

SLIGHT WHEAT RALLY

LARGE ARRIVALS AND CONTINUED FOREIGN WEAKNESS. CAUSED WEAK OPENING.

FAIRLY GOOD DEMAND IN PIT STAYED DECLINE

Corn Started Lower, But Larger Arrivals and Expected Increase in Receipts Gave Firmness—Oats Opened Easier But Rallied on Improved Buying—Provisions Down.

Chicago, Feb. 3.—Wheat rallied slightly in the first hour today, after a weak opening. Large arrivals and a repetition of cables telling of foreign weakness were bearish factors. A fairly good demand in the pit stayed the decline. May advanced from \$1.09 3/4 to \$1.10 1/4, receipts in Chicago, Minneapolis and Duluth were 521 cars.

Wheat closed firm, although May was 1/4 lower than yesterday, at \$1.10 1/4. Corn started at 1/4 lower, under the influence of comparatively large arrivals and the expectation of increased future receipts.

Oats. Oats opened easier but developed some firmness on improved buying. May opened at 48 1/2 to 49 1/2. Receipts were 210 cars.

Provisions. Provisions opened 1/4 to 20 lower, pork showing the greatest slump. In the first hour some of the decline was recovered.

BEARS HOLD SWAY

TRANSPORTATION DELAYS HELD BACK RECEIPTS FOR ALL-DAY MARKET.

CATTLE HAMMERED DOWN ON SELLERS' CONCESSIONS

Action of Packers Indicated Decline of 5 to 10 in Hogs, After Opening Steady to 5 Lower—Only Strength Shown Was in Sheep, Prime Lambs at \$8.80.

Chicago, Feb. 3.—Delays in transportation held back the receipts of live stock till such a late hour, that it was certain there would be an all day market.

The feeling of buyers, especially in the cattle market, was bearish. After the sharp advance in prices yesterday, on the lightest Wednesday run seen in many years, sellers were willing to make some concessions, and on the basis of these concessions the steer market was 10 cents lower than the best time of yesterday.

The demand, both locally and from eastern quarters, has indicated that "beef boycotting" has not had any serious effect on the consumptive channels.

In three days this week the receipts have been only 56,100, against 53,021 a week ago and 43,281 a year ago. Feeders have resented last week's low prices by cutting down shipments all around, although the inability of the railroads to land cars in some sections has been the reason in part for the decreased supplies.

This week the fact has been plainly demonstrated that the feeders hold the situation well under control, in that they needed to effect a reaction has been furnished.

Hogs. Hogs opened steady to 5 cents lower, but the action of the packers indicated a decline of 5 to 10 cents before the close.

The half-week supply here is a little heavier than last week, but nearly 50,000 less than a year ago. The five principal western markets had about half as many hogs a year ago and an even shorter supply than last week.

Packers are credited with buying lard and ribs freely through brokers. The cash trade in lard is quiet, and most of the provision men are now convinced that the shortage in hogs is an actual reality and that the legitimate situation will more than overbalance the effect of the anti-meat agitation.

Sheep. Strength was shown in the sheep market alone, prime lambs selling at \$8.85.

Account of sharp, shooting pains thru my back and sides, I saw Doan's Kidney Pills highly recommended and finally procured a supply at the McBride & Will Drug Company.
