I. N. COOPER DEAD.

Old Resident of Timber Creek Township Dies of Heart Trouble.

Isaac N. Cooper, an old and well-known farmer of Timber Creek township, died at the home of his son, W. H. Cooper, five miles southeast of the city in Timber Creek township, at 12:15 this afternoon. Death was caused by prostatic trouble and old age. Mr. Cooper had been in apparently his usual health until a few days ago, when he was taken ill. He had been in the city for several days.

Mr. Cooper had been a resident of Timber Creek township for almost sixty years. He was born in Kentucky, and when a child his parents moved to Indiana. He was reared there, and married Miss Kejtarah White, who died here twenty years ago. After their marriage, they went to Kansas, where they remained for five years, moving east to Iowa and settling in Timber Creek township in 1881. Since the death of Mrs. Cooper the husband has made his home with his children.

Mr. Cooper is survived by two daughters and seven sons, Mrs. Oliver Cunningham, of Ferguson; Miss Esther Cooper, of Minneapolis; C. J. Cooper, of Everedell, Minn.; J. H. Cooper, of Timber Creek township; Levi Cooper, of Richards; Martin, of Kalo; E. W. Cooper, of Webster City; and C. L. Cooper, of Park Rapids, Minn.

The funeral will be held from the Ferguson church Saturday morning at 10 o'clock. Interment will be in the Timber Creek cemetery.

GROGERS WANT TO PAY UNIFORM PRICE

SEEK TO ESTABLISH STANDARD OF VALUE FOR BUTTER AND EGGS.

RETAILERS' COMMITTEE TO INTEREST DEALERS

Seek to Have All Pay and Charge Same Price For Same Quality of Produce, Which, Dealers Say, is Handled on Very Small Margin.—No Picnic For Grocers This Year.

An important movement which should be carried to completion, will affect retail grocers of the city, farmers who make butter and sell eggs, and the local consumer, was taken at a meeting of the Marshalltown Retail Grocers' Association Wednesday night, when steps were taken to establish and regulate the prices to be paid by the retailer for this produce.

Twenty-three retail grocers or firms were represented at the meeting, and a committee, consisting of George Olson, D. S. Good, and Benton Davis, was appointed to canvass the grocers of the city as the preliminary step to secure an expression of sentiment.

Aim at Uniform Price For All.

The object of this movement, according to a well-known grocer, who is very much interested, is to make one price for all who have butter and eggs to sell or who want to buy them. Those prices are to be based on quality, both products to be graded under the plan and bought and sold according to the uniform standard to be established.

This grocer explained that under the present system, by which each grocer pays the price he alone fixes, one grocer may be paying several cents above what the others are offering. The result is, according to this retailer, that the others are forced to meet the price, but because the price may be high it does not allow them to be able to sell for a corresponding increase.

No Effort to Corner Price.

No effort is to be made to corner or beat down the prices it being the price object to simply establish prices, according to the grade, so that one seller will pay the same as all the others, although the selling price may be the same.

The grocer who explained the details of the movement says that there is a very small margin in handling this produce for the reason that the retailer is forced to stand the loss on bad eggs and eggs broken in handling, and that some butter which, apparently, when it comes into the store, was of prime or good grade, soon loses caste and must be sold at a reduction.

Majority Favor Plan.

It was the sentiment of the majority of those who attended the meeting that the plan was a good one, and that all the grocers of the city should become parties to the plan. It is not expected, tho, that all will come in, and it is likely that few will remain independent in this detail of their business.

The committee is expected to report at the meeting to be held the first Wednesday in August.

GROGERS NOT TO PICNIC.

Failure to Secure Railroad Rates Prevents Annual Outing.

Because they have been unable to secure reduced rates from any of the railroads operating thru this city, the Marshalltown Retail Grocers' Association has given up all hope of holding an annual picnic this season. It was expected that some concession in fares might be secured from one of the railroads so that the grocers and members of their family might enjoy an outing out of town, but the plan has been abandoned.

Sunday School Baseball.

Two classes of the Methodist Sunday school, the young men's class taught by Rev. C. A. Gilbert, and Theodore Johnston's Brotherhood Bible class, met in a ball game at the fair grounds at 6:30 Wednesday evening. The Gilbert nine won, 16 to 9. The batteries were: Gilbert, Chinn, and Julian; Johnston, MacMackin and Fred Gilbert. A. B. Dawson acted as umpire.

Lambert's Body Arrives.

Newton, July 21.—The body of Everett Lambert, of Ames, arrived here this morning from Denver. The funeral will be at the Dr. Besser home, at 3 o'clock Friday afternoon.

Cook in Comfort

You no longer need wear yourself out with the weakening heat of an intensely hot kitchen. You can cook in comfort.

Here is a stove that gives no outside heat. All its heat is concentrated at the burners. An intense blue flame (hotter than either white or red) is thrown upwards but not around. All the heat is utilized in cooking—none in outside heating.

New Perfection Oil Cook-stove

entirely removes the discomfort of cooking. Apply a match and immediately the stove is ready. Instantly an intense heat is projected upwards against the pot, pan, kettle or boiler, and yet there is no surrounding heat—no smell—no smoke.

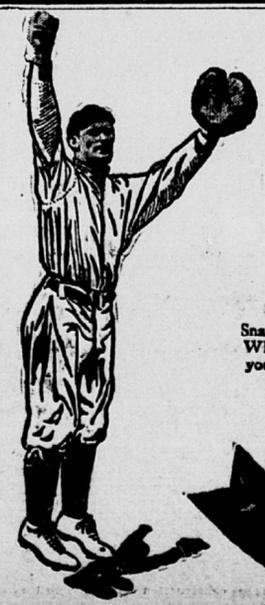

Why? Because The New Perfection Oil Cook-Stove is scientifically and practically perfect. You cannot see too much wick—it is automatically controlled. You get the maximum heat—no smoke. The burner is simple. One wipe with a cloth cleans it—consequently there is no soot.

The New Perfection Oil Cook-Stove is wonderful for year-round use, but especially in summer. Its heat operates upward to pan, pot, or kettle, but not beyond or around. It is useless for heating a room.

It has a Cabinet Top with shelf for keeping plates and food hot. It has long turquoise-blue enamel chimneys. The nickel finish, with the bright blue of the chimneys, makes the stove ornamental and attractive. Made with 1, 2 and 3 burners; the 2 and 3-burner stoves can be had with or without Cabinet.
