

Jelly Roll Recipe

Only Two Eggs Required

By Mrs. Janet McKenzie Hill, Editor of the Boston Cooking School Magazine

This Jelly Roll is fast becoming very popular on account of the way it keeps fresh. With proper handling it should keep fresh a whole week, providing it isn't eaten up in the meantime, for it is every bit as good as it looks.

K C Jelly Roll

One cup sifted flour; scant half tea-spoonful salt; 1 level teaspoonful K C Baking Powder; 1/2 level cup of milk; 1/2 level cup of sugar; 1/2 level cup of eggs beaten light; 1 cup sugar; 1/2 cup hot milk; glass of jelly; powdered sugar.

Beat the sugar into the eggs; add the lemon rind, then the flour, sifted three times with the salt and baking powder; and, lastly, the milk. Bake in a buttered dripping pan; turn out on a damp cloth, trim off the crisp edges, spread with jelly and turn over and cover into a roll while still warm. Dredge the top with powdered sugar.

Hot milk used in the jelly roll enables it to be rolled without danger of cracking. Have the milk scalding hot, and be careful to have the eggs and sugar beaten together until very light and creamy. Bake in a moderate oven.

K C Jelly Roll is illustrated on page thirty-two of the new and handsomely illustrated 64-page K C Cook's Book, which may be secured free by sending the certificate packed in every 25-cent can of K C Baking Powder to the JAGUES MFG. CO., Chicago, Ill.

Deadly Stuff

You buy Paris green, arsenate of lead or other poisons for killing purposes and for the protection of your crops, you want materials that can be depended upon to get to the business. Failure to get proper results means loss of time and money.

We buy these insect poisons from the best manufacturers, our stock is all fresh this year and will be found effective to the highest degree.

NO COMMITTEE CHANGE

PROBABLE THAT STATE CONVENTION WILL RE-ELECT PRESENT CENTRAL COMMITTEE.

THREAT TO DEFEAT ADLER GIVEN LITTLE CREDENCE

Jackson Committee Violating State Law in Not Filing Report of Expenditures—Hungary's Official Agricultural Visiting in Iowa—Will Go to Ames and See State Fair.

Special to Times-Republican.

Des Moines, June 22.—Every member of the republican state committee except the member from the Fifth will be a candidate for re-election by the republican state convention Aug. 3. It is probable that the candidates will all be re-elected. The standpaters who seek re-election are Cowles, Wright and Devitt. The progressives are Franks, Rinker, Head, Whitney, Adler and Lyon. There will be no opposition to any of them. Mr. Haskell of the Fifth district is not seeking re-election. The election is not represented since the death of Mr. Copeland. The claim of the standpaters to being able to regain the control of the state committee rests on their expectation that they will be able to defeat Mr. Adler and this can only be done if the standpaters in the Second district are concerned by inducing Scott county to go back on him. But Scott county is in full control of progressive republicans.

While the law expressly says that the state committee shall be elected by the convention yet two years ago, under the same law, the precedent was followed of the past and the state convention accepted the nominations of the district caucuses. The convention could completely ignore the wishes of the districts if it so desired, but it is not likely it will be done.

The Jackson committee, handling the so-called Taft-republican party and ostensibly working alone for the election of delegates, made no report to the secretary of state as required by law and it is supposed that the intention of that organization is to remain in open and defiant defiance of all law. The committee pretended to be engaged in political work to secure election of delegates, which under the primary are officials as much as any others. Since the election was never revealed, which had a great deal to do with the distribution of funds secured in Chicago and working chiefly to affect the railroad commission. This one probably could claim exemption as a non-resident.

John Safary, the official agriculturist of the Hungarian government, resident of a large town near Budapest, where he publishes the only agricultural paper in the Hungarian kingdom, is spending a few days in Iowa, and he has indicated that he will take great pleasure in coming to the Iowa state fair in August. Safary is making a study of agricultural conditions throughout the United States. "I shall go to your agricultural college at Ames," he said, "and I want to go out and visit some of your best farms. I want to see some of the best stock farms and dairy farms in Iowa, and to find out all that I can about farming in what is regarded as one of the finest farming regions of the world." Mr. Safary spent some time with the writer last summer in making an investigation of the new dry farming movement in the west. There are large portions of Hungary where conditions are very similar to those found on the plains of the west, and already the teachings of Mr. Campbell, the "father of dry farming" have been studied much in Hungary and are being put to good use.

An eastern magazine has been engaged in collecting the views of the people regarding Roosevelt, which is indirectly that of finding out what they think of Taft, and summarizing several thousand replies makes the assertion that the national republican convention were to meet now, there is hardly a doubt that Mr. Roosevelt would be nominated—whether he wishes to be or not. Only one letter is quoted from that came from an Iowa man. That was from Mr. F. D. Babcock, Ida Grove, who wrote: "I am more than ever in favor of his becoming president again since he arrived in Rome. The captains of industry and millionaires all sit up and take notice when he speaks on any industrial or financial question. He is as independent as George III and as honest as George Washington."

MAYOR WITHOLDS GLAD HAND.

Des Moines Executive Refuses Welcoming Address to Liquor Dealers. Des Moines, June 22.—The Iowa Retail Liquor Dealers' Association, which began its convention here yesterday, is indignant because Mayor Hanna refused to give the address of welcome Colonel Joseph Elboeck consented, however, to welcome them to Des Moines. Secretary Harry Mayne, of Sioux City, in an address declared that liquor men are fighting only for fair laws and are law abiding citizens. Davenport is likely to get the next convention.

UPPER DES MOINES EDITORS.

Roberts to Answer Shaw's Central Bank Attack at Convention. Special to Times-Republican.

Iowa City, June 22.—Leslie M. Shaw's attack on the central bank will be defensively answered by Hon. George F. Roberts at the convention of the Upper Des Moines Editorial Association, which will be held in Iowa City July 7-8. The non-technical portion of the editors' program will also embrace an address of welcome by

Mayor Ralph Otto, and one by President George E. MacLean. Paul E. Stillman, of the Jefferson Bee, president of the association, will respond. The social features of the convention will include a breakfast to all visiting ladies by President MacLean's wife, an automobile ride to many points of interest, a boat ride on the Iowa river, and the Country Club, given by the Commercial Club.

OFFICIAL VOTE IN IOWA.

Final Figures Do Not Change General Results. Des Moines, June 22.—The total vote from ninety-eight of the ninety-nine counties gave Carroll a lead over Warren Garst of 2,774 votes. The official vote from Wapello has not reached the executive council as yet; however, it was secured yesterday afternoon from the county auditor at Ottumwa and it gives Carroll 1,254 majority. This makes his majority in the state, 4,028 votes.

The executive council is unable to issue any certificates of nomination until the Wapello vote is received, but the total vote from all the other counties has been secured. The receipt of the Wapello vote the canvass will be wound up by the council. Unless enjoined by order of court the executive council will divide the total vote for railroad commission by two and then make nominations on 35 per cent of half the total vote, thus making the nomination of Col. D. J. Palmer and Clifford Thorne, both of Washington, certain.

Official Republican Vote.

Table listing candidates and their vote counts for the Republican party, including Carroll (R) with 90,464 votes and Garst (R) with 87,690 votes.

Official Democratic Vote.

Table listing candidates and their vote counts for the Democratic party, including Bashor (D) with 8,547 votes and Moon (D) with 6,249 votes.

Republican Congressional Vote.

Table listing candidates and their vote counts for the Republican Congressional party, including Prouty (R) with 14,122 votes and Hull (R) with 10,845 votes.

Young People's Convention.

Muscatine, June 22.—The convention of the young people's societies of southeastern Iowa, of the German Evangelical Synod of North America, opened yesterday afternoon in the German Evangelical church here, with a large number of delegates and ministers in attendance. The chairman of the convention is Rev. Max Hoepfner, of Fort Madison. Besides the regular routine of business a number of papers were read and discussions followed.

Eldora Wins Sixth Game.

Special to Times-Republican. Eldora, June 22.—Eldora defeated Iowa Falls at Iowa Falls yesterday for the second time, by a score of 16 to 2. This makes the sixth consecutive victory for the Eldora team, making the team's percentage still 1,000.

New Lutheran Church.

Clinton, June 22.—The services attendant upon the laying of the cornerstone of the new St. Paul Lutheran church of this city will be held Sunday afternoon, July 8, at 1:30 o'clock.

A Great Mistake.

PREHISTORIC RELICS

SKELETONS OF MASTODON AND OTHER MAMMOTH REMAINS FOUND NEAR LEMARS.

BONES ARE UNCOVERED DEEP DOWN IN GRAVEL

Other Skeletons of Reptile to Which Alligator Belongs—Relics Sent to Sioux City School for Preservation—Found at Depth of Seventy Feet and Under Water.

Slough City, June 22.—The skeleton of a mastodon, or at least a large part of it, is in a gravel pit near Lemars. Fred C. Smith, curator of the Sioux City Academy of Science and Letters, has received enough of a tusk to convince him of the genuineness of the find. He has in his office in the American block, a section of the tusk, which is solid ivory more than two feet long. It is a part from the curling end of the tusk. Other sections have been taken out of the pit which convince him that the entire tusk must have been twenty feet long. A great section of fossil remains is still imbedded in the gravel pit, which workmen are now digging around, what Smith believes is the head of the prehistoric monster.

The mastodon tooth, a complete one, has many times the size of the modern pachyderm. The pit is the property of Charles G. Grimes, of LeMars. The fossils were dug out of it at a depth of 70 feet and are flooded with water, which keeps them in a good state of preservation, but causes them to crumble when they dry in the open air. Mr. Smith expects to varnish the pieces to preserve them.

In the same level with the mastodon remains were picked up a vertebral bone of a saurian, the family to which the alligator and crocodile belong, and a petrified fossil tooth of a prehistoric horse. At a 20-foot depth in the gravel the skull of a deer was taken out by the workmen, which the curator has. Father Fuerstein, of the LeMars Catholic parochial school, has a complete mastodon tooth, about a foot in length, that was taken from the pit.

JUDGE TOLERTON CELEBRATES.

Hundred Friends Assist in Observing Special to Times-Republican.

Cedar Falls, June 22.—Judge J. J. Tolerton today celebrated the 70th anniversary of his birth by entertaining 100 of his Cedar Falls friends at an evening reception. Judge Tolerton came to Cedar Falls from Salem, O., in 1840, having just completed his law course. He built up a fine practice and accumulated considerable property. It was largely an office, probate and equity practice. He was district judge for three years dating from January 1885. His health has improved since he paired at that time and during the intervening years he has lived a quiet life, spending much of the time at his home. The friends presented the judge with an elegant easy chair and many congratulations were showered upon him for his improved health. Judge Tolerton was the first to hold court in the new court house in Delaware county at Manchester, it being completed while he was on the bench. He is a member of the Black Hawk County Old Settlers' Association.

BOYS MAKING TOO MUCH.

Washington County Supervisors Revoked Bounty on Ground Hogs.

Washington, June 22.—Washington county supervisors have revoked the bounty of 25 cents per head on ground hogs. The boys of the county have been filing into the auditor's office at the court house in such numbers that the supervisors became alarmed at the trend the affair was taking. The condition became so serious that a special deputy to take care of the youngsters, was talked of. But to avoid any more confusion over in the court house along this line the supervisors called the bounty off. This order will go into effect July 2. Just one year after the bounty was ordered. Auditor Myers says that from \$150 to \$200 per month is the rate the money has been going out of the treasury this spring. The whole auditor's office is filled with the heads the boys have brought in, and there will be no more pleased official over at the court house after July 2 than the auditor.

MISSOURI VALLEY BAPTISTS.

Thirty-Seventh Annual Convention Being Held in Sioux City.

Sioux City, June 22.—The 37th anniversary of the formation of the Sioux Valley Baptist Association is being observed by a three days' convention in the First Baptist church. The sessions of the association started Tuesday noon with a dinner in the social room of the church. J. A. Frey delivered the address of welcome. Following was ordered. Auditor Myers said at 2:30 o'clock, Rev. E. H. Stevens led a discussion on the association, its territory and how the churches might be of greater help to each other. The members took a trip to Riverside at 4:30 o'clock, where boating was indulged in. A bible school round table, led by J. L. Lephant, and a talk by Fred Berry, state evangelist, in the evening, concluded the program for the day. The meeting will close Thursday night.

DAIRY COWS UNDER TEST.

Iowa Farmers Have Means of Ascertain Quality of Butter Fat. Manchester, June 22.—The Manchester Cow Testing Association, which has been in operation in this county for a month, following the plan employed in Denmark, is considered a success by each of its twenty-seven members. The officers of the organization are: A. E. Mead, president; F. L. Hicks, vice president, and G. W. Dunham, secretary and treasurer. The purpose is to ascertain by scientific tests just what amount of butter fat is produced by each cow, and the cattle not producing the amount of fat they should are sold at once for beef. It costs as much to feed an animal producing a small amount of fat

as it does for one producing a large amount, and the members believe that by ridding themselves of the undesirable they will make more net profit and at the same time improve their herd.

The testing is in charge of F. L. Gregory, a dairy expert from the state agricultural college at Ames. He makes monthly visits to Manchester and calls upon each member of the association. A fee of \$1 a year is assessed against the farmer for each cow tested, and this money he employed to defray the expenses of Mr. Gregory, and the incidentals of postage, printed matter, etc.

The members already see a noticeable improvement in their herds, and within a year or two it is expected the cattle in this county will exceed those of other localities where the plan is not in operation.

SLIFSGAARD AGAIN ILL.

Traveling Man Slugged by Robbers in Serious Condition.

Cedar Falls, June 22.—Jesse Slifsgaard the young man who was slugged and badly beaten by thugs at Waterloo a few weeks ago and for many days his life hung in the balance, but recovering sufficiently to be allowed to leave the hospital, is again confined to his bed, and this time he is reported as resting fairly well. Yesterday one of his ears discharged a lot of pus which gave him much relief and it is now hoped that his troubles will be relieved permanently.

PROHIBS FEAR TRICK.

See Danger to Cause in Change in Liquor Dealers' Attitude.

Des Moines, June 22.—Just at the time when the Iowa Anti-Saloon League has decided to make a determined campaign for the holding of a constitutional amendment convention, there comes the disquieting report that the Iowa Retail Liquor Dealers' Association, now in convention in Des Moines, will help to bring about the convention with the hope of packing it with non-prohibitionists, who will out-vote the city, where the amendment proposition another black eye.

The report that the liquor dealers will adopt a resolution favoring the holding of the convention gained currency last night in Des Moines, but none of the delegates to the convention would talk about the subject when an attempt was made to interview them. The rumor came from the "drys" themselves, but not from the members of the Iowa Anti-Saloon League, who are still confident that they can poll enough votes in the constitutional amendment convention to carry their point.

Tumor Causes Sudden Death.

Waterloo, June 22.—Altho he had been suffering for the past four months with a brain tumor, death at the last came suddenly to Francis Elmer Sisco, an employe of the Illinois Central shops. Mr. Sisco's illness had at first baffled the skill of local physicians here and at Rochester, Minn., where he went a few weeks ago for examination, but all had finally decided that a tumor on the brain was responsible for the severe headaches and other symptoms of a serious nature which first was noticed four months ago. He suffered a recurrence of the attacks yesterday and died two hours later.

Cut by Launch Propeller.

Clear Lake, June 22.—While swimming in the lake Lyle Johnson came in contact with the propeller of a launch and was badly mangled. His left leg was drawn in and cut so badly that for a time it was thought that he would bleed to death before a surgeon could reach him.

ROOTS, HERBS AND BARKS

You can no doubt recall the collection of roots, herbs and barks your grandmother made every fall for the family medicine chest. It is interesting to note that the most successful remedy for female ills had its origin more than thirty years ago in one of these home medicine chests, and Lydia E. Pinkham's Vegetable Compound is made today in immense quantities from those same roots and herbs with extreme accuracy, care and cleanliness.

IOWA LOSES COACH

IDAHO RAISES S. U. I.'S BID AND GRIFFITH WILL GO WEST.

TWO PRESIDENT MACLEANS COMPETE FOR ATHLETE

Griffith Once Served Idaho and Put Winning Track Team in the Field—Western University Makes Offer That Iowa Could Not Reach—Other Iowa News.

Special to Times-Republican.

Iowa City, June 22.—Two MacLeans have been bidding against each other during the current week for the services of Iowa's great coach, John G. Griffith, and MacLean, of Idaho, with a freer hand, and more money in it, has won from MacLean, of Iowa. The contract offered by MacLean, of Idaho, in his effort to win back the coach that sent Idaho into the championship of the Idaho-Washington-Montana league, offers \$2,000 a year for the first year, and more thereafter, and a term from three to five years in length, as Griffith will elect. MacLean, of Idaho, inasmuch as MacLean, of Iowa—that is, his board in control of athletics—had neither the shekels nor the power to make long term contracts.

Thus Iowa will lose in September the greatest coach that ever set foot on the Hawkeye gridiron. It is whispered here that Iowa will now bid for Dr. Sam Hobbs, long loved by Drake.

GIRL MYSTERIOUSLY MISSING.

Adopted Daughter of Athletic Couple Disappears, Whereabouts Unknown. Special to Times-Republican.

Creighton, June 22.—Grace Whited, the adopted daughter of E. A. Whited, of Atlantic, disappeared from the home of G. W. Talbot, where she had been living for a time, June 2, under rather mysterious circumstances and has not been seen since, nor did she leave any word. She was about 17 years of age and was adopted by the Whites from the Council Bluffs orphanage. She attended school for some time, but lately had been working at the hotel in Atlantic. On the afternoon of June 2 she went to Audubon with a friend, and upon returning came with a man in an auto, who was unknown to Mr. Talbot.

About 8 o'clock in the evening she started to leave the house, when Mr. Talbot asked her where she was going? She replied, "I am going over to Gaines", but won't be gone long. Since that time not a word of explanation has been heard from her. Mr. Talbot says that about 20 minutes after she left the house the last time two men in an auto drove up and inquired for her. He told them she had gone, but did not say where. Considerable feeling has been worked up over the affair.

Gangrene Causes Death.

Waterloo, June 22.—George W. Corron, of Westfield, who settled in Black Hawk county in 1853, died yesterday in the Presbyterian hospital, where he was taken, desperately sick, for treatment a week ago last Saturday. An operation was performed that day for appendicitis, but it was discovered, that the disease had progressed to a point beyond surgical or medical aid. A large abscess had formed and burst. Gangrene set in and the most amazing feature of the case was the long time the patient survived in such a critical condition.

Women's Secrets

There is one man in the United States who has perhaps heard more women's secrets than any other man or woman in the country. These secrets are not secrets of guilt or shame, but the secrets of suffering, and they have been confided to Dr. R. V. Pierce in the hope and expectation of advice and help. That few of these women have been disappointed in their expectations is proved by the fact that ninety-eight per cent. of all women treated by Dr. Pierce have been absolutely cured, altogether cured. Such a record would be remarkable if the cases treated were numbered by hundreds only. But when that record applies to the treatment of more than half-a-million women, in a practice of over 40 years, it is phenomenal, and entitles Dr. Pierce to the gratitude accorded him by women, as the first specialist in the treatment of women's diseases.

Every sick woman may consult Dr. Pierce by letter, absolutely without charge. All replies are mailed, sealed in perfectly plain envelopes, without any printing or advertising whatever, upon them. Write without fear as without fee, to World's Dispensary Medical Association, Dr. R. V. Pierce, Pres., Buffalo, N. Y.

DR. PIERCE'S FAVORITE PRESCRIPTION Makes Weak Women Strong, Sick Women Well.
