I had been a sufferer from rupture for eleven years and under your treatment I was cured and enjoy splendid health. I heartily recommend you to be the most skillful treatment of the age. With best wishes, remain,

Sincerely yours,
HENRY GEYMER,
614 Seminary Ave.

Chicago, Ill. June 11, 1907.

DR. H. H. DE PEW.
Dear Doctor:—Your kind inquiries as to my health come to hand today. I am in perfect health, never better in my life. I am glad to hear that you treated me March 6, 1906. I am in perfect order and am thoroughly cured. Everyone who knows me congratulates me on my recovery and considers you, Dear Doctor, a great benefactor of the human race.

Wishing you continued success in your profession, and that you may continue to be successful, I am, my Dear Doctor,
Your affectionate friend,
JAS. W. WHELAN,
No. 975 Washington Blvd.

Boone, Iowa, Nov. 6, 1907.

DR. H. H. DE PEW, Des Moines, Ia.
Dear Doctor:—I wish to say that the treatment you gave me for my rupture, which took thirty minutes, is entirely satisfactory. Have not seen my "rupture" since nor worn my truss. I would like to see you in your office to work and have not lost a minute on account of it. To think that you cured my rupture in thirty minutes is certainly marvelous. When I have done ten years, following an operation for appendicitis, in thirty minutes is certainly marvelous. I am, my Dear Doctor, your sincere friend,
WILL H. BOOTH,
1216 Green street.

Boone, Iowa, October 14, 1907.

DR. H. H. DE PEW, Des Moines, Iowa.
Dear Doctor:—I want to thank you for the good you have done me. Just think, I had a double rupture for many years and in less than an hour you cured me. I have not seen my rupture nor worn my truss one minute since the treatment and am as sound as a new dollar. I am 57 years of age and have taken a new lease of life. I cannot take you enough for what you have done for me. I remain,
Yours sincerely,
GAVIN CROWE,
1114 First West Street.

Chicago, Ill. July 8, 1907.

Dear Doctor:—I must answer your letter and let you know that I am feeling fine and I shall tell all my friends and everyone I meet that I was ruptured and now I feel as if I was never had a rupture. I cannot thank you enough. Yours truly,
W. J. ZURRIN,
932 North 40th Avenue.

Chicago, Ill. June 26, 1907.

DR. H. H. DE PEW.
Dear Doctor:—I owe to the afflicted to tell you that I was cured on June 29, 1906, of my rupture and have been in the best of health ever since. Thanking you, I am,
Your friend,
J. P. WAGNER,
Structural Iron Worker, C. P. Ave.

Chicago, June 20, 1907.

Dear Doctor:—I was ruptured for eight years, being annoyed and burdened with it, called on Dr. H. H. DePew, and in ten minutes the truss was thrown away and I was cured. I have not had any trouble since and I would not back where I was for all the money in the United States. Respectfully Yours,
GEO. P. MEYER.

Chicago, June 20, 1907.

GEO. P. MEYER.

Can you spend a few hours to better advantage than in coming to my office in Des Moines and having your rupture cured?

REGARDING COST OF TREATMENT

when health is in the balance, expense is hardly worthy of consideration.

I think a workman is worthy of his hire and the demand for a man's time must largely regulate the value of it. This is an age of specialists and men of superior judgment realize that good professional service is essential, and false economy may be your ruin. Dare you place the most complicated and valuable of all machines, your body, at the mercy of a man who offers cheapness as his chief incentive, thereby proving the value placed on his services by those whom he aims to treat? IT IS NOT HOW CHEAPLY YOU CAN BE TREATED, BUT HOW GOOD A TREATMENT YOU CAN SECURE.

One of the great dangers to those afflicted with a rupture is delay in securing proper treatment. If you desire to regain your self-control, self-confidence and self-respect, secure the removal of your rupture as the first step and there is no better time to start for my office than NOW.

YOU MUST SEEK YOUR OWN RELIEF.

You will never be cured by wearing trusses or by rubbing anything on your body or by sitting around home waiting for something to develop. Something surely will develop, but it will be only an aggravation of your case. You yourself must take the initiative. Are you anxious to get rid of your rupture? Will you stand shoulder to shoulder with me and master this enemy which is slowly sapping your system of those qualities which make a man a man?

IF YOU WANT ME TO HELP YOU
