Limitations of Genius. The happiest genius will hardly succeed by nature and instinct alone in rising to the sublime. Art is art! he who has not thought it out has no right to call himself an artist.—Goethe

Every family and especially those who reside in the country should be provided at all times with a bottle of Chamberlain's Liniment. Anty Drudge Invited to Take an Automobile Ride.

Miss Spic-a-span (joyfully)—"Hello, Anty Drudge! Come take a ride with me!"

Anty Drudge—"My! An automobile! How extravagant." Miss Spic-a-span—"No. I earned this with my painting. And I do all my own housework. This is washday, but I was through by 12 o'clock. That Fels-Naptha you told me of is like sunshine on a rainy day. Why, the hanging out is the hardest part of my washing."

If time is money, Fels-Naptha will save you money and lots of it every washday.

Perhaps you don't consider your time is worth money. But your coal is, and your clothes are, and you certainly value your health.

Fels-Naptha saves your coal or other fuel because it cleanses your clothes in cool or lukewarm water, with no need for a hot fire to heat water or boil your clothes, either in summer or winter.

It saves your clothes because there is no boiling to weaken their fibre and no hard rubbing to wear holes in them.

It saves your health because it takes all the back-breaking work out of washday and removes the danger of catching cold from overheated room or steaming suds.

Aren't these things worth saving? If you think so, get Fels-Naptha and use it according to directions on the red and green wrapper.

Steel rear hounds. Steel sand board. Nibbols to lose or get loose. No wood parts to shrink. No checking of wood parts. No question of proper seasoning of wood stock. No trouble from climate conditions. It is never too wet or too dry for the Bettendorf steel gears.
