THE COST OF CLOTHES.

Have You a Wrong Idea About the Tailor Made?

There seems to be a wrong idea among some people about the cost of tailor made clothes. If you've ever worn a tailor made suit you are pretty well aware that it is economy to have them made—that is if you've been fortunate in selection of your tailors. If you'd give us the chance we could show you that there is more satisfaction, more service, more style and better value our tailor for your money in buying our tailor made clothes. Suppose you step in and get our prices and our arguments. You'll be under no obligation to buy, and you'll never regret it if you do.
