

ADVICE TO WOMEN. A Message From a Famous Beauty Specialist to Women Lacking in Energy and Vitality. Thousands of women, vainly attempt to improve their complexions and to remove blackheads, crows' feet and other blemishes, thru the use of cosmetics. This treatment fails because the trouble lies far deeper than the skin. They are suffering from impure and impoverished blood. This condition is in many cases due to a catarrhal condition of the whole system which finds its expression in sallow, muddy complexion, dark-circled eyes, general weakness of the system, and perhaps most plainly in the weeping of mucous membranes that is commonly called catarrh. In fact this whole tendency is, properly speaking, Catarrh. Banish this catarrh, and the complexion will clear as if by magic, eyes will brighten, faces become rosy and shoulders erect. Perfect beauty goes only with perfect health, and perfect health for women can only be obtained thru one certain treatment—that which will cure catarrh. Mme. Swift, New York, the famous beauty specialist, known throughout the world and an accepted authority on all relating thereto, states that the only positive and permanent relief for catarrh is Rexall Mucuo-Tone. Here is her letter: "I can strongly endorse the claims made for Rexall Mucuo-Tone as a cure for systemic catarrh. Its tonic effect is remarkable. It builds up the strength and restores vitality. If women who are tired and run down, lacking in energy and vitality, will use Rexall Mucuo-Tone, they will praise as I do its strengthening and healing qualities." Rexall Mucuo-Tone works thru the blood, acting thus upon the mucous cells—the congestion and inflammation of which causes local catarrh. This remedy causes poison to be expelled from the system, and the blood is purified and revitalized. Thus the natural functions of the mucous cells are restored, and the membranes are cleansed and made strong. We know that Rexall Mucuo-Tone does relieve catarrh. We positively guarantee to refund the money paid us for this remedy in every case where the user is dissatisfied. It is a builder of vigorous health and a creator of good complexions. Price 50 cents and \$1 per bottle. Mail orders filled. It may be obtained only at our store—The Rexall Store, The McBride & Will Drug Company.

Smutless Grain and Scabless Potatoes. The parasitic diseases of grain, potatoes, etc., are known to be due to spores or germs planted with the seed. An efficient means of prevention is also known and that is the treatment of all seeds with a solution of formaldehyde. We provide a guaranteed quality, and all desired information. No one can afford to take chances on seed grain or potatoes when security against smut and other diseases can be had at such trifling costs. For those who prefer it we supply blue stone for grains and corrosive sublimate for potatoes. These are effective also but lack some of the merits of the formaldehyde treatment.

MAY KNIFE HAUGEN

EVIDENCE THAT STANDPATS ARE TO BRING OUT DEMOCRATIC CANDIDATE.

D. D. MURPHY, OF ELKADER, PICKED TO MAKE THE RACE

Democrats in Eighth District Ready to United on Vreeman, of Centerville—Would Attract Republican Votes—Salinger's Attack on Mulct Law of Vital Effect.

Special to Times-Republican.

Des Moines, March 30.—At the time of the Carroll good roads-standpat conference of the second week of March a very prominent politician of one of the counties of northeastern Iowa stated to the writer, in substance: "There were ten of us on the train coming down and naturally we talked a little of politics in the Fourth district. We compared notes and found that every one of the ten—all republicans—would not vote again for Congressman Haugen. And before we got into talking it was found that every one of the ten would be willing to pledge himself to vote for D. D. Murphy of Elkader, for congress. It is therefore certain that the Fourth district is going to have a hot fight this year at the general election."

Mr. Murphy is to be the candidate for the democratic nomination in the Fourth district. The standpats have no thought whatever of defeating Haugen at the primary. Delegates to the good roads conferences from Allamakee county came to Des Moines and immediately started talking to W. S. Hart brought out as a candidate for congress against Haugen, but when the managers got together they sat down on this scheme hard, for they realized that Hart could not make the fight. Now Dave Brand, spokesman for the standpat good roads, has announced that among other districts that will return democrats to congress is the Fourth. Democrats therefore feel that the outlook for them in the northeastern corner of the state is very good.

Information from the Eighth district is to the effect that the democrats are likely to concentrate on Charles E. Vreeman of Centerville, as their candidate for congress rather than Stuart McManamy any else. Mr. Vreeman has lived in Washington much in recent years, having had a position in the government service, but he has always kept in close touch with the situation in the Eighth district and has frequently spoken in political campaigns. His friends point out that he has many qualities that admirably fit him for a place in congress and he would attract a great many republican votes. The district has a very large number of voters who care very little for party ties and it is believed he would garner them in.

The matter of the attack upon Iowa laws for regulation of the liquor traffic as presented by Attorney Salinger at Ottumwa, to Judge McPherson, has not attracted the attention which those who are on the inside say it deserves. If the contention of Mr. Salinger is sustained, which it probably will not be, the state courts will be enjoined from making any enforcement of the mulct law and every vestige of that law will disappear. Along with it will go at least a part of the prohibitory law. The situation would be such as to literally force upon the people the necessity for a constitutional amendment in order to save a part of the right of regulation of the traffic. While the suit is brought in fact on behalf of persons dealing in liquors to secure relief from some of the exactions of the law, it is said to be admirably adapted to serve the purposes of the constitutional amendment advocates. The chance of its success, however, is remote.

LIQUOR MEN DEFEATED.

Outcome of Missouri Valley Injunction Cases—Other Court News.

Logan, March 30.—The Missouri Valley injunction liquor cases came up for hearing yesterday morning and resulted in a crushing defeat for the liquor men.

Permanent injunction was secured against the property owners, keepers and employes, and each of the saloon-keepers were fined \$500 and prohibited from selling liquor in the state of Iowa for a period of five years.

In the liquor search warrant cases an order for the destruction of the four wagon loads of liquor captured, was made and the costs taxed to the defendants.

County Attorney Thomas Corwin Smith was assisted in the prosecution by Senator George C. Casson.

In the case of the state of Iowa vs

George Schiley, druggist, the defendant pleaded guilty and was given a fine of \$300 and costs for selling liquor without sanction of the law.

In addition to the foregoing Mr. Riley Morgan was given a term at Knoxville to lessen his desire for liquor.

Ft. Dodge Wrought Up Over Ill Treatment of Cab Horses.

Special to Times-Republican. Fort Dodge, March 30.—Women of the city, incensed at the frequent sight of cab horses being over driven and brutally beaten by their drivers, have so aroused public sentiment as to compel the introduction of an ordinance in the city council providing for the appointment of a special humane officer. The officer will be given full police power, but will give special attention to the enforcement of the humane laws of the state and the ordinances of the city governing the care of animals. The ordinance is now in the hands of the police committee and will probably be passed by the council at their next regular meeting.

As the lad was carrying papers, he came upon a bunch of distracted children. One of them, Ila Bonham, a 5-year-old girl, had caught her clothes on fire at a bonfire and was shrieking with pain. The quick-witted boy rolled her over on the ground in an instant and smothered out the flames with his sack of papers. The child was terribly burned but will recover.

Special to Times-Republican.

Grinnell, March 30.—Grinnell lost a remarkable woman this morning by the death of Mrs. Lucy White Verbeck, who would have been 100 years of age had she survived two months longer. Mrs. Verbeck would have celebrated her centenary of life on May 22.

Mrs. Verbeck was born in Standstead, Canada, three miles from the Vermont line. She was married to Luther M. Verbeck Feb. 7, 1833, and came to Iowa and Grinnell in December, 1833. Eight children were born to Mr. and Mrs. Verbeck, and the mother survived all but one, the exception being C. H. Verbeck, of this city, who is 76 years of age. As direct descendants of Mrs. Verbeck are sixteen grandchildren and twenty-six great grandchildren, some of whom have children.

Mrs. Verbeck was a woman of strong intellect, democratic in political tendencies, strongly union in the civil war, universalist in religion but not a member of any church. Mr. Verbeck died here in 1885.

The funeral services will be held Friday afternoon at 2 o'clock from the residence, with interment in Hazelwood cemetery, where three daughters are buried.

FIRE IN ORPHANS' HOME.

Timely Discovery by Young Inmate Saves Building and Occupants.

Davenport, March 30.—Fire broke out in one of the cottages at the orphan's home about 2 o'clock yesterday morning and had it not been for the timely discovery of the flames by Merl Schroeder, one of the little boys in the building, the cottage would doubtless have been destroyed and some of the children cremated. The cottage is No. 16 and is located second from the chapel. The flames were discovered shortly after 2 o'clock. Merl Schroeder was awakened by the smoke and calling Carl Osborn and Bennie Walden, two of his companions, they started to hunt for the origin of the smoke. When they reached the ground floor of the cottage they discovered the flames breaking thru the floor and immediately notified Mrs. Amanda Jones, the matron at the cottage. She at once sent in an alarm of fire and the attendants were aroused and the fire department called. In the meantime the children in the cottage, who range from 3 to 15 years of age, were hustled out of bed and into other cottages as quickly as possible. When the department arrived the flames were quickly put out and the cottage is not greatly damaged. The cause of the fire is unknown.

He started to lead the horses to the barn thinking they were all clear. The ordinance is now in the hands of the police committee and will probably be passed by the council at their next regular meeting.

EVERYONE NEEDS S.S.S. IN THE SPRING

This is just a short talk which we hope will be of interest and help to you in selecting the tonic and blood purifier that will be of the greatest value to you this Spring. That this is the most trying of all seasons on the health is a fact well known to us all. It is the time of year when our constitutions are required to stand the greatest strain, and unless properly cared for the foundation is often laid for physical disorders or disease later on. The great majority of persons are fast coming to realize the importance of preventing disease. Health is our most valued possession, and its preservation is a matter which vitally concerns every one.

Most persons, even those who are ordinarily strong and robust, feel the necessity of a tonic and blood purifier at this season. Some have no particular ailment, but are weak, debilitated and run-down. The Winter life, with its decreased amount of out-door exercise, and the fact that the cold weather has kept the pores of the skin closed, prevented the usual necessary amount of refuse and waste matter from being carried out of the system. These impurities entering the circulation have weakened and thinned the blood, and this vital fluid is therefore lacking in the nourishing properties necessary to sustain and preserve systemic health, when warm, active Spring life begins.

The general bodily weakness, tired, worn-out feeling, fickle appetite, poor digestion, etc., show how weak and anaemic the blood has become. Frequently skin diseases, pimples, eruptions, boils, etc., break out on the skin, and this is evidence of the impurity of the circulation. S. S. S. is the medicine needed to correct this condition, and is the only one on which you can rely to supply the system with the best tonic effects, and at the same time thoroughly purify the blood. The use of S. S. S. at this time may save you from a long spell of sickness, and it will certainly prepare you for the strain of the long, hot Summer.

Many people have put off using a tonic until the system became so weakened it could not resist disease, and have paid for the neglect with a spell of fever, malaria, or some other trouble. S. S. S. is Nature's ideal tonic and blood purifier, made entirely of the pure extracts of healing, strengthening, health-giving roots and herbs. It tones up the stomach and digestion, rids one of that tired, worn-out feeling, improves the appetite and digestion, and in every way contributes to the strengthening and building up of the entire system. S. S. S. is recognized everywhere as the greatest of all blood purifiers, and this combined with its unequalled tonic properties, make it a medicine needed by every one in the Spring. S. S. S. is for sale at all drug stores.
