Collins was engaged in switching when he got caught between an engine and a car and the draw bar crushed him in the abdomen. His wife, who is not a strong woman, is nearly distracted and it is feared that if she recovers from the shock she will be shorn of her reason. One son, Emmert, is left. Another son, Eddie, a talented young violinist, on the eve of his departure for Europe was drowned in the Des Moines river. This accident happened two years ago and cast a gloom in the life of Mr. Collins which never left him. He was a completely changed man and often when in the cemetery kneeling by the grave of his son he would wish aloud that he might be taken to be with Eddie.

Dragged by Frightened Cow By Rope Round His Body Thru Barbed Wire Fence and Face Frightfully Battered. Special to Times-Republican. Geneva, Oct. 7.—Drawn at the heels of a frightened cow by a rope fastened around his body, Lee Card, the 6-year-old son of David Card, narrowly escaped death and had his face and head frightfully bruised. The boy was bringing the cow home from the pasture and fastened the rope around his body with a slip noose knot.

Something frightened the cow and the boy, being unable to keep on his feet, was dragged by the animal thru a barbed wire fence and kicked in the face as he bumper against the cow's heels. The cow did not stop at the Card home but ran on thru town and was finally stopped by M. D. Dolson, who released the unconscious boy. His face was bruised almost beyond recognition and his body was compressed by the rope to the size of a man's arm.

The boy was taken home in an unconscious condition, but it is now believed he will recover.

Sioux City. It is evident that Webster City has made a failure of municipal ownership as far as the management and inauguration of the heating plant is concerned. Prices have been boosted from year to year until now they are practically prohibitive and it is likely that after the coming winter the plant will be abandoned. The city has made good on the waterworks and electric light departments. Why it should fail with heat is not easily explained. The general impression is, however, that the plant was not properly installed. The grade or elevation of the distance of

LADY TEACHER ROBBED

MISS MAUDE HEMSTEDT VICTIM OF MYSTERIOUS ATTACK IN SHELBY COUNTY.

SOUND, GAGGED AND ROBBED BY UNKNOWN MEN

Miscreants Entered Schoolhouse After Close of Day's Sessions, Finding Teacher Alone—Tied to Chair and Handbag Containing \$30 Stolen—Farmer Working Near Saw No One.

Special to Times-Republican. Harlan, Oct. 7.—Miss Maude Hemstedt, a teacher in district No. 9, Clay township, of this county, was bound, gagged and robbed of \$30 by two unknown men at her school after school hours.

The young lady boarded at the home of E. A. Noone, but as the Noon family were away for a few days she was to stay at the home of a neighbor. As the young lady did not appear at supper time nor later the lady sent one of the boys to the schoolhouse to see if she was in the building. The boys discovered the young lady with her arms tied behind her and tied to a school seat. He at once called help and the girl was released. She says she remained in the schoolhouse to write a letter home and that about 5 o'clock some one knocked on the back door and she got up to respond, thinking it was some of the boys who had been playing in the school yard. When she opened the door she was seized by a masked man and her own handkerchief was forced into her mouth and both men then tied her arms behind her and tied her to a seat, where she was found at 7 o'clock. The girl had \$30 in her hand bag in the desk and this the robbers took and made their escape.

The entire affair seems to be very mysterious as the young lady claims neither of the men said a single word to her nor she to them. They gagged her with her own handkerchief, and towels found in the school room, and tied her with a rope used by the students in jumping. Farmers were at work until 5 o'clock in the road in front of the school house and not a stranger had been seen by anyone in the neighborhood during the day.

Miss Hemstedt had cashed her salary warrant the night before at the bank and this she found when school was dismissed. Sheriff Wick and his deputy were called to the scene at 9 o'clock but as yet they are unable to find any clue to the whereabouts of the robbers.

Aids Nature

The great success of Dr. Pierce's Golden Medical Discovery in curing weak stomachs, wasted bodies, weak lungs, and obstinate and lingering coughs, is based on the recognition of the fundamental truth that "Golden Medical Discovery" supplies Nature with body-building, tissue-repairing, muscle-making materials, in condensed and concentrated form. With this help Nature supplies the necessary strength to the stomach to digest food, build up the body and thereby throw off lingering obstinate coughs. The "Discovery" re-establishes the digestive and nutritive organs in sound health, purifies and enriches the blood, and nourishes the nerves—in short establishes sound vigorous health.

If your dealer offers something "just as good," it is probably better FOR HIM—it pays better. But you are thinking of the cure not the profit, so there's nothing "just as good" for you. Say so.
