

His Size. He—Often when I look up at the stars in the firmament I cannot help thinking how small, how insignificant, I am, after all.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly filling to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment.

Switch Engine Bumps Into String of Cars, Catching Boy as He Sought to Gain Other Side of Track—Body Not Badly Mangled—Victim the Son of Mr. and Mrs. John McNeal.

Special to Times-Republican.

Traer, July 19.—George McNeal, the 8-year-old son of Mr. and Mrs. John McNeal, met death suddenly while crossing the Rock Island tracks Monday.

The switch engine, bumping into a string of cars, the third one of which he was under, moved this car about four feet, this being sufficient to catch him under the front wheels. The hands were both crushed and a piece of flesh was pinched out of the arm between the elbow and the shoulder. Bones were broken but the body was not mangled.

HAS TERRIBLE MISFORTUNE.

Johnson County Farmer Impaled on Pitchfork Handle—May Recover.

Special to Times-Republican. Iowa City, July 19.—Roy McVey, a Johnson county farmer, aged 28, was impaled on a pitchfork handle, when he fell from a load of hay, on the Floyd farm near Iowa City.

ANOTHER MABRAYITE CAUGHT.

W. E. Godfrey, pugilist, brought to Council Bluffs from Tacoma. Council Bluffs, July 19.—W. E. Godfrey, a pugilist, who is alleged to have been involved in the operations of the Mabray gang, was brought to Council Bluffs by Deputy United States Marshal J. F. Statter from Tacoma, Wash., and lodged in the county jail yesterday afternoon.

BUMPER CROP IN HANCOCK.

Wheat, Barley and Corn Will Be Best in Years.

Special to Times-Republican. Mason City, July 19.—J. F. Lincoln, a large land owner, returned yesterday afternoon from one of his farms in Hancock county, on which he has about sixty acres of wheat, and, bringing with him some sample heads, reported that the wheat would yield twenty to twenty-five bushels to the acre.

INTERURBAN TRUNK LINE.

Change in Plans For Proposed Des Moines to Chicago Road.

Clinton, July 19.—It begins to look very much as if the Clinton may become an important point on a great interurban trunk line, reaching from Des Moines to Chicago, and passing through a number of important cities in Iowa and Illinois on an almost air line between the two cities.

CONDITIONS IN CANAL ZONE.

Fireman Returns Home Because of Climate—Good Care by Uncle Sam.

Special to Times-Republican. Council Bluffs, July 19.—R. L. Dunlap, who resigned from the Council Bluffs fire department after passing a special appointment as a member of the Panama fire department, has returned after a three months' service. Inability to meet the climatic conditions of the isthmus compelled him to tender his resignation and hurry home to prevent a nervous breakdown.

exception of meals, which cost 30 cents each regardless of whether eaten or not, Dunlap says the living expenses are not great. The excessive and almost continuous floods and the intensity of the heat are the greatest drawbacks for those who are the least bit inclined to suffer from nervousness.

Farmer Dies From Sunstroke. Northwood, July 19.—While at work in his field, James Swopash, a well-known farmer living eight miles north of this place, was overcome by heat and believed stroke of apoplexy and died before help could reach him.

Bootlegger Heavily Fined. Mason City, July 19.—James Kelley, who was tried before Justice Rankin on a charge of bootlegging, and tried to prove that he had the booze for his own use, and who was thought for a while might stay in jail for a few days awaiting the filing of detailed evidence of a technical character, was finally sentenced. He was fined \$80 or given

Southern Iowa Items

Ottumwa. With the exception of the new federal building, architectural and constructive work in Ottumwa has taken a decided slump this year as compared with last year and even compared with the average of the past several seasons.

Monroe. At the special election held here last Monday the proposition to establish a free public library was defeated by a vote of 98 to 29. The proposition to purchase a double tank chemical engine was put to the voters for their approval and was defeated—85 to 51. The town has no fire protection.

Buxton. It is now feared that the young boy of E. G. Graham's, who had a foot smashed and bone fractured in his leg, may have to undergo an operation to have the same taken off, as gangrene has set in and it is thought he will lose the limb, or part of it, at least. This will be sad news to many.

Wapello. Mrs. Oren Lee, of this city, encountering a tarantula on Friday evening that had been brought home by her husband on a picnic. She was attempting to cut the pineapple when the spider sprang from the fruit, lightning on her neck and then to the floor. When she was killed, Mr. Lee thinks he doubtless injured the tarantula in carrying it home.

Packwood. Don, a 15-year-old son of Mr. and Mrs. H. E. Woolums, who live three miles east of Packwood, was the victim of a serious accident recently. While driving a team which was elevating hay to the mow, the harness broke and a heavy double-tree struck the lad on the breast. It is feared that both the heart and lungs suffered injury and that the mishap may be a serious one.

Bouton. Burglars entered the residences of Jess and Charles Hansen. They gained entrance to the Jess Hansen home by taking off a screen and raising the window and it is thought that both the aged people were given chloroform, as Mr. Hansen was sick nearly all of the next morning. Mr. Hansen's clothes were taken out of the house and the pockets rifled of \$7.

Davenport. Rev. William Z. Thomas, of Columbus, O., has accepted a call to the Third Baptist church in this city, to succeed Rev. D. A. Holmes. Rev. Mr. Thomas is a highly educated and refined gentleman, an eloquent speaker, and stands high among the colored pastors of the west. He has occupied the pulpit for eighteen years and in that time has built three new churches and remodeled two others.

Montezuma. A horse fell on Walter Sutphin recently, giving the young man a painful injury. The horse, which he was riding, became frightened. The young man kept the saddle until the colt reared and fell over backwards, the horn of the saddle striking the young man in the chest, making a large flesh wound. Medical aid was summoned and Walter is getting along as nicely as could be expected.

Tabor. For several years past a section of country northwest of Tabor has been visited by destructive hail storms. Just why this should be is perhaps not known but yet there is some scientific explanation. Several farmers have already lost heavily this year, which puts them to a great disadvantage, as the season is now too far advanced to replant. This is the only community in southwestern Iowa where this phenomenon occurs.

Council Bluffs. Ground has been recently broken for a new parochial school of St. Francis Xavier church, on the site of the St. Joseph school at Sixth street and Fifth avenue. The new building will be two stories in height and will cover the greater part of the property. The building will cost about \$10,000. The new school will be for the boys and girls of St. Francis parish, and to it will be transferred the pupils now attending St. Francis academy.

Cambridge. A preliminary examination at Cambridge before Justice Nathan, County Attorney Hadley prosecuting, resulted in Alva Jones being bound over to the grand jury upon the charge of assault with intent to commit great bodily injury upon Stephen Curtis, also of Cambridge. The assault occurred on the Sunday before the Fourth and was the outcome of difficulties of considerable standing in the neighborhood. Curtis is now able to get about again, but with eyes still much blackened.

Pacific Junction. James Harris, a well known farmer living west of Pacific Junction near the Missouri river, has been missing from his home since early last Saturday morning, and it is feared that he has committed suicide by jumping into the river. Harris is close to 60 years of age, and had become mentally deranged. He has been in the Clarinda hospital at two different times, coming home from there about four years ago

the alternative of twenty-four days in jail. He took the latter punishment. William Robinson, who was a leading witness for the state in the Kelley case, and who was also arrested for bootlegging, has his case continued on today. He is taking of the county attorney. He is the case of his wife, who is the colored woman shot in Parker's woods late in June. It was evident that if he were held, his wife would be thrown on the county for support, and this condition it was sought to avoid if possible.

Off For Long Tour.

Fort Dodge, July 19.—Dr. D. E. Baughman, assistant state veterinarian, has left today for a 2,600 mile trip thru Nebraska, Kansas and South Dakota. Miss Mabel Bishop will accompany the party as far as Omaha, Neb., where she will visit with friends. The trip will take about six weeks, and will be made in Dr. Baughman's touring car.

"Foley Kidney Pills Have Cured Me." The above is a quotation from a letter written by H. M. Winkler, Evansville, Ind. "I contracted a severe case of kidney trouble. My back gave out and pained me. I seemed to have lost all strength and ambition; was bothered with dizzy spells, my head would swim and specks float before my eyes. I took Foley Kidney Pills regularly and am now perfectly well and feel like a new man. Foley Kidney pills have cured me." McBride & Will Drug Company.

the last time. He has been very poorly of late and his sister, Mrs. Jane Merrifield, of Red Oak, has been at his home for the past six weeks helping to care for him.

Galesburg. Galesburg received a real thrill when Mrs. Vern Frazier made three futile attempts to shoot herself with a revolver, while standing in the small yard near the Al Grafis grocery store. Three shots were fired. The first shot was premature. The second penetrated the forehead, and the third glanced from a corner stay over the woman's heart and passed thru her arm. The last shot in all probability would have been fatal had not the bullet been deflected. Mrs. Frazier was taken to Des Moines, where her home has been for the past ten months. She will, in all probability, recover. Domestic incompatibility seems to be the reason for Mrs. Frazier's decision to take her own life.

Des Moines. Cleo Johnson, a paroled convict from the Minnesota state penitentiary, was arrested last week on the charge of assaulting Elizabeth Pates, a negro, at her home at 215 South West, Sixth street. It is claimed that Johnson knocked her to the floor with a large stone. After committing the alleged assault, Johnson ran from the house closely followed by Mrs. Pates' sister, Mary. A mob chased the fleeing negro until he was captured by the police at Gilcrest's lumber yard. It was feared for a time that Johnson would be lynched. The crowd increased rapidly and loud cries of "Lynch him! Lynch him!" were heard repeatedly. Police officers, however, finally succeeded in rescuing him from the mob.

Sigourney.

After a hard day's work in the hay field, while Charles Fair was eating supper with his family, they were aroused by a vivid glow of light coming into the room. They rushed to the door to find that the big barn was all ablaze. There was no possible chance to save anything. It seemed the whole thing was in flames all over, and the roaring fire licked the place. The loss entailed was the barn, several tons of hay, the granary near by with grain in it, five head of horses, two calves, all the harness, and machinery. Not even a hammer was saved. The cause of the fire is entirely unknown. The only reason that can be assigned is spontaneous combustion in the new hay that was being stored away.

Persia. Charles Atkins, who lives three-fourths of a mile from Persia, lost his house and contents by fire. The family went to town in the evening. Mr. Atkins to attend lodge and Mr. Atkins to attend meeting in a tent there. The meeting being over first, Mr. Atkins and the 16-year-old son drove home. When they arrived home, Mrs. Atkins went to the house to get a lantern while the boy took the team to the barn. She went in the house and noticed nothing wrong then took the lantern and went to the barn while the boy unharmed and the team. While at the barn she heard something fall and looking toward the house saw it all in flames. Nothing of the contents were saved, except one bureau, which had the private papers in a drawer. There was about \$800 insurance on the house and contents.

Cambridge. Alva Jones, the Cambridge man who beat Steve Curtis, a Short Line section on the Sunday before the Fourth, who was up in the mayor's court and fined \$50 and costs upon a charge of disorderly conduct, is now in bad again. A few days later another information was sworn out in Justice Nelson's court and he was arrested. County Attorney Hadley was down yesterday and tried the case. The man was bound over to the grand jury upon a charge of assault with intent to do great bodily injury. He was released on bonds. It seems that the beating Curtis received was even more severe than was at first thought and although it is nearly two weeks since it was administered, it was necessary to bring him up to the trial yesterday in a carriage. His face still shows marks of the fray. The fracas was the result of a neighborhood row, which has been going on for some time.

HEAT MAKES CHILDREN ILL

Summer is a very trying period for young children, and many a child who is usually healthy suffers during the heated term. There are many dangers for the child in summer. These lie in milk, food, water, fruit, etc. The greatest peril is from some form of stomach or trouble. It is usually the starting point of graver troubles. The child becomes constipated, or gets indigestion. Perspiration is interfered with, worms develop, the skin becomes scaly and itchy, and the poor child is in much misery. Do not let it go, and trust to luck or fate for a cure. Use a remedy like Dr. Caldwell's Syrup Pepsin, which is intended to cure that very condition and is especially adapted to children's ills because of its mildness and purity. If the child has any of these symptoms, or has not had a passage in 24 hours, it needs Dr. Caldwell's Syrup Pepsin at once. It will act promptly, but gently, and as it is pleasant to take you will not have to force it. A bottle can be obtained on any drug list at 50 cents or \$1.00, and you should obtain a bottle today, so as to have it on hand for an emergency. If you have never tried it you can obtain a SAMPLE BOTTLE FREE OF CHARGE by addressing DR. W. B. CALDWELL, 400 Caldwell Bldg., Monticello, Ill.

COMPLAIN OF INACTION.

Mason City Business Men Protest Against Prevailing Conditions.

Special to Times-Republican. Mason City, July 19.—The merchants' committee of the Commercial Club of this city, met yesterday afternoon to frame a formal protest to the mayor and the city council against the dirty conditions of the business streets of the city. A number of times the committee have met with the council and made requests but these have never been heeded in the least. The street commissioner has been asked a number of times to meet with the street and alley committee of the council and he ignores their request. There is heard complaint on every side against the lax method of the work of city employes in many departments of the city. The business men of the city are at the dividing point and something will have to be done soon.

Fish Dying in Lime Creek.

Clinton, July 19.—The fish are perishing in great numbers in Lime Creek because of low water. The light rainfall this spring and summer has contributed to the low stage of the water in all the streams. Lime Creek has always been well stocked with game fish, and some of the best catches recorded every year are taken from its waters. The fish are now found upon the shallows in great numbers dead and dying; the water being the lowest known in twenty-six years, so the old timers state.

Traer News in Brief.

Special to Times-Republican. Traer, July 19.—Mr. and Mrs. C. C. Gravatt, of Terril, are visiting at the A. Gravatt home. Mrs. Priscilla Segner, of Des Moines, is visiting her sister-in-law, Mrs. M. J. Segner, this week. John B. Huff and Mrs. Mary Jack were married Saturday by Justice Woolley. Mr. and Mrs. Huff have been residents of Traer for several years. They will continue to reside here, making their home in the north end of town where Mrs. Huff formerly resided.

Falls Three Stories to Death.

Dubuque, July 19.—Stanley Merrill, 35, of Chicago, employed on a new building in course of construction by the McFadden Coffee and Spice Company, this morning fell from the third story and was instantly killed.

Better Than Talcum Powder, Says Anty Drudge.

Druggist—"What can I do for you, Madam?" Mrs. Tiredout—"Give me some violet water or any other perfume that will rid me of this odor of scalding suds. I've stood in that steaming laundry till it's sickened me." Anty Drudge—"Now, after you've paid for these things, buy a cake of Fels-Naptha and wash with it next Monday, and you won't need to boil your clothes. Be up-to-date and try the new way of washing."

Have you ever seen a stick of dynamite? You wonder how so much explosive force can be stored in so small a space.

Not less marvelous is the great cleansing power stored in a cake of Fels-Naptha soap. An electric spark explodes the dynamite. To make Fels-Naptha do its marvelous work you need only have cold or lukewarm water and some soiled clothes.

Fels-Naptha is made to dissolve dirt. Fels-Naptha separates it into atoms and they are carried away in the rinsing water. And it does this in cold or lukewarm water, without boiling or hard rubbing. Follow the simple directions on the red and green wrapper, and Fels-Naptha will do your washing better than it was ever done in any other way.
