

Awful To Look At!

Carbuncles, Eczema, Boils, Ulcers, Cancerous Lumps, and Every Unpleasant, Painful and Distressing Eruption of the Skin Cured Quick.

Astonishing New Discovery That Heals Every Conceivable Sore Spot From Head to Toe.

No More Hiding—Cuticlay Will Clear Your Skin.

A well known special commission merchant of Chicago, Mr. C. Quinlan, says Cuticlay proved an astonishing marvel. He was laid up with a bad skin disease that became so severe. Several specialists gave him no relief and yet in five days Cuticlay cured him. It is wonderful. Here is a strange product of nature, nothing added, nothing taken from it, mined from the earth, doing marvelous things that baffles trained and experienced specialists. W. L. Stansbury, high up in railroad circles at El Paso, Tex., cured his little daughter, whose face was completely covered with eczema in just two weeks' treatment. He cured a bad outbreak on his face in three days and was greatly astonished to learn that Cuticlay cured one of his neighbors of cancer. He says Cuticlay is certainly a wonder.

The letters that people write about the extraordinary cures by Cuticlay are simply astounding. Nothing sticky or greasy, no odor, apparently nothing but so much powdered gray clay and yet it instantly takes hold, just simply annihilates every pestiferous germ or parasite in the skin or scalp, does not burn or give any sensation and does not do anything to the skin. It has been a stumbling block to the most learned dermatologists.

You can get a large can of Cuticlay at any drug store for 50 cents, or will be mailed upon receipt of price. If you wish to first demonstrate what the wonder Cuticlay will do for you, upon the receipt of six cents in stamps to pay cost of packing, etc., we will mail you a large trial package. The Cuticlay Company, Chicago, Ill.

It is sold and highly recommended by Marshalltown by McBridge & Will Elder Drug Company and G. J. Landier.

FIREWORKS EXPLODE ABOUT MACK'S HEAD

SUPERINTENDENT OF MAINS IS PUT ON CARPET FOR ALLEGED NEGLIGENCE.

HERMAN'S RESOLUTION ORDERS HIM TO GET BUSY

Council Demanded Sewer and Water Charts Early in 1908, and Has Never Received Them — Threatens Discharge if It Is Not Forthcoming — Where is Sewer Pipe?

There was a brilliant pyrotechnic display in the city council chamber Monday night and the fireworks exploded about the head of E. Z. Mack, superintendent of sewers and mains. Councilman Herman shot off the rockets, but Mack was present to enjoy them. This morning, however, the head of the water department was making inquiry of the deputy clerk as to how soon he could get a copy of last night's council proceedings, and if she had everything in full.

In anticipation of the special election to vote \$300,000 worth of sewer bonds, the streets and alleys committee, and the council are anxious to secure data showing the location of all of the present sewers and water mains, size of taps, connections, etc. This important piece of work was delegated to the superintendent of mains and sewers two years and a half ago, but it was never been furnished, although repeated requests have been made in the council for it. Streets and Alley Chairman Herman is tired waiting, evidently, and presented his demand upon Mack by resolution, fixing impeachment and discharge as the penalty if compliance were not forthcoming.

Herman's Resolution. Councilman Herman's resolution, demanding of Mr. Mack the charts of sewer and water mains, was as follows:

Whereas this council is about to ask the people to vote us \$300,000 to be spent for sewer construction, and whereas there is not now on file in our city office any chart whereby any member of this council or the mayor can inform himself as to what parts of the city now have sewers or water mains, or as to what extensions of sewer or water mains can be made to best serve the public need, and whereas our superintendent of sewers and mains was, by resolution of this council adopted Jan. 12, 1908, ordered and instructed to prepare such charts, thereby having been given two years and a half of time in which to comply with the council's instructions, and whereas this council can not intelligently expend \$300,000 for new sewers without knowing the kind of its information, and whereas there will now be seventy-nine days time before said special election to vote \$300,000 of sewer bonds, in which time said superintendent of mains and sewers can complete the work he was instructed to do more than two years ago, be it then resolved, that E. Z. Mack, superintendent of city sewers and mains, be and is hereby instructed to complete his preparation of such charts accurately and promptly locating all sewers and water mains now constructed, with their connections and all reasonable necessary engineering data pertaining thereto, and he is instructed to submit same to this council for its acceptance at a meeting to be held during the month of October next, and, be it further resolved, that the mayor be and he is hereby authorized to employ for assistance in performing said work within said time all necessary clerical and engineering help, and to pay for said assistance out of any moneys in the sewer and water funds or any parts of it to be expended in the general fund upon bills properly rendered, audited and approved by this council; and, be it further resolved, that the immediate necessity of this work is of so much importance that said E. Z. Mack, superintendent of sewers and mains, be and is hereby discharged from his office if he shall refuse or neglect any longer to comply with the instructions herein set forth.

Stirs Up Hornet's Nest. The resolution, as might well be expected, stirred up a hornet's nest. Psenicka thought the last clause was "too strong" and registered his objections to the last six lines of the resolution as they showed on type.

Chairman Herman said that the city was paying Mack for doing its work, and that it was important, especially in view of the sewer bond election. Any one ought to be able to consult the charts for information concerning sewer mains and sewers, and the information belonged to the public, and not to a single individual. Herman declared the resolution a straight business proposition, and that its requirements were nothing more than any business man would demand.

Good declared the resolution too strong, and that probably Mr. Mack was too busy to do the work. McCarren recognized the importance of the resolution and thought it should be passed. The work should have been done years ago.

Psenicka moved to amend by striking out the last six lines of the typewritten resolution, and appealed to the mayor, as a citizen and business man, to know whether there was anything wrong in the specifications in the lines objected to. The mayor replied that he didn't think the question of discharging Mack was any of the council's business. Clark thought that the work was not a part of Mack's duty.

On the motion to strike out the lines to which Psenicka, Good and Clark objected the other four members voted no, losing the amendment. Gregory Cites Duties. Mr. Gregory, who had been silent but observing, asked for recognition and suggested that the council listen to their own ordinance in there was any question as to Mr. Mack's duties in the premises. Mr. Gregory then read from the city ordinances the following paragraph concerning the duties of the superintendent of mains:

shall present to the council a correct map or profile of all the water mains now or hereafter laid in the city, with their dimensions, locations, connections, hydrants, cut-offs, and he shall keep just, true and correct books of accounts, in such a manner as at all times shall show the true condition and state of business of his office.

Mr. Gregory said: "Now we all know that Mr. Mack has those books, and no one in this town can get into them. The council has the right to ask this of Mack and it is what he has been paid for at these years and he hasn't done it. There is nothing unreasonable in asking of a man something that he is paid for doing."

Mr. Good declared that he did not think it was up to the council to have Mack do the work, but it rather was the mayor's duty. He considered the resolution out of date and that it should not be tolerated. Mr. Gregory asked Mr. Good if the city's ordinance should not be tolerated, but got no reply.

The resolution then came to a vote and carried, Clark, Good and Psenicka voting nay, and Gregory, Herman, Hull and McCarren aye.

What About Sewer Pipe? But that was not all. Herman had more explosives also aimed at Mack. This resolution follows:

Whereas, a resolution introduced by Councilman Psenicka was adopted by this council on May 24, 1909, authorizing the superintendent of sewers and mains to cause all sewer pipe stored at the sewage disposal plant to be removed to some safe and convenient place whereby they would be available for the city's use, and whereas said pipe have disappeared from their place of storage at the sewage disposal plant, be it hereby resolved that the superintendent of sewers and mains be and he is hereby instructed to inform this council what disposition has been made of these pipe and, be it further resolved, that if said superintendent of sewers and mains has failed to cause the removal of said pipe to some place of safety as instructed by this council more than a year ago, and if said pipe have since been lost as it now appears, said superintendent of sewers and mains be, and is hereby instructed, to appear before this council and state why he should not be held personally liable for the loss of said property, and if he fails to do so, he shall be considered in default of duty in office and thereby subject to immediate discharge.

Herman pointing to Tony said, "Tony that was your resolution," so there was but one objecting voice to the adoption of this resolution, only Mr. Good of the three standing out against it when the roll was called.

ROOSEVELT MAY STOP

Efforts Being Made By the Marshalltown Club to Hold Train Long Enough to Permit Former President to Speak—Roosevelt Will Pass Thru the City Friday Morning on Western Tour—Stop Here is Short, But Longer Stay May Be Secured.

The Marshalltown Club today sent a telegram to Theodore Roosevelt asking that arrangements be made for a short speech when the colonel passes thru the city on Friday morning, Aug. 26.

Colonel Roosevelt will pass thru the city on his western trip, over the Chicago & Northwestern road, arriving here at 8:10 Friday morning. The stop here is usually of three or four minutes' duration. An effort will be made by the club to have the train held for a few minutes to permit the colonel to address the crowd briefly.

HARRY LA SHELLE DEAD.

Well-Known Young Man Succumbs to Tuberculosis After Lingering Illness. Harry LaShelle, a well-known young man of this city, died at the home of his mother, Mrs. D. H. LaShelle, 19 North Sixth street, at 6:55 Monday evening, after an illness of eighteen months with pulmonary tuberculosis. Death was hastened when his ailment became complicated with Bright's disease.

Harry Mar LaShelle was born at Shannon, Carroll county, Illinois, Oct. 14, 1879. He came to Iowa with his family in 1892 to Melbourne. In 1895 the family moved to Marshalltown, where Mr. LaShelle attended the public schools and received his education. In 1899 he accepted a position in Chicago, and since that he has traveled practically all of the time. He again took up his residence in Marshalltown in 1905, when he entered the employ of his brother, with the LaShelle Cigar Company, where he remained until about eighteen months ago when he was compelled to give up his work on account of failing health.

Mr. LaShelle is survived in the immediate family by his mother, Mrs. D. H. LaShelle, one sister, Hattie E. LaShelle, and two brothers, Simon W., and Albert E. LaShelle, all of this city. Mr. LaShelle's father, D. H. LaShelle, died June 1.

The funeral will be held from the family residence at 4 o'clock Wednesday afternoon. Rev. W. H. Sedgwick conducting the services. The house will be open to friends from 2 to 3 o'clock. Interment will be in Riverdale.

MOTOR CLUB FORMED.

Local Motorcyclists Organize and Elect Officers at Monday Night Meeting. The Marshalltown Motorcycle Club was organized Monday evening, at a meeting held at the office of E. H. Hubler. The club was organized with a membership of thirteen, and it is believed that this number will be increased before the first racing meet is held next Saturday.

AUTO PARTIES TO BOOST COUNTY FAIR

FARMERS, MERCHANTS, MANUFACTURERS AND JOBBERS TO TAKE BOOSTERS' TRIP.

WILL ADVERTISE FAIR IN ALL DIRECTIONS

Runs Will Be Made From Belle Plaine to Nevada and From Eldora to Grinnell—Cars Will Be Decorated For the Occasion and Will Bear County Fair Pennants.

A new and novel plan for advertising the Marshall county fair has been adopted by the Marshalltown Club, which will in one day's time carry into all parts of central Iowa the announcement of the biggest and best county fair to be held in Iowa this year.

A boosters' committee, composed of farmers, merchants, manufacturers and jobbers, will visit all of the towns on the main lines of the Northwestern and the Iowa Central on Sept. 2, and acquaint the inhabitants of the great features and exhibits at the fifth annual fair.

At least twenty automobiles will leave the city at 8 o'clock in the morning, and two runs will be made. In all probabilities the party will be split into two sections, and one section will traverse the territory between Belle Plaine and Nevada, and the other will run from Eldora to Grinnell.

The advertising committee of the fair association will arrange to have a few farmers, a merchant, a manufacturer and a jobber in each car.

Advertising matter will be distributed en route and stops will be made at each town, where members of the party will give informal receptions, and will speak briefly about the fair.

It has been planned to have the cars decorated for the occasion and each car will bear the county fair pennant. The committee has asked for twenty auto owners to volunteer their services and use of cars for the day.

The start will be made from the corner of Main and First streets promptly at 8 o'clock, and the parties will return to the city before nightfall. Auto owners who will take part in the run will notify E. D. Hamilton, chairman of the special fair advertising committee, or R. W. Exollette, secretary of the Marshalltown club.

KNIGHT TEMPLAR INJURED.

Member of Hartford, Conn., Commandery Hurt in Yellowstone Park. A special train bearing seventy-three members of the Hartford, Conn., commandery of Knights Templar, and their wives, passed thru the city over the Northwestern at 5 o'clock Monday evening, en route home from a trip to the Yellowstone National Park. The Hartford knights made the trip west after attending the recent biennial convolve in Chicago.

The pleasure of the western trip, however, was marred by an accident that occurred Saturday, when a huge tree, rotted with age, fell just as a coach load of the Hartford tourists was passing. The coach was thrown over a precipice, and two of its occupants were injured. The injured are Sir Knight Gibbs, of South Farmington, Mass., and Mrs. Brewer, of Hartford. Mr. Gibbs' injuries are serious, and when the train reached this city Gibbs was still unconscious from the result of the accident. It was feared by members of the party that Gibbs was fatally injured.

DEFER SEWER ELECTION

Council Reconsiders Call For Special Election and Will Place Sewer Bond Proposition Before Voters on Nov. 8, Date of General Election.

In compliance with a resolution by Councilman McCarren Monday night the city council reconsidered its resolution fixing Sept. 30 as the date for a special election to consider the voting of \$300,000 worth of bonds to complete the sewer system, and fixing the date of the election Nov. 8. This does away with the expense of a general election and gives the people a chance to vote on the bonds on the day of the general election. On both the reconsideration and the amendment the council voted as a unit.

KILLS BIG RATTLER.

Sam Wenger Finds Snake With Twenty-five Young Ones. While exercising his hounds along the Iowa river, back of the Country Club, Sam Wenger was startled to hear a noise like the buzz of a rattle snake. On investigation, he discovered an old rattler, between three and four feet in length, coiled ready to strike. Wenger dispatched the reptile with his rifle.

Wenger secured his prey and found that the snake had ten rattlers and a button. The snake was a female and on the approach of danger she had swallowed her young. Wenger opened the mother snake and found twenty-five little ones. All of the young were killed but one, which succeeded in making its escape.

SENDS WATER SAMPLES.

City Complies With State Law Compelling Water Examination. Dr. A. C. Conaway, city physician, sent to Des Moines Monday two samples of city water, in compliance with the state law compelling cities to submit water samples annually for examination. The samples were sent by Prof. Charles N. Kenney, state chemist. One of the samples was taken from the source of supply, and the other from a point down town. During recent days the city water has shown to be roily at different places thruout the city, and in attempting to learn the cause for the condition the Times-Republican today saw Superintendent...

tender, E. Z. Mack. Mr. Mack says that the roily condition of the water is due to the fact that the new elevated tank was partly filled last week, and a consequent rise in pressure of twenty pounds to the square inch has forced the sediment in the pipes out of the different services. Mr. Mack gave it as his opinion that the discoloration of the water was due entirely to iron oxide, and not to anything that may prove harmful. It is expected that the report on the samples will be made within a short time. At any rate Dr. Conaway has asked that a report be made promptly.

Dissolution Notice.

Notice is hereby given that the firm doing business under the firm name of Robertson & Strub, is this day dissolved by mutual consent. All accounts due the firm will be paid to A. L. Strub, who will continue the business and pay all bills against said firm. A. L. Strub, Fred Robertson.

HEAT MAKES CHILDREN ILL

Summer is a very trying period for young children, and many a child who is usually healthy suffers during the heated term. There are many dangers for the child in summer. These lie in milk, food, water, fruit, etc. The greatest peril is from some form of stomach or bowel trouble. It is usually the starting point of graver troubles. The child becomes constipated, gets indigestion. Perspiration is interfered with, worms develop, the skin becomes scaly and itchy, and the poor child is in much misery. Do not let it go, and trust to luck or fate for a cure. Use a remedy like Dr. Caldwell's Syrup Pepsin, which is intended to cure that very condition and is especially adapted to children's ills because of its mildness and purity. If the child has any of these symptoms, or has not had a passage in 24 hours, it needs Dr. Caldwell's Syrup Pepsin at once. It will act promptly but gently, and as it is pleasant to take you will not have to force it. A bottle can be obtained of any druggist at 50 cents or \$1.00, and you should obtain a bottle today, so as to have it on hand for an emergency. If you have never tried it you can obtain a SAMPLE BOTTLE FREE OF CHARGE by addressing DR. W. B. CALDWELL, 400 Caldwell Bldg., Monticello, Ill.
