IOWA SPORTS NEWS

GRINNELL WINS INVITATION. MEET ON HOME GROUNDS, MORNINGSIDE SECOND.

ELDORA BASEBALL SEASON OPENS MIDDLE OF JUNE. S. U. I. Track Team Discouraged Over Outlook for Missouri Valley Meet One Week Hence - Eldora Plans Big Gathering of Trap Shooters at State Tournament.

Special to Times-Republican. Grinnell, May 21.—With a perfect day and track and 2,000 spectators Grinnell won the state field meet here yesterday afternoon by twenty-three points, the score standing as follows: Grinnell, 68; Morningside, 45; Coe, 18; Cornell, 11; and State Normal, 2. The others, Des Moines, Leander Clark, Simpson and Penn, did not score.

Special to Times-Republican. Eldora, May 21.—The sportsmen of Eldora and this vicinity are counting themselves lucky in that they have been able to secure the state meeting of the Iowa State Sportsmen's Association for Eldora next year. It is the opinion of sportsmen that Eldora is ideally located for a state meet owing to its central location, and further to the fact that it is the possessor of one of the fastest golf clubs in the state and the west. The Eldora G. C. Club is at present the holder of the state trophy. In their business session the state association voted to accept the invitation of the Eldora G. C. Club, and elected W. J. Murray, president; W. B. Linell, secretary; and Ed Davis, treasurer.

Baseball Players Report. Special to Times-Republican. Lake City, May 21.—The players signed by the management of the Lake City professional club in the state association are reporting this week and preliminary practice is being held morning and evening. Following are some of the outsiders relied upon: George Sammers, of Fort Dodge; John Croak, of Clinton, catcher; Chet Browning, of outfielder; Ed Kelly, of pitcher; and the two left-handed pitchers of the Clear Lake team; and Burnham and Kempf, infielders. The last four will not arrive for practice until about June 1. The directors of the association have turned over to Manager Dodge all the preliminary work. Immediately after Decoration Day the team will start on a trip thru the northern part of the state, playing about twelve games before returning. The secretary of the association has sent out circular letters to more than a hundred towns which are known to have ball teams and favorable answers have been received from nearly all of them.

Coe State Tennis Champion. Special to Times-Republican. Iowa City, May 21.—Coe College won the state tennis championship in a doubles yesterday in the tournament being held here when Simmons and Green (Coe), defeated Tilton and Smith (Iowa), in straight sets: 6-3; 6-3; 7-5.

In the singles Tilton, the Iowa crack was defeated by Simmons of Coe in a hard fought battle, 6-7, 9-7, and 6-4. Simmons today meets the winner of the

Eldora's Baseball Team. Special to Times-Republican. Eldora, May 21.—The organization of baseball teams with "Chick" Kirk as captain and manager the following players have been assigned: Catcher, Kirk; first base, Noble; second base, Bauer; Hill, Sharer; and Stewart; short stop, Harvey; third base, Price, Schmidt and Tyrrell; outfield, Hendes, Thompson, Simmons, Warren, Rutledge and Hollester; pitchers, Emery, Bratlebo, Kirkpatrick and Secor.

The managers also hope to close with West, now pitcher for Iowa City. The season will open about the middle of June at Eldora with Lake City in a series of games. The team is desirous of scheduling games with fast semi-professional teams in easy traveling distance from Eldora.

Kirk, being a Marshalltown athlete, should attract interest in the games from Marshalltown. Automobile drivers particularly can find it a nice run up from Marshalltown going straight north on Third avenue about twenty-two miles and then turning east into Eldora on what is known as the Ivester road.

Hawkeye Team Not Confident. Special to Times-Republican. Iowa City, May 21.—Weather conditions and the practice march of the university of Iowa student regiment has lowered the Hawkeye stock so far as winning the Missouri Valley meet to be held at Des Moines next Saturday is concerned. The rain has retarded Track Coach "Spinx" Delaney in his work and Iowa's star hurdler, Wilson will be compelled to march eighteen miles and sleep outdoors for three days because of the regulations. Baer, one of the best quarter milers and relay men in the squad will be subjected to the same discipline. As both men are not hardened to the exposure and are not of the rugged temperament it is expected their work in the Missouri Valley meet will not be up to previous records made this year.

Coach Delaney is exerting every effort to have his men in the best of condition. The throwing out of the hammer which was announced officially this week has put him on edge and he is awaiting every nerve to have the Hawkeyes in the front rank when the totals are figured up next Saturday evening. Tallman, his best sprinter, also quit on him this past week but Delaney has not been daunted by the repeated set backs.

Throughout the state the cold wet weather has been a severe handicap this spring. It has been impossible for the trainers to do justice to their men in the spring training and many base-

ball games have been postponed or played under conditions which made a good exhibition and a big crowd an impossibility. It is openly admitted by college men that unless the weather changes and the sprinters, hurdlers, and jumpers are given a chance to practice without so much danger of strained ten dons, ligaments, etc., that the Missouri Valley meet will be a pretty tame affair.

Because of a failure to turn in the entries on time, Oklahoma University's track team will be barred from the meet next Saturday. This was the decision of the games committee at Des Moines this past week. It was also decided that the A. A. U. rules would govern the running of the race. Under the A. A. U. rules a flying start of twenty feet is allowed. This will make the races much faster and prettier to watch.

One of the prettiest features of the meet promises to be the short sprint when Wilson, the speedy Coe College sprinter from Cedar Rapids, measures speed with Prof Haddock, the Kansas captain.

Eldora to Entertain Shooters. Special to Times-Republican. Eldora, May 21.—The sportsmen of Eldora and this vicinity are counting themselves lucky in that they have been able to secure the state meeting of the Iowa State Sportsmen's Association for Eldora next year. It is the opinion of sportsmen that Eldora is ideally located for a state meet owing to its central location, and further to the fact that it is the possessor of one of the fastest golf clubs in the state and the west. The Eldora G. C. Club is at present the holder of the state trophy. In their business session the state association voted to accept the invitation of the Eldora G. C. Club, and elected W. J. Murray, president; W. B. Linell, secretary; and Ed Davis, treasurer.

Pocahontas Paragraphs. Special to Times-Republican. Pocahontas, May 21.—The present county officers will be renominated without opposition. There are three republican candidates for the office of county auditor, now held by a democrat.

Court is in session. Judge Bailey, of Stock Lake, is presiding. This part of the county has been needing rain for some time. Meadows and pastures are looking thin, while small grain, especially on high land, is in much need of moisture. Corn is coming nicely.

In this vicinity had to stop for lack of sufficient water to operate them. Two of them are high and dry now, and at points where a year ago a team could drive.

This town, with a population of 800 or less, has four jewelry stores and three repairers.

Lake City to Observe Fourth. Special to Times-Republican. Lake City, May 21.—At an enthusiastic meeting held at the Lake City county room last evening, it was decided to celebrate the Fourth of July by the summer and the following executive committee was appointed to solicit funds for that purpose: C. T. White, J. W. Colvig and W. W. Cretzer. Heretofore the occasion has been observed in Lake City only in the even-numbered years. Lake City celebrating one year and Rockwell City the next, but it is planned to observe the occasion every year hereafter.

Commander Julius A. Pratt Post No. 143 Dept. Ill., G. A. R. Mr. Isaac Cook, Commander of above Post, Keosauqua, Ill., writes: "For a long time I was bothered with backache and pains across my kidneys. About two months ago I started taking Foley Kidney Pills and soon saw they were doing just as claimed. I kept on taking them and now I am free from backache and the painful bladder misery which I have told many of my so well that friends and comrades about them and had recommended them at every opportunity." McBride & Will Drug Company.

service, died Wednesday. He had been in failing health for some time, and while he had been out quite recently and seemed to be mending, his death was not unexpected. He was born in Ohio, Feb. 26, 1837, and when the war broke out he volunteered. Shortly after the war, he came to Burlington where he entered the railroad service, taking charge of the repair work, and during forty-four long years, he gave his entire life to the service of his country. He was widely known.

Davenport. A surprised and outwitted group of would-be celebrants at a wedding, paraded the down town streets Wednesday evening and searching on all sides for a possible glimpse of an eluding newly wedded couple, was only a part of the series of circumstances which attended the wedding of Miss Madeline Stadden to August Debban. Until late in the evening the searching party continued its perambulating over the streets and around depots searching for the escaped bride and bridegroom, but nowhere was a trace of them to be found. They had eluded the celebrants at the scene of the wedding, slipping from the second story of the residence and climbing down a friendly ladder, thus escaped the torture of an old-fashioned charivari.

Perry. E. E. Freese and J. C. Hall, deputy game wardens, who have been after the violators of the fish law in this vicinity for a week or so, have succeeded in convincing several people that it doesn't pay to ignore the provisions of the law. Many people in Perry have known for some time that the law has been violated repeatedly, but it remained for the officers to get busy and put a stop to the practice. They worked quietly for several days and accumulated enough evidence to convict a dozen or more fishermen. Two large fish traps were discovered near the dam by the mouth of the sewer, and these were taken up and destroyed. Either one of them would hold about a thousand pounds of fish, one being made of wire and the other of wood.

Des Moines. A change in the law to enable the insured to be satisfied of the correctness and justice of the statement rendered when he cancels his policy and gets a refund is advocated by State Auditor Bleakly in his letter transmitting the 1910 fire insurance report to Governor Carroll. Auditor Bleakly gives considerable attention to "twisters" and calls attention to the difficulty the insurance department meets in getting at the facts in "twister" cases. He says the department is always willing to prove their contention. On the question of surrendering policies he says: "The right to cancel a policy is a part of the insurance contract and it seems to me that the demand of the insured for cancellation are imperative and should be met with prompt compliance by the companies." He interprets Attorney General Byers' famous automobile liability insurance law "applies only to the use of the machine by another in the course of his business, and when the automobile is used for pleasure."

Burlington. John M. Jackson, one of the best known men in the community, and one of the pioneers in the local railway

Ylvisaker (Luther) vs. Whitehead (Cornell) match, for the state championship in singles. In the rounds of the singles played yesterday Ylvisaker (Luther), defeated Wiesner (Cornell), 6-3, 6-1.

FRATERNAL CONVENTION. I. O. O. F. and Rebekahs of Hancock-Winnebagos District at Kanawha. Special to Times-Republican. Kanawha, May 21.—On Wednesday, May 25, the district convention of the Hancock-Winnebagos district, I. O. O. F. and Rebekah lodges, will be held in Kanawha. A fine program has been prepared and the public as well as lodge members will be well entertained. Two bands have been secured to furnish music and committees to take care of the visitors have been selected. Jerry Green, of Marshalltown, will be the speaker of the day; Mayor J. A. Hamilton, of Kanawha, will deliver the address of welcome; Rev. H. E. Storch, of Britt, will respond. Degree work both in the I. O. O. F. and Rebekah will be exemplified in the evening, after which a banquet will take place for the Odd Fellows and Rebekahs as Petheram's hall.

Special to Times-Republican. Ida Grove, May 21.—In a speech here this afternoon Clifford Thorne, candidate for railroad commissioner before the republican primaries, spoke of Iowa factories and railroad rates, in which he demonstrated that Iowa is losing prestige in manufacturing because of the discriminations of the railroads. Mr. Thorne was heard by a large audience. He said in part: "Iowa's rank among her sister states in regard to manufacturing is hard to account for. We would naturally expect some similarity with Kansas, Minnesota or Wisconsin. And yet we find that the value of the manufactured products of each of those states for the last year reported by the United States department of commerce and labor, was from thirty-eight million to a quarter of a billion dollars greater than in Iowa. Why is this true? Population and soil facilities are two great essentials to the growth of manufactures. But we find that Iowa had from two to five hundred thousand greater population, and from one to two thousand more miles of railway than either of those states.

"The relative advantage with other neighboring states is even greater. The population, according to the last census, was in Iowa, 2,231,852; in Indiana, 2,516,422; in Ohio, 4,157,545; and in Michigan, 3,240,932; and Iowa had from 600 to 2,000 more miles of railway than any of those states; yet the value of the manufactured products of those states for the last year reported was from 240 per cent to 600 per cent greater than in Iowa. Ohio manufactures exceed those in Iowa by over \$800,000,000.

"Every state adjoining Iowa, except Nebraska and South Dakota, has a larger amount of manufactures every year than has Iowa; Minnesota, on the north, has almost double the volume; Missouri, on the south, has over two and a half times as much; Illinois, on the east, has nine times the amount. Something is radically wrong some place.

"It is not wise to constantly advertise such facts as these. But once in awhile we might just as well look this situation squarely in the face and try to find some means of improving it. Our friends and neighbors, who are not both about spreading these facts abroad, in their answer before the Illinois R. & W. Com. (in 1906) the C. M. St. P. Ry. Co., speaking of Iowa, stated: 'It is notorious that since the law of 1888 every important manufacturing industry has withdrawn away from the state; that there remains but a few minor interests in the interior, which are all of a strictly local character.' This statement is unquestionably exaggerated, as there are a large number of important manufacturing enterprises in the state. But generally all of the industries are laboring under a severe handicap with their competitors elsewhere, which saps their strength and prevents their growth.

"It is time for this condition to change. One way to help bring about a change is to make a complete overhaul of our interstate freight rates. Everything else being equal the factory is going to locate where the rates are most advantageous. Rates are like rent, you have to keep paying them all the time. This, I am told, has caused scores of factories to close their doors and to locate just across the river in Illinois, many of which would otherwise go to Iowa.

"I propose a thorough and exhaustive investigation of the interstate freight rates affecting Iowa generally. I advanced this program in my opening statement on Feb. 12. Since then the officers of the state railroad commission have offered no excuse whatever for neglecting this part of their duty which they have had since 1907. Recently thousands of rates affecting Iowa have been raised, and no effort whatsoever has been made by our state commission to test the reasonableness of these advances. This duty relative to interstate rates is specifically provided for in Sections 2120-a, and b, of the Supplement to the Code. I sincerely believe that Iowa is justified in demanding that this task, it will mean some hard work, but it may prove to be of incalculable help to the future growth and prosperity of our state. This will make all that rate legislation we have been so profoundly interested in, of some concrete tangible value to Iowa."

Annual S. S. Convention. Special to Times-Republican. Logan, May 21.—The forty-second annual convention of the Harrison county Sunday school workers closed here Thursday with an attendance here: G. W. Galps, president; W. A. Blackell, vice president; Jessie Coe, secretary and treasurer; executive committee, W. H. Johnson, Logan; Mrs. F. M. Hoyer, Missouri Valley; C. N. Carson, Logan.

Place and time of the next session are to be announced at a later date.

IOWA OUTSTRIPPED

DISCRIMINATION IN RAILROAD RATES PROVING HANDICAP TO MANUFACTURING.

FAILS TO RANK WITH SURROUNDING STATES

Clifford Thorne, in Address at Ida Grove, Proves There's a Reason for Poor Rank of Iowa—Proposes to Remedy Conditions if Elected Railroad Commissioner.

Special to Times-Republican. Ida Grove, May 21.—In a speech here this afternoon Clifford Thorne, candidate for railroad commissioner before the republican primaries, spoke of Iowa factories and railroad rates, in which he demonstrated that Iowa is losing prestige in manufacturing because of the discriminations of the railroads. Mr. Thorne was heard by a large audience. He said in part: "Iowa's rank among her sister states in regard to manufacturing is hard to account for. We would naturally expect some similarity with Kansas, Minnesota or Wisconsin. And yet we find that the value of the manufactured products of each of those states for the last year reported by the United States department of commerce and labor, was from thirty-eight million to a quarter of a billion dollars greater than in Iowa. Why is this true? Population and soil facilities are two great essentials to the growth of manufactures. But we find that Iowa had from two to five hundred thousand greater population, and from one to two thousand more miles of railway than either of those states.

"The relative advantage with other neighboring states is even greater. For More Than Three Decads Foley's Honey and Tar has been a household favorite for all ailments of the throat, chest and lungs. For infants and children it is best and safest as it contains no opiates and no harmful drugs. None genuine but Foley's Honey and Tar in the yellow package. Refuse substitutes. McBride & Will Drug Company.

Would Call Again. For two hours the fashionable lady kept the draper exhibiting his goods, and at the end of that period she sweetly asked: "Are you quite sure you have shown me everything you have?" "No, madam," said the draper, with an insinuating smile, "I have yet an odd account in my ledger which I shall very gladly show you."

He did not need to show any more. The lady left the shop, saying she would call again another day.

When a Big Hotel Falls. Talk not of loot till you have seen a big hotel or fashionable restaurant in bankruptcy! The riot of pillage that follows the collapse of one of those extensive enterprises is incredible until you have verified it with your own eyes. "Tid did not see the sack of Pekin by the allies, but he hazards the assertion that it could not have been a marker to the knock-down-and-dragout methods that follow the appointment of a receiver for a twentieth century caravansary. The amount of capital invested in such a venture is large, of course, and much of it is represented by portable articles. Despite utmost care, it's next to impossible for a stranger to get a line on those assets, and many of them vanish before he loazps to keep track of the often insignificant remainder.—New York Press.

GLADNESS COMES

With a better understanding of the transient nature of the many physical ills which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge that so many forms of illness are not due to any actual disease, but simply to a condition of the system, which the pleasant family laxative, Syrup of Figs and Elixir of Senna, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact that it is the only remedy which promotes internal cleanliness, without debilitating the organs on which it acts. It is, therefore, all-important, in order to get its beneficial effects, to purchase and note that you have the genuine article, which is manufactured by the California Fig Syrup Co. only.

It is pleasant and refreshing to the taste, and acts gently yet promptly on the kidneys, liver and bowels, cleanses the system effectually, dispels colds, headaches and fevers and assists in overcoming habitual constipation permanently, also biliousness and the many ills resulting therefrom. The great trouble with all other purgatives and aperients is not that they fail to act when a single dose is taken, but that they act too violently and invariably tend to produce a habit of body requiring constantly augmented doses. Children enjoy the pleasant taste and gentle action of Syrup of Figs and Elixir of Senna, the ladies find it delightful and beneficial whenever a laxative remedy is needed, and business men pronounce it invaluable, as it may be taken without interfering with business and does not grip or nauseate. When buying note the name, California Fig Syrup Co. printed on the front of every package. Price, 50 cents a bottle.

Own Your Home THE man who lives his life in rented property will find on investigation that he has paid enough money to his landlords to have purchased two or three houses of his own. It is easy to find some capitalist who will allow you to purchase a house on the easy payment plan provided you have enough ready money to make a first payment of a few hundred dollars. Begin to save for that first payment by depositing a part of your income regularly in this bank. You will be surprised to see how fast it will accumulate. The officers of this bank are well informed on real estate values and will take pleasure in giving advice to any patron who desires it.

Hamburg. Perry Noblett, a young farmer near here, shot and killed himself about 3 p. m. Thursday. He was crazed by grief over the death of his wife, which occurred a few hours previous.

Corning. Rev. O. W. Winters of Keokuk, who has been supplying the pulpit of the Christian church here, has received a call to take up the regular work and will accept. His wife and daughter will remove here soon.

Corning. Harry Johnston was sentenced by Judge Townor on Tuesday to not more than five years in Anamosa. Johnston had just finished a term there for horse stealing, and now the crime of cattle stealing must be atoned for.

Long Grove. James R. Thompson, formerly president of the Scott County Farmers' Institute, and one of the leading and progressive farmers of this section of the state, says: "We will have one of the largest home-grown strawberry crops in years and the crop of late berries, including raspberries and blackberries, promises to be the largest Scott county has known in years."

Council Bluffs. The broken leg of Deputy Sheriff C. E. Woolman, resulting from an accident January 1, refuses to knit perfectly, and after a consultation the surgeons have remanded him to the hospital for further treatment. The fracture was a bad one, both bones being broken near the knee. Mr. Woolman has been hobbling around on crutches since a series of operations have proven ineffectual in knitting the bones.

Davenport. For the third time since he sustained the injuries on which he based his suits, Paul Paulsen won in his fight against the Bettendorf Automobile Company and the jury which heard the case for three days returned a verdict for the plaintiff in the sum of \$3,500. This is the smallest verdict which has been returned since he instituted his claim against the company. On Feb. 7, 1908, Iowa's highest court rendered a verdict in his favor, which was reversed on Dec. 15 of the same year upon second trial, he received \$4,500, and then the case was taken to the supreme court on appeal.

Des Moines. At the annual meeting of the Iowa Children's Home Society yesterday a strong and very commendatory resolution was adopted by the board. The resolution was unanimously passed by the state board. The resolution congratulated the society on the success of the year's work; on its having cared for over 500 children at an average cost of only \$46.17 per child; that the society has been able to close the year without debt. To accomplish this work the society collected during the year \$25,837.15. The total expense of the society for the year was \$24,794.88. The balance on hand at the close of the year was \$1,042.27.
