

Hay's Hair Health

"KEEPS YOU LOOKING YOUNG"

Women realize that luxuriant hair of rich, youthful color always adds to their charms. Their hair may be golden, brown or black, but when the hair becomes gray, there is an appearance of age; an unnatural discoloration and a handicap in social and business life. Hay's Hair Health will remove all traces of gray hair and restore it to its natural color. It will not soil skin or linen. Will not injure your hair.

Is not a dye.

Send for books "The Care of the Hair and Skin," Philo Hay Spec. Co., Newark, N. J., U. S. A., and Toronto, Can.

MURDER TRIAL FARGES

FORMER GOVERNOR OF COLORADO PLEADS FOR LAW CHANGES IN IOWA.

MENTAL EXPERTS TESTIMONY "SCIENTIFIC BALDERDASH"

C. S. Thomas, of Denver, Scores Statutes Which Permit Murderers to Escape Penalties Thru the "Lawless Science of the Law"—Tra vesties on Justice Must Yield to Saner Methods.

Des Moines, June 24.—Denouncing the modern murder trial as "scientific balderdash," C. S. Thomas, of Denver, ex-governor of Colorado, made a vigorous plea for more speedy, simple justice, in an address before the Iowa State Bar Association late yesterday afternoon.

"The modern murder trial is a curious and startling evolution in the lawless science of the law," said Mr. Thomas. "The toleration of public sentiment toward the man who kills the spoiler of his home has ripened into a legal justification for homicide, and we now the defense of the unwritten law."

"If a defendant can prove any so-called eccentricity of his own or an ancestor, immediate or remote, followed by any betrayal of excitement or lack of it on his part when the homicide is committed which will enable his counsel to prepare a hypothetical question of 10,000 words, to be propounded to and answered by half a dozen medical gentlemen possessed of many college degrees, his chances of acquittal are more than even."

"These things be travesties on justice which must give way to saner and sounder methods if the law is to perform its normal functions."

HERO, ALTHO THIEF.

Police Chief Condones Boy's Crime Upon Learning its Cause.

Des Moines, June 24.—Edgar Rasler, aged 15 years, is a boy hero. He has not pulled anybody from the river; he has not admitted himself a thief. He has instead admitted himself a thief and confessed that he robbed a quarter gas meter for money to buy food—but the officials say he is a hero because he has taken an oath he means to keep, to forever be good. Besides, they have learned that he works in a coal mine and supports a family of four. He earns \$1.15 a day and reserves for himself but 25 cents per week.

The story of this manly boy has no parallel in local police history. He was reared under the worst conditions, but now, at the age of 15 years, a weakly, thin little boy, he supports his grandmother, his elder sister, a baby brother and himself. Besides, his grandmother has saved a little from his earnings.

The story all came out yesterday in the private office of Chief Detective Johnston. Edgar was arrested. For many days the detectives have cooperated with the officials of the Des Moines Gas Company to run to earth a band of gas meter thieves. The dragnet was set and it bagged Edgar with the rest.

The little boy listened while the chief explained about stealing, telling the lad how it is wrong and he seemed better to understand. At last when Johnston had told him he could have one more chance, the boy's face shone with joy and he said:

"Mr. Johnston, I am so glad. My mother told me you were awful good to us once before. My father told me you helped get my sisters in the children's home. I want to be good. I don't quite think it was stealing to take the quarters from that box in my aunt's cellar. I got off every other Saturday afternoon. I want to wash up next time and come down and see you. I will bring a note from the boss that I have been good."

The chief let him go and gave him money to pay his car fare home and get something for his little brother. It was a clear case of robbery. The boy did take the quarters from the meter. There are few officers who would have sent him to jail.

This One Different.

Des Moines, June 24.—A little boy staggered under the load of a basket of books yesterday as he waddled across the back yard. A woman stood over him with a strap while he made the books into a pile and then set them on fire. Both stood off and watched the leaves curl and burst into flame and crackle and smoke until the last was but a pile of blackened leaves.

The books contained boys' stories of adventures and exciting things. The mother was Mrs. W. S. Ward. She is the wife of the proprietor of the Flynn barber shop down town. The boy was Harry Ward, aged 13 years, the captain of the crew which took a horse and buggy from a church Saturday night and drove fifty-eight miles to Guthrie Center. His crew comprised Frankie Van Draka, aged 10 years, and

two boys, who got cold feet and wouldn't go.

Mrs. Ward returned home with them last evening. The burning of the books—the source of Harry's adventurous ideas—was his punishment for the escapade which cost his father an even hundred dollars.

VOTERS SHOW UNDER REQUEST FOR AN EXTENSION OF EXISTING FRANCHISE

WANTED TO RAISE RATES 25 TO 50 PER CENT

Consolidation of Local and Bell Companies Recently Perfected and Rate Boost Was Contemplated—Company Says Increase Will Be Made July 1 Regardless, and Lawsuit Probable.

Special to Times-Republican.

Newton, June 24.—The election on the question of granting the Jasper County Telephone Company a second ten-year franchise was defeated here yesterday, the vote being 65 for and 564 against. The old franchise expires next April. The company desired to raise the rate 25 to 50 per cent. The old rates for residences was \$1, business houses \$2. The company recently leased the Bell lines, whose perpetual franchise calls for reasonable rates. It is generally believed the company will attempt to operate under the Bell franchise. The company says it will raise the rates July 1, and a lawsuit is expected.

IMPORTANT TEST CASE

Involves Question of Federal Right to Regulate Hours of Railroad Employees and Said to Be First in United States.

Special to Times-Republican.

Fort Dodge, June 24.—Whether or not the United States government has the right to regulate the working hours of railroad employees will be determined as the result of a test case started in the federal court on Thursday afternoon and in which the Illinois Central Railroad Company is named as defendant. The case is said to be the first one of its kind ever tried in the United States and the verdict is likely to be of national importance.

Ribs Severed By Knife.

Osage, June 24.—Antonio Somanski had three ribs severed from their moorings to the spinal column Wednesday night by a fellow foreigner who used a knife on his dagger comrade. The men got into a fight after their work on the asphalt paving was over for the day and Somanski's assailant plunged his wicked stiletto into the back of his antagonist. The three ribs were cut off completely and several other wounds were inflicted which will mar the beauty of the victim for all time to come.

TO RESIST DOUBLE RATES.

East Des Moines Business Men Organize to Fight Telephone Company.

Des Moines, June 24.—That they may make a fight against the Bell Telephone Company, which at present charges two separate rates for the service rendered by the Iowa and Mutual systems, prominent east side men yesterday organized the Business Men's Telephone Protective Association, which will make a protest against the double charge.

The consolidation of the two telephone systems was announced March 1 by the Bell corporation. In the opinion of the business men, the company should not be allowed to control both of the systems and collect revenue from each one.

The quarterly payments are due the telephone company July 1. The organizers of the protective association say that they will refuse to pay for both telephones, and will give their checks for but the one. Legal help has been secured by the association, and it will be prepared to fight to the finish. If the Bell company attempts to collect for both telephones, the business men

REMARKABLE SKIN GRAFTING.

Forty-eight Inches of Cuticle Transferred From Man's Body to Foot.

Waterloo, June 24.—To have forty-eight square inches of skin removed from various parts of his body and grafted onto his foot was the rather unusual experience of Tovaal Jorgenson, of Waterloo, Wednesday. The operation was a very difficult one, but was necessary to save the man's foot, on which the skin had been so severely burned that it peeled off.

Jorgenson dropped a hot iron on his foot a few days ago with the result that painful injuries were sustained. So much of the cuticle was completely destroyed that the attending surgeon decided that only by resorting to the grafting process could the foot be saved.

Accordingly the operation was performed Wednesday. The patient was placed under the influence of an opiate and with skillful fingers and keen instruments the surgeon removed forty-eight square inches of skin from the man's body which was quickly grafted upon the foot. Thursday morning Jorgenson was doing nicely. In fact so greatly was he improved that he was able to call at the doctor's office in the afternoon and have an examination into the success of the operation made. The surgeon believes that in a short time Jorgenson will be able to walk as ever.

In this age of surgical advancement and research skin grafting is not an uncommon thing, but it has been some time since a similar operation was performed in Waterloo.

NEW THEATER OPENED.

Initial Attraction in Cedar Falls Opera House Distinct Success.

Special to Times-Republican.

Cedar Falls, June 24.—Cedar Falls opened its elegant new playhouse to the public last evening, after years of waiting to see the completion of one of the finest theaters in Iowa. The push, energy and untiring efforts that have been expended by some of the citizens and by members of the Commercial Club have received their reward and the city is justly proud of the structure and its fine equipment. The builder, owner and manager is Frank Cotton and it is rightly named Cotton's theater, for besides his hard work he has invested generously of his money, and the building which cost about \$60,000, is a gem in every particular.

Tickets for the opening night sold for over \$11,000 and brought together the elite of Cedar Falls and Waterloo, to witness the May Robson company in the "Rejuvenation of Aunt Mary."

NO DUPLICATE LICENSE.

Hunters Must Pay New Fee If They Lose Old Record.

Waterloo, June 24.—County Auditor Rainbow has received instructions from State Fish and Game Warden Lincoln that hereafter no duplicate hunters' licenses will be issued. It has been the practice in the past whenever a hunter loses his license to ask the auditor for a duplicate.

In the future, however, if he is so careless as to lose it, then it's up to him to come across with the coin to purchase another one. All duplicate licenses are charged up to the auditor, and he is not disposed to be so charitably inclined.

Bohemians' National Convention.

Special to Times-Republican.

Iowa City, June 24.—The national convention of Komensky societies, embracing leading Bohemian-American educators and men of letters from all over the country, is in session here. The delegates will remain until Sunday, when they will go to Cedar Rapids to witness the unveiling of the monument erected in memory of Prof. Jeffrey Herbek.

Electrician Badly Burned.

Mason City, June 24.—Albert Conway, electrician at the cement plant, one of the best men in the employ of the company, sustained serious injuries yesterday when, in throwing the main switch, he accidentally opened another switch and what is called an explosion resulted. The left side of his face and neck and the left ear were badly burned, as were both of his hands. He was taken to Story hospital and will be laid up a month at least.

WORTH MOUNTAINS OF GOLD

During Change of Life, says Mrs. Chas. Barclay

Grantville, Vt.—"I was passing through the Change of Life and suffered from nervousness and other annoying symptoms, and I can truly say that Lydia E. Pinkham's Vegetable Compound has proved worth mountains of gold to me, as it restored my health and strength. I never forget to tell my friends what Lydia E. Pinkham's Vegetable Compound has done for me during this trying period. Complete restoration to health means so much to me that for the sake of other suffering women I am willing to make my trouble public so you may publish this letter." Mrs. CHAS. BARCLAY, R. F. D., Grantville, Vt.

No other medicine for woman's ills has received such wide-spread and unqualified endorsement. No other medicine we know of has such a record of cures of female ills as has Lydia E. Pinkham's Vegetable Compound.

For more than 30 years it has been curing female complaints such as inflammation, ulceration, local weaknesses, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration, and it is unequalled for carrying women safely through the period of change of life. It costs but little to try Lydia E. Pinkham's Vegetable Compound, and it will bring you the worth mountains of gold to suffering women.

D., Grantville, Vt.

No other medicine for woman's ills has received such wide-spread and unqualified endorsement. No other medicine we know of has such a record of cures of female ills as has Lydia E. Pinkham's Vegetable Compound.

For more than 30 years it has been curing female complaints such as inflammation, ulceration, local weaknesses, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration, and it is unequalled for carrying women safely through the period of change of life. It costs but little to try Lydia E. Pinkham's Vegetable Compound, and it will bring you the worth mountains of gold to suffering women.

WORTH MOUNTAINS OF GOLD

During Change of Life, says Mrs. Chas. Barclay

Grantville, Vt.—"I was passing through the Change of Life and suffered from nervousness and other annoying symptoms, and I can truly say that Lydia E. Pinkham's Vegetable Compound has proved worth mountains of gold to me, as it restored my health and strength. I never forget to tell my friends what Lydia E. Pinkham's Vegetable Compound has done for me during this trying period. Complete restoration to health means so much to me that for the sake of other suffering women I am willing to make my trouble public so you may publish this letter." Mrs. CHAS. BARCLAY, R. F. D., Grantville, Vt.
