GLAD IT IS ENDED

CAMPAIGN MANAGERS SEE BENEFIT TO PARTY IN CONCLUSION OF CARROLL TRIAL.

SEE END OF CONTROVERSY INVOLVING COWNIE'S GOOD NAME

Carroll, Coason, Thorne and Congressional Candidates to Conduct Aggressive Campaign From Now On—Folk to Speak For Clint Price—Judge Prouty Continues Seriously Ill.

Special to Times-Republican. Des Moines, Oct. 1.—Republicans interested in the success of the state and congressional tickets are unanimous in expressing the hope that the termination of the Carroll trial for criminal libel will mark the end of the controversy affecting the good name of Mr. Cownie and that the attempt to build up on the ruins of his reputation a memorial to good government will cease.

Chairman Carl Franke and the state committee are now ready to get busy with the state campaign. The committee will soon be supplied with abundant funds for conducting a lively light. Good speakers will be sent out, the speakers' bureau having been placed in charge of Mr. Constock, secretary to Congressman Haugen, who was also with the committee two years ago.

Unquestionably Governor Carroll, Senator Coason, Clifford Thorne, and the able candidates for congress on the republican ticket will all be on the stump throughout the month of October, and the situation will improve rapidly.

There is very good prospect of a serious effort being made to have the voting machines that are used in Polk county adjusted to comply with the law. There is fear that the intensity of feeling which is entirely possible if there is a close race, the legality of these machines may be questioned after election in a way to make the result hinge upon the same.

It is well known the voters of Des Moines and Polk county, alone of the people of the state, are still voting a ballot with the circle for party designation, or what is the same thing, the "straight party lever." Some years ago, it is recalled, the legislature in its wisdom decided that voting a straight party ticket, alone of the pencil was not the best way, and the "circle on the ballot" was taken off. So it is necessary for the voters all over the state, where machines are not used, to go down the whole list and vote for each and every candidate separately.

But here in Des Moines the voter goes into the machine and he finds that there is a lever marked "republican" which he can pull making just one motion of his hand, and he will have voted for all the republican candidates for governor, down to township officers. It is vastly more of an inducement to "vote 'er straight" than the circle on the ballot ever was.

Now, some of the interested ones greatly fear that if this "party lever" is left on the machines in Polk county, while the voters elsewhere are deprived of the "party circle" there will be someone mean enough in case of a close election to raise the point of legality and seek to have the entire Polk county vote thrown out. For instance it is claimed by the standard police officers that a majority of 2,000 in the counties of the Seventh district on side of Polk, thus putting it up to Polk to elect Judge Prouty, if he is elected. Suppose that was done, then the inevitable would be to insist that the Polk county vote should not be counted because illegal machines were used. So, also, in case of a close vote on governor, it might easily be worth while to question the large vote of Polk county.

There is talk of having this matter taken into the courts now for decision, prior to the election, or to secure in some way a ruling as to the legality of the "party lever" on the voting machines. It is a serious and an interesting question.

then it is very doubtful if he will be able to do the speaking necessary in the campaign. In the meantime the district committee has started out to organize and get busy with the campaign. This committee will have complete charge of the fight.

The democratic state committee has this year made an agreeable variation in a campaign poster, by having a large poster prepared with the portraits of all the candidates on the state ticket. A large picture of Claude Porter is in the center with the twelve others surrounding the same and it is an artistic and attractive poster.

The prospect is good for a fight for the judicial positions in the Fifth district comprising Dallas, Warren, Marion, Madison, Adair and Guthrie counties. The republicans nominated Judges Applegate, Fahy and Hays. A convention has been called for today at Winterset to put up an opposing ticket. The call is signed by G. W. Seever. The slate as outlined is for the nomination of both republicans and democrats, out of this list: John Steiner, Perry, Harry Nell, Indianapolis, Frank Wilson, Greenfield, C. A. Robbins, Winterset.

The town of Craig in Plymouth county, probably has the distinction of being the only station on a rural mail route having two banks. Articles for the German Savings bank have just been filed at the state house, the second bank for the town, but it is not yet big enough to be put on the map by the postal authorities.

IOWA PRESBYTERIANS

Synod to Hold Sessions in Iowa City Week of Oct. 17—Prominent Speakers On Program—Sunday School Conference in Connection.

Iowa City, Oct. 1.—The meeting of the Presbyterian synod of Iowa which will take place in this city during the week of Oct. 17 promises to be of special note because of the prominence of the speakers who will take part in the program. The Sunday school conference opens on Monday evening and continues thru Tuesday. The meeting of the synod proper takes up Tuesday evening when the moderator, the Rev. Dr. C. M. Steffens, of Dubuque, will give the sermon. The sessions will be held at the Presbyterian church in this city and the congregational and other churches close at hand will be utilized for sessions of the missionary societies and such as can not be accommodated in the Presbyterian church.

The program in outline and so far as completed shows the names of some of the leading religious workers of the country: Monday, Oct. 17, 7:30 p. m.—Address by Rev. G. L. Robinson, of Philadelphia and Rev. G. L. Robinson, of McCormack Seminary, Chicago. Tuesday, Oct. 18, 9 a. m.—Address by the Rev. G. L. Fritch of Des Moines; address by Rev. G. M. Trull, of New York, the secretary of the Presbyterian Board of Foreign Missions; address by Rev. G. L. Robinson, of Chicago. Tuesday, 7:30 p. m.—Moderator's sermon by the Rev. C. M. Steffens, D. D., of Dubuque. Wednesday, Oct. 19, 7:30 p. m.—Rev. Paul Bergen, of China, will give the address of the evening. Thursday, Oct. 20, 9 a. m.—Address by Rev. W. H. Boyle, of Lake Forest, Ill. 2:30 p. m.—Address by Rev. R. C. Hughes, of Madison, Wis. 7:30 p. m.—Address by the Rev. W. H. Wilson, Ph. D., New York City.

EXPRESS CLERK ARRESTED.

C. D. Nichols on Illinois Central, Accused of Theft. Cherokee, Oct. 1.—What is considered as the unearthing of a wholesale plan of rifling baggage has developed here thru the arrest of C. D. Nichols, baggage and expressman on the Sioux Falls & Onawa division of the Illinois Central.

Nichols, who was placed under arrest at the instigation of Special Agent Ward of the Central, is said to have admitted under a sweating process that he had removed the contents of packages of baggage and exhibited an assortment of knick-knacks, of various nature, but no large money value. His depredations are said to have been extensive. Several suspicious irregularities had been traced to Nichols and when he was placed under arrest he showed no surprise, and when brought before Justice Green made no fight, but was released under bond to appear before the grand jury.

First Family Reunion. Estherville, Oct. 1.—For the first time since they, one by one, left the parental home many years ago, the surviving members of the T. T. Lerdall, Sr., family of Emmet county, held a reunion at the home of one of the family, Mrs. M. W. Woolcutt, of this city. There were twelve children in the family, but death has called four of them, and the eight now living who were at the reunion are A. T. Lerdall, of Cumberland, Wis.; H. T. Lerdall, of Madison, Wis.; T. T. Lerdall, of Emmet county; Mrs. H. H. Haven, of Melova, S. D.; Mrs. Olat Johnson, of Waintown, S. D.; Mrs. Ole Hanson, of Spencer, Iowa, and Mrs. M. W. Woolcutt, of this city. The Lerdall family settled in Emmet county about forty years ago.

HARMONIZING PLANS

NEW STATE BOARD OF EDUCATION SEEKING TO CO-ORDINATE STATE INSTITUTIONS.

FIRST BIENNIAL REPORT TELLS OF AIMS OF BOARD

Engineering Schools at Ames and Iowa City to Be Placed on Harmonious Basis—Agricultural Course of Two Years to Be Made Permanent Provided Legislature Gives Support.

Special to Times-Republican. Des Moines, Oct. 1.—The new board of education has filed in the office of the governor its first biennial report to the governor and the legislature. The law which called this board into being makes it the duty of the board to report to the governor and legislature both its activities and conclusions respecting each and every one of the institutions named, to-wit: The State University, the State College of Agriculture and Mechanic Arts, and the State Teachers' College. The report starts out with an outline of the board's policy in general. It says: "It was intended that the three state institutions governed by the board should be co-ordinated parts of the general educational system of Iowa. It was manifestly the first duty of the board to become thoroughly acquainted with the institutions thus placed under its control; and now that time has been given by members, both individually and collectively, during the past year, to a study of these institutions and of current educational problems, expert advice has now and then been sought from the outside, and this policy will be continued."

The board holds that this general principle that it is a governing rather than an administrative body. As a governing body its duty is to keep a sense of proportion among the three institutions entrusted to its care and to co-ordinate their activities. So far, the board has had time to do little more than study the problem. It undertook this work with an open mind and without predilection toward any one form of organization. It assumes, however, that there is a "best way" to deal with all questions and that this way may be found by scientific analysis of the situation and made ready for its judgment thru the assistance of competent executives and experts.

Hopes to End Rivalry. "It has been and shall continue to be the purpose of this board as far as possible to put an end to rivalry and reduce duplications to a minimum. Necessarily work along these lines must be well considered and too rapid progress must not be expected. It was natural that there should be duplications of work under the old system and it will not be possible to do away entirely with these duplications even after the lapse of some years, but the board feels confident that they can be and will be reduced to a minimum."

As an example of how this latter purpose may be accomplished, it is pointed out that the two schools of engineering, one at Ames, and the other at Iowa City, may in time be so co-ordinated that one shall do the undergraduate work in engineering and the other the graduate work; and that the State Teachers' College and the university school of education may be similarly co-ordinated. University College of Medicine. Considerable space is given to a discussion of the proposed merger of the State University College of Medicine. It is evidently the intention of the board to develop this college along the highest possible lines and to make it serve the people of the state to the fullest extent. There have been numerous marked changes in methods of medical instruction during recent years and in order to keep step with this progress it will be necessary to adopt a much more liberal policy in the matter of the budget for this particular college than has hitherto obtained.

State College of Agriculture. The prospects here for this institution are fully and frankly discussed in the report. It is stated that from the standpoint of business administration this institution is more intricate than any other under the board's control, this for the reason that it carries on numerous commercial transactions in its farm, its dairy and its creamery. The report argues in favor of maintaining the institution along the lines of development thus far pursued. The new board evidently is averse to the lowering of any standards. Short Course at Ames. The report calls attention to the fact that, pending the time that it seemed to be not only a popular demand but a public need, the board has sanctioned the installation at Ames of a two-year course in agriculture, which students who have completed the studies usually designated as the common branches may enter, but from which any student who is prepared to enter the regular course in agriculture shall be excluded.

"This arrangement is only temporary," says the report. "The board recognized the demand for such instruction and the need of it; and it intends to present this matter frankly to the general assembly as something which the legislature should consider on its merits and provide for—if in its wisdom it recognizes the necessity of providing for it—in such a way as not to interfere with the high standards which have always been maintained at this institution and which the board hopes to see maintained in the future."

State Teachers' College. The State Teachers' College is characterized by the report as "a magnificent institution, honored at home and abroad—one that trains for all the departments of the country's schooling." "It," says the report, "the interpretation of the statutory provision establishing this college has been liberal, it surely will be conceded that the work attempted has been nobly done."

Additional Buildings Needed. The report goes into the need for additional buildings at the several institutions. Touching this matter, it says: "The board has given careful consideration to the need for additional

buildings at the several institutions; and, should a continuance of the same be granted, will in due course of time ask the legislature to approve plans for buildings substantially as follows: At the University:— Woman's Building, Botany and Geology Building, Library, Gymnasium, Chemistry Building. At the College of Agriculture:— Addition to Margaret Hall, Chemistry Building, Library, Physics Building, Mechanical Laboratory, Aditorium, and other buildings of a minor character. At the State Teachers' College:— Completion of Training School Building, Vocational Teachers' Training School Building, Music and Public Speaking Building, Hospital, Greenhouse, Enlargement of Heating Plant. Quality Rather Than Quantity. It is evident that the board believes in working for quality rather than quantity. It is frankly stated that the board proposes to adhere to this general principle not to increase in any marked degree the scope of any of these institutions until the work already attempted shall have been brought to the highest possible standard.

"High standards," continues the report, "sometimes criticised. It is said that such standards exclude many who find it difficult to conform to them, and that state institutions in particular should be liberal at this point. However plausible this argument may seem to be, it is unsound. If there is any path in this world along which we pass but once, it is the preparation path. To invite students to take a so-called easy road to learning is to deceive them and to defraud them. To maintain high standards is a plain duty. For the accomplishment of this purpose adequate compensation for the instructional force and for sufficient amount for thorough equipment are necessities."

MILK SEPARATOR EXPLODES. Humboldt Citizen Badly Injured in Unusual Accident. Special to Times-Republican. Humboldt, Oct. 1.—Lars D. Mikkelsen can thank his lucky star that he is alive. It is seldom that an explosion of milk is heard of, but here is a case clear and clean. Mr. Mikkelsen was engaged in running his milk separator. He was working away in his milk house, his two children standing near, when there was an explosion that resembled a dynamite blast. The old machine was blown into a thousand pieces, some of these striking him in the face, cutting it in a frightful manner and requiring the immediate attention of a surgeon. He will be disfigured for life.

The children both escaped with slight injuries. One piece struck Mr. Mikkelsen in the shoulder and it left him almost paralyzed. He was thrown against the side of the building and lay unconscious for some time. The bowl of the machine went thru the door and was picked up several rods away.

PHENOMENAL CONVALESCENCE. Union County Attorney, Recovering From Two Months' Non-Consciousness. Special to Times-Republican. Creston, Oct. 1.—Perry Armitage, Union county's attorney who for the past two months has been seriously ill, was able to be down town yesterday for a short time. His convalescence has been phenomenal. Since he began to recover he has made remarkable progress. His mind is an clear as ever and it will only be a short time, providing there is no relapse, before he will be able to attend to his duties again. His appearance, however, indicates the critical illness he has passed thru. He was unconscious all the time for nearly two months.

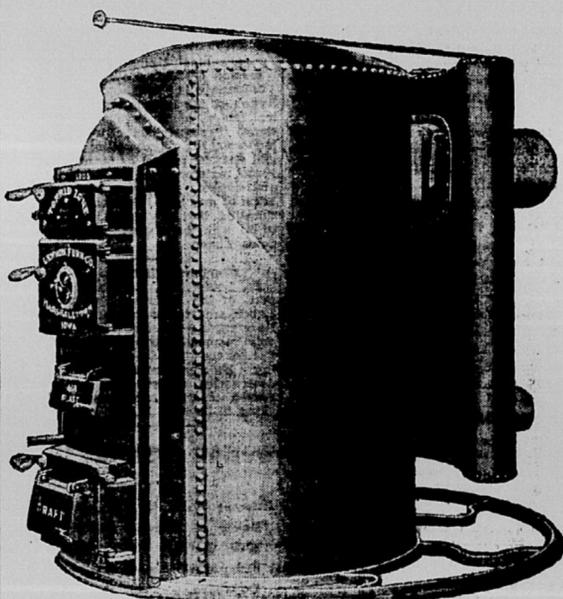

ONLY CASE ON RECORD. Doctors Puzzled by Growth on Neck—Fifth Operation Performed. Special to Times-Republican. Creston, Oct. 1.—Harry Carson of this place has recently been operated upon for the fifth time for a growth in the neck, a case of the hospitals in Iowa City. The case is unusual and the doctors are puzzled to know the nature of the growth. His case is said to be the only one of the kind on record. His physicians believe that with this last removal he will regain good health again.

LIBRARY AT OSCEOLA. Contract For New Building Awarded to Toledo Man. Special to Times-Republican. Creston, Oct. 1.—C. W. Ennis, of Toledo, has been awarded the contract for the new public library at Osceola, the work to begin early this month and to be completed by May 1, 1911, or as per contract. He will forfeit \$10 per day for every day thereafter. The building will be of pressed brick with stone trimmings and the cost will approximate \$12,000.

Lennox Furnaces

Good For The Babies

GROWN-UPS MAY GET ALONG DURING THESE COLD MORNINGS AND EVENINGS WITHOUT A FIRE IN THE HOUSE BUT THE BABIES NEED HEAT AND WHAT IS ABSOLUTELY NECESSARY FOR THE BABIES IS A GREAT COMFORT TO WOMEN OF LOW VITALITY, AGED PEOPLE AND REALLY TO EVERYONE NO MATTER HOW ACTIVE HE MAY BE. AND IT IS HERE THAT LENNOX STEEL FURNACES ARE SO POPULAR. THE STEEL RADIATES HEAT SO QUICKLY THAT A SMALL FIRE OF WOOD OR TRASH STARTED BEFORE BREAKFAST WILL HEAT UP THE ENTIRE HOUSE, TAKE THE CHILL OFF AND LEAVE IT COMFORTABLE ALL DAY. WITH STEAM OR HOT WATER A STRONG FIRE MUST BE BUILT TO GET UP STEAM OR HEAT IN THE RADIATORS AND BY THE MIDDLE OF THE FORENOON WHEN THIS KIND OF A HEATING PLANT BEGINS TO WORK THE SUN IS HIGH ENOUGH TO HEAT UP THE HOUSE. UP GO THE WINDOWS, THE HOUSE IS OVERHEATED AND UNNECESSARY FUEL IS WASTED. SO IT IS WITH THE CAST IRON FURNACE, IT TAKES TOO LONG TO HEAT IT.

AND THIS KIND OF WEATHER WILL LAST FOR THREE MONTHS ALMOST. THE ONLY DURING JANUARY AND FEBRUARY WILL HEAVY FIRES BE NECESSARY FOLLOWED BY TWO SPRING MONTHS OF LIGHT FIRES. FOR FIVE MONTHS THE STEAM, AND HOT WATER PLANTS AND CAST IRON FURNACES REFUSE TO RESPOND TO LIGHT FIRES, THEN WHEN REAL COLD WEATHER IS ON THE LENNOX STEEL FURNACES, WITH THEIR LONG SMOKE TRAVEL THRU THE EXTRA RADIATOR ARE AS POWERFUL HEATERS AS WERE EVER DEvised BY MAN.

FOR SIX YEARS NOW, THEY HAVE BEEN SHIPPED INTO THE CANADIAN NORTHWEST WHERE NONE BUT THE MOST POWERFUL FURNACES CAN ENDURE. EVERY YEAR THE CANADIANS DEMAND MORE OF THEM AND A DUTY OF 30 PER CENT NEVER STOPS A MAN IN THE COLD NORTHWEST WHEN HE KNOWS WHAT A LENNOX STEEL FURNACE WILL DO. THE LENNOX FACTORY IS THE LARGEST FACTORY IN THE WORLD FOR MAKING STEEL FURNACES AND NOW SHIPS LENNOX STEEL FURNACES INTO 22 STATES FROM TEXAS TO CANADA AND FROM PENNSYLVANIA TO THE PACIFIC COAST.

\$3.50 RecipeCures

Weak Kidneys, Free Relieves Urinary and Kidney Troubles, Backache, Straining, Swelling, Etc.

Stops Pain in the Bladder, Kidneys and Back.

Wouldn't it be nice within a week or so to begin to say goodbye forever to the scalding, dribbling, straining, or too frequent passage of urine; the forenoon growth muscle weakness; spots before the eyes; yellow skin; sluggish bowels; swollen eyelids or ankles; leg cramps; unnatural short breath; sleeplessness and the despondency? I have a recipe for these troubles that you can depend on and if you want to make a quick recovery, you ought to write and get a copy of it. Many a doctor would charge you \$3.50 just for writing this prescription, but I have it and will be glad to send it to you entirely free. Just drop me a line like this: Dr. A. E. Robinson, K303 Luck Building, Detroit, Mich., and I will send it by return mail in a plain envelope. As you will see when you get it, this recipe contains only pure, harmless remedies, but it has great healing and pain-conquering power. It will quickly show its power once you use it, so I think you had better see what it is without delay. I will send you a copy free—you can use it and cure yourself at home.
