

JENNINGS PUPILS IN ANNUAL REUNION

EVENT ENJOYED BY MANY OLD-TIME FRIENDS AT LISCOMB FRIDAY.

RENEW ASSOCIATIONS OF MANY YEARS AGO

Old Officers of the Association Are Re-elected, E. E. Boyd as President—Day Spent by Hundred Picnickers at Bueghly's Springs in Most Happy Manner.

The annual picnic and reunion of the Jennings school-pupils who were in school at Liscomb from 1870 to 1875, when the late J. B. Jennings was principal—was held Friday at Bueghly's springs, a picturesque point on the Iowa river near Liscomb. Fully 100 of the old schoolmates, together with their families, were present for the occasion, and the reunion proved a most delightful one.

At the annual business meeting of the reunion association the present officers were re-elected, in the persons of E. E. Boyd, president; Elias Bueghly, vice president; Mrs. Emma Clark, secretary; and Mrs. Frona Scott, treasurer.

The day was ideal for picnicking, and pastimes of different sorts were arranged. Baseball kept the "boys" out of mischief until the call for dinner was sounded, and the appetites displayed were fully up to the standard set in school days.

After a most bounteous dinner, at which the guests were seated about a single table, the pupils registered and sat for a group picture, according to the yearly custom. The after-dinner program consisted of singing "The Vine Covered Cottage," by the "school children," the address of welcome by Elias Bueghly, and the response by Henry Wiley, of Conrad, who acted in the absence of Jesse Armstrong, of Zealring, who had been delegated for that mission. A duet by Mrs. Hattie Elliott Francis, of Rhoads, and Mrs. Chan Gifford was sung.

In the absence of the toastmaster, James H. Morgan, Mrs. Emma Morgan Humphrey, of Union, acted as master of ceremonies. The following toasts were responded to: "Games of Our School Days"—Mrs. Lou Morgan Rogers, Union.

"Jokes on Absent Ones"—Charles Withey, Omaha. "Social Gatherings and Spelling Schools"—Mrs. Frona Page Scott. "We're Twenty"—T. W. Hauser, Ames.

"In Memoriam"—Mrs. Dema Elliott Smith. "The Old vs. the New"—Mace Morgan, Altoona.

Class yells were given, and reminiscences were given by Will Starks, of John, Kan.; Dr. Frank Middleton, of Conrad; Mrs. Sadie Speicher Smith, of Mitchell, S. D.; and Joe Baker, of Whitten. Mrs. Emma Clark read a telegram of greetings from Mrs. Minnie Wiley Kendall, of Maysville, Pa., as well as letters from Bert Withey, of Mason City; Fred Withey, of Los Angeles, Cal.; James Morgan, of Glenwood; Rena Price Arney, of Chester; Van Wilson, of Mitchell, S. D.; Mrs. Vera Beeson Lybarger, of Osage; Cal and Sadie Steelsmith, of Texas; and Mrs. Mary Beeson, of Union, Iowa.

The program ended with singing "Auld Lang Syne."

The old pupils who were present at the reunion from a distance were C. H. Withey, of Omaha; Mr. and Mrs. T. W. Hauser, of Ames; Will Starks, of John, Kan.; Mrs. J. K. Smith, of Mitchell, S. D.; Mrs. Albert Speicher, of Peoria, Ill.; M. F. Morgan and family, of Altoona; Dr. and Mrs. Frank Middleton, of Conrad; Mrs. Hattie Francis, of Rhoads; and Mr. and Mrs. Frank Barber and H. R. McMahon, of Marshalltown.

Y. W. C. A. RECEPTION. Association Receives at Trine Home in Honor of Miss McKinley. About seventy-five enjoyed the Y. W. C. A. reception given Friday evening at the home of Mrs. C. C. Trine, to meet the new general secretary, Miss Angie McKinley. A delightful program of violin and piano duets by Misses Margherita Lewis and Fannie Lennox, readings by Mrs. H. T. Mairs, piano solo by Miss Lennox, and vocal numbers by Miss Edna Sears, was enjoyed, all responding to songs. Later in the evening, Miss McKinley gave an informal talk and frappe was served in the dining room. Mrs. Trine, Miss McKinley and Miss Edna Fullerton, the latter house secretary and president of the board, were in the receiving line.

LITTLE FELLOWS WIN

Frank Kne's Beef Trust Gambols Thru Strenuous Game, Defeating Elks By Score of 9 to 4—Baby Bliss Works a Whole Inning and Then Officiates.—Babies at Oskaloosa Today.

Frank Kne's infants visited Marshalltown yesterday for the purpose of meeting the Elks' baseball team, and the game, which went to the visitors, was a magnificent exhibition of what fat men can do on a hot day. The count was 9 to 4, more or less. The exact figures didn't matter. The beef trust won, according to the forecast, and everybody was happy. A large crowd was attracted to the game.

In order to maintain the harmonious setting of the game, and that everything might be as fat as "Fat Goodale, as he was once known, now given the more august title of Sergeant Goodale, was delegated to take tickets at the gate.

The principal interest in the game centered in the performance of Baby Bliss, the short stop of the Kne's aggregation, who hrs the scale at 640 pounds when in baseball uniform. Bliss remained on the firing line one inning and then officiated as umpire.

Prof. P. G. Holden, Chief Advocate For Better Corn

PROF. P. G. HOLDEN, Iowa's Great Corn Expert Whose Work the Farms Are Reflecting.

Long will the name of Perry G. Holden, the great corn specialist of Iowa State College, Ames, live with the Iowa farmer. The work he is doing for the man of the farm, and the benefits which have come to him who tills the soil because of these efforts, has linked his name inseparably with agricultural advancement. What his teachings have meant to the Iowa farmer cannot be measured. He has shown the way to better living, more and bountiful crops and agricultural success.

Holden has sought to lift the work of the farm to a higher plane, and he has succeeded. He has endeavored to point out those things that will help

to make better corn, and more of it. Has he succeeded in interesting the farmer? Ask almost one of those progressive, intelligent, Liscomb-Albion farmers who left their cultivators in the midst of their corn fields to spend a day with this man among the fields of their own and adjoining counties.

Has he been successful in the great campaign he has waged? Again ask that same group of farmers, for they are but representative of many others thru the state. Better still go visit their farms, for after all there will be found the best answer. And the reply is success. The fields and crops evidence it. The spaciousness and compactness of the corn stalks, the uniformity from all sides is success reflected.

Corn is Holden's specialty. During recent years he has given other things little comparative attention. From boundary to boundary of the state he has gone time and time again, perfecting always the same text, more and better corn per acre. The message has been received, absorbed and put into application.

Holden is a many-sided man, a man of vast experience. From a country school teacher, while he worked on the farm and earned his way thru college until he has reached that authoritative position on corn that his word is the final one on the subject. He is admittedly the greatest corn expert of the entire west. His services are constantly demanded on all sides.

From his earliest teaching experience Holden seems to have been interested in agriculture. He tells himself, how, when teaching a country school in Michigan, his native state, he began to tell his pupils about weeds, and gave them simple lessons such as the difference between perfect and imperfect growing strawberry plants. "From that time on," he says, "all difficulties over discipline in the school ceased."

Later, as a county superintendent in Michigan, he inaugurated a system of teaching agriculture in the rural schools. It proved successful. Later he managed a great farm in Illinois, and eight years ago Iowa got him. May Iowa be able to retain him.
