THE KISSEL KAR

Eighteen Different Models Touring Cars, Roadsters, Coupes, Limousines, Baby Tonneaus, Race Types—4 and 6 Cylinder—30, 50, 60 Horse Power.

\$1,500.00 to \$4,200.00

Timken Bearings Throughout

The bearings of an automobile are what jewels are to a watch, and the fact that Timken bearings are used in 78% of the cars selling upward of \$3,000 is evidence that they are best.

The Kissel Kar is a Timken bearing car being equipped with these bearings in all the wheels in the drive shaft and differential and not only does it possess these features which we all know to be the best, but we guarantee to show better specifications on the Kissel \$1,500.00 car than can be found on any automobile in the world listing for \$2,000.00 or less.

Kissel quality is obtainable in other cars, but only at a much larger price. Cars equaling the Kissel cost much more. Kars at the Kissel price are not up to the Kissel quality, therefore, the Kissel Kar is the one automobile worth the money asked for it.

Weak rear axles, transmissions and differentials is the cause of nearly all automobile upkeep expense and in buying it is well to look to these vital parts.

The Kissel 30 horse power Car, weighing 2200 pounds is equipped with a rear axle built for a 4,000 pound car. The differential is guaranteed to withstand a strain of 65 horse power and it is reasonable to expect an axle that will stand up under 4,000 pounds to stand up under 2,200 pounds and a differential that will stand a strain of 65 horse power will certainly stand a strain of 30 horse power.

The transmission and clutch are guaranteed to stand a strain of 45 horse power, therefore, the danger of rear axle, differential, transmission and clutch trouble is absolutely eliminated.

In the Kissel we have such stand up qualities as these, combined with the exclusiveness and refinement obtainable only in high grade machines.

The Kissel Kar has all the desired appearance and all the luxurious appointment to make it the car you want. COME AND SEE IT.

See the Kissel rear axle on exhibition at our garage. It is the highest priced axle on the American market and is worth looking at.
