

NERVOUS DYSPEPSIA

A CURE FOR ALL. Not a Patent Cure-All, Nor a Modern Miracle. But Simply a Rational Cure For Dyspepsia. In these days of humbuggery and deception, the manufacturers of patent medicines, as a rule, seem to think their medicines will not sell unless they claim that they will cure every disease under the sun. And they never think of leaving out dyspepsia and stomach troubles. They are sure to claim that their nostrum is absolutely certain to cure every dyspeptic and he need look no further. In the face of these absurd claims it is refreshing to note that the proprietors of Stuart's Dyspepsia Tablets have carefully refrained from making any undue claims or false representations regarding the merits of this most excellent remedy for dyspepsia and stomach troubles. They make but one claim for it, and that is, that for indigestion and various stomach troubles Stuart's Dyspepsia Tablets is a radical cure. They go no farther than this, and any man or woman suffering from indigestion, chronic or nervous dyspepsia, who will give the remedy a trial will find that nothing is claimed for it that the facts will not fully sustain. It is a modern discovery, composed of harmless, vegetable ingredients acceptable to the weakest or most delicate stomach. Its great success in curing stomach troubles is due to the fact that the medicinal properties are such that it will digest whatever wholesome food is taken into the stomach, no matter whether the stomach is in good working order or not. It rests the overworked organ and replenishes the blood, the nerves, creating a healthy appetite, giving refreshing sleep and the blessings which always accompany a good digestion and proper assimilation of food. In using Stuart's Dyspepsia Tablets no dieting is required. Simply eat plenty of wholesome food and take these Tablets at each meal, thus assisting and resting the stomach, which rapidly regains its proper digestive power, when the Tablets will be no longer required. Nervous Dyspepsia is simply a condition in which some portion or portions of the nervous system are not properly nourished. Good digestion invigorates the nervous system and every organ in the body. Stuart's Dyspepsia Tablets are sold by all druggists at 50 cents per package.

MAUSOLEUM ROOF FALLS

Many Workmen Narrowly Escape Death or Injury at Oskaloosa.

Oskaloosa, Nov. 11.—A section of the cement roof being constructed by the Iowa Mausoleum company, at Forest cemetery, 15x20 feet in dimensions, fell with deafening crash to the floor, twenty feet below, yesterday. Many workmen were in the building but were very fortunate in not being under this particular portion of the roof. The cement was placed in the forms and instead of drying it froze, by the morning the supports under this part of the roof were removed, as some of the workmen were sure it had "set" sufficiently to hold it up. The supports were removed and the roof did not fall, but later in the morning when the sun's rays beat on the frozen cement it was softened to such an extent that it could not bear its own weight.

WEAVERLY'S SUGAR INDUSTRY

Factory Has Handled 20,000 Tons, With Operating Force of 300.

Special to Times-Republican. Waverly, Nov. 11.—Twenty-two thousand tons of beets have been received so far by the Iowa Beet Sugar Company of this city, and they have all been cut for at the factory. It is estimated that about 5,000 more tons will be handled. Both a night and day crew are kept busy in converting the beets into sugar, necessitating the employment of some 300 men at the plant. This is the only beet sugar factory in the state and it is doing such a good business that within a very few years other factories will be built, which will revolutionize farming to quite an extent. The raising of beets is an occupation all by itself and Russians, who are experts at the business, contract for the sowing, transplanting, and tending of the crop until they are ready for the market at \$16 per acre, with a guarantee of so many acres. Fifteen hundred acres were raised in and around Mason City and beets proved to be as remunerative a crop as was raised without labor or worry.

IOWA PROFESSOR TO PRISON

Irwin Hilman Confesses to Sending Obscene Matter in Mail.

Madison, Wis., Nov. 11.—Prof. Irwin Hilman, connected with the extension service of the University of Wisconsin, has confessed to abuse of the mails in sending obscene literature and other matter, and will be sent to a federal prison. While undoubtedly guilty on many counts, he confessed only to one, which the maximum penalty is five years. Hilman from 1905 to 1909 was a professor at Buena Vista College, Storm Lake, Iowa. He was a graduate of the university and will be given a master's degree in 1910. The University of Wisconsin has placed him on the roll as instructor in extension work and assistant editor for the historical library. Hilman carried on an extensive clandestine correspondence, apparently trying to form so-called "circles" modeled on a creation of French fiction. He was caught by a clever ruse of detectives and young women of the university. A key to a postoffice box was left on the top of a telephone booth, the signal and thus revealed his identity. Masses of literature, pictures and long lists of names of people in different sections of the country, apparently with whom he had been corresponding, were found in his home. Hilman is 40 years old, married and has no children. His wife is 33. She was arrested as an accessory and said her husband is controlled by an "irresistible mania."

RESCUER HAS BEEN REFORMED.

Saved Some Lives and Then is Accused of Stealing Watch.

New York—George E. Cogswell, a man so prominent and highly respected in Jamaica that he was nominated for county judge last year, discovered that it does not pay for a Queensborough man to try to be a hero in Brooklyn, Cogswell and a friend, Dr. Long, were going homeward in an automobile when they discovered that a tenement house in Nostrand avenue was on fire. Its inmates were fast asleep.

The two Jamaica men stopped their auto, leaped out, ran into the blazing tenement, aroused the sleepers and assisted them to get to the street. Then they lingered until the firemen arrived and made short work of the blaze. "My watch and chain are missing, and perhaps this man knows something of its disappearance," one of the tenants said to a policeman, waving his hand toward Cogswell. Cogswell was staggered and indignant. He asserted his innocence and reminded the man that if it had not been for him and his friend all in the house might have perished in the fire. At this point the man's wife appeared and told him she had found his watch and chain in a bureau drawer. Then it was Cogswell's turn to refuse to listen to explanations. "We didn't expect a Carnegie medal," he said, "and neither did we expect to be branded as thieves after the trouble we went to get you out of this burning house."
