

# STRENGTH FOR THE STOMACH

### A Philadelphia Man Tells What the Tonic Treatment Did For Him.

The experience of sufferers from stomach trouble, who have tried the tonic treatment with Dr. Williams' Pink Pills, has been that their trouble has disappeared as soon as the blood was made pure. The numerous disorders of the stomach, as catarrh of the stomach, acid stomach, nervous dyspepsia, neuralgia of the stomach, gastritis, and lack of tone, have the same underlying cause—impure blood. In each case the stomach is weak. Dr. Williams' Pink Pills supply the stomach with the strength it needs by enriching and purifying the blood. Pure blood gives tone to the nerves, muscles, and glands of the stomach and makes it able to properly perform the work of digestion.

Mr. Thomas J. Young, of No. 1248 Callowhill street, Philadelphia, Pa., says:

"While working in a wholesale house in Liverpool, England, some years ago, I was afflicted with stomach trouble and suffered from constipation, bad breath and sick headaches. I was forced to be absent from business for a week at a time. Food nauseated me and would feel like a weight on my stomach. My complexion became sallow, I had palpitation of the heart upon the least exertion and was so nervous that the slamming of a door would cause me to tremble like a leaf. I could not sleep well but would wake up suddenly every often through the night. I had a great deal of headache and dizziness.

"I was under the care of a doctor for about two years but received only slight relief. I also tried many medicines and weakened myself by using purgatives. When I read about Dr. Williams' Pink Pills in the paper I determined to give them a trial. I carefully followed the directions with the result that I soon became my normal self and put on flesh rapidly. This happened five years ago and I have never had a recurrence of the trouble."

Our diet book is sent free to anyone upon postal card request. Dr. Williams' Pink Pills are sold by all druggists, or will be sent by mail, postpaid, on receipt of price, 50 cents per box; six boxes, \$2.50, by the Dr. Williams Medicine Co., Schenectady, N. Y.

# IOWA'S LAW LIBRARY

### HAS GROWN TO BE ONE OF MOST COMPLETE IN UNITED STATES.

### COLLECTING VALUABLE WORKS FROM FOREIGN COUNTRIES

### Lawyers From All Parts of Iowa Visit Des Moines to Consult Books—Arrangements Completed For Encampments of Four Guard Regiments—State House Gossip.

Des Moines, June 4.—Now that the Iowa state law library has grown to be one of the most complete in the United States with reference to modern laws considerable attention is being given by Curator Small to the accumulation of ancient laws of all countries which bear on important legal subjects, to show the development and evolution of law.

The library now contains modern laws up to date from practically all the countries of the globe, including countries in Africa, South America and Asia. Some of these, which were unobtainable in translations, are in the original language. Now laws of former countries and times are being accumulated and are of intense interest. One of the more recent volumes is an English translation of the India laws of 1719 which were based on the Vedas. Among other laws on the question of domestic relations it is commanded that a man shall not marry a woman with whom he has had a child or one exceptionally talkative. Rather it is commanded should a man marry a woman of perfect figure and with the grace of carriage of a young elephant.

Another interesting volume just added is the Roman-Dutch laws. The Iowa law library promises to develop into one of the very best in the country. The hundreds of volumes removed from the law library in the capitol to the new historical building the removal is now not noticeable. Shelves in the law library are practically filled. The books removed were of general information. The only books left in the capitol library besides law were those bearing on sociology and the time is not far distant when it is very likely these too will have to be transferred to make room for the law volumes.

The library is appreciated by the lawyers of the state as daily men come from all parts of Iowa to brief cases and look up decisions that bear upon points of law. Here they can find reports from all states and with the assistance of Mr. Small generally secure all they can hope to find bearing on the subject under discussion.

Adjutant General Logan has completed arrangements for the annual encampment of the four military regiments in Iowa this summer. Capt. Charles Lincoln, stationed at Fort Leavenworth, Kansas, with the regular army, a son of Gen. Rush Lincoln, of Ames, will be the only national army officer at the encampment. He will assist with the instruction, planning schemes of maneuvers and drills for the numerous regiments.

The Fifty-third regiment will have its encampment from July 21 to 30 at Independence. The Fifty-fourth regiment will be encamped from Aug. 23 to Sept. 1 at Iowa City. The fifty-fifth regiment will hold forth from Aug. 5 to 14 at Chariton and the Fifty-sixth regiment will be at West Okoboji from Aug. 18 to 27.

It was today rumored at the state house that plans are completed for relieving Superintendent Fitzgerald of his duties and the girls' industrial school at Mitchellville, but that no announcement of the fact will be made until his successor has been selected. This is to relieve the board of the many applicants that from appearances would be thrust upon them by women's clubs throughout the state.

The resignation of Superintendent Vance as head of the Vinton school for the blind does not become effective till Aug. 29. The announcement of his resignation was made but a few days ago the state board of control has been deluged with applications for the position.

The new financial committee of the state educational board has not as yet occupied room 23 at the state house. The whole board will soon hold a meeting here and there is some talk of being rooms in the city because of the room assigned the committee is not agreeable to the members.

### WOODBINE CONTRACT SET.

Normal School Building to be Enlarged—Harrison Co.'s Prosperity.

Logan, June 4.—The contract for the addition to the Woodbine normal school building was let to Mr. White, of Eldorado, and the plumbing to an Omaha firm, yesterday. The consideration was \$2,000.

According to the assessor's returns Harrison county has 437,974 acres of land, on which a valuation of \$16,140,000 has been placed; town lots, \$3,336,000, and personal property \$4,796,000. Last season many farms of the county produced for the owners from sixty to seventy bushels of corn per acre, for which they received from fifty to sixty-five cents per bushel. Farms of from 80 to 100 acres, near Logan, sold from \$125 to \$185 per acre.

Laander Clark College Notes. Special Times-Republican. Toledo, June 4.—J. W. Studebaker won first place in the scholarship oratorical contest, his subject being "The Triumph of Democracy." Ralph Johnson won second place with the subject, "Robert E. Lee." Two terms' tuition is granted to Mr. Studebaker and one term's tuition to Mr. Johnson.

The president's reception to the senior class and faculty Tuesday evening was a happy event. An elaborate 6 o'clock dinner was served, after which Dean Ward informally announced various musical and literary numbers. Misses Ruth Talbot, Ina Kippick, Mildred Scoble, Lillian Hepp and Edith Lee, and also Mr. J. E. Kneeland are among those who will be at the Lake Geneva conference this summer. The last baseball game of the season will be the annual commencement

game with the alumni. The game should be one of great interest as the alumni team will be composed of such men as Charles Kremer, Frank Mericle, Jim Willett, Dick Kepler, Will Smith, "Dad" Larsen, Carl Stiger and others who will have stars from time to time.

### SCHOOL GIRL ATTACKED.

Police of Des Moines Search City for Brute.

Des Moines, June 4.—Every patrolman and detective available on the Des Moines police department was pressed into service by Superintendent of Public Safety J. L. Hamery last night in an effort to apprehend the man who attempted a criminal assault upon 14-year-old Mildred Kelsey while she was on her way to school yesterday morning.

The attempted assault occurred between 9:30 and 10 o'clock yesterday morning near the Lloyd station on the street car line just north of Grand View park.

Mildred Kelsey, the 14-year-old daughter of William Kelsey, proprietor of the Senate saloon, 407 East Sixth street, left her home a half mile north of Grand View park shortly after 9 o'clock for the purpose of attending the closing exercises of her school. Passing the Lloyd station she noticed a man seated, apparently waiting for a car, continuing on her way down the tracks, her mind filled with the joyous anticipation of the events of the closing day of school and the coming vacation, she failed to observe that she had been followed until a rough grasp was laid on her arm and an ugly, leering face confronted her.

### The Montour News.

Special to Times-Republican.

Montour, June 4.—Mrs. W. A. Millard is visiting relatives at Ames.

The alumni banquet of the Montour high school will be given in Union hall Friday evening, June 11.

Mrs. E. G. Burkin was called to Rock Island Monday, on account of the death of her sister, Mrs. H. A. Bullock.

Mrs. E. F. Welton and Sophia Beska started Thursday morning for their new home in South Dakota.

Mrs. E. Taplin started Wednesday for a visit with friends at Dixon, Ill., and Monroe, Wis.

Miss Susie Wallace arrived Friday evening from Flagler, Colo., and will spend the summer with her mother, Mrs. Wallace.

E. Barker, who died Saturday, was born in the state of New York, in 1836. During his childhood his parents moved to Pennsylvania, where they remained one year, then moved to Illinois, and one year later to Toledo, Iowa. He married Mrs. Rollins, a widow, with two children. Funeral services were held from the Methodist church, Sunday at 2:30, conducted by Rev. J. H. Hayward and assisted by Rev. D. W. Blakely.

Memorial day services were held at the M. E. church, Sunday morning, and Rev. D. W. Blakely delivered the sermon.

Decoration day services were held at the Congregational church, Monday, at 2 o'clock. President Brooke, of Leander Clark College, was the speaker, and gave an excellent address. The school children gave six exercises and a song, which did address \$1,000 fine.

Mrs. A. R. Price started Thursday morning for an extended visit with friends at Johnston, Neb.

### Commencement at Story City.

Special to Times-Republican. Story City, June 4.—The commencement exercises were given at the opera hall Wednesday night before a packed house. Nine students from our high school had finished the course, and were given diplomas. Professor Athern gave the address on the subject, "Home, Church and School," dealing with the relation of one to the other. He held the best of attention, and his address has caused more talk than any other lecture delivered here for a long time.

The class play will be given on Friday evening at School closes this week.

Professor Cleverger goes to West Union to take charge of the schools there for next year. Prof. J. P. Street, of Thornton, will come here to superintend our schools.

The St. Petri church congregation will spend about \$7,000 this summer in remodeling and putting a basement with furnace, under the church. The work is well under way now.

Bert Vold, of the firm of Vold Bros., has begun active operations in rebuilding the store, which was burned some time ago. It will be a one story brick, 28x35 feet with basement. His brother, Julius Vold, has gone to Ambler, Minn., to engage in business.

### Despair of Hampton Woman's Life.

Special to Times-Republican. Hampton, June 4.—A girl babe was born to Dr. and Mrs. F. E. St. Clair last Friday, but the little one had not long for this world, and passed away Sunday. Since the birth of the infant, Mrs. St. Clair's condition has been serious and the physicians are doing all that is possible for her, her condition is such as to excite the gravest apprehensions of friends and relatives. This daughter was the first born of Mr. and Mrs. St. Clair.

Mr. and Mrs. P. L. Fowler, of Osceola, parents of the sick woman, are here, and Mrs. Fowler is prostrated by her daughter's condition.

# STORK CLEMINSON CLUE

### PHYSICIAN AND WIFE QUARRELED OVER PROSPECTIVE INCREASE IN FAMILY.

### POLICE BASE THEORIES ON DEATH OF WOMAN

### Murder By Husband, Accidental Poisoning or Self Destruction Because of Despair May Be Proved When Cleminson is Placed on Trial—Prisoner Maintains His Composure.

Chicago, June 4.—A quarrel between the physician and his wife over an expected addition to the family was responsible for the death of Mrs. Nora Jane Cleminson, in connection with which Dr. Haldane Cleminson, the former Dubuque man, and the woman's husband, is in custody on a murder charge.

After four days spent in one of the most exhaustive investigations ever conducted, in which the police department has been assisted by forces from the state's attorney's and the county coroner's offices, this is the opinion reached by officers directly in charge of the case. In the light of information obtained yesterday the question of qualitative and quantitative analyses of poisons in the dead woman's vital organs and theories as to antitoxins became less significant in the solution of the strange murder mystery.

Three Theories Are Advanced. About this dispute over the birth of the child center the three theories which the police believe must include all possible explanations of the death of Mrs. Cleminson. Either Dr. Cleminson, unable to persuade his wife to adopt plans he urged, willfully murdered her in her sleep, or, goaded to desperation by his insistence that she comply, she took poison herself, with a third theory that she took poison from the family medicine cabinet by mistake.

Even in the event of the truth of the last proposition relatives lay the death of the woman on her husband's feet, charging that during the last several months, at times when she was distressingly sick, he forced her to care for herself and seek her own medicines.

The police learned that only three weeks before her death Dr. Cleminson roughly ordered his wife to prepare to take a "hot quinine bath," that she refused and at once went to the physician's mother, imploring the latter to intercede in her behalf.

Collecting Evidence for Trial. The three theories in mind and realizing the circumstances and probabilities will play a large part in the trial of the accused physician, the police began to collect evidence in support of each.

Mrs. Isaac Cleminson and a woman with whom she lives on Morse avenue will be called to testify as to the number of occasions on which Cleminson demanded that his wife adopt certain measures with regard to the unborn child. Their testimony will be supported by relatives of the dead woman and detectives are searching for others in the community where the tragedy occurred to whom the woman may have told her troubles.

Neighbors of the Cleminson's scouted the suicide theory and the women who knew the wife, without exception, insisted that she had not killed herself.

Doctor's Mother Still Hopeful. Police have learned that a strong affection existed between the physician's wife and his aged mother. The elder woman visited the younger every day, always to do some part of the house-keeping or cooking. Mrs. Isaac Cleminson said:

"It will all turn out right in the end. This is between my son and his wife and it will be explained."

Supporting the theory of accidental death, the police learned that Mrs. Cleminson had been in the habit of going to the medicine cabinet and taking pain killing concoctions herself.

Coroner Hoffman, after a conference with Prof. Walter S. Haines, who has charge of the analysis of the woman's internal organs, said:

"The longest will be postponed two weeks to give time for the analysis." Cleminson preserved an attitude of taciturnity, refusing to discuss the charges against him. He read a mag-

azine most of the day, ate heartily of his meals, and smoked what cigarettes were given him. He will be subjected to examination by alienists today. In the hope that Mrs. Cleminson may have left some note explaining her suicide, if such her death was, the police will search the house again and question again those immediately associated with the discovery of the woman's death.

Efforts of the police to learn the identity of a woman who addressed a note signed "M. E. K." to John Morgan, brother of Mrs. Cleminson, were unsuccessful.

### HAS MONEY TO LEND.

Sum of \$4,000 Surplus, Evidence of Boone County's Prosperity. Special to Times-Republican. Boone, June 4.—Boone county has money to lend, and is looking for the man wanting it. There are \$4,000 waiting for a borrower. This money is the surplus on hand in the office of County Auditor Jones, and can be gotten by presenting the proper securities.

### Lightning Damage at Buckeye.

Buckeye, June 4.—Lightning played havoc in this locality, yesterday afternoon, by burning out a number of telegraph poles and striking a telegraph pole about two rods north of the depot, and followed the line into the depot, and burned the telegraphic wire out, so Mr. Taylor is unable to send or receive any communications. It also set the depot on fire, but they succeeded in extinguishing the flames before they did much damage.

### Negro Student Gets Prize.

Keokuk, June 4.—The thirty-eighth annual commencement of the Keokuk high school was held last night, forty-three young men and women receiving diplomas. The address was delivered by Hon. Theodore A. Graig, B. S. Strickler was awarded first honors and the Klilbourne prize of \$50 for scholarship, and the second Klilbourne prize of \$40 for the first time in the history of the high school was awarded to a colored girl, Mabel Bland.

### THE STEADY USE OF Hay's Hair Health

PREVENTS as well as RESTORES gray hairs to their natural color and beauty, and keeps the hair soft, glossy and in a healthy condition. MADE TO MAKE HEAT

That in a nutshell is the sole idea embodied in the construction of the GREAT WESTERN HOT WATER HEATER.

The coal capacity of its large fire pot makes easy the producing of much heat from little fuel.

The height of its heat combustion chamber insures the utilizing of every atom of heat the fuel will produce.

The fuel burned is entirely surrounded by water which guarantees the converting of all the fuel heat into water heat which is the heat that warms the home.

Estimates and information furnished on request.
