GRIPPLE ASKS \$15,000 WILLIAM B. WOOD AND CERRO GORDO COUNTY BOTH SUING BOONE COUNTY.

CHAIRMAN OF SUPERVISORS ALSO MADE DEFENDANT

Wood, the Man Whose Feet Were Frozen, Claims That If Boone County Officials Had Accorded Him Proper Treatment, Amputation Would Not Have Been Necessary.

Special to Times-Republican. Boone, April 23.—Papers in two suits, were filed with County Clerk Henning, Thursday

One of the suits is for \$15,000, and the other one for nearly \$1,000. The first suit is brought by William B. Wood, and calls for heavy damages from Boone county and J. W. Kealey, the later being chairman of the board of supervisors. Wood claims that in 1908 he came to this city in a critical condition, this being about Jan. 25. His feet were frozen, and his limbs were diseased. He applied for aid, and the local officials aided him in a small way, so the papers say. He claims that on the 27th of the same month, he was expelled from the county, by the supervisors and city officials and compelled to go when in a critical condition. He came to, when he reached Cerro Gordo county, and had to be cared for, so he says, for many months there. His feet were amputated, also one of his limbs, three separate operations. Three physicians and one surgeon were employed and the doctors' bills were very large. He lay in the Story hospital for several weeks, incurring big bills or rather incurring them for the officials of Cerro Gordo county.

In August of the same year, he was able to, in a measure, care for himself, so he says, but has been permanently injured, according to the papers filed. He lays all of the blame on Boone county and the officials, claiming that if they had given him the proper treatment while he was in their care here, he would never have suffered such deformities.

He asks for the sum of \$15,000, with interest at 6 per cent annually. The case is to be tried at the coming term of the district court here. The local people conversant with the situation here, scoff at the suit and have no fear of the outcome. They claim that the man was given the best of care and treatment, and are not at all pleased with the manner in which the officials of Cerro Gordo county have spread the news about the alleged brutality of the officials of this county.

The other suit is one brought by Cerro Gordo county against Boone county, for \$113.95, this amount being claimed by the county attorney up there as being due, for doctors' bills, hospital bills, etc., incurred in the care of William B. Wood. The suit states forth the story as told by Wood in his own suit.

FEW CRIMINAL CASES.

McTurk Will Contest Among Actions of Importance at Toledo.

Traer, April 23.—The district court sat in Toledo, this week with Judge Traer presiding, but the jury does not come until next Monday. The docket contains only five or six cases under the criminal head, none of which are of importance, and none of which will likely come to trial. The old civil cases number about 100, many of which have been on the docket for several terms. There are only about twenty new civil cases, including three divorce cases. The probate docket is unusually large, but consists largely of reports and petitions. Among the cases of special interest to Traer people, to be tried at this term, are the McTurk will contest suit which involves an estate of over \$75,000; the case of T. J. McGinnis against the C. R. I. & P. Railway Company, in which Mr. McGinnis sues for lost goods; the case of S. P. Moore, brought against the C. M. & St. P. Railway Company, for \$1,999 damages to a high bred racing horse, injured while being transported over the defendant's line of railway; the case of Cold Bros. against Mrs. E. Dain, of this city, on account rendered; and the divorce case of Laura Dunlavy against Clarence Dunlavy. The damage case brought by James R. Patterson vs. James W. Brown, wherein the plaintiff claims damages in the sum of several thousand dollars on account of his team becoming frightened at an automobile driven by Mr. Brown, and running away, has been continued on account of the serious illness of Mr. Brown, the latter now being in the state sanatorium for treatment for tuberculosis.

FIFTEEN YOUNG MEN ARRESTED.

Fines Paid by Gambling House Proprietor at Iowa City. Special to Times-Republican. Iowa City, April 23.—"Goat" Abbott's gambling house was raided Wednesday night by the police, and fifteen young men were arrested and fined \$25 each by Mayor Otto, yesterday morning. Abbott, the proprietor of the gaming house paid the fines. This is the first move of the new administration in carrying out the pledge to clean up the city. Pressure will be brought to bear by the college authorities to compel the enforcement of the law in regard to gambling, as this resort has been the ruin of several undergraduates in the university. Whether any students were caught in Wednesday night's raid, could not be learned, but it is known that the place has been frequented by university students before, this year.

IOWAN MURDERED.

Newton Woman Receives Notice of Death of Husband in Kentucky. Newton, April 23.—Mrs. E. A. Barnard received a telegram from Louisville, signed "detective department," conveying the information that her husband had been drugged, robbed and murdered there and that the body was on its way home. She knows no other details of the tragedy. The Barnards came here about two

months ago and left last week, spending a few days in Chicago, whence she returned here and he went on to Louisville. Barnard claims to have been a member of a detective agency at one time in Chicago, which is supposed to account for the indefinite signature to the telegram conveying news of his death. Arriving here Mrs. Barnard found her household goods attached by a local furniture house.

Pennsylvania Lawn Mowers

have a reputation for perfect work, easy cutting and long service, and for thirty years have been everywhere recognized as the standard by which all other Lawn Mowers are measured and they still stand unrivalled.

COST The only fair way to estimate cost of a lawn mower is to divide the purchase price by the number of years of service it will give. On this basis the PENNSYLVANIA will not cost more than one dollar per year, making it not only the best, but the cheapest mower manufactured. The revolving and stationary knives are crucible steel, double tempered, first in oil to toughen them and afterward in water to produce the cold chisel edge that a chance nail or bit of wire in the grass will not damage. The castings are made of a special tough iron and finished in machines that insure absolute accuracy and uniformity. Driven by a train of gears, insuring a smooth cut and long life, PENNSYLVANIA LAWN mowers are unequalled by any other mower on the market. Sold by
