

NEW USES FOR POSLAM

Surprising Results After One Application—Skin Afflictions Eradicated. Those who have on hand a jar of poslam, the new skin remedy, should try it for some of the little skin ailments common to all households, particularly in the summer time. Surprising results will be seen after a single application when poslam is used for sunburn, fever blisters, mosquito bites, burns, rashes, pimples, hives, red noses and irritated and inflamed skin. The complexion is cleared overnight; dandruff is dissolved; itching or chafing feet are speedily relieved. These uses are suggested apart from the primary purposes of poslam, the treatment of eczema, acne, skin scale, all forms of itch and others serious and virulent skin troubles. There is no skin disorder for which poslam should not be unhesitatingly used and which it will not benefit. Whenever itching is present, it is stopped at once. According to the uses for which it is employed, poslam may be purchased in 50-cent boxes or \$2 jars at all drug stores, particularly the McBride & Will Drug Company. A free sample, which will demonstrate its marvelous work, will be sent by mail, upon request, to anyone who will write to the Emergency Laboratories, 32 West 25th street, New York City.
