CENSUS FIGURES ERR

FEDERAL STATISTICIANS DO IOWA INJUSTICE ON FARM LAND VALUES.

FIX AVERAGE PRICE OF ARMS AT \$96 PER ACRE

At Some Times State Reports Determine Average Price is \$75 Per Acre—Government Reports Advertise State as Booming its Lands to Fancy Price—State Has 190,488 Farms.

Special to Times-Republican. Des Moines, Oct. 27.—How many farms are there in Iowa and what are they worth? The authorities differ—and differ so widely that it is going to be a serious question as to how to reconcile the differences.

The census enumerators who gathered statistics for Uncle Sam found farm land in Iowa of the value of over \$500 million dollars, and they found that the average value of Iowa farm land was \$96 an acre.

Under a new law the findings of the assessors of the state, are reported to the department of agriculture, from which Secretary Simpson has just completed a compilation showing that the first of this year the farm lands of Iowa were worth about \$2,265,601,700 and that the average value, estimated, was about \$75 an acre.

The census men found more than 28,000 more farms in Iowa than did the assessors. They found over 3,000,000 more acres of farm lands than did the assessors. What's the answer to the puzzle?

Secretary Simpson says he is at a loss to understand how the census enumerators could possibly find that the average value of Iowa farm land is as much as \$96 an acre. It is not true, it is an injustice and an injury to the state to have this kind of a report sent out. It creates at once the impression that Iowa farm lands have been boomed far beyond their actual value as revenue producers.

The report of Secretary Simpson, just completed for insertion into the Iowa year book shows a total of 190,488 farms, with 30,221,356 acres. The average number of acres in a farm is 158.66. On the estimate of \$75 an acre for the land, good and bad, improved and unimproved, this farm land is worth \$2,265,601,700.

The total value of Iowa farms and farm machinery and live stock was \$3,174,128,976. The average value of the farms was \$16.663.

These same statistics gathered from the assessors' reports show a rural population of 1,142,114. The average monthly wage paid farm help was \$28.50.

Statistics of the live stock on Iowa farms show:
Horses 1,322,454 \$152,033,260
Milk cows 51,81,553 6,138,480
Other cattle 1,107,233 44,239,320
Swine 3,530,304 88,257,600
Sheep 6,312,534 69,438,974
Poultry 839,736 4,833,493
Poultry 22,062,707 11,031,353

The total value of all farm crops marketed last year was \$468,170,000. This included all grain, hay, forage, butter, seed, wool, poultry and eggs. The sum is larger than was shown by the preliminary report issued last winter by the Iowa crop service.

There is great reason to hope that the suit just entered upon by the state of Iowa, or rather the intervention on behalf of Iowa in the Oklahoma case, will result in an order of the interstate commerce commission to the railroads and sleeping car companies to reduce the prices for upper berths. It is recalled that in a similar case before the commission involving rates in the north the commission did declare that it is a discrimination to fix upper and lower berth rates the same. The railroads specifically asked by Attorney General Myers include, for sample, the following: From Des Moines to Chicago, \$2 to \$1.50; to Omaha \$1.50 to \$1.25; to Denver \$1.50 to \$1.25; from Sioux City to Chicago \$2.50 to \$1.75; to Denver \$3.50 to \$2.50; from Cedar Rapids to Chicago \$1.50 to \$1.25; to Denver \$2.50 to \$1.75 and so on. The pleadings and arguments of the state of Oklahoma are adopted for Iowa. Assistant Attorney General John Fletcher has prepared the case for Iowa.

The interstate commerce commission has taken action in the matter of the proposed increase of grain rates from northwestern points eastward and has suspended the rates announced last summer. This was the case concerning the Iowa commission was invited to go to St. Paul and meet with commissioners from many states and consider what should be done. It was found that the railroads had very carefully avoided making any change affecting Iowa rates, and so Iowa did not get into the case at all.

DEAFNESS CANNOT BE CURED
By local applications, the deaf cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.
We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Ely's Take Hall's Family Pills for Constipation. Catarrh Cure. Send for circulars free. Sold by druggists, 75 cents.

A FIGHTING PARSON

REV. S. B. M'VEY DEMONSTRATES ABILITY TO DEFEND HIMSELF WHEN ATTACKED.

QUARREL WITH REALTY AGENT LEADS TO ENCOUNTER

Agent's Friend Sought to Aid Him and Preacher Thashed Both of Them to a Finish—No Arrests Made, as Pastor Was the Aggrieved One and Had the Best of the Encounter.

Special to Times-Republican. Webster City, Oct. 27.—Webster City has "a fighting parson." His name is Rev. S. B. McVey and he can whip into submission two men of ordinary size. Be it said to his credit, however, he carries no chip on his shoulder nor does he fight unless compelled to.

Last night he thrashed two young fellows who came to his home and compelled him to. Rev. Mr. McVey, who has been pastor of the U. B. church here for nineteen months, has been sent to Moville. He is now moving to this place. Last night, the agent who rents Pastor McVey his residence, called. A friend was with him. A difference arose between the minister and the agent as to how much the parson owed for rent. The latter claimed certain repairs had been made for which the owner of the house should pay for. The agent refused to stand for this and became abusive. Words ran high and finally the agent struck the minister—and misjudged his opponent. Without an instant's hesitation, the parson came back and made things so warm for the agent that the latter's friend attempted to interfere. This aroused the righteous indignation of the man of cloth and he soundly thrashed both his opponents, the in return he received some pretty hard blows.

Policeman Young was called to the scene, but no arrests were made. The minister had the only complaint and having had decidedly the best of the encounter, refused to swear out any warrants.

STORY COUNTY LAND PRICES.
One Hundred Ten Acres Bring \$172 Per Acre—Little Sold Less Than \$150.
Special to Times-Republican.

Nevada Oct. 27.—One of the recent real estate transactions in the immediate neighborhood of Nevada was the sale of a 110-acre farm just east of the city by Grant Ulum to Charles C. Montgomery, the price paid being \$19,000, or about \$172 per acre. Mr. Ulum bought the place a year ago, paying \$15,000 for it. No improvements have been made on the farm during the year and Mr. Ulum has realized an excellent crop on it this season. Mr. Montgomery, who purchased a fifty-acre farm just south of his present purchase last year of Mr. Ulum at \$200 per acre, purchased the last place as a matter of speculation.

But little land is changing hands in Story county at less than \$150 this season and not a few transactions have been at the \$200 mark. The large amount of drainage work done in the county during the last four or five years has been a great factor in the tendency to raise land values. Illinois parties are grabbing up every available snap that shows up on the market.
