

SPLIT, BRITTLE, DULL HAIR.
All Come From Dandruff, Which is Caused by a Germ.
Split hair, hard hair, lusterless hair, brittle hair, falling hair, all owe their origin to dandruff, which is caused by a measly little microbe that burrows into the scalp, throwing up the cuticle into dandruff scales and sapping the vitality of the hair at the root, causing the several diseased conditions of the hair till it finally falls out. Modern science has discovered a remedy to destroy the dandruff microbe, which is combined in Newbro's Herpicide, the delightful hair dressing. Always itching instantly and makes hair soft as silk. Take no substitute; nothing "just as good." Sold by leading druggists. Send 30 cents in stamps for sample to The Herpicide Co., Detroit, Mich.

MISSING MANCHESTER YOUTH LOCATED WHERE MEDIUM PREDICTED HE WOULD BE.

WORKING IN MINNESOTA, SENDS HOME FOR MONEY

Writes Letter to Parents Telling Them He is Well and Intends to Go into Far North—Relatives Feared Boy Had Lost Life While Exploring Neighboring Cave.

Special to Times-Republican.
Manchester, June 22.—Coinciding with the theory given out by the Independence medium in regard to the disappearance of Russel Bowers one week ago Sunday, the lad's parents, Mr. and Mrs. D. T. Bowers, of Delhi, on yesterday received a letter from the youth from a point in Minnesota. The letter stated that he had gone from the Davis farm, eight miles south of Manchester, to Cedar Rapids, where he had stopped off for a day. From there he had worked his way north and was in perfect health as given out by Dr. Shattuck.

At the time the boy left home he had only twenty cents but in his letter home he asked that his parents secure \$40 that was left in unpaid wages from Mr. Davis, saying that he wished to go on farther.

For a time it had been thought that the young man might have met his death in the caves in the southern part of the county, where there are several on a large scale which have never been explored to any extent. It had been thought possible that the boy became interested in the study of geology and might have wandered here and fallen in a pit. Several local people claim that one cave is of such proportions that one man had entered for a distance of sixty feet but was unable to proceed farther on account of the bad atmosphere.

OFFICER RATHER FRESH.
Burlington Colored Man, Arrested Without Cause, Files Charges.

Burlington, June 22.—John Brooks, a well-known colored resident of Burlington for many years, has filed a charge of assault and battery against Officer Sam Tygart in a justice court and has also filed charges with the city council, alleging illegal arrest and seeking the removal of Tygart from the force. Brooks, whose reputation is good, alleges that he was slitting in his buggy near the corner of Main and Market street waiting for his wife, who had gone upstairs with some sewing. Officer Tygart came along and told Brooks to move on. Brooks said he did not have to move, and it is claimed Tygart climbed into the buggy. Brooks pushed him out, and then Tygart said he was an officer and that Brooks was under arrest. Brooks claims that he then explained that he was waiting for his wife, but the officer drove him to the central police station in his own buggy. Inside the station Brooks was searched and his personal effects taken from him. He thereupon lodged in a cell he alleges that Tygart struck him in the face. Mrs. Brooks came to the station shortly afterwards and the claim is made that she was not permitted to see her husband and was finally compelled to drive home alone. Brooks was released when the chief of police came down in the morning.

DEPOT AGENT HELD UP.
Robbers Arrested, Disgorge Booty and Are Released.

Clinton, June 22.—Agent W. Book, employed by the Northwestern railway at Anderson, was held up and robbed by two highwaymen about 11 o'clock at night. During the melee he was shot and badly injured in the arm. The robbers were caught and the money recovered. After being injured in the arm the agent, together with the town marshal and others who congregated after the firing of the shots, succeeded in capturing the two who were engaged in the holdup. When the money which he had secured from the agents was returned, the men were released, as there was no place where they could be kept and the agent was lenient and let them go. Mr. Book was quite severely injured in the right forearm, and he and his brother immediately came to Clinton on a motor car to have the injuries attended to by a physician.

A LIVELY NEEDLE.
Traversed Man's Leg From Foot to Thigh in Fourteen Months.

Special to Times-Republican.
Iowa City, June 22.—A housewife's common needle, long and slim and sharp, but rusted, was drawn from the thigh of Samuel Yarbrough, a pioneer, as he lay on a bed of pain, a presumed victim of rheumatism, today. Then Yarbrough recalled to his mind the fact that he had stepped on that self-same needle in April, 1909, while walking in the kitchen barefooted before dawn. He drove it clear into the sole of his foot, and it vanished completely. In fourteen months it has toured his right leg, almost to the body. Surgeons anticipate no ill effects from this remarkable journey.

INVESTIGATING CAUSE OF DEATH
Sudden Demise of Atlantic Citizen Arouses Suspicion.

Atlantic, June 22.—The authorities are making an investigation into the death of Charles Casperon, which occurred late Monday. Various reports as to the cause of his death are in circulation. It was supposed he had committed suicide by drinking carbolic acid, when he first lapsed into unconsciousness it was thought he had been overcome by the intense heat. It is known now that there were a number of callers at the Casperon home Sunday evening and it is reported that there was some trouble there. Casperon had a bad wound on the side of his head, which may have been inflicted by someone or may have been caused by a fall. Casperon was a hardworking man and there seems to be no good reason for his committing suicide. He came home last Friday feeling ill and

his wife says he complained of the heat. Saturday he was unable to go to work and was ill all day Sunday. He said he hardly thought he could get to work Monday and his wife told him he ought not to try to work until he felt better. Sunday evening she visited a neighbor's for a few minutes and on returning found her husband very sick. He called to her and said, "Goodby, I'm a free man now, I'm going." She thought at the time he was delirious from the heat. When the doctor was called and made an examination he detected the odor of carbolic acid on his breath. Later an empty acid bottle was found in the yard. He lingered until late Monday afternoon, but never regained consciousness.

CARNIVAL AFTERMATH.
Harvest of Erring Girls Follows in Wake of "Show."

Dubuque, June 22.—The expected aftermath of the carnival, as the result of its "Dancing Girls of Paris," "Fairies in the well," and similar features, occurred in two mothers' lists making inquiries of the police regarding their daughters. From the experiences Dubuque has had, it would seem that these salacious attractions recruit their girls as they go along. Last week a young husband followed the carnival to Dubuque to reclaim his erring wife and from the "freshness" of some of the girls seen in some of the shows, they hadn't been in the gay life very long. The police have secured evidence that missing girls were hanging around one of the shows and an officer will be sent to the next city in Indiana, to see if they are with the "show."

Stole Rig in Daytime.
Davenport, June 22.—Across the government bridge to Rock Island went another stolen horse and buggy yesterday afternoon at 4 o'clock. The men it were Earl Hunter and a fellow by the name of Rutledge. They are accused of taking the horse from where it was hitched in the alley between Fourth and Fifth and Brown and Warren streets in Davenport, and it is claimed that they sold the outfit in Rock Island and were caught with the goods on their early last evening. Detective Sanford chaperoned them back to this city, where they are being held to await trial for grand larceny.

Woman Got His Wad.
Sioux City, June 22.—Pete Hanson, late of Omaha, is the latest one to join the E. Z. Money class.

Pete claims he was the possessor of \$25 when he entered the resort of Sadie Bright in this city and acknowledges that when he departed he could not have purchased a sparrow's wing if turkeys were sold for a penny.

Pete says that after several battles had been absorbed Sadie grabbed him by the arm and told him to hurry, as an uncle of hers was due to make his appearance, and Pete fell for it.

JOICE CASE CALLED

FEDERAL GRAND JURY AT FORT DODGE TAKES UP PROBE OF BANKER'S AFFAIRS.

JOICE NOW OUT OF STATE BUT UNDER SURVEILLANCE

Will Be Taken to Fort Dodge for Arraignment in Case of Indictment—Former Lake Mills Man Alleged to Have Floated a Half Million of Bad Paper Under Investigation.

Special to Times-Republican.
Fort Dodge, June 22.—The affairs of P. M. Joice, the former president of the Lake Mills national bank and extensive land owner, were taken up by the federal grand jury here today.

Joice is alleged to have floated a half million dollars' worth of bad paper during the past few years, some of which he later took care of when confronted with the deals. Much of this paper is said to be still outstanding, although Joice has been turning his heavy holdings in western lands into cash in order to make good his fraudulent notes.

Joice is said to have been missing from his home in Minneapolis for some time, but reliable information is to the effect that he has been under surveillance for several months and will be taken into custody and brought here for arraignment in case an indictment is reported.

BAD COUNTRY FIRE.
Two Barns and Contents Burned and Boys Seriously Injured.

Charles City, June 22.—Two big barns on the John Hobert farm, two miles east of Charles City, were totally destroyed by fire, together with the entire contents. Two of the Hobert boys received serious injuries which may prove fatal, in one case at least.

Ed Hobert, the son who occupies the farm, went to the barn with a lantern about 8 o'clock and it is believed that the lantern exploded and started the blaze. The drought made the barns ready tinder and the two structures, one 56x70 and the other 20x40, were almost completely destroyed, with 300 bushels of oats, twenty tons of hay, harness, farm machinery and other contents.

Ed Hobert was badly burned in his throat by inhaling the flames and

ly the lockmen shut down the shaft and released the girls who were almost stripped of their wearing apparel and placed in an embarrassing predicament. Clothing was sent for and the frightened girls continued their way homeward. It was lucky for them that the shaft was running slow or otherwise a fatal accident or death might have resulted.

A large number of delegates and ministers, both clergymen and laymen, was present, and the session was marked by excellent papers and addresses.

After sixty-six years' continual residence in Ottumwa, Mrs. Esther Armstrong, widow of David Armstrong, a nonagenarian, and one of the earliest residents of this section of the state, passed away Sunday evening. Mrs. Armstrong was one of the early pioneers, she came to Iowa in 1844, when the state was still a territory, and two years before it was admitted to the union. Another death the same day was that of Mrs. Sarah S. Harnish, aged 93.

Keokuk.

S.S.S. REMOVES ALL HUMORS FROM THE BLOOD

The cause of all skin diseases can be traced to some humor in the blood. Healthy cuticles are only possible where the circulation is pure; and there the cure of any skin trouble can only come from a thorough cleansing of this vital fluid. Salves, washes, lotions, etc., cannot cure. True, such treatment relieves some of the itching and discomfort, helps to reduce inflammation, and aids in keeping the affected parts clean, but it does not reach the blood, where the real cause is located, and at best can only be palliating and soothing. S. S. S. cures skin diseases of every character and kind, because it purifies the blood. It goes into the circulation and removes the humors that are causing the trouble, builds up weak, acid blood, and completely cures Eczema, Acne, Tetter, Salt Rheum, Poison Oak, and every other variety of skin affection. When S. S. S. has driven the humors from the blood, and purified the acid-heated circulation, every symptom passes away, the cuticle is again nourished with rich, healthful blood, and comfort is given to diseased and itchy skin. Beware of cheap imitations. Only medical advice free to all who write. THE SWIFT SPECIFIC CO., ATLANTA, GA.

The flames soon spread to the old harness shop building, adjoining, which was vacant and the law office building of W. B. Vanderzain, burning the three to the ground. All the property was great was spending by insurance and the loss will probably reach \$2,000. The flames threatened to spread further but good work kept them in check.
