KERNELS OF COFFEE

Are responsible for the steady hand and clear brain of many "Captains of Industry." In the rush of the twentieth century business, every one needs a stimulant. A cup of Good Coffee is the best possible starter for the long hours of the day.

Brain workers require a stimulant and there is nothing that can equal a cup of good coffee to help the tired brain.

No flavor appeals to the palate like Coffee.

No aroma stimulates the appetite and delights like Coffee.

No beverage tones up the whole system and brightens the intellect like Coffee.

Your brain and body demands good Coffee.

You want to taste and smell good Coffee.

SOBER TREATMENT.
[Dubuque Telegraph-Herald.]
Iowa was first among all the states in the union to establish a home and prescribe treatment for dipomanics. The legislature recognized in inebriety a disease that may be cured, and instead of dealing with the unfortunates as offenders against the criminal laws, proceeded from the premise that the average drunkard, helped to reform, will become a useful citizen. The results attending the creation of a dipomanics' home are not what the most sanguine said they would be, neither do they bear out the critics' dire prophecies. A great deal of good has been accomplished. Some men

have been cured of their craving for drink. Others, returned home from the institution have gone back to their old haunts and their old habits. But this fact remains, that the drink-besotted man has been given an opportunity to recover mastery of himself. He has been treated as one diseased, not as a social outcast deserving only the censure, and not the sympathy and support of society.

Possibly the fault is with the Iowa system that larger benefits have not attended the creation of the dipomanics' home. In New York they have approached solution of the problem in a different manner. Senator Grady has there introduced a bill, having the endorsement of the State Charities' Aid Association, which provides for a board of inebriety, a hospital and industrial colony for inebriates, and a regular system of commitments and paroles. The law differentiates between cases calling for treatment in isolation, from cases in which criminal tendencies accompany excessive indulgence in drink.

That the Iowa institution does not represent additional expense to the taxpayers probably is true. The practice of detaining a steady line of "drunks" thru the police court, with fees for the police justice, the constable and the jailer is not so extensive in Iowa now as it was before the adoption of the law, at least not in those cities where habitual drunkards are hustled off to the state institution.

Hear Slezak

sing "Celeste Aida" in the
Edison Phonograph

The New York Tribune says: "Mr. Slezak dominated every scene, and his clarion voice rang out superbly in the climaxes. He sang the Celeste Aida with effectiveness, and the Nile scene with fire and passion, yet always with regard for phrase."
The New York American says: "It is but a trifling with words, of course, to say that he was the greatest Rhadames that ever appeared on the American Stage. The house was crowded and the standees out in force; yet it was Slezak, not Casuso, who sang the principal tenor role."

These comments represent the consensus of opinion of all who heard Slezak at the Metropolitan in the role of Rhadames. Could you ask for better evidence of the fact that Slezak is the greatest lyric tenor since the days of Tamagno? He sings the "Celeste Aida" and the great arias from Verdi's "Otello" exclusively for the Edison Phonograph. The Slezak Records are Edison Grand Opera Amberols—playing longer than any other Records made.

The AMBEROLA, the newest and highest type of Edison Phonograph

combines the rich, tonal beauty of the Edison Phonograph with a cabinet that is a masterpiece of craftsmanship. It is charmingly designed and finished and comes in either Mahogany or Oak to harmonize with surroundings in any home. It plays both Standard and Amberol Records. It has two horns for holding 100 Records. The price is \$200. Other types of Edison Phonographs are also available. See and hear the Amberola at your dealer's—and be sure to hear Slezak sing "Celeste Aida."
Edison Grand Opera Records..... 75c and \$1.00
Edison Standard Records..... 40c
Edison Amberol Records (play twice as long) 80c
