 One of the most valuable qualities of Mother's Friend is that it safe-guards the future health of the mother. It is a liniment to be applied externally to the body, the use of which lubricates the muscles and tendons, softens the glands and ducts, prevents lumps forming in the breasts, and relieves the pain, nervousness, nausea, and other troubles from which so many expectant mothers suffer. When Mother's Friend is used regularly it fits and prepares the system for an easy and natural consummation of the term. Women who massage with this great liniment are always saved much suffering when baby comes, and recover more quickly, and without ill effects. Mother's Friend is sold at drug stores. THE OLD CABINET MAKER SAYS:
THAT it is a shame to let the backs of such pretty pieces of furniture go up against the wall, for the backs of these pieces show their splendid construction. However, it is not the backs, but the splendid design of the dressers in our stock, which we wish to talk of—their beautiful design and the excellent material of which they are made. Most stores would call it a "Sale," but with us low prices are perpetual, for we buy right and our prices represent the lowest margin of profit on which we can conduct our business. They are all marked in plain figures, for you know we are one-priced. Rich and poor alike buy in our store, and you also have the satisfaction of knowing that the price at which you bought is the lowest at which we or anyone else could possibly sell you.
