ROOSEVELT TRAIN AT 7 A. M. FRIDAY

SPECIAL TRAIN BEARING EX-PRESIDENT ON WESTERN TRIP TO ARRIVE HERE EARLY.

ROOSEVELT WIRES HE CAN NOT MAKE ADDRESS

If Train Stops, However, He Will Be Glad to Greet People From Rear Car—It is Thought That the Train Will Stop Here For Few Moments to Take Water.

Utica, N. Y., Aug. 24-25.—R. W. Doolittle, Secretary Commercial Club, Marshalltown, Iowa, can't make an address, but will be glad to greet you from end of train as I pass thru it from 7 to 9.

The above is the answer of Theodore Roosevelt, citizen, in response to a telegram sent Tuesday by the Marshalltown Club, inviting the former president and the most-talked-of man in the United States to deliver an address from the train as he passed thru Marshalltown en route on his western trip.

The commercial club, and the people generally, will be disappointed to hear that Roosevelt does not feel able to make even a few remarks while the train stops, but nevertheless it is a good guess that there will be a large crowd at the Northwestern station to greet the former president and get a glimpse of his special train which is due to reach this point at 7 o'clock.

Traveling on Special. When the invitation was sent to Colonel Roosevelt it was believed that the ex-president would be traveling on a regular train. At least such were the instructions sent out by The Associated Press to its correspondents here, advising the latter of Colonel Roosevelt's arrival in Marshalltown at 8:10 Friday morning, on train No. 3.

Since the telegram was sent, however, the schedule of the ex-president's itinerary has been changed, and he is now traveling on a special train, running as the second section of No. 7. The special train is due to leave Chicago at 12:15 tonight, and to reach Omaha at 3:15 Friday afternoon. The first scheduled stop to be made is at Ames, at 7:55. It is likely that the train will stop here a few minutes for water, or if not that it will pass thru the city slowly enough that Colonel Roosevelt may greet the people from the observation end of the car he occupies.

Train Will Stop Here. Superintendent F. H. Hammill, of the Iowa division of the Northwestern, headquarters at Boone, advised President Gregory, of the Marshalltown Club this afternoon, that Colonel Roosevelt's train would be stopped in Marshalltown to take water, altho the schedule did not call for a stop here, and the schedule had been prepared by Mr. Roosevelt's secretary, and was not in the hands of the railroad officials. Because of the importance of Marshalltown, and the fact that it is the largest city on the route between Cedar Rapids and Council Bluffs, Mr. Hammill said that he could arrange to have the engine take water here. This will consume five minutes or more, and it is likely that in that time Colonel Roosevelt will be prevailed upon to deliver a brief address to the people.

MEDICS ATTEND MEETING.

Physicians of Marshalltown Present at Hardin County Gathering. Several Marshalltown physicians were in Ackley Wednesday to attend the annual meeting of the Hardin County Medical Association. The program was a most interesting one, including addresses by Drs. Probble and Ryerson, of Chicago, and Dr. Albert, of Mason City. The latter read a paper

on infantile paralysis, which was in its salient features similar to one read before the Marshalltown association last week. Dr. Ryerson spoke on surgical work, and its great improvement, as especially regards work on paralyzed limbs. In the evening a banquet was served and toasts were responded to. Those present from this city were Drs. E. M. Singleton, N. E. Mighell, F. E. Lierie, W. S. Devine and W. F. David.

BIG DROP IN TEMPERATURE.

Forty-Three Degrees in Twelve Hours Shown by Government Instrument. While Wednesday proved the hottest day of the summer, with 100 registered by the government thermometer at 3:30 in the afternoon, today started off cooler than any day since July 20. A drop of forty-three degrees was noticeable within twelve hours, 57 being the minimum reached during the night. The weather began to grow cooler at 10 o'clock, when a strong breeze came up from the northwest. Fifty-seven was also registered at 7 this morning, as against 76 for the same hour Wednesday morning. The rain, which began at 3:30 this morning, amounted to .33 of an inch.

CASE AT GILMAN

Four-Year-Old Son of John Plum, Farmer Living Near Gilman, Victim of Dread Disease—Babe Well-Marked Case of Resultant Paralysis Following Illness. Another case of infantile paralysis has developed in the county, the case being reported from Gilman. The victim is Roy, the 4-year-old son of John Plum, formerly of this city, and now tenant on the Lacey J. Patterson farm near Gilman.

The case was discovered when Mr. and Mrs. Plum brought the child to this city to see a physician, after it had been ill for two weeks. The first symptoms in the case were a high fever and general lassitude. The temperature lasted several days. A physician was called, and said that he thought possibly the case might be one of infantile paralysis, but later, when the child improved, gave it as his opinion that the trouble was due to some other cause. Then came the symptoms of paralysis, which now affects the left arm and leg, and the physicians who saw the case here declare the case to be well marked, but in a mild form as far as the resultant paralysis is concerned. Now that there is so much said concerning infantile paralysis, which first came to public notice in the epidemic at Mason City, local physicians say that there have probably been a dozen cases in this county within the past two years. Some have been severe, but for the most part the cases have been of a mild form, and in some the paralytic trouble was finally overcome.
