NATURE SPARES. The Stricken Rose From Grief. What a fortunate provision of nature it is, that deprives the rose of mental suffering; for how poignant would be its grief to discover, in the height of its blooming glory, that a canker fed at its heart, and that its beauty and fragrance were doomed forever. Nature always spares the suffering; she is a veritable store-house of pleasing rewards, for those who seek her aid. In the years gone by falling hair and grayness have cast a gloom over the lives of thousands of young women, but thanks to the investigations of scientists the true cause of hair destruction is now known to be a germ or parasite that burrows into the hair follicles. Newbro's Herpicide absolutely destroys this germ, thus permitting the hair to grow as nature intended. Sold by leading druggists. Send 10 cents in stamps for sample to The Herpicide Company, Detroit, Mich. Two sizes, 50 cents and \$1. B. A. Morgan, special agent.

MAY MEAN DISMISSALS. Rulings on Records in Local Court May Affect Appeals. There is a possibility that a ruling, correcting the records of two important cases in the district court, which was made Friday afternoon by Judge C. D. Bradshaw, may result in the dismissal of the appeals of two important cases in the supreme court, where they are now pending.

The cases involved are those of Frances S. Morgan vs. the city, and A. E. Cantonwine vs. Bosch Bros. The former is a paving case, and the latter is an action for the recovery of a large sum, alleged to have been obtained by intimidation and threats of prosecution.
