

BRING EXHIBIT OF TUBERCULOSIS HERE

DR. KEPFORD, STATE LECTURER, TO BRING STATE DISPLAY TO COUNTY FAIR.

MOVE IN EDUCATIONAL WORK AGAINST DISEASE

Dr. Kepford's Application For Space Came So Late He Could Not Be Given Room in One of the Buildings, and Exhibit Will Be Housed in a Spacious Tent.

The campaign against tuberculosis, which the state board of control is waging in Iowa thru its department of tuberculosis, of which A. E. Kepford is state lecturer, is to touch this city during county fair week. Mr. Kepford is coming to the fair with an exhibit of tuberculosis, intended to inform the public as to the nature of the disease and the means of preventing it and its spread.

In a letter, written to Secretary W. M. Clark, Dr. Kepford has asked if it can be arranged so that he could bring the exhibit on tuberculosis. Dr. Kepford asked that if it were possible he would like to have space in one of the buildings, with a limited wall area on which to post charts and diagrams, if this could not be had, he said, a tent would do.

Secretary Clark, in reply to the letter, wrote that it would be impossible at this late date to set aside space in one of the buildings, but that a tent would be set up for the exhibit.

Dr. Kepford will be with the exhibit during its stay here, and he will give informal lectures on the subject to those who visit the exhibit. He will also have much literature on the subject that will be given free to the public.

Dr. Kepford brought the exhibit to the fair two years ago, and at that time it attracted a great deal of attention from physicians and the public generally.

ROW BREAKS INTO COURT.

A. B. King Arrested Following Trouble Between Second Street Families.

Threatened gun play, alleged assault, the kicking in of a door, the breaking of furniture and much loud talk were what might be termed the features of a row between families living near the end of South Second street early Tuesday evening, which led to the police being summoned and the arrest of A. B. King. The details of this trouble were told by witnesses in Justice Peck's court this morning, when the first of the two cases filed against King were tried.

J. H. Thurston, a farmer, who happened to be passing was so impressed with what he saw and the threats and language he heard that, without knowing who were involved, he rushed to Justice Peck's court and filed a complaint of assault and battery against King, alleging that "he was assaulting a lady." The lady, the hearing developed this morning, proved to be Mrs. King, who, instead of being assaulted, was attempting to attack a man from the "Mike" Minehan home. This case against King was dismissed on account of lack of evidence.

Later Minehan himself filed a complaint against King alleging assault and the use of obscene language. This case was set for hearing Sept. 14. From the evidence it appears that King alleges to have heard Minehan's daughter saying disrespectful things of Mrs. King over the telephone. This apparently aroused his ire so much that it is alleged that he started for the Minehan home for the purpose of clearing out the place. Minehan says that he assaulted him, kicked in the door and broke a chair. It was just following this outbreak that Mrs. King and her daughter tried to bring King home. Thurston witnessed the "bringing home."

Men Old at 35

One Million Baldheads Who Thought Dandruff Wasn't Dangerous. In the United States and Canada today there are nearly a million men who at 35 can be put in the baldhead class. When these men had thick vigorous hair, dandruff made its appearance. That was the time to attack the enemy of mankind—the persistent little devil called a dandruff microbe, or germ that burrows deep down into the hair root and saps it of the vitality that is so essential to the hair.

Young men or any man, for that matter, beware of the dandruff germ; it is not a theory, but an actual condition that confronts you. That dandruff is caused by a germ, is proved beyond question. That this germ destroys the hair root is today a matter of common knowledge. B. A. Morgan, the druggist, has the remedy that kills the dandruff germ. He guarantees it to eradicate dandruff, stop falling hair and itching scalp in two weeks or money back. It is called PARISIAN SAGE, and can be obtained at druggists in every town in America—ask B. A. Morgan for it. The girl with the Auburn hair is on every bottle of Parisian Sage.
