

# THE TREATMENT OF Rupture IS MY LIFE WORK

DR. H. H. DEPEW, Fifth Floor Utica Bldg., Suite 531, Des Moines, Iowa.

Cut out this coupon and send to me with your name and address plainly written and I will mail you free my Blue Book on "Rupture and Its Cure" together with the affidavits and testimonials of hundreds of people whom I have treated and cured.

Name ..... Address ..... M. T. R. 4-21-10

## NOTICE OF INTENTION TO PAVE CERTAIN STREETS IN MARSHALLTOWN, IOWA.

Notice is hereby given that at a meeting of the city council of the city of Marshalltown, Iowa, held on the 20th day of April, 1910, there was introduced the resolution hereinafter set forth, and that by resolution of the city council, duly passed on the said date, the said resolution hereinafter set forth will be considered by the city council for passage at a meeting to be held in the council chamber in said city at 8 o'clock p. m. on the 23d day of May, A. D. 1910, at which time the owners of property subject to assessment for the cost of the improvement contemplated by the said resolution may appear, before the said city council and make objections to the contemplated improvement and the passage of the said proposed resolution, if any they have, said resolution being as follows:

Be it resolved by the city council of the city of Marshalltown, Iowa, that it is deemed necessary and advisable to make improvements by the construction of single concrete curb and a pavement of concrete, the foundation to be prepared and paving to be constructed in accordance with specifications to be prepared by the city engineer and approved by the city council, along and upon the following streets:

North Second street from Main to Lincoln streets.  
North Fifth street from Main to State streets.  
North Seventh street from Main to Jerome streets.  
North Fourth street from end of present pavement to the south side of Park street.  
Jerome street from west line of Fourth street to east line of Fifth street.  
Lincoln street from east line of Second avenue to west line of Third avenue.  
South Eighth street from Main to Church streets.  
South Seventh street from Main to Church streets.  
South Fifth street from Main to Church streets.  
West State street from Sixth to Seventh streets.

The expense of making said improvements to be assessed against the private property abutting thereon, and against the railway and street railway companies whose tracks are located thereon to the extent that the same is assessable by law, said assessments to be made in accordance with the law governing the same.

Be it further resolved that the city clerk be and he is hereby instructed to cause notice of the pendency of the above resolution and the time at which the said proposed resolution will be considered by the council and the objections to the passage thereof heard, to be published as provided by law in the Times-Republican, Marshalltown Herald, and sealed proposals to be advertised for in the Engineering News, and American Contractor.

O. L. INGLEDEE, Mayor.  
The above and foregoing resolution was duly passed and adopted at a regular meeting of the city council held on the 20th day of April, A. D. 1910.

O. L. INGLEDEE, Mayor.  
Attest: F. B. WILBY, City Clerk.

Notice to Contractors.  
Notice is hereby given to contractors that plans and specifications will be ready for bid on the main building for the Inter-State Associated Colleges, Harlan, Iowa on or about the 28th day of April, 1910.

Bids will be considered on all of the general work, steam heating, plumbing and electric wiring complete for this building.  
Plans will be on file at the office of the architects, Cedar Rapids, Iowa, and at the college office, Harlan, Iowa.  
All bids must be accompanied by a certified check for \$200 as a guarantee that the contractor will enter into a contract with the owner at his bid within ten (10) days after the acceptance of same and will furnish a good and sufficient surety bond to the amount of sixty per cent (60 per cent) of the cost of the building within the time as above stated.

# TO SHAKE DRY-BONES

## MITCHELLVILLE SCANDAL WILL BE SHOWN UP BY NEXT LEGISLATURE.

### INVESTIGATION CERTAIN UNLESS SITUATION CLEARS

Governor Carroll, Superintendent of School and Board of Control to Be Brought Under the Legislative Microscope—Too Much Shifting of Blame at Present Time.

Special to Times-Republican.  
Des Moines, April 21.—A complete and thorough investigation of the extent to which political considerations have affected injuriously the management of state institutions is as certain as that the next legislature will meet within nine months.

Unless the situation is cleared promptly and satisfactorily the legislature will act and there will be such a shaking of dry bones as has not been known for a long time.

Representative John B. Sullivan, member of the house from this county, who is almost certain to be nominated for the senate and be elected, in an interview says:

"As I see the matter now, I shall ask of the legislature, if I am elected, that a joint committee make a thorough and unbiased investigation of the state industrial school for girls and everything connected therewith. Such an investigation should not stop short of an inquiry into the management, the change of policy and abandonment of the reformatory methods, the industrial work and the modes and extent of punishment, the cause of the recent series of troubles, and the extent to which political considerations have entered into the membership of the board of control.

"The legislature alone is competent to make this investigation. The superintendent of the school, the governor of the state and the board of control, are all interested parties. They have apparently all become so involved in the scandal that each one is trying to shift to others the blame which the public feels should be placed somewhere. They ought not to be expected to make an investigation that the situation demands.

"Several months' time has been given for explanation and no report has yet been made that is satisfactory. A committee of our good people, earnestly seeking the truth but laboring under the handicap of having no legal right to compel anybody to testify and perhaps denied access to those who are best able to throw light on the situation, has given us just a glimpse of the deplorable condition of affairs at the Mitchellville institution. In fairness to all the legislature should take responsibility for giving publicity to all that concerns the public in regard to this school.

last summer by a statement given wide publicity to the effect that there is an enormous increase in the number of insane in Iowa and that the hospitals are being filled too rapidly. Judge Robinson, of the board of control, took occasion to puncture the story by showing that the increase is not more here than elsewhere and in fact that the increase is not at all alarming. Now the report on institutions for the quarter just closed shows that there has been no great increase in the insane. On the first of the month the insane population of the four hospitals was 4,154, or just twenty-six more than at the same date one year before. In the same period the population of the prison and reformatory increased by 115, as follows: Fort Madison, 508, increase in one year, 53; Anamosa, 496, increase 62. The population of the boys at Eldora decreased in the year by three and the decrease at Mitchellville was thirty-four. At the latter place the population March 31 was 183, a loss of fifteen in one month. Population and changes at other institutions in the year were: Deaf school 234, loss 1; orphans home 352, increase thirteen; feeble minded 1,197, increase two; Inebriate hospital 132, increase thirty-six; soldiers home 328, decrease forty-three; tuberculosis hospital 105, increase sixteen; blind college 131, decrease twelve.

The total cost of the Iowa institutions for the month of March was \$184,966.51, an increase of \$1,253.07 in the month.

## MORE ABOUT FIREPOTS

Likely to Come Into General Use as Safeguard to Orchards in Freezing Weather—Randolph Grower Tried to Cover Too Much Territory.

Council Bluffs, April 21.—The use of fire pots in protecting orchards from freezing, such as visited Iowa Saturday and Sunday night, is likely to come into general use, since it has been proven conclusively by some of the best orchardists in the state that they work effectively in preventing losses. C. E. Mincer, of Hamburg, who is delighted with the success of the pots used in his orchard says he does not believe they will ever be put to as severe a test as was given them Saturday night.

Thinking, however, to overcome this difficulty in time, they lighted only every other fire pot and then at 2 o'clock repeated the plan, lighting the other set. Mr. Spencer says now he is convinced it would have been better to have concentrated all of the pots on one-fourth of the orchard instead of trying to make them heat up the entire forty-three acres. While fearing that the pots did not save the fruit and that it was all killed, Mr. Spencer is hoping against hope that some of it at least will be saved. Mr. Spencer's report of the atmospheric conditions Saturday night is also interesting. He says that at 9 o'clock the temperature fell to 28 degrees, that it rose to 30 degrees at midnight and fell to 24 degrees toward morning.

At the state institution for feeble minded at Glenwood, where considerable fruit is raised in normal years, officers, attendants and inmates assisted in trying to save the fruit, especial attention being paid to the strawberries which could more easily be covered and protected.

## AGAINST SHORTENED VACATION.

Indignant Patrons to Ignore Mandate of Des Moines School Board.  
Des Moines, April 21.—Believing that the Des Moines school board is in no way disposed to close the present school year by the first week in June, as they have asked it to do, the indignant patrons who appeared before the board Tuesday evening to remonstrate, have started a movement to have as many children as possible taken out of school by their parents two weeks before school closes.

# RABIES AT BOONE

## MAYOR ISSUES PROCLAMATION ORDERING DOGS CONFINED.

### SEVERAL CANINES KILLED BY OFFICIAL EDICT

All Dogs Found Running at Large Will Be Taken Up and Killed—Several Believed to Have Been Bitten by Afflicted Animals—City is Somewhat Alarmed Over Situation.

Boone, April 21.—The city authorities from Mayor C. L. Wilder down are determined not to permit the rabies which has gained a foothold here, from creating the feeling of fear and dread that Fraser experienced two or three years ago. Yesterday the authorities killed two dogs and others—several of them—were penned up. Official notices have been issued and the people who have dogs and children playing about the wards should heed these notices.

Mayor Wilder's official proclamation on this subject is as follows: Boone, Iowa, April 20, 1910. All persons owning, keeping, or harboring any dog, are hereby required to confine the same from running at large, by good and sufficient means, or cause same to be properly and sufficiently muzzled, so as to prevent the same from biting any person or animal, for a period of six weeks; failing so to do it will be the duty of the city marshal to kill any such dog found at large and unmuzzled. This order is effective at once.

Yesterday at Fifteenth and Story streets two good dogs had to be disposed of by Mayor C. L. Wilder, the police and Dr. McLain. One of the dogs belonged to J. C. Ferguson, a railroad man, and the other one which had been bitten belonged to Mrs. Jennie Anderson. Several other dogs that in neighborhood are reported to have been bitten and the extreme care is being taken by the authorities in this neighborhood.

## FORGED REGISTERED LETTER.

Postoffice Department Gets After Greek Interpreter at Creston.  
Special to Times-Republican.  
Creston, April 21.—Jinnias, a Greek interpreter for a gang of laborers, working near McPherson, on the Burlington, was brought here today before the federal commissioners, charged with tampering with the United States mails. He, pled not guilty and his arraignment was set for the next grand jury for investigation.

Jinnias is charged with forging the name of Jim Drusolis, at this postoffice, to a registered letter containing money, and when the missing letter was traced to this office Postmaster Skinner was obliged to make the amount missing good. As the crime was easily traced to Jinnias, he acting as mail carrier for all the mail addressed to the Greek gang before his charge, he was brought before Postmaster Skinner, charged with the offense. He reimbursed Mr. Skinner for the amount missing and going back to take charge of his gang, sent \$10 to Drusolis, thinking in that way to clear himself. This happened in January and for a time it was thought the matter would be dropped, but the postoffice authorities have decided to prosecute Jinnias under the penal statute and his arrest was accordingly made.

## CLAM FISHERS IN CUSTODY.

Prospects of Lively War Between Shellers of Iowa and Illinois.  
Muscatine, April 21.—Fish Warden Wilkie, of Chillicothe, Ill., by the arrest of Iowa clam fishers who swooped down on the rich beds in the Illinois river between Chillicothe and Henry, has to all appearances precipitated a lively war between the clambers of the Hawkeye and Sucker states. Local people who had expected to enter Illinois for the purpose of gathering mussels will watch the outcome of the contest with interest.

The Iowans are positive they have the right to engage in the shell industry in the cross river state and will take it matter into court. John Huguelin, a millionaire of Clinton, has come to the rescue of the Iowa shellers and will provide the necessary money to enable them to carry on the legal battle. A number of the clambers of this locality are at the present time engaged in clamfishing along several of the inland streams in the Sucker state.

## POLICE AID CENSUS MAN.

Aid of Officers Necessary to Compel Answers to Questions.  
Des Moines, April 21.—Refused answers to his questions, a federal enumerator appealed to the police and a patrolman was sent to a "keg party" of colored men in a block near West Third and Walnut streets.

The sight of the bluecoat made those free citizens of the United States "loosen up" at once. Similar instances were reported to Census Inspector Daniel Hite yesterday. Four families near Union Park refused to even listen to the questions of the enumerator in that district. They were reported to the local census office, Fleming building, and orders given out to arrest all who refused the information desired by the government. Those listed for arrest because of their refusal to answer, later gladly did all.

## ADAMS OUT ON BOND.

Coroner's Jury Falls to State Who Delivered Fatal Blow.  
Sioux City, April 21.—Within a few minutes after the coroner's inquest had closed, George Adams, charged with the murder of Miss Phillips, was released from custody on bond for \$10,000.

signed by fourteen prominent men. The verdict of the coroner's jury was as follows: "We find that Miles Phillips came to his death on April 19, 1910, from the effects of a blow on his head delivered by Adams, April 19, 1910."

The International Alliance of Theatrical Stage Employees, of which organization Phillips was a member, buried the dead man this morning.

Desire to Attend Cheap Shows Causes High School Girl to Steal.  
Waterloo, April 21.—Attracted by the lure of the nickel theaters and the candy kitchens, with their delectable display of the good things to eat and drink, a young girl student of the east high school was yesterday compelled to make the humiliating confession that she had for some time been guilty of appropriating the property of fellow students. This property was disposed of in some manner for money which was expended at the play houses and at the confectionary counters.

City Detective A. P. Houston was assigned to the case and he was not long in fastening guilt upon the young lady. The one accused made a full confession of her acts. When confronted with evidence of her guilt she expressed great remorse for what she had done and promised to make full restitution to those who had missed articles. The girl is bright in her studies, of excellent parentage and for all these reasons and others there will be no prosecution in the courts.

## NEWS OF HAMPTON.

New Pumps for Waterworks Plant—Sidewalks Thru Park—Fine Fountain. Special to Times-Republican.

Hampton, April 21.—To better protect the property of this city from fire the city council, at a recent meeting, voted to purchase a new pump for the waterworks plant and to install it as soon as possible. The new pump will be especially adapted for protection against fire and is said to be capable of forcing 600 gallons of water per minute. An additional reservoir is also to be constructed at the waterworks plant, to have a capacity of 3,000 barrels. It has been noticed at many recent fires that insufficient water pressure was a great handicap to the proper fighting of the flames, and these steps were made necessary as a consequence.

The committee on public improvements of the council was directed to see that a cement sidewalk is laid diagonally each way thru the city park. This pleasure ground has been closed for about two years while it was being filled in and seeded. This spring a number of the trees have been thinned

out and others trimmed. A few new ones have been set out, and with the improvements now contemplated it will be one of the most attractive of any like place anywhere.

A committee of the Yankee Doodle Club is preparing to purchase and install an ornamental fountain, to cost perhaps \$700 or \$800. This organization has been busy for a couple of years raising this money by different means, with the purpose in mind from the first of using it for a fountain.

The High Cost of Living.  
Increases the price of many necessities without improving the quality. Foley's Honey and Tar maintains its high standard of excellence and its great curative qualities without any increase in cost. It is the best remedy for coughs, colds, croup, whooping cough and all ailments of the throat, chest and lungs. The genuine is in a yellow package. Refuse substitutes. McBride & Will Drug Company.

Three-Dollar Gold Pieces.  
Beginning with the year 1854, and ending with the year 1889, there were 639,792 of three-dollar gold coins sent out from the United States mints, a total value of \$1,619,376. A few were made in the early years at the mints at Dahlonega and New Orleans and quite a number at the San Francisco mint up to 1860, but the bulk of these coins were turned out by the mint at Philadelphia. They were never coined in sufficient numbers, these figures show, to become really familiar to the people outside of banks, and it is hardly strange that the existence of the coin should be now largely forgotten.

Electricity in Rain.  
From observations at Simla, India, Dr. G. C. Simpson has concluded that more than three times as much positive as negative electricity is brought down by rain, and that the positive electricity of snow is still greater, being perhaps four times as much as the negative. Light rain is more heavily charged than heavy rain, but the heavier the rainfall the more likely it is to be positively charged. These results were hardly expected, as negative electricity seems to be always passing into the air from the earth.

If You Want to Be Liked.  
Don't when people say nice things to you, think that they must necessarily be insincere. It is quite as natural for some persons to put their nice thoughts about you into words as it is for them to breathe.—Home Chat.

Watch for the Comet.  
The Red Dragon of the sky. Watch the children for spring coughs and colds. Careful mothers keep Foley's Honey and Tar in the house. It is the best and safest prevention and cure for croup where the need is urgent and immediate relief a vital necessity. Its prompt use has saved many little lives. Contains no opiates or harmful drugs. Refuse substitutes. The McBride & Will Drug Company.

Heraldry.  
According to the highest authorities, heraldry finds its starting point in the totemism of prehistoric man. In the barbaric custom of painting or carving the totem on oars, the bows and sides of canoes, weapons, pillars in front of houses, etc., and in tattooing it on the various parts of the body, as we have the real origin of the insignia that are so precious to the upper-tens of to-day. It was in the ignorant superstition of the savage that he sprang from a crane or a bear or some other animal that the various "coats of arms" of the "big families" of the present time found their inception.—New York American.

Foley's Kidney Remedy will cure any case of kidney and bladder trouble not beyond the reach of medicine. No medicine can do more. McBride & Will Drug Company.

An Appreciated Distraction.  
"So you think the automobile has made life much pleasanter?"  
"It has for me," answered the comfortable citizen. "I drive a fast horse and my son rides a bicycle. The automobile has taken the minds of the police off both of us."—Washington Star.

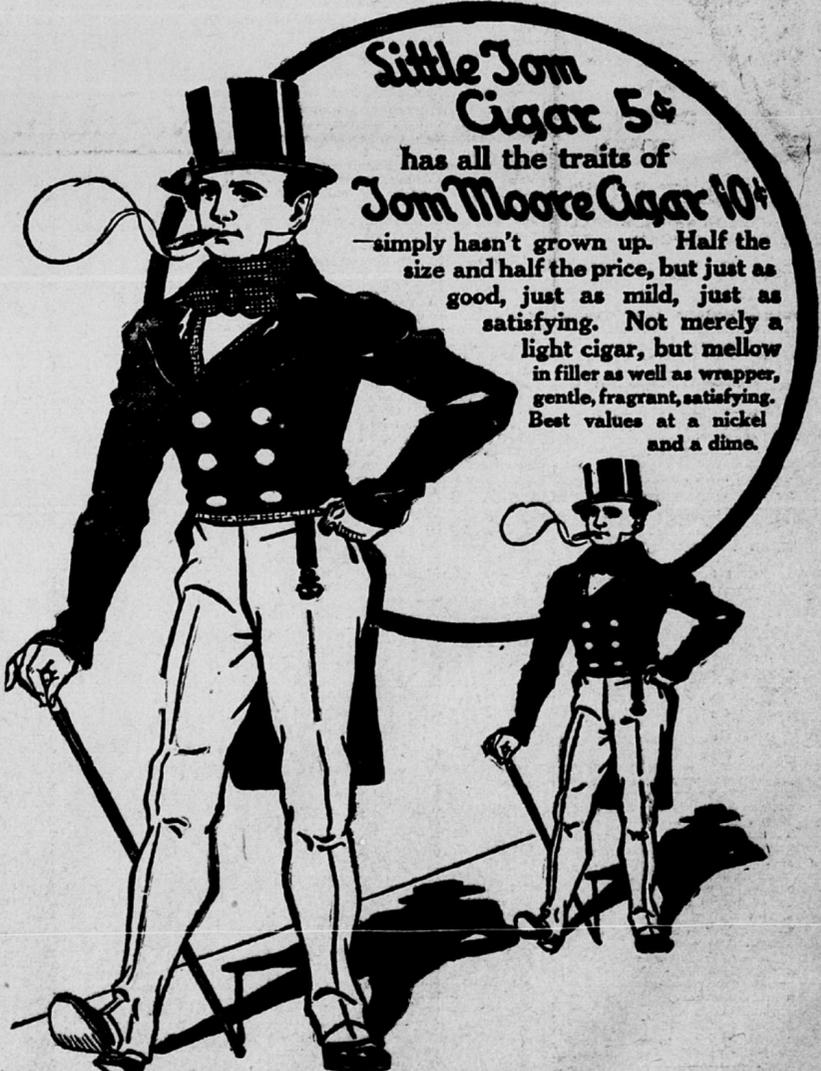

There is no cough medicine so popular as Foley's Honey and Tar. It never fails to cure coughs and cold and is especially recommended for chronic and bronchial coughs. McBride & Will Drug Company.

Fitzgerald's Summary.  
Edward Fitzgerald, the translator of the Persian poet, Omar Khayyam, was a more or less genial opponent of matrimony as a state.

One day he said to his friend Miss Ellen Churchyard of Woodbridge: "Do you know, Nell, what marriage is?"

Miss Churchyard thought not. "Then I'll tell you," said he. "Marriage is standing at one's desk, nicely settled to work, when a great big bonnet pushes in at the door and asks you to go for a walk with it."—Youth's Companion.

# Tom Moore Cigar

Little Tom Cigar 5¢ has all the traits of Tom Moore Cigar 10¢

—simply hasn't grown up. Half the size and half the price, but just as good, just as mild, just as satisfying. Not merely a light cigar, but mellow in filler as well as wrapper, gentle, fragrant, satisfying. Best values at a nickel and a dime.
