FINAL PLANS MADE FOR CLUB SMOKER

SPEAKERS ARE SELECTED AND RECEPTION COMMITTEE IS CHOSEN.

LIST OF RAILROAD MEN WHO WILL BE HEARD

Acceptances Have Been Received From Forty-Two Officials Already—Expected Twice This Number Will Be Here—Buffet Luncheon to Be Served—Badges for Visitors.

Detailed plans were prepared, the speakers were chosen and other arrangements were completed for the "harmony smoker" to be given at the Marshalltown Club Friday night at a joint meeting of the house entertainment and transportation committee of the club, held at noon today.

The following members were made the reception committee for the evening: A. A. Moore, chairman; A. D. Meeker, B. W. Sinclair, R. W. Chamberlain, C. H. Whitehead, S. W. LaShelle, C. H. Ruth, C. M. Coleman, W. G. Strickler, T. C. Cartwright, Dr. F. S. Hynds and L. R. Willard.

Those Who Will Speak

President George Gregory, of the club, will open the speaking with a brief welcoming address and will then turn the meeting over to E. M. Wentworth, of Boston, who will introduce the speakers. The local speakers will be Mayor O. L. Ingledue, and D. W. Norris, Jr.

The railroad officials who will make short talks are A. L. Craig, general passenger agent Great Western, Chicago; R. H. Alden, general manager of the Northwestern, Chicago; M. J. Golden, assistant general freight agent of the Northwestern, Chicago; W. G. Bied, general manager of the Iowa Central and Minneapolis & St. Louis, and S. G. Lutz, traffic manager of the same lines of Minneapolis; G. H. Ingalls, freight traffic manager of the New York Central, Chicago, and E. H. Wood, general freight agent, of the Union Pacific, Omaha.

Forty Have Accepted.

Forty-two of the railroad officials who have been invited have already accepted, and it is expected that this number will be at least doubled by Friday.

Arrangements have been made to serve a buffet luncheon, including cigars, on the cafeteria plan.

Novel little badges for the visiting railroad officials have been prepared. They are a piece of white ribbon on which is printed "Marshalltown Club Harmony Smoker, Dec. 16, 1910, Marshalltown, Iowa." In the center is a picture of a train in motion and at the lower end of the badge the wearer's name will be printed. These badges will do away with the necessity of formal invitations.

No Harp—Nor Hell, is Edison's Belief.

Mr. Edison furnished the misters a shining mark when he declared not long ago that he did not believe in a hereafter in which crowns and harps and golden slippers would figure. In fact, he went so far as to say that there was no more reason to believe that any human being (soul) was immortal than there was reason to believe that one of his phonographic cylinders would be immortal.

This called for a hot onslaught from the pulpit, in which many uncompromising things were said of the great inventor. Among others hurried at him was that of atheist.

"That's it," said Mr. Edison recently when shown one of these attacks. "I'm an atheist now, am I? These people who call me to account don't even read

what I've said. I am not an atheist—never have been; never said I was. I believe in a supreme intelligence, but I have grave doubts as to whether you and I and all other good folk of this earth are going to be roused from our graves to go to some beautiful, shining place up aloft. Don't see it, can't understand it, and neither do these ministers of fashionable churches. They don't say what they think. Often they don't even think. It's all business with them."

The only religion needed in this world is the Golden Rule. If everyone practiced it there would be no more trouble or poverty or unhappiness. It is a perfectly practical proposition and wouldn't be hard for most of us to follow if we got a little encouragement from our neighbors. And those who refuse to keep it should be forced to by the police. Yes, sir; I'd put everyone in jail who wouldn't do unto his neighbor as he would have his neighbor do unto him!"

And the white-haired inventor pounded his desk with his clenched fist.

"This world is organized on impractical lines; no one is happy. Most of us are miserable. Some people have too much power and others haven't a chance to earn enough to provide two meals a day. But it's growing better, slowly, as all great things should grow. The world will be happy yet, but it won't be anarchy that will accomplish it, but education. Let them be doing at the Rockefeller Institute, where they cut off a leg, put it in cold storage for a week, and then sew it on again, and it knits and heals and feels and is alive, just like any other living limb. I believe implicitly that time is not far distant when they will be able to put a man in cold storage for six months or so, and then warm him up and discharge him from the hospital alive and kicking. Why, the other day they took a dog's heart out and put the dog and heart into cold storage, and left them there a week. Today that dog is running round the laboratory. Saw him myself. His heart is back in place, and he feels chipper and fine."

Spraying in Trees.

Insects which feed upon the leaves of fruit trees may be kept in check by the application of some arsenical poison (arsenate of lead is considered the best), dissolved in water and applied with a force pump. The pump must have sufficient force and a suitable nozzle to make a very fine mist or spray, in order that a fine film of the mixture may cover the leaves and fruit. Spraying is also efficacious in controlling the "fungus diseases" of trees and other plants. The rusts that affect leaves and the various rots of fruit are common examples of fungi. The remedy most used in spraying for the fungus troubles is known as "Bordeaux

mixture" and consists of copper sulphate, lime and water. A useful formula is five pounds copper sulphate five pounds quicklime, to fifty gallons of water. This formula should be reduced to half strength when spraying the peach and other plants with foliage liable to injury.

ACCOUNTANTS TO BOONE.

Northwestern to Move Ten Employees From Chicago to Iowa.

Special to Times-Republican.

Boone, Dec. 16.—The Northwestern Railway Company has issued an order removing the entire accounting department of the Iowa division to this city. Ten employees with their families come next Monday. This means much for Boone and is the first step to much greater things. The department has been located in Chicago for the past several years.

QUEEN VICTORIA'S HAIR.

Its Great Profusion Was Always a Cause of Wonder.

Even at the age of 70 years, Queen Victoria's hair was a marvel of luxuriance. The court physician, following Prof. Uma's discovery, undoubtedly, treated her Majesty's scalp with a germ destroying preparation, that was made public. It is now known, however, that the remedy for dandruff, the germ destroying element, is embodied in Newbro's Herpicide, the only hair preparation on the market that does destroy the dandruff germ. Without dandruff, hair will grow profusely, and falling hair will be stopped. "Destroy the cause, you remove the effect." Sold by leading druggists. Send 10 cents in stamps for sample to The Herpicide Company, Detroit, Mich. One dollar bottles guaranteed. B. A. Morgan, special agent.

The Famous Rayo

Gives the Best Light at Any Price

When you pay more than the Rayo price for a lamp, you are paying for extra decorations that cannot add to the quality of the light. You can't pay for a better light, because there is none. An oil lamp has the least effect on the human eye, and the Rayo Lamp is the best oil lamp made, though low in price. You can pay \$5, \$10, or \$20 for some other lamp, and although you get a more costly lamp, you can't get
