

MEN ARE HELPLESS AS CHILDREN

When Taken Suddenly Ill—Here is a Common-Sense Safeguard. Big strong man is as helpless infant when he is suddenly ill.

The sturdiest chap in town usually loses his self control, and is utterly unable to regard his condition with the common sense that characterizes his every-day actions.

For example: He comes home tired, eats a heavy dinner and sits down to read and smoke away a quiet evening.

Suddenly he notices a weight on his stomach, then sharp pains around his heart, and a feeling of suffocation.

Thoughts of "heart disease" rush over him, and in his agony he fears the worst.

His trouble was acute indigestion, brought on by overloading his tired stomach.

A couple of Rexall Dyspepsia Tablets would have given him instant relief—would have saved him hours of suffering.

Carry a package of Rexall Dyspepsia Tablets in your vest pocket or keep them in your room. Take one after each heavy meal, and indigestion can never bother you.

Rexall Dyspepsia Tablets cure stomach troubles by supplying the one element, the absence of which in the digestive juices, causes indigestion and dyspepsia. They enable the stomach to digest all kinds of food and to quickly convert it into rich, red blood.

We know what Rexall Dyspepsia Tablets are and what they will do. We guarantee them to cure indigestion and dyspepsia. If they fail, we will refund your money.

Price, 25 cents per full package. Sold only at our stores or by mail. The McBride & Will Drug Company, corner Main and Center streets and 331 South Third avenue.

17-YEAR-OLD GIRL GONE

Beulah Cunningham Supposed to Have Eloped With Farmer Lad

STATE IS BEING SEARCHED

Girl From Erickson Being Sought by Anxious Mother — Police Believe Missing Youth Whose Name is Not Revealed is With Miss Cunningham — Other News of the State.

Special to Times-Republican.

Erickson, Feb. 10.—Where is blue-eyed Beulah Cunningham? She is supposed to have eloped with a farmer lad living near here, and Beulah's mother would like to know where her missing daughter is, and so has appealed to the officers in various parts of the state to try and find her.

Beulah is 17 years old but looks older. She has blue eyes and brown hair and is about 5 feet 2 inches in height. The police officers have asked for a full description of "the man in the case" before attempting to find the young lady for her mother, who is Mrs. Sarah Cunningham, of this place.

FINALLY DIES A SUICIDE.

Sheldon Carlyle, Ill One Week From Poison and Wounds, Succumbs.

Waterloo, Feb. 9.—Sheldon Carlyle of Laporte is a suicide. It was his wish that he should die by his own hand, and his desire has been carried out despite the efforts of physicians to prolong his life.

By severing the main arteries in both wrists with a razor and taking twenty grains of morphine Carlyle succeeded in ending his existence after a week of suffering.

Carlyle swallowed twenty grains of morphine last Tuesday afternoon and then fearing the drug would not accomplish his wish he opened blood veins in his wrists and nearly severed his hands. In this condition he was found at 4 o'clock by James Good at the Lyons residence in Laporte, where he had been making his home.

Waterloo and placed in the Presbyterian hospital, where he died shortly before noon Monday.

LOOMIS GETS GOOD JOB.

Cedar Rapids Attorney to Serve Chicago Great Western.

Cedar Rapids, Feb. 10.—Mr. Harry B. Loomis, for long time the business associate of J. C. Cook and now a member of the law firm of Cook, Crocker & Tourtellot, has been appointed assistant general attorney of the Great Western railroad, with offices at St. Paul and expects to leave within a week.

Mr. Loomis has been associated with Judge Cook for the past fourteen years. They began their law partnership at Webster City and a year later came to Marion to take up their work as counsel for the Chicago, Milwaukee & St. Paul road. They have continued their relations with that road ever since and for the past eleven years their offices have been in this city.

GRAND JURY ILLEGAL.

Therefore All Indictments Returned Last Year Are Thrown Out.

Special to Times-Republican.

Council Bluffs, Feb. 10.—Judge A. B. Thornell, in district court here, has declared that the names of grand jurors for the year 1928 were selected by officiating officers instead of being drawn in the usual way, and therefore last year's grand jury and all indictments returned by it were illegal.

A considerable number of indictments will thus be thrown out, but County Attorney Hess says he will re-submit them to the present grand jury. Evidence of the irregular manner of drawing jurors was conclusive.

ROLAND MEN BANQUET.

C. & N. W. Northern Iowa Division Superintendent Entertains.

Special to Times-Republican.

Eagle Grove, Feb. 10.—Superintendent E. E. Smith, of the Northern Iowa division of the Northwestern, gave a banquet to the employees here in the Masonic temple Monday night.

The banquet was preceded by a program of papers and discussions. The object was to stimulate the spirit of co-operation between officials and employees. The Northwestern road is prominent in this respect.

BEGS CLOTHES, HAS A PLENTY.

Man Arrested With Three Suits on His Person—Sent to Jail.

Davenport, Feb. 10.—Lloyd Marks is a provident man, at least that is what the police have figured out, so the magistrate, in order to help him along, gave Lloyd ten days in jail where he could get board and lodging free.

Lloyd spent the day on the hill yesterday, and wherever he went he asked

BUILDING BOOM IS ON

Many Residents of Traer and Vicinity Building New or Improving Property

SEASON OF GREAT PROSPERITY

Never Was One Known in That Vicinity When Farmers Planned to Make as Many Improvements as at the Present Time—List of Building Operations Planned.

Special to Times-Republican.

Traer, Feb. 10.—That the past year has been one of material prosperity to all, is being recognized by the numerous improvements, which are now under process of construction and which are being planned for early spring. Never has a season been known when the farmers were making as many improvements as they are at the present.

W. J. Johnston will erect an entirely new set of buildings, including barn, house, corn crib and granary, on his half section farm, four miles east of Traer. Work has already been commenced. Peter Flynn, south of town, is hauling cement blocks for his new residence, which will be built at a cost of between \$3,000 and \$4,000.

Wright, son of "Tanna Jim" Wilson, has a fine new \$4,000 residence, a mile and a half west of Traer, up and enclosed. August Untiedt is hauling rock for the foundation of his new residence, which is to be built on his farm south of town. G. Lyons, south of town, has just finished the completion of a fine new residence on his farm, strictly modern, likewise Joe Chalupnick, whose farm now boasts of a \$6,500 residence. He will erect a new house and make numerous other improvements. John Chalupnick is just finishing a \$600 two-story addition to his house. Mr. Chalmers, living east of town, is having a large hay and stock barn constructed, the same being 10x60. Frank Bragorier has just built a large addition to his barn, in Geneseo township. Lew Kessler, living south of town, is hauling lumber for the erection of a new barn on his farm, west of Traer, likewise W. McAnulty and C. L. Emerson. Fred Rambow, south of town, is hauling rock for the foundation of a new corn crib. A large new cattle barn is being erected on the William Weiler farm, north of town, and a corn barn on the Ferguson Galloway farm.

Two Waterloo Accidents.

Special to Times-Republican.

Waterloo, Feb. 10.—Ben W. Schuneman, proprietor of the Schuneman pharmacy, slipped on the ice in his dooryard and fell, both bones of the left leg being broken just below the knee.

While returning home from school, Ross Farrell was run over by a milk wagon, one hand being badly mashed and one hip seriously injured. It will probably be necessary to amputate one finger at least.

Grand Junction News Notes.

Special to Times-Republican.

Solon, Feb. 10.—A \$13,000 C. S. P. S. lodge room and opera house was dedicated here yesterday. Addresses were made by Attorney W. J. McDonald, of Iowa City, and Joseph Nickola.

Besides these, H. B. Griffin, H. C. Hubertson, Henry Schroder, Joseph Yochka, John Kubik, and Frank Mochal, are each erecting barns on their respective farms; and Charles Whalen, George Keiser, Henry Schroder, R. H. Wylie and Ben Lorenson are building corn cribs.

INDUSTRIES GROW RAPIDLY.

Many Factories at Muscatine Announce Extensive Improvements.

Special to Times-Republican.

Muscatine, Feb. 10.—Muscatine will enjoy a rapid growth industrially, during the coming year, as many factories announce extensive improvements. The Tri-City Button Company will move its Omaha branch to Muscatine, and will employ at least 200 men. The Vienna Company and the Automatic Button Company, as well as the Muscatine Power Boat Company will start on the erection of their factories here

TO OVERCOME LOODS

Biggest Drainage Project in West Now Under Way in Western Iowa

THREE COUNTIES INTERESTED

Woodbury-Harrison-Monona Ditch Designed to Increase Flow of Waters in Little Sioux River — Project in Reality Straightens Bed of Stream—Will Benefit Thousands of Acres.

Special to Times-Republican.

Onawa, Feb. 10.—The greatest drainage project in the middle west is now being developed in the Missouri river bottom in Iowa in the counties of Woodbury, Monona and Harrison. These counties comprise some of the richest land in the United States. This is a valley of about fifteen miles in width, bordered on one side by the Missouri river and on the other by an irregular line of bluffs above which stretch the rolling prairies so characteristic of Iowa.

The fall in this valley, however, is only about one foot to the mile. This district is drained by the Missouri river and its tributary, the Little Sioux river. The Little Sioux river drains an immense tract of land, over 400,000 acres, and in the spring when the hills in which its source is situated are deluged with rains, it rises with great rapidity and spreading out over the level bottom land for miles carries in its wake ruin and disaster. In years when the rains are especially heavy this land becomes a sea of water that ruins crops and hay lands and prevents any farming. In Woodbury county there are about 43,000 acres subject to this overflow, while a large portion of Monona county bottom land, amounting to about 90,000 acres in all, is also subject to this overflow. However, during a normal year this section is practically unaffected, and wonderful results and yields are obtained from it.

To relieve the flood situation was the problem that arose. It seemed that to drain the land with large ditches was the only solution, thus providing an outlet for all this accumulation of water. This was agreed by the present board of the citizens and farmers and in July, 1906, the two boards of supervisors of Monona and Harrison counties let the contract for the Monona-Harrison ditch. The work was delayed on account of litigation in court and not until April, 1907, was it resumed.

A few years ago what was known as the Woodbury-Monona ditch was constructed. This ditch commenced in Woodbury county and ran south along the line of Wolf creek into Monona county to a point connecting with the west fork of the Little Sioux river. This connection is three miles from the confluence of the west fork of the Little Sioux. At this connection the Monona-Harrison ditch was started. It runs in a S. in a south and southwesterly direction for over twenty-five miles and empties directly into the Missouri.

Besides the big ditch many lateral, cutoffs and small ditches were constructed. By placing cutoffs in the bends of the river the channel length of the stream is shortened. In one cutoff of 450 yards in length three and a half miles are saved in the old channel. The engineer of this project estimates that by straightening the river with cutoffs it will carry three times as much water as before. There are eleven cutoffs constructed at the present time. The upper part of the Monona-Harrison ditch is forty-five feet wide at the bottom and an average depth of eight to ten feet, but when it gets down in the middle of Monona county it widens out to a fifty-foot base, with a top seventy-five to eighty feet wide and from ten to eighteen feet in depth, below the surface of the land. Some of the river cutoffs are deeper than this.

Cut by Dredge Boats.

This is all being done by the use of the cutoffs, laterals and small ditches dredged with one large dipper or dredge. There were three of these large machines running the last year. They are the property of the Central Construction Company of Chicago, which had the contract for the upper section of the big ditch. On the lower section may be seen the largest inland dredge in the United States. It is owned by the Paris-Keel Construction Company of Boise, Idaho. This mammoth machine, which cost over \$60,000, digs with an endless chain of buckets, each carrying one-third of a yard of material excavated. This chain contains sixty-six buckets and makes a complete revolution in a minute, thus excavating twenty-two cubic yards per minute when running at full capacity. This is dumped into a hopper and is carried out by the sides by conveyors. Its rated capacity is 15,000 cubic yards in twenty-four hours. This machine is running now and the work is being rapidly pushed to completion. P. S. Holbrook, of Des Moines, is the present engineer in charge of construction.

Some Factory Figures.

Special to Times-Republican.

Davenport, Feb. 10.—At a meeting Monday of stockholders of the Button-Axle Company reports showed that orders were placed last year for \$3,000,000 worth of their product. A new foundry costing \$400,000 is to be built the coming season, in which 200 men will be employed. Last year was the most prosperous in the company's history.

MARION FIRM FAILS

M. C. Bunting & Son Go Into Voluntary Bankruptcy.

Special to Times-Republican.

Marion, Feb. 10.—The firm of M. E. Bunting & Son, of this place, have been made defendants in an involuntary proceeding in bankruptcy in the federal court. The plaintiffs in the case are all coal dealers and they allege in their petition that the firm of Bunting & Son has been dissolved, the assets of the firm being sold to pay the debts. They allege that the firm is wholly insolvent, and that its debts amount to \$1,000 and over.

Another petition in bankruptcy filed at Cedar Rapids is that of George Hamel of Cedar Rapids, who admits in his petition that he owes approximately \$3,017.18. He claims that he had only \$500 in resources all of which are exempt. His creditors fill a long slip of paper and the amounts are in most cases rather small. Mr. Hamel is a farmer near Tama, but the most of his creditors are residents of Minnesota.

CHICAGOAN ON COMMITTEE.

Special to Times-Republican.

Iowa City, Feb. 10.—Michael McKinley, Chicago, prominent alumnus of the State University of Iowa, has been elected by the local board in control of athletics, as the Iowa representative on the conference resident alumni committee. He succeeds Linn M. Butler, '02, the former Iowa City boy whose rapid strides in the American Radiator Company, have brought him the branch managership in Cincinnati, thus necessitating his resignation from the athletic committee.

LYNDE TO FIRST LOVE.

Former Congregational Pastor Returns to Newspaper Work.

Special to Times-Republican.

Des Moines, Feb. 10.—Charles E. Lynde, a well-known young man of this city, and last year pastor of the Congregational church at Manchester, has been made business manager of the Des Moines Register. Mr. Lynde is well known in Iowa collegiate circles, and is a graduate of Grinnell college, 1896. His wife, who was formerly Bertha Spencer, is also a Grinnell graduate, '97.

Traer Items.

Special to Times-Republican.

Traer, Feb. 10.—Edward Emerson was forced to submit to a second operation, and the last time, about three inches more of the bone of his leg was removed. Mr. Emerson was run over by the cars and had a leg crushed. It was amputated just above the knee, but failed to heal right.

Mr. and Mrs. Leslie, of Minnesota, are visiting numerous relatives and friends in Traer and its vicinity.

True to the prediction, a cold wave and blizzard struck Traer yesterday morning, Monday night and Tuesday. The wind was a steady rain, but in the morning it turned to sleet, and later to snow. A high wind is blowing, and the mercury has taken a decided drop.

The fourth number of the lecture course came last evening. It was a lecture given by Dr. Steiner, and was a rare treat.

Kanawha News.

Special to Times-Republican.

Kanawha, Feb. 10.—Quite a number of Woodmen went to Corwith Saturday night to attend a banquet given by the Corwith lodge. They report a splendid time. One of the teachers in our schools, made a business trip to Charles City, Friday, returning Sunday.

Ed Norby, of Olaf, came up Saturday night, returning Sunday. Ed is manager of the Farmers' store at Olaf. J. V. Sanford and son George went to Chicago Sunday with four cars of cattle.

G. H. Robinson, of Hampton, was in town Saturday night on business.

Married in Fifty Seconds.

Des Moines, Feb. 10.—Married before the ink was dry on their marriage license, was the case of Ed and Minnie Berry, of Collins, Iowa, and Minnie Westbrook, of Ira, Iowa, when Justice Fred T. Van Liew again broke the record for hurry-up marriages by splicing the couple in less than one minute at the court house, Berry and Westbrook had just received their license from the deputy clerk and asked the way to the nearest justice court, when Van Liew stepped into the clerk's office. Fifty-five seconds later the man had been made one and the east side magistrate had gained another entrant in his brides' beauty contest.

Iowa at Washington.

Washington, Feb. 10.—The president nominated the following Iowa postmasters: Harry C. Chaple, Independence; Thomas R. Shaw, Coin; William C. Chubb, Corning.

Rural carriers have been appointed as follows: Leonard A. Hamill, carrier, Estella E. Cook, substitute. Moses D. McNaughton of Burlington has been appointed guard at the United States penitentiary at Leavenworth, Kan.

Agree on Waterworks Deal.

Waterloo, Feb. 10.—Compromising on a price of \$350,000 both the Waterloo Water Company and the council have reached an agreement on the waterworks proposition and it will now be up to the voters to ratify the agreement made and purchase the plant. A few legal points remain to be settled, however.

Stop Women And Consider

This Fact—that in addressing Mrs. Pinkham you are confiding your private ills to a woman—a woman whose experience with women's diseases covers twenty-five years.

The present Mrs. Pinkham, daughter-in-law of Lydia E. Pinkham, was for years under her direction, and has ever since her decease continued to advise women.

Many women suffer in silence and drift along from bad to worse, knowing well that they ought to have immediate assistance, but a natural modesty causes them to shrink from exposing themselves to the questions and probable examinations of even their family physician. Such questioning and examination is unnecessary. Without cost you can consult a woman whose knowledge from actual experience is great.

MRS. PINKHAM'S STANDING INVITATION:

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham at Lynn, Mass. All letters are received, opened, read and answered by women. A woman can freely talk of her private illness to a woman; thus has been established this confidence between Mrs. Pinkham and the women of America which has never been broken. Never has she published a testimonial or used a letter without the written consent of the writer, and never has the company allowed these confidential letters to get out of their possession, as the hundreds of thousands of them in their files will attest.

Out of the vast volume of experience which Mrs. Pinkham has to draw from, it is more than possible that she has gained the very knowledge needed in your case. She asks nothing in return except your good will, and her advice has helped thousands. Surely any woman, rich or poor, should be glad to take advantage of this generous offer of assistance. Address Mrs. Pinkham, care of Lydia E. Pinkham Medicine Co., Lynn, Mass.

What Makes a Bank Strong?

In judging a bank always remember that it is CAPITAL, SURPLUS and UNDIVIDED PROFITS that give security to the depositor, because that money is what stands between you as a depositor and any possible shrinkage in the securities held by the bank.

Judged by this standard there are few banks as strong as the

Marshalltown State Bank

whose capital, surplus and profits and stockholders' liability of \$280,000, give assurance of absolute safety for its depositors.
