A WOMAN DYNAMITER?

FINE FARM HOUSE NEAR PRAIRIE CITY WRECKED BY MIDNIGHT EXPLOSION.

FORMER SWEETHEART OF DR. HALL ARRESTED

Woman Charged With Crime is From Carthage, Ill., Supposed to Have Taken This Method of Revenge Against the Doctor, Who Was But Recently Married—House Badly Shattered.

Prairie City, April 25.—The beautiful home of Jesse A. Quick, a wealthy farmer living three miles east of Prairie City, was completely wrecked at midnight Saturday night by the explosion of a charge of dynamite which had been placed under the front porch of the house. All the occupants of the house escaped injury.

Miss Mary Guthrie, of Carthage, Ill., was arrested an hour later in Prairie City, suspected of having set the charge. She is being held in jail here, although no charges have been filed against her as yet. In the yard at the Quick home was found one of a pair of gloves which Miss Guthrie is said to have purchased here Friday.

At the Quick home Saturday night, and in the bedroom on the second floor nearest the charge of dynamite, was Dr. Alexander Hall, of Colfax, and his young wife, formerly Miss Myrtle Quick, a daughter of Jesse A. Quick. Dr. Hall and Miss Guthrie were formerly close friends, and it is rumored here that the pair were at one time engaged to be married. Her disappointment because of Dr. Hall's marriage to another woman is the theory given today here for any attempt at revenge that Miss Guthrie may have made.

Dr. Hall took his degree at the Western school at Nevada, Mo., and Miss Guthrie was a student at the school at the same time. It is reported that the two spent considerable time together during their college careers. Dr. Hall came to Colfax about six months ago, and there met Miss Quick. The couple were married in February, and have been staying at the home of Miss Quick's parents since their return from a honeymoon trip.

Miss Guthrie came to Prairie City last Friday night, and took a suite of rooms at a local hotel. Early Saturday morning she secured a livery team and asked to be driven out into the country. She asked the driver to tell her the names of the farmers who lived in the different houses, and when he pointed out the Quick farm, Miss Guthrie is said to have told him to return to his work in town, and that she could find her way back without any trouble.

TO STOCK TWIN LAKES.

Fish Commissioners Suggest Plan to Make Place Real Summer Resort. Special to Times-Republican.

Lake City, April 25.—It is now almost a certainty that Twin Lakes, in the northern part of the county, are to be stocked with game fish. Deputy State Fish Commissioners Hall and Reese, of Des Moines, were in the county the past week and stated that if the residents would sign a petition asking for an appropriation of two or three thousand dollars for the purpose of stocking the two lakes with game fish, they would see to it that the lakes were stocked with game fish and seal out all the crabs, suckers and other fish that are undesirable. The citizens of the county are taking great interest in the matter, and all

Gold Dust

Does more than clean

Your pots, pans, kettles, dishes, knives, and other utensils need more than mere cleaning. Soap and water simply clean the surface. Gold Dust not only cleanses but sterilizes—it drives out every bit of dirt or hidden germs which are bound to lurk in off-used utensils. It will leave your kitchen things not only clean, but sanitariously.

Gold Dust will enable you to do your work more quickly, give your strength, and give you better results than soap or any other cleanser.

expect to see Twin Lakes a popular fishing resort.

Twin Lakes, as they are called, are two lakes near Rockwell City, side by side, with a narrow roadway running between. The place is attaining a statewide reputation as a summer resort, and during the warm weather is thronged with pleasure seekers. It was agitated last year to build dressing rooms and other equipments, and if the lakes are stocked with fish this will undoubtedly be done and the place will be formally announced as a summer resort.

Harlan, April 25.—Shadrach Henderson, an old and respected citizen of this city, died at his room in the Park hotel in this city Friday night. He was 65 years old and a prominent member of the G. A. R. of this city. He served for a private in the civil war in Company A, Eleventh Iowa infantry. His wife died a few months ago, which seemed to have completely upset him and he had lately been addicted strongly to the drink habit and with a bad attack of erysipelas, caused his death. No relatives to attend the funeral could be found, and services were conducted by the local G. A. R. Sunday morning.

Mrs. Minnie F. Harris of Cresco, who gave her occupation as a washerwoman, has filed a petition in bankruptcy. Liabilities \$519.72, of which one-half is due Chicago, Minneapolis and St. Paul newspapers. No assets.

Cedar Falls.

Being missed by the assessor and owing \$25,000 worth of building and loan stock which she wishes to pay taxes on, Mary F. Hearst, of Cedar Falls, has appealed to County Auditor Rainbow to make some arrangement whereby she may pay her taxes in installments. This hearing was held Wednesday at the county auditor's office, and she went to a deputy collector of Cedar Falls, but he found no assessment against her. She says in her letter to the auditor, "While I do not expect to enjoy paying taxes, I do wish to pay my share in supporting the government." The letter was a surprise because of its rare nature.

Waverly.

The old dwelling which for years stood on Bemer avenue, west of the Acken house, has been moved off to make way for a modern business house which will be occupied by Wile & Masten. This building was one of Waverly's old landmarks, and was among the first houses erected after the town had been platted. It was learned as the property of a man by the name of Tuller, a miller, and it was occupied by William C. Smith, father of Mrs. William C. Smith, from 1859, when it was bought by Ruben Ellsworth, father of H. B. Ellsworth, and it remained the property of that family for a great many years. The lumber in the building was cut from native timber and today is in a state of perfect preservation.

Ida Grove.

The Ida Grove Electric Light Company has been making a hard fight the past week over 500 tons of coal. The pile is becoming very hot, and there is danger of it bursting into flames almost any minute. For that reason it is kept on the pile night and day, and the coal is being moved and rebounded as rapidly as possible. During the unusually long winter the company had a hard time getting sufficient coal to keep the plant running, and several times was within a few tons of the end of the pile, and the furnaces calling for twenty-six tons a day. When the cold spell ended so suddenly and an unusually warm March came, the coal began to pour in by the trainload, and the company had a hard time storing it away, but was afraid to refuse any and turn it back because of the threatened April strike. Now the big pile of coal is sending off great clouds of gas that show it is near the point of combustion, and to save the coal it must all be moved.

DOCTOR ADVISED OPERATION

Cured by Lydia E. Pinkham's Vegetable Compound

Galena, Kans.—"A year ago last March I fell, and a few days after there was soreness in my right side. In a short time a bunch came and it bothered me so much at night I could not sleep. It kept growing larger and by fall it was as large as a hen's egg. I could not go to bed without a hot water bottle applied to that side. I had one of the best doctors in Kansas and he told my husband that I would have to be operated on as it was something like a tumor caused by a rupture. I wrote to you for advice and you told me not to get discouraged but to take Lydia E. Pinkham's Vegetable Compound. I did take it and soon the lump in my side broke and passed away."—Mrs. B. R.
