

BRUTAL CONSPIRACY IS NOW REVEALED

PROOF OBTAINED THAT OLD SULTAN OF TURKEY CONSPIRED TO CAUSE MASSACRES.

WISHED TO DIVERT PUBLIC TO PREVENT INSURRECTION

Governors of Several Provinces Refused to Become Parties to the Plot—Twenty-Two Thousand Refugees Being Cared For in Adana—Three Hundred in Christian Hospitals

Aintab, Asiatic Turkey, May 15.—It was learned here today that a local governor received from Constantinople on the day following the outbreak of the anti-christian rioting at Adana, a message suggesting the killing of Armenians as a precaution against insurrection. The identity of the sender of the communication has not been disclosed, but he was closely connected with the official life of the administration then in power.

The governor communicated this idea to certain important persons of Aintab, who called a meeting of boys to consider it. The boys almost as a man refused to have anything to do with the proposed massacre, whereupon the governor let the matter drop.

More Evidence of Plot. Cesarea, May 15.—Vigorous action on the part of the civil government prevented the massacre of Armenians at Cesarea. When the governor received a telegram from Constantinople directing him to take sharp measures against Armenians and Syrians he tore the communication up. At the point of a revolver he forced the commander of the troops to disobey a similar message.

Sanderson, the Philadelphia contractor, who has been out on \$25,000 bail pending an appeal from his conviction for defrauding the state of Pennsylvania in building the \$13,000,000 capital building at Harrisburg, died suddenly of heart disease in his apartments here at Sherry's late yesterday afternoon. He has been living at Sherry's since his conviction on March 12, 1908, having come there with his bride. He left his apartments in a victoria for a drive to the city yesterday afternoon, but a short time after the driver to hurry back, as he felt ill. When he reached the hotel he went at once to his apartments and told a maid to call a doctor. He then went to his bedroom to lie down on a bed, but when a doctor arrived he found the contractor dead.

UP TO LOCAL AUTHORITIES.

New York Physician Gives His Opinion on Tuberculosis Problem. Washington, May 15.—The National Association for the Study and Prevention of Tuberculosis brought its meetings to a close today. Interest attached principally to a paper by Dr. Homer Folks, of New York, in which he dealt with the recent tuberculosis campaigns and their results. In the opinion of Folks, the control of tuberculosis is a problem for local authorities. He said that the most effective work which can be done by organizations, is to follow the example of the national association in forming local organizations of committees to take the responsibility of securing county and municipal control of the disease.

FIGHTING FOR CHILDREN.

Count de Castellane Continues Appeal Against Princess de Sagan. Paris, May 15.—The appeal of Count Bont de Castellane against the verdict giving the custody of his children to their mother, who married Prince de Sagan after her divorce from Castellane, has been continued. Maitre Bonnet, counsel for de Cas-

tellane, finished his address, his only new point being the reading of a letter to de Castellane from the Duke of Luynes offering to testify to the deplorable condition of the De Sagan household. The duke quoted a conversation he had with the princess, who said her maternal instincts were only slightly developed. Maitre Clemenceau spoke for the princess. The case will be continued today.

WOMAN SUED FOR \$150,000.

Plaintiff Alleges Affections of Her Chauffeur Husband Are Alienated. Los Angeles, May 15.—Jane Harris has filed suit for \$150,000 damages against Mrs. Grace Velle Harper, a former resident of Rock Island and Moline, Ill., and Davenport, Iowa, for the alleged alienation of the affections of Mrs. Harris' husband, Sidney Harper.

Stuart Harper, husband of the principal defendant, also is made a party to the suit as co-defendant. Harris is said in the bill of complaint to have been employed by the Harpers as chauffeur. Mrs. Harris alleges that it was in Rock Island in December, 1907, that Mrs. Harper obtained the supremacy over the affections of the chauffeur. A break occurred in the Harris family at that time, but a reconciliation was effected the following January, when Harris left Rock Island with his wife.

KELLY AND PAPKE MEET

Middleweight Pugilists in Fourth Battle for Supremacy—Fight Scheduled to Last Forty-five Rounds. San Francisco, May 15.—Hugo Kelly and Billy Papke are scheduled to fight forty-five rounds at Coloma at 2:30 (Pacific time), this afternoon, in the fourth attempt to settle the question of the superiority that has puzzled fight followers for years. In their previous battles the first was a draw, Papke was awarded a decision in the second, and the third was declared a draw.

With such thorough knowledge of each other's faults, both men have trained hard for today's struggle, and the vanquished can not urge a lack of preparation as an excuse for inability to go the long route. Both have reduced gradually to the stipulated 155 pounds, and apparently without loss of vitality or stamina.

Until last night odds were at even, but before midnight Papke was installed a 10 to 8 favorite, probably because he is considered the stronger, harder puncher, and better able to fight three hours, should the bout be prolonged to the advertised limit. Opposed to this view of the matter are the contentions of Kelly's backers, who cite his superior cleverness and all-round ring generalship as pegs upon which to hang hopes.

PETITION FOR CLEMENCY

One to Be Presented to Justice Garretson by Members of Jury Which Convicted Capt. Peter C. Hains, Jr., of Manslaughter. New York, May 15.—A petition for clemency, signed by the members of the jury which convicted Capt. Peter C. Hains, Jr., of manslaughter, in killing William E. Annis, may be presented to Justice Garretson Monday, when Hains comes before the court to be sentenced. In rendering a verdict last Tuesday, the jury made no recommendation to the court, but since that time counsel and relatives of Hains have visited the jurors. It was reported to the jurymen that a recommendation of mercy presented at the time of imposing the sentence might have the same effect as if given when the verdict was rendered, and that it would not be repugnant to the court.

PARIS STRIKE IS OVER

More Men Return to Work and Federation Refuses to Join in Movement Conceded to Be Lost. Paris, May 15.—The government today regards the strike of government employes as virtually ended. More strikers returned to work this morning. The general federation of labor, perceiving that the psychological moment has passed, and that the movement is doomed to failure, is no longer anxious to associate itself with the lost cause.

Metallurgical.

A man with a bronze complexion went up to a girl with a silvery voice and had the brass to attempt to kiss her. She resisted and, giving him a steely glance, called loudly for a copper. "One of the finest" quickly arrived on the scene and, with irony in his voice, made the man his prisoner. "Alas!" cried the unfortunate, "My happiness is ore!"

Woman's Weapons.

If a woman has a soft voice, if her dress is only the right kind of simplicity, if she knows how to look down and look up at the psychological moment, if she has only mastered the art of combining the wisdom of the serpent with the gentleness of the dove, she can outwit a dozen of the stereotyped brand of adventurers.—Lady's Pictorial, London.

The Age of Fairness.

Men will never be in an eminent degree virtuous and happy till each possesses that portion of distinction, and no more, to which he is entitled by his personal merits.—Godwin.

TAFT WILL NOT MIX IN FACTIONAL ROWS

PRESIDENT WRITES CAUSTIC LETTER TO GOVERNOR OF KANSAS ON ATTITUDE.

WITHHOLDS APPOINTMENT OF FACTIONAL CANDIDATE

Revokes Nomination of Governor's Friend to Be Assistant to Attorney General, and Tells Why He Did So—Will Not Be Used by Any Faction in Any State.

Washington, May 15.—President Taft has written a letter to Governor Stubbs, of Kansas, in which he declares with emphasis that he will not permit himself to be used by any political faction for the promotion of political fortunes, and at the same time revoking the appointment of Robert Stone, of Topeka, a personal friend of Stubbs, to be special assistant to the United States attorney general. The situation grows out of the Bristol-Long senatorial fight of last year, it is said. Taft is a personal friend of Long's, and kept out of that fight because he did not want to be placed in the position of having interfered in any factional fight in any state. Stubbs allied with Bristol.

Taft Honored by G. A. R. Washington, May 15.—President Taft, in the presence of a distinguished gathering of civil war veterans, was honored today as a member of the Associate South, and a member of the Grand Army of the Republic, of Mount Vernon, N. Y. The ceremonies were conducted by Gen. Horace Porter, of New York, in the east room of the White House. President Roosevelt was made a member of the associate society soon after he became president.

LIBERAL WITH HOMESTEADERS.

Secretary Ballinger Rules Against Contest in South Dakota. Washington, May 15.—In his decision on the land contest of Mitchell vs. Moon, involving a homestead claim in Lyman county, South Dakota, Secretary Ballinger has, it is said by those who have been following such decisions closely, reversed the policy of former Secretary Garfield as to the requirement that entrymen shall reside continuously on the land. In this case the entryman had been on the land for about fourteen months, during the last eight of which he had made some improvements and started cultivating, going on his claim probably three or four times a week. The contest was sustained by the local officers and the commissioners of the general land office on the ground of non-continuous residence. The secretary, however, reversed the decision of the lower officers and dismissed the contest. He stated that while the residence and cultivation probably would not be sufficient to permit of the acceptance of final proof, it was sufficient to show good faith on the part of the entryman and a contest against the entry could not be sustained on the ground of abandonment. Under the Garfield administration of the interior department, entrymen were required to reside continuously on their holdings, and the smallest deflection from that rule, it is said, was held to be sufficient ground for cancellation of the entry.

LONGWORTH DECLINES POST.

Prefers to Remain in Ohio Rather Than Berlin Embassy. Washington, May 15.—Notwithstanding strenuous diplomatic denials by Secretary of State Knox, it is understood that the state department has decided whether from suggestions higher up is not definitely known, has been for the last week or ten days urging Nicholas Longworth to accept the post of ambassador at Berlin. The object of the resolution is to determine whether the retailers are practicing extortion.

Congress Playing to Galleries.

Washington, May 15.—Senators Hale, Guggenheim and Scott, sitting in the cabinet room of the White House today to see President Taft, fell to discussing the date of probable adjournment of congress. They agreed that August 1 seemed now to be the earliest possible day that congress could agree upon a tariff bill. Scott reiterated that he believed congress could adjourn in two weeks if some one would close up the press gallery and clear the public galleries of spectators. He is sure the "swind jamming" would stop then and that congress could get down to actual voting on the bill. Consideration of the resolution was postponed until Monday. When the steel schedule was taken up, Aldrich withdrew the amendment of the committee on finance, increasing the duty on structural steel, and the house provision of three-tenths of one cent per pound was adopted.

He had been scalded by the explosion of a bottle of coffee he was heating on a stove, and had felt his way to the key to call for help. Physicians fear they can not save Frazel's eyesight.

A relief train was started for the scene. The wrecked train left Kansas City at 2:15 this morning. It was made up of an engine and three cars. A call was received for a relief train, but no passengers were given, and after that communication with Odessa was lost. Later it was learned that several passengers were injured, none fatally. The train carried but a few people. The dangerously hurt are: Mrs. May Cox and two daughters, of Stillwell, Okla. Mrs. Ann Donaldson, of Odessa, Mo., probably will die. Mrs. Alvin Stewart, of Odessa. Mrs. M. C. Moore, of Columbia, Mo. Myrtle McNeel, of Odessa. Mrs. Richard Powell, of Odessa. Miss Vera Hammond, of Odessa. The wreck happened two miles east of Odessa. The cause of the accident is not known. The track was torn up a distance of 400 feet. The train was made up of three cars and an engine. All the cars and the tender left the track. The rear car turned over two or three times. Most of those hurt were in this car. None of the passengers in the smoker were injured. The crew and passengers not hurt immediately set to work giving first aid to the injured. In response to telephone messages sent from nearby farm houses, all the physicians in Odessa were rushed to the scene, while a relief train was started out of Kansas City. All kinds of vehicles were pressed into service at Odessa. The injured were taken into that city and to the farm houses skirting the track. The injuries of many were confined to cuts and bruises.

Logical Inference.

Lord Lucas, who is so ably supporting Mr. Haldane in the territorial scheme, tells a good story of a teacher in a Midland town noted for his patriotic fervor. One day he was explaining to his class what he thought was a sad lack of proper spirit in the average English boy. "Now, Tommy," he said, "tell us what you would think if you saw a Union Jack waving proudly over the field of battle." "I should think," was the logical reply of Thomas, "that the wind was blowing." —From M. A. P.

Beneficent Bacon.

It is a well known fact that bacon cut thin, well cooked, brown, crisp and dry, can be taken regularly and for a long time by those who find all other fats intolerable. This makes it a valuable article for delicate children and others who are weak and fastidious.—Harper's Bazar.

Deed of Mean Man.

M. Colombes, a merchant of Paris had his revenge on a former sweetheart, a lady of Rouen, when he left her by his will a legacy of \$6,000 for having, some 20 years before, refused to marry him, "through which," states the will, "I was enabled to live independently and happily as a bachelor."

Industry and Frugality.

The way to wealth is as plain as the way to market. It depends chiefly on two words, industry and frugality! that is, waste neither time nor money, but make the best use of both. Without industry and frugality nothing will do, and with them, everything.—Franklin.

Mrs. Boyesen says he retired in a cheerful mood and there is no reason to believe his death was other than accidental.

FEARFUL DISASTER AVERTED.

Train Comes Near Going Into River, Near Randolph, Mo.—Twelve Hurt. Kansas City, May 15.—It is believed that none of the twelve persons injured will die, as the result of the wreck of a Wabash, Buffalo & Colorado limited passenger train, west-bound, near Randolph, Mo., last night. The train crashed into the steel trestle bridge spanning Rush river. The bridge piers had been undermined by the recent high waters. The fact that the train was proceeding at slow speed, was all that prevented a fearful disaster. Eight passengers were injured more or less seriously, and 100 others were shaken up.
