

SPICUOUS IN A BALLROOM.

As of Dandruff on the Collar and... this is the thing you quite frequently see in the ball-room—a man's black coat literally covered with dandruff.

It must be annoying to the wearer, and certainly not a pleasant thing to observe. But dandruff can be eradicated. It is a germ disease that will some day cause baldness.

Newbro's Herpicide kills the hair-destroying germ, and stimulates the hair to a rich, abundant growth; it does more—keeps the hair soft and plant.

Furthermore, Herpicide is a most pleasant toilet accessory; of pleasing odor, and cooling to the scalp. Sold by leading druggists. Send 10 cents in stamps for sample to The Herpicide Company, Detroit, Mich. One dollar bottles guaranteed. B. A. Morgan, special agent.

ONCE LIVED HERE.

Rock Island Engineer Killed in Wreck, Began Railroad on Central.

R. S. Robinson, the Rock Island engineer who died in St. Thomas hospital early Monday afternoon, his being the second death there, formerly worked out of this city on the Iowa Central a number of years ago. He was a native of Illinois and 52 years of age, and came to Iowa when a mere boy and had lived in the state ever since. His railroad experience extended over a period of twenty-five years, beginning as a fireman on the Iowa Central running out of this city, where he then made his home. Later on he accepted a position as engineer with the old B. & N., and remaining in its service until it became the Rock Island and afterward continuing as engineer. He was one of the older men in the service and very popular.

Mr. Robinson lost his wife last August and the only surviving member of the family is a daughter, Fern.

He leaves several brothers and sisters. R. D. of Spokane, Wash.; D. H. of Sumner, Iowa; John of Mapleton, and R. E. of Minneapolis; Mrs. H. Haven, of Waterloo, and Mrs. Smith, now in Dakota.

Authorizes New Bridge.

A resolution by Mr. Herman Tuesday night authorizing the mayor to build a bridge five feet wide and three feet high across a ditch on South Sixth street, between the Iowa Central and Northwestern tracks. The street commissioner was instructed to drain the ditch, which has caused damages from overflow to abutting property.

Local Weather Record.

Seventy-eight was Tuesday's maximum temperature, which was five degrees warmer than Monday's maximum

lodge, at Washburn, N. D., instructing the chapter and other authorities to do all in their power for L. M. Wallin, one of the critical patients at St. Thomas, and further stating that his wife will reach the city tonight.

Would Have State Forest. Des Moines, March 23.—A new use has been suggested for the money arising from the sale of resident hunters' licenses. A. W. Baird of Marne, suggests that the money be spent for planting timber. His idea is to fence a

large tract of state land and plant thereon a forest. This, he argues, will give the game and game birds the protection needed for propagation and at the same time increase the available timber supply of the state, a thing which is of vital concern to the people of the state. He also argues that as the hunters and fishermen can only enjoy their sport thru the courtesy of the owners of the land, that such owners are as much interested in the spending of the money as are the sportsmen.
