GOVERNOR ANSWER MADE WHEN HE WAS STATE AUDITOR

MANAGEMENT OF STATE'S FINANCES

Assay Later Refuted Every Made Against Progressive Administration—Lafe Young Stung by Dulliver and Cummings

Times-Republican. Des Moines, May 14.—Will Governor answer Auditor Carroll in his fight? Will he, in opening the speaking campaign, in his address at Manila, repeat his celebrated speech of two years ago? He told the truth about Iowa and admit that what he said was grossly unfair and utterly untrue.

ment of the Cambridge speech is the last utterance from the state treasurer and the republicans of Iowa who have so horribly mismanaged the state's finances, was that Governor Carroll and the republicans of Iowa have been spending the state's money in a wasteful and unproductive manner. While he held Governor Carroll largely responsible for the state's financial condition, he sought to show that the chairman of the senate finance committee, Mr. Garst, was responsible for general financial mismanagement.

Historical showing of Auditor Carroll's Cambridge speech has been answered by the state treasurer since that Carroll has never acknowledged at Cambridge he gave figures as to state finances and that he made the statement that all the appropriations were expended during the annual period there will be a deficit of \$550,000 unprovided for.

er of fact not only were the books drawn in the Cambridge speech wrong, but the alleged fact that the books in his own hands in the Cambridge speech were not responsible in a state government of Iowa for six years.

the Cambridge speech it appears that the state treasurer was not responsible in a state government of Iowa for six years.
