Owing to important government business Mr. Pulphur was not able to be here to accompany the party, but hopes to be able to join his wife and relatives at the lake later. Now that the weather is cooler many veterans of the soldiers' home are taking summer fun-getting and visiting relatives and old friends at a distance. Several left the city this morning, among them being E. W. Work, who will visit several weeks with his daughter, Mrs. Van Hunter, at Breton, Neb., and William Thomas, who will visit his wife and children for a few days' furlough with his daughter, Mrs. Nellie Anderson. At her home, 1402 South Center street, Wednesday afternoon from 2 until 5 o'clock, Mrs. G. W. Fenton entertained in honor of her daughter Wanda's 5th birthday anniversary about thirty little guests. A very pleasant afternoon was spent. The house, assisted by Mrs. E. W. Fenton, served a two-course luncheon, after which the little folks enjoyed themselves with games. Several beautiful tokens of remembrance of the day were presented to the young lady, of which she is very proud. Mrs. J. N. Cooper, 501 North Second street, entertained the members of her Sunday school class of the Methodist church at her home Wednesday afternoon. The hours were spent with both indoor and outdoor games, and refreshments were served by Mrs. Cooper, assisted by Mrs. J. P. Cooper. The members of the class present were Geraldine Smith, Lois Betz, Irene Mason, Katherine Gerhart, Ruth Wallace, Clara Flower, Bertha Shaw, Myra Clemons, Grace Atkinson, and Ruth Lusby. CLAIMS FAMILY NEGLECTED. Neighbors Say Mother Leaves Children Alone, Without Necessities of Life. A complaint from neighbors took the police and Humane Officer Rosa Liebig to the home of J. H. Young, 905 South Fifth avenue, Wednesday evening, where Mrs. Young and her five children were found in destitute circumstances. The complaint came from the Baker family, at 307 South Fifth avenue, who claimed that Mrs. Young had left her children for several days, while she went visiting, and the neighbors were obliged to feed the little ones to keep them from starving. Mrs. Young returned last evening and she claimed that her husband had been working with a harvesting gang near Des Moines and was expected to return home today. She had been visiting friends in the east part of the city, just where or with whom she failed to state. She claimed to have left the children with sufficient food. The children range in age from 9 years to 16 months. Officer Charles Breckel and Dr. Liebig went thru the house and found little in the way of food. There was about a fourth of a sack of flour and some uncooked food. There was little furniture in the house, and what little there was to be found was in unfit condition to be used by a growing family. The furniture consisted of a bed, two or three chairs, a kitchen table, and a stove. All of these articles of furniture were in bad condition. The bed was in the worst condition and was not fit for use. The little rooms of the upstairs were in even worse condition. Mrs. Young pleaded with the officers not to take her children from her and promised to clean up the place and wash the clothes of the children and the bed clothing. Dr. Liebig gave her until this evening to carry out her promises. Mr. Young came home this morning and told Dr. Liebig that he earned enough to keep the family but his wife refused to keep things in a fit condition for the family. He complained that when he went away to work he would receive word from his wife to come home at once as she was ill. This she had done frequently, Young claimed. The family came here a few months ago from Deep River. Mr. Young was employed for some time at the Western Grocer Company mills. Mrs. Young complained to the officers that she and her children had been bothered by the Baker family, residing just south of the Young home, and she feared to stay in the house alone. At the Baker home were found Mr. and Mrs. Baker and the latter's aged father. Mrs. Baker is totally blind. The officers will visit the Young home again this evening to investigate the condition and unless there is improvement and some certainty that the children will be properly cared for the children will be cared for at the county farm or some other institution.

POOR MILK LEADS TO THREE ARRESTS

DAIRYMEN FINED UNDER PURE FOOD LAW FOR LACK OF BUTTER FAT IN MILK. FIRST ARRESTS UNDER WORK OF NEW INSPECTOR. Tests of Milk Made by J. A. Turner and Sent to State Commission Result in Complaints Being Filed Against Dairymen—Minimum Fine is \$25 and Costs. Poor milk, falling below the butter fat test required by the state law, caused the arrest today of three dairymen furnishing milk in the city. Upon complaints filed by Dr. O. O. Thompson, of Des Moines, a deputy pure food and dairy commissioner, constables arrested J. E. Jackson, H. E. Fenton, and George Hinecker. Jackson pleaded guilty in Justice Peck's court and was fined the minimum under the law, \$25 and costs, amounting in all to \$27.85. In Justice Millard's court a similar fine was imposed upon Hinecker, which he paid upon pleading guilty. Fenton's hearing was set for this afternoon. The arrests are the first as a result of the campaign for pure milk, made by J. A. Turner, the new milk inspector for this city. Mr. Turner has been making tests from the supplies of different dairymen, and has forwarded them to the state pure food and dairy commission, as the law requires. Because the tests made of the milk of these three dealers were so much below the 3 per cent of butter fat required, the commission ordered action taken and the arrests followed. Jackson's milk tested out 2.4 per cent, as did Hinecker's. Jackson claimed he bought the milk from which the test was made from a farmer. The law, however, holds the dealer responsible for the milk he sells, and the charge under which the arrests were made was exposing for sale milk that did not contain three pounds of butter fat to every 100 pounds of milk. At 3:15 this afternoon Fenton entered a plea of guilty and was fined \$25 and costs. Fenton claims his milk was bought from neighboring farmers. Fenton's milk of which complaint was made tested 1.5 per cent.
