Forest Defendants. (Brooklyn, N. Y., Eagle) The disaster invited by the wholesale denudation of our forest lands should be understood. Mr. Whipple gave interesting statistics. He showed that in this state there is annually consumed \$1,000,000 of fresh fish, \$30,000,000 of which is taken from the waters in the jurisdiction of the forestry commission. What Mr. Whipple would have you infer is that if the forests are denuded, this great fish supply will be diminished. Indeed, he says that the total water supply depends on the existence of our forests. And he asserts that the water supply utilized to its uttermost, is worth more to the people of the state of New York than the coal mines of Pennsylvania are to the people of that state.

NEW LOW WHEAT PRICE

Chief Weakening Influence in the Market Today Was a Decline at Liverpool

LOSS IN CORN REGAINED

The Opening Was Weak, But Later Offset by Good Commission House Buying, Based on Small Receipts and Unfavorable Weather — Oats Quiet and Easy—Provisions Steady

Chicago, Feb. 19.—Wheat opened active and weak, May making a new low price for the crop, when it opened at 90 3/4. The chief weakening influence was a decline of more than two cents at Liverpool, which was based upon a large offering from Argentina. May opened at 90 3/4, to 91, and sold at 91 3/4 @ 91 1/2. Minneapolis, Duluth and Chicago receipts were 194 cars.

The market became firm on good demand from shorts and cash interests. May closed 1/2 higher at 92 1/4 @ 92 3/4.

Corn opened weak, but later the loss was regained on good buying by commission houses, based upon small receipts and unfavorable weather for the crop movement. May opened at 60 1/4, and sold at 61. Receipts were 62 cars.

Prices became easy just before the close, May closing 1/4 lower at 60 3/4.

Oats were quiet and steady. May opened at 52 to 52 1/2, and sold at 52 1/2. Receipts were 92 cars.

Provisions. Provisions were steady. Chicago Grain. Chicago, Feb. 19.

Choice cows and heifers—2.75. Cullers—1.75 @ 2.25. Good cows and heifers—2.25 @ 2.50. Cows, 120 to 200 pounds—4.00. Calves, 200 to 300 pounds—5.00. Calves, over 300 pounds—2.50 @ 3.00.

The Chewers.

Tobacco ain't the only thing chewed," said the cigar store man. "I wish it was tobacco. But I'm writtin' up a story about chewers for the Sunday paper."

"In the far east they chew the betel. They wrap the nut in a bit of leaf and, for seasonin', they add a little lime. It's a tart-tastin' chew, not bad, and it has, like tobacco, a soothing effect."

"Coffee experts and dealers chew coffee beans, and tea dealers chew tea. Very exhilaratin', both chews, and ruinous to the nerves and digestion."

"Jockeys and trainers chew oats, hay, straw—anything horsey. Horse feed makes a cheap and harmless chew."

"In the spice trade the hands often get the habit of chewin' ginger, or cinnamon, or a clove; but spices is bad for the teeth."

"Seamstresses chew bits of thread, and athletes chew gum."

Ultimate. (Puck)

The Zeitgeist showed me man, toiling and mulling, early and late, never resting by day or by night. "Why does he labor thus unremittingly?" I asked.

"Because he needs the money," answered the Zeitgeist, briefly.

But as I watched him, behold, man wrought great things, the he had wished for in conscious purpose, and his achievements went to make up the sum of progress. I turned to the Zeitgeist, thinking I understood.

"And this," I exclaimed with emotion, "is the ultimate spring and principle of the race's forward movement?" "By no means," replied the Zeitgeist. "What then?" I eagerly demanded.

"Ho-jerked his finger toward the eternal feminine.

"She's it," both he. "She it is who makes the man need the money so desperately and interminably. She is the ultimate spring and principle of progress."

Practical Demonstration.

Teacher—"As to those old superstitions we have been talking about, they are all exploded. Nobody believes now, for instance, that it brings bad luck to walk under a ladder."

"I walked under a ladder once, and it fell on me."

MARKET TIED UP TODAY

Livestock Receipts Meagre, Owing to Delayed Trains Caused By Storm

CATTLE STEADY TO STRONG

Transactions Were Very Few in Number, However. — Prices Quotably Five to Ten Higher in the Hog Market—Stronger Undertone in Sheep Market Which Held About Steady.

Chicago, Feb. 19.—A severe snow storm practically stopped all operations in the live stock market today. Receipts were meagre early, owing to delayed trains. Cattle were steady to strong, but only a few transactions were consummated.

There is not call for a very liberal number of cattle later this week and sellers are urging shippers to give the market a respite from big marketing. The beef trade, while picking up a little, is still handicapped by the prevailing low prices for hogs, and with cowboys pretty well tied back in local and eastern quarters buyers are not showing any very hungry attitude for big supplies. There is only fair export demand and this is mainly for the good 1250 to 1350 lb steers, while choice call from the east just now is for the fat handy weight classes.

Hogs were quotably 50 to 100 higher. The two-day supply here in this week has been almost out in two, compared with the same time last week, and is even less than a year ago, and supply at the six markets for the two days is about 50,000 less than last week. This contraction does not indicate a deficiency in the west, but merely means country buyers were not able to operate on a 4c basis last week and consequently got few hogs. A 4c country market would undoubtedly start a new run.

Sheep held about steady, with a stronger undertone.

Small shipping demand for medium steers. Narrow demand for plain light stock steers. Active demand for good-quality heavy feeders. Some sold yesterday at \$1.80 and a strictly choice kind was quotable at \$2.

The "spread" in prices between light and heavy weights is due to warden. C. L. Bass, the big shipper from Marcus, was here with two cars of heavy cattle out of his own feed lot.

Backers there are very few cattle on feed in that section of the country; all marketable stock having been shipped in.

Thos. Carter of Fremont county, sold four cars of short-fed cattle weighing 1100 lbs. at \$5. Mr. Carter feels somewhat disappointed with present prices for all kinds of stock.

Henry Barthel, well-known feeder at Ida Grove, was on Monday's market with a car of cattle. His steers and heavy hogs brought \$5.25, and his cows \$4.20. He was well pleased with the market.

C. B. Jennings, Stratford, had cattle on Monday's market. George Jennings accompanied his father with the shipment. Mr. Jennings reports fat cattle scarce, quite a few hogs and corn selling at 45 @ 50 cents a bushel.

Ryan & Hinrichs, hog shippers from New Albion, were represented on the market with a shipment of mixed cattle in charge of Mr. Ryan. He says that the heavy movement of stock that vicinity this winter has practically cleaned up everything available for market.

Henry Peters & Son, the big feeders of Jackson county, sold five cars of good cattle on Monday's market. The greater part of which weighed near 1500 lbs and sold at \$5.60. These gentlemen have made a success of cattle feeding.

J. W. Frazer of Leon, was here with two loads of steers and heifers of his own feeding, weighing 1000 lbs, that sold for \$5.25; also one load of hogs, weighing 236 lbs, and sold for \$4.35.

Shannon, Astell & Co., live stock dealers of Fremont county, sold two cars of good 1250-lb cattle at \$5.25. Mr. Astell accompanied the shipment. George Hecker of Schleswig, had two cars of good cattle and hogs on Monday's market. Cattle sold at \$5.25; hogs at \$4.30.

JAPAN NEEDS MONEY

Finances in Bad Shape and Taxing of Necessities Causes People to Protest

EXPENSES EAT UP REVENUES

Much Money Flowing Into Public Treasury — Army, Navy and Other Departments Absorb All Receipts — Situation is Held to Be Desperate — Demands Must Be Met.

Seattle, Wash., Feb. 19.—The latest newspapers to arrive from Japan contain a full account of the Japanese budget for the fiscal years of 1908-09. This budget was recently passed by the Japanese parliament, after a period of active hostilities between the government and its opponents. And while the government scored a victory, the opposition newspapers of Yokohama and Tokio openly declare that its passage marks the passing of the present regime in power for many of the articles adopted are very unpopular with the mass of the people and it is proposed that when the full burden is felt by the people there will be a fierce antagonism.

(In the following account the figures given are in yen, which is practically equal to 50 cents in United States money.)

The budget provides for an ordinary revenue of 470,000,000 yen and an extraordinary revenue of 140,000,000, a total of 610,000,000 yen needed to run the Japanese government for the next year. The expenditures are to be 615,900,000, leaving a deficit of 4,900,000 yen, which is to be met by an increase in the consumption tax on sake, or Japanese beer, sugar and petroleum.

It is this increase on the necessities of the people that is slated for arousing the people. To the foreigners there is a decided feeling as stated in the English press of Japan, that when the government finds it necessary to tax the common necessities that the government is in a bad way and face to face with a situation that is said to be desperate.

Revenue Sources Strong.

A comparison of the ordinary revenue and the ordinary expense shows that the Japanese conduct their railroads, postoffices, and telegraph services in an efficient manner for the net earnings are greater than the operating expenses. Yet the rates are low, much lower, in fact, than in other countries. The forests are made to yield a revenue whether owned by the government or by private individuals. Every tree cut down pays a tax. The government likewise controls the production of salt, hundreds of mines of all kinds which under the head of government works pay hand-ome earnings.

The monopoly in the tobacco, match and other industries also pays well. Without these monopolies, the income of the government would be far less than its needs.

The increase in the ordinary expenditures over last year is about 15,000,000 yen, caused largely by the expense of maintaining railroad guards in Manchuria and the stationing of troops in Korea. This feature has been prominently brought forward by the opposition newspapers and indicates that the Japanese are not making any very great efforts to withdraw their troops from the Chinese territory.

Army and Navy Costly.

The extraordinary expenditures planned for next year include the following: Foreign department, 3,618,000; home department, 13,280,000; finance, 17,204,000; navy, 37,206,000; agriculture and commerce, 9,941,000; communications, 58,298,000.

The war department demands are necessitated by the maintenance of the troops in Korea and Manchuria, and the suppression of the rebellion in Formosa.

In the navy department there are payments to be made on warships now building and contracted for. In this department the Tokyo press supporting the government lay great stress upon the fact that the construction program outlined previously has been postponed, effecting a saving of 45,000,000 yen in the next six years. The activity of the government in promoting agriculture and commerce is seen in the extraordinary expense which is more than the ordinary has been postponed, effecting a saving of 45,000,000 yen in the next six years.

S.S.S. CURES RHEUMATISM

The aches and pains of Rheumatism are only symptoms which may be scattered or relieved with liniments, plasters, blisters, etc., or quieted with opiates. As soon, however, as the treatment is left off there is any exposure to dampness or cold, or an attack of indigestion, or other physical irregularity, the aggravating pains, swollen joints and tender places on the flesh return, and the sufferer finds that he has merely checked the symptoms, while the real cause remained in the blood. Rheumatism is due to a too acid condition of the blood, brought on by indigestion, chronic constipation, weak kidneys, and a general sluggish condition of the system. This acid circulating in the blood produces the pains, aches, and other disagreeable symptoms of Rheumatism. S. S. S., a purely vegetable remedy, cures Rheumatism by going down into the circulation and driving out the cause and making this life-stream pure, rich and healthy. When the blood has been cleansed of the irritating, pain-producing acids by S. S. S., the pains and aches cease, the muscles become soft and pliable, the health is built up, and Rheumatism completely and permanently cured. Book on Rheumatism and any medical advice free to all who write.
