

# SCALP DISEASE PUZZLED DOCTORS

Began with a Little Pimple—Itched and Spread Till Whole Head was Raw—Hair Fell Out in Bunches—Suffered Three Years and Cure Seemed Impossible.

## IMMEDIATE RELIEF AND EASY CURE BY CUTICURA

"My disease started with a little pimple on my head. Then it began to itch. The more I would scratch, the worse it grew until it spread all over my head. So I went to the doctor. I continued his treatment for some time but, finding no results, I decided to change and try some other remedy. Little warts began to grow on my head. I would wash it every day but it grew as raw as a piece of beef and my hair commenced to fall out in bunches. So I changed doctors. This doctor prescribed a wash and a salve. My head at this time was so sore I could not touch it. After trying several doctors and many patent medicines, nothing would cure it and I lost much time from work. Then I decided to go to the hospital. Several doctors were called in to look at it, and after some consultation they said that I had seborrhea in its worst stage. They began to treat it but it improved very slowly. For over three years I was a sufferer from this disease. I thought all hopes of a permanent cure were impossible. A friend of mine, upon seeing the condition of my head—which was a mass of running corruption—asked me if I had tried the Cuticura Remedies. I told him nothing would do me any good; but being very anxious to be cured, I decided to try them. The first treatment with Cuticura Soap, Ointment and Pills brought immediate relief. My hair became alive and stopped falling out, all the scales left and now I am perfectly well and have a full head of hair. I can truthfully say that it was entirely due to the use of the Cuticura Remedies and I recommend them to all sufferers from any skin disease. George E. Jefferson, 1515 Wood St., Philadelphia, Pa., Jan. 24, 1909."

Any one needing work will save money by seeing our work and getting prices.

Dolorous. The man who can make a dollar go farthest can't always make it come quickest.—N. Y. Times.

# WILSON'S ENEMIES FAIL

EFFORTS OF REPRESENTATIVES OF INTERESTS DEFEATED IN FOOD AND DAIRY MEETING.

TACTICS RESORTED TO WOULD SHAME POLITICIANS

Opponents of Secretary of Agriculture Seek to Pack Convention With Uncredited Delegates in Order to Control Officers—Jefferson County's Exhibit at the State Fair.

Special to Times-Republican.

Des Moines, Sept. 1.—H. R. Wright, state food and dairy commissioner, is back from Denver and he gives a much more vivid account of the fight that took place at the convention of state and national food and dairy commissioners to uphold Secretary James Wilson on his ruling on preservatives in foods than was contained in any of the press dispatches that reached Iowa.

"We won out and upheld Secretary Wilson," said Mr. Wright today, "but we did more than that. We determined once and for all that questions concerning foods and preservatives should be determined by an impartial board of experts, just such a board as Secretary Wilson referred this benzoate of soda to. Why, they tried things out there at that convention in their plans to discredit Secretary Wilson that would have made the worst things ever reported to in Iowa politics look like innocent child play."

"The election of president of the association was one of the biggest and most important fights. They had all the officers up to the time of this convention. The election of president was set for 2 o'clock. That hour came and we couldn't get the president to call the meeting to order. Finally at 2:25 he called it to order and a telegram was read purporting to come from the governor of Mississippi authorizing some fellow to represent that state. That telegram showed that it was received at 2:25, just two minutes before the convention was called to order.

"Then they had it framed up that one of their men was to move that the Mississippi man be seated, another was to second it, and the third was to move the previous question. In the meantime their president refused to recognize any of our men and the thing was to be put thru like a steam roller attached to a buzz wagon. If they had attempted to carry it out there would have been a riot right there. The Mississippi man was not seated on any credential of that kind and the election that followed landed our man and he appoints all the committees.

"Iowa is probably more interested in this matter than any other state purely because Secretary Wilson comes from this state. So far as the fight over benzoate of soda in foods is concerned there never was anything in that that need caused the public a second thought."

Scottish Rite Masons will have another big gathering in Des Moines Nov. 15 to 19. The ceremonies of installing candidates thru all the degrees of Free Masonry from the fourth to the thirty-second will take place on the four days and will close with a banquet on the night of Friday, Nov. 19. The first degree in Free Masonry constitute the blue lodge. The rest constitutes the consistory or Scottish Rite degrees. The conferring of these degrees is usually marked by the gathering of a large number of prominent men of the state from various sections and most of the candidates are from outside of Des Moines.

As many visitors to the state fair have stopped to look at the exhibit of the Jefferson County Old Settlers' Association, just southeast of the stock pavilion, as have been interested in any feature of this year's fair. A part of the exhibit is a team of oxen and an ox cart a hundred years old. A calf team that is being broken to drive is also a part of the exhibit. The ox and calf teams are used as part of the night show in the stock pavilion. Implements and tools now never used and seldom seen and which not one man in ten thousand in Iowa could use, let alone identify, are on exhibit here, yet they are tools which were in common use fifty years ago when Iowa first became a state and was admitted to the union.

Among the exhibits are a pictol, three froes, three dig irons, three hoes, flails, spool reel, hop jack, corn plow, flax plow, flax brake, scythe, rifle. These are a few of the more uncommon and least known things in the exhibit. There are any amount of other articles such as candle snuffers, candle sticks, ox yokes, spinning wheels which are easily identified by even the younger generations.

### MADE NATIONAL INSTRUCTOR.

Sons of Veterans Honor President Patton of Memorial University.

Special to Times-Republican. Mason City, Sept. 1.—President Patton of the Memorial University has been selected as national patriotic instructor by the national encampment of the Sons of Veterans at Washington. This instructorship was established and the sum of \$2,000 per year appropriated for its maintenance. The position is elective but it is understood that it will always be held by the president of the local school. This annual appropriation is just that much of an aid to the finances of the school. The attitude of the recent national convention of the Sons of Veterans was very favorable toward the Memorial University, and much greater aid is expected from the order in future years.

### TEST SUIT ON BLEACHED FLOUR

Omaha Company to Bring Action in Federal Court as Result of Seizure. Sioux City, Sept. 1.—The Updyke Milling Company, of Omaha, on Sept. 28 will file in the United States court at Des Moines suit against the government to determine whether the bleaching of flour by millers is in violation of the pure food laws. The action will be in the nature of a test case, and upon the outcome depends practically the entire white flour

industry of the United States. The suit is one of the most important ever brought in this country, affecting not only domestic trade but an enormous export business.

It is said that the millers' organization is after the scalp of Dr. H. W. Wiley, head of the pure food branch of the department of agriculture, who was instrumental in placing the ban on bleached flour.

Some time ago the Updyke company shipped to Iowa points several thousand pounds of bleached flour. The shipments were confiscated by government inspectors on the ground that the manufacturers had not only violated the pure food laws but the dictum of the interstate commerce commission relating to the shipment of alleged adulterated foods.

### OFFICIALS PLAY BALL.

Crawford County Defeats Harrison County in Interesting Game.

Special to Times-Republican. Logan, Sept. 1.—Monday was a busy day in Logan. The court house was abandoned and the Harrison county officials went out and offered themselves up in sacrifice to the score of 19 to 8 in a ball game with the Crawford county officials. This makes the second defeat for Harrison county officials this season with Crawford county, but the boys will fight it out on this line if it takes all summer.

Extreme fine playing was exhibited by Auditor Atkins, Deputy Auditor Gains and County Superintendent Daniel E. Brainard all of which materially lessened the score in favor of the Crawford county officials.

### WORK TO BEGIN SOON.

Contract Awarded for Grading New Centerville-Mystic Line.

Centerville, Sept. 1.—The contract for the grading of the new Centerville-Mystic line was let by President F. S. Payne to Barton J. Sweat, of Boone, and work on the new line will be started within the next ten days. Mr. Sweat was also given the contract for clearing the right-of-way, amounting to a large number of acres. The Centerville Light & Traction Company will do all of the construction work except the grading itself. B. S. Staley, of this city, was given the contract for the bridge work.

### MAYOR'S WIFE DEAD.

Mrs. L. F. Knowles, Wife of Corning's Chief Executive, Passes Away.

Special to Times-Republican. Creston, Sept. 1.—On Tuesday, at her home in Corning, occurred the death of Mrs. L. F. Knowles, wife of Mayor Knowles of that city. She had been ill for some time and her death was not unexpected. Arrangements have been made for holding the funeral services in Corning Thursday morning, interment taking place there. Mrs. Knowles was formerly a resident of Creston.

### NO MERRY WHIRL NOW.

Merry-Go-Round, Secured for Labor Day, is Burned.

Boone, Sept. 1.—A fire of mysterious origin occurred during the night down on a Northwestern side track leading to the Johnson coal mine. On this track a car had been placed containing the Simon Kemmerer-Albert Adix merry-go-round, which was to be put up in Pichers park for Labor Day. The merry-go-round and all of its contents were completely destroyed and no one seems to know just how it happened.

### Best Treatment for a Burn.

If for no other reason, Chamberlain's Salve should be kept in every household on account of its great value in the treatment of burns. It allays the pain almost instantly, and unless the injury is a severe one, heals the parts without leaving a scar. This salve is also unequalled for chapped hands, sore nipples and diseases of the skin. Price, 25 cents. For sale by all druggists.

# HUNTING SEASON OPEN

NIMRODS MAY NOW SEEK PRAIRIE CHICKENS AND THE TOOTH. SOME SQUIRREL.

EVERY HUNTER MUST FIRST SECURE LICENSE TO SHOOT

Chicken Season Continues Until Dec. 1—Many Changes in Iowa Laws Since Last Season—Restrictions As to Selling and Shipping Game—Features of the Law.

Today the hunting season opens in Iowa and many of the hunters are early astir to get a shot at the chickens before they are all gone or frightened so they will be hard to approach, the supply in this section being said to be rather limited. For this reason for the past few days there has been a rush for licenses. The open season on squirrels also begins today and it is reported there are large numbers of the little fellows in the woods.

For the first time this year every resident of Iowa has to have a hunter's license before he can hunt. This was a new rule which was made a law by the last legislature. As the hunting laws have changed considerably a synopsis of the more important laws is given below.

**Synopsis of Game Laws.** You can hunt pinnated grouse, or prairie chickens between September 1st and December 1st; woodcock between the 10th day of July and the 1st day of January; ruffed grouse and pheasant, wild turkey or quail between the 1st day of November and December 1st; wild duck, goose or brant, mall, plover, sand piper, marsh or beach bird between September 1st and April 15th; gray or fox squirrel between the 1st day of September and January 1.

You can not shoot for traffic, or the public highway. You can not kill or attempt to kill any game bird from any water conveyance except as propelled by oar or paddle.

You can not hunt or shoot from any boat, canoe, contrivance or device on any of the waters of the state between sunset and sunrise. You can not kill any deer, elk or goat. You can not shoot to kill more than twenty-five birds, game or animals in any one day or have in possession more than twenty-five of said birds, game or animals except ducks of which you can have fifty.

You can not sell game, birds, or animals, dead or alive. You can not ship, take or carry, out of this state any of the birds, game, or animals named. You can ship within this state by making a proper affidavit, not to exceed one dozen game birds in any one day during the season, but not for sale or profit.

You can not use a swivel or any gun except such as is commonly shot from the shoulder. You can not hunt upon the enclosed or cultivated lands of any person without the owner, occupant or agent's permission. You can not kill any wild song birds or other birds except game birds at any time.

You can not take or kill any Mongolian, ring-neck, English or Chinese pheasants until October 1, 1915.

### SUES ROAD FOR \$50,000.

Former Northwestern Employe Asks Big Damages for Injuries.

St. Dodge, Sept. 1.—E. H. Kinney, formerly in the employ of the Chicago & Northwestern Railroad Company, has filed action in the district court for \$50,000 damages as the result of injuries he received in the performance of his duties.

The petition of the plaintiff alleges that while in the employ of the defendant company as a conductor, on April 9, 1907, he was placed in charge of a work train and ordered to proceed to near Missouri Valley where repairs were to be made on a bridge. Arriving at Missouri Valley the derrick was fastened to the bridge and an attempt was made to raise the same, but the apparatus not being properly adjusted it toppled over and the plaintiff was severely injured, being mashed, and having bones broken and muscles injured. The plaintiff further states that prior to the accident he was a strong man capable of doing any kind of work and was earning on an average \$175 a month, but as a result of his injuries he is incapable of performing any kind of work at the present time. He alleges negligence on the part of the employes of the railroad company and asks damages in the sum of \$50,000.

### Vinton News.

Special to Times-Republican. Vinton, Sept. 1.—Quite a number of people went to Garrison yesterday to attend the funeral of Mrs. Dr. Carle which was held in the Methodist church of that place. It will be remembered that Mrs. Carle was badly burned Saturday while pouring oil in the stove to start the fire, from the effects of which she died Sunday morning. Mrs. Carle was Miss Maud Dick, prior to her marriage, and was formerly a teacher in our public schools. She had a large circle of friends here, especially among the young people.

The funeral services of Mrs. Matthew Brown were held yesterday afternoon at the residence of her daughter, Mrs. Niels Dehn. Mrs. Brown was past 80 years of age and was one of the earlier settlers of Vinton and Benton county. Her husband was mayor of Vinton for a number of years.

Both our canning factories are running over time. They are not doing their full capacity of work for the reason that help is short. Arrangements have been made to have a large part of the corn grown around Waverly shipped here for canning on account of the Waverly factory having been burned.

The College for the Blind opened today with a good attendance. Professor Eaton, the new superintendent, is at the helm and the prospects are flattering for a prosperous year. The students have not all arrived, but enough are here to indicate a good attendance.

Mr. and Mrs. C. O. Harrington left today for Milwaukee for the purpose of attending the wedding of their son Clinton Oakley who will be married to Miss Anna Lowry of that city. The announcement is made that Miss Della Dukes and Royal J. Smalley are to be married this evening at independence where the bride's father as superintendent of schools. Mr. Dukes is well known in Vinton, having been based on a farm immediately south of town. Miss Dukes taught one year in our public schools. Mr. Smalley's home is in La Porte.

### Arm Broken by Beam.

Special to Times-Republican. Mason City, Sept. 1.—David McAuley of Waterloo, foreman for the Advance Construction Company of that city, which is building a new bridge here, was injured yesterday when a heavy beam fell and struck him on the head, shoulder and arm. The arm was fractured.

Disgraceful Conduct of liver and bowels, in refusing to act, is quickly remedied with Dr. King's New Life Pills. 25 cents. McBride & Will Drug Co.
