LABOR HITS CARROLL

GOVERNOR FAILS TO GET PRINTING DONE IN UNION SHOPS.

UNIONIST ORGAN DISCLOSES UNFRIENDLINESS TO WORKERS

Chantland For Attorney General Also Opposed by Unionists and Support Is Urged for Cosson and Feely—Garst Will Profit Much by Exposure of Carroll's Opposition.

Special to Times-Republican. Des Moines, May 27.—The Iowa Unionist, in its issue today, raised a general objection to the support by union labor of Gov. B. F. Carroll as nominee of the republican party for governor at the coming primary, June 7. This is raised upon the fact that Governor Carroll's managers have endeavored to vote throughout the state printed letters without the union label, making a personal appeal for votes at the polls and support in getting votes in behalf of the present governor.

The Unionist prints a reproduction of these letters. It is disclosed as a bungling job of printing such as would be a discredit to any high class printing shop. This is held up by the Unionists as a glaring example of the inefficiency of the non-union shops and is pointed out as a reason why union labor should not vote for Governor Carroll, who it is said has patronized this non-union labor printing company. With the approaching primaries, indications are that Garst is making rapid gains for the nomination.

In the contest for the nomination of attorney general there is a close contest between J. A. Feely of Waterloo and George Cosson of Audubon. Union labor in Des Moines is also calling attention to the fact that the car of W. T. Chantland of Ft. Dodge, the third candidate for the nomination as attorney general, do not bear the union label. It is pointed in Des Moines that the union labor vote throughout the entire state is a factor of considerable merit in the primary.

MAKE COWNIE AN ISSUE.

Letter to Senator Maytag Makes Friends For Garst in Ida County. Special to Times-Republican. Ida Grove, May 27.—Mr. Cownie's letter to Senator Maytag is the topic of conversation on the street and in the stores. Some believe Mr. Cownie guilty of the charges made against him by Governor Carroll and much feeling exists that such a faithful public servant should be vilified for political purposes. The feeling is very strong that the best way to vindicate Mr. Cownie is to nominate Garst.

ENGINEER MOURNS HELMPEET.

WHY BE BALD

When Parisian Sage is Guaranteed to Stop Falling Hair, or Money Back?

A luxuriant head of hair is God's birthday to every man—to every woman. If your hair is falling out; if it is splitting; if it is turning gray; if it is full of dandruff; if it is harsh and uncontrollable, then it is diseased, and prompt action should be taken. Parisian Sage is a real hair restorer; it will darken faded hair; it will stop dandruff in one week by promptly killing the germs that infest the roots of the hair.

Parisian Sage is the most delightful hair dressing in the world; it is pleasant, invigorating and refreshing. It makes the hair soft, beautiful and luxuriant. Wherever Parisian Sage is known, it is the ladies' favorite hair dressing. We urge all women who desire beautiful hair to try Parisian Sage. If, after using one bottle, you do not say it is the most delightful hair dressing you ever used, you can have your money back. The price is only 50 cents a large bottle at E. A. Morgan's or by express, charges prepaid, from Giroux Mfg. Company, Buffalo, N. Y. The girl with the Auburn hair is on every bottle.

tomitis, a fatal malady which developed that morning. Mrs. Chesebro suffered a fractured hip just last Sunday morning, and was at the hospital for treatment. Anxious friends were very hopeful for her recovery, tho it had been announced that she would always be left a cripple. Yesterday morning her daughter, Stratford, Mrs. M. A. Beach, was summoned, arriving a few hours before her death. Mrs. Chesebro was 63 years old and leaves a husband, three sons and one daughter. She was a member of the Baptist church and took a great interest in church work. She will be greatly missed. The time of the funeral is not announced.

JORDON IN HARD LUCK.

Boone County Town's Business District Destroyed by Fire. Boone, May 27.—Fire yesterday afternoon totally destroyed the entire business district of Jordan, except a blacksmith shop. The elevator, lumber yard, corn crib, and store containing the postoffice, all belonging to J. V. Wilkie, postmaster, were wiped out. The fire is supposed to have started from sparks from a passing engine. The mail in the postoffice was burned up and the money and money orders, which were in a safe, it is thought were destroyed.

The loss is \$20,000, with insurance as follows: St. Paul, \$4,850; Spring Garden, \$2,500; Aetna, \$1,200; Phoenix, \$1,000; Home, \$2,975; Des Moines, \$1,000.

A Miner Missing.

BACK TO THE FARM

GRADUATES OF ANIMAL HUSBANDRY DEPARTMENT AT AMES REFUSE GOOD JOBS.

ALL BUT TWO OF BIG CLASS TO ENGAGE IN AGRICULTURE

Out of Class of Thirty-Eight, Thirty-Six Will Go Back to the Farm—College Besieged With Applications for Men to Accept Salaried Positions and Can't Fill Them.

Special to Times-Republican. Ames, May 27.—Out of the thirty-eight men who will graduate from the animal husbandry course at the agricultural college this spring, only two are to accept salaried positions. The other thirty-six are going back to the farm to engage in actual agriculture. Many of these men will go to work on their fathers' farms. Others will rent farms, or take up farm management positions on a share basis.

The animal husbandry department has been besieged with letters asking men to take up salaried positions. The salaries offered range from \$1,000 to \$2,000. Even such salaries as these are not enough to take the men from the farm, however, and the department has had to turn away dozens of offers because it did not have the men. This state of affairs is especially gratifying to Professor Kennedy, the head of the animal husbandry department. He believes that the first duty of an agricultural college is to train men for the farm.

He was charged with carrying concealed weapons and admitted that he had adopted rather strenuous methods of love-making. Miss Estella Myers, who lives near the end of the Walker street car line, promised to marry Cross. That is what Cross told the court. He said that when he saw her in company with another man his anger rose to such an extent that he was compelled to kill the couple. He was acquitted to kill the couple he was acquitted from the car and shot at himself. He was unhurt, paid his fine and was released.

The big iron safe that has stood for so many years in the private office of Thomas Murray, the late city engineer, is being the efforts of experts to unlock it. Mr. Murray always held the combination to the safe which contains not only many valuable records to the city but also many of Mr. Murray's private papers. The late engineer always guarded the combination to the safe carefully and no one entered it but he. Wednesday the son, Sidney, wanted to get into the safe to secure his father's private papers but no one in the city had the combination. Then an expert was called in but he could do nothing with the lock and finally a wire was sent to the manufacturer of the safe in the hope that the combination could be secured from the company. If not it may have to be blown open. The sudden death of Mr. Murray leaves the city officials with many perplexing questions confronting them.

LAKE PARK LOCALS.

Prominent Grain Dealer Building Fine Home—Crop Prospects.

He has large land holdings here. They are now starting the building of a new residence, which will be modern in every way and will probably cost somewhere around \$5,000.

Small grain is at its best in this part of the state and has never been more promising. Corn is coming very slow and some of it is rotting in the ground. A good deal will have to be replanted.

Anty Drudge on Early Rising.

Mrs. Workhard (winding alarm clock)—"I always set the alarm for 4 o'clock on Monday morning, so I can make an early start with my washing and get through before dark."

Anty Drudge—"Nonsense. Just you sleep three hours later, and then send to the grocer's for some Fels-Naptha soap, and do your washing the Fels-Naptha way. Your wash will be on the line before noon, cleaner and whiter than ever before."

In India the women still go down to the river banks and wash clothes by rubbing them over stones.

They are unprogressive, we say. But they are no farther behind the times than the American women who still boil clothes and hard-rub them on a washboard. The women of India don't weaken their clothes by boiling, at least.
