

# LAMB GAINS SINGLE VOTE IN TWO WARDS

## CONTESTANT CUTS DOWN DERBY'S LEAD ONE VOTE IN FOURTH AND FIFTH.

### CHANGE MADE IN ERRORS IN COUNTING THE VOTES

#### Lamb Loses One in Fifth Ward and Gains One in Fourth While Derby Loses One in the Fourth—One Rejected Ballot in Each Ward Yet to Consider.

With the ballots of two wards recounted in the election contest brought by Dorr Lamb for the seat in the council to which L. Derby was elected, the contest was adjourned at noon today until Monday morning at 9 o'clock. The first wards counted were the Fourth and Fifth and the result, to date, is a net gain of one vote for Lamb.

All the votes were counted and considered with the exception of one rejected ballot in each ward. The attorneys for both sides have agreed that all of the other ballots rejected in both wards were lawfully rejected. Just what is to be done with the two rejected ballots is to be determined later by the judges.

#### Vote Changed in Both Wards.

The recount developed that the ballots were miscounted in three out of a possible four chances in the two wards. In each instance the difference was one vote.

The official returns of the Fifth ward, the first ones recounted this morning, gave Lamb 251 and Derby 93. The recount gave Lamb 250, one less than he was credited with, and gave Derby 93 the same as the official returns, a net gain of one vote for Derby.

The official count of the Fourth ward vote gave Lamb 309 and Derby 185. The recount gave Lamb 301, adding one to his vote and gave Derby 185, cutting one from Derby's vote, a net gain in this ward of two votes for Lamb. Lamb's net gain in the two wards is one vote, reducing Derby's majority to date to two votes.

#### Six Rejected Ballots.

There were two rejected ballots in the Fifth ward and four in the Fourth ward. One of these in the Fifth ward were permanently discarded in the recount by agreement of the attorneys. As far as the recount has progressed there is no indication but that the recount is satisfactory to both sides.

The judges overruled the effort of Derby's attorney, made Friday afternoon to prevent a recount of the ballots for the reason, as stated in court, that

there had been no evidence introduced supporting the allegations of Lamb's lawyer that there had been irregularities in the way the election was conducted and in the manner in which certain votes had been cast. It was also contended that the recount should not be made because of the manner in which the ballots of the Fifth ward had been preserved since the election. The law specifies that the ballots must be preserved in a manner above suspicion of any possibility of their being tampered with. The judges went into executive session and announced that the recounting would begin this morning.

## Local Comment

#### The Spring of the year is the time to clean up alleys and back yards as well as to rake off the front lawns. Let's get busy.

#### The Women's Club of Dubuque is going to make war upon the flies which spread disease over the food supplies exposed for sale in stores. Mr. Fly wading luxuriously in the fifth of the street will have to clean his feet before he walks all over the public food or else he will be barred by netting as by ordinance provided and by women enforced.

#### It would undoubtedly be cheaper in the long run for a city as large as Marshalltown to employ a lawyer by the year. The services of a competent attorney should be employed for \$1,000 per annum since he will not have to devote his entire time to the work and a cost of \$3,000 per annum for attorney's fees is more than our city should pay except in times of very unusual and abnormal litigation.

#### The Iowa Central men are going to do themselves a world of good when they form a social club. The mixing of men in social life broadens them and breeds tolerance for the other fellow. It would also be well if these Iowa Central men could mix with the men up town and work away from much of the prejudice which has been built up by the unwise actions of a very few.

#### It is the belief of the bankers locally that while money is tight now and interest rates high money will be easy and cheap by fall. This condition should be anticipated by builders who now seem to be afraid to go ahead. Workmen, too, should be cautious and conservative in starting disturbances which will increase the alarm among those who would like to build but who fear that they can't build without a fight. What we want is that work go on and we must all pull together to keep it going.

#### Whether the saloon petition is filed today or not it will never prove adequate this time. The leading saloon keeper of the city has admitted to a friend that after the withdrawals are filed his petition will fall from 300 to 500 short. Under such circumstances it is difficult to see the wisdom in filing at all but there may be hope in the procrastinations of the law's usual delays. Injunctions and appeals may give them a few months' longer lease, otherwise what is the use? The point is, however, that this saloon keeper realizes that men have been induced to sign such against their will and better judgment or perhaps by misrepresentation, and he admits and expects that these men will withdraw.

#### Today's shower was a most welcome blessing to us all but it brings with it worries for Councilman Herman who has the street work of the city under his supervision. His teams no more than finish one job of street dragging than a rain makes another necessary. However, the remarkable condition of

our unpaved streets this spring is entirely due to the dragging that has been done and if it is kept up the commission plan will be vindicated itself. The council has planned to save on the salary of a street commissioner alone enough to do the road dragging for the year while Councilman Herman in the fire patrol does the work of a street commissioner himself.

#### WILL PAY MORE FOR GOPHERS.

State Law Increases Bounty to 10 Cents After July 4.

After July 4 the county's bounty on pocket gophers will be increased to 10 cents per gopher. The increase is from 5 to 10 cents and it is to be paid because a state law, making 10 cents the bounty, was passed by the recent general assembly. Under the old law the county had the option of paying any bounty up to 10 cents and in this county the supervisors fixed 5 cents as the bounty. The new law goes into effect on July 4 but it applies to gophers that are caught after that date and not before. County Auditor A. H. Welker has had a number of inquiries regarding this law.

#### MRS. HAVILAND'S NEW WORK.

Former Public Librarian Here Elected to Position in Massachusetts.

Mrs. Grace King Haviland, former public librarian here, has been elected librarian of the Richard Storrs library at Long Meadow, Mass., an old and picturesque town just south of Springfield on the Connecticut river. Mrs. Haviland's son, Willis, lives at Springfield.

#### Hold Veteran in Jail.

George Egbert, of Vinton, who, until a short time ago, was a member of the soldiers' home, was arrested by the police Friday and is being held until some arrangements for his disposition can be made. The police declare Egbert is insane.

Egbert insists that his name is Egbert George. While locked in the Third avenue police station over night he demolished everything that was breakable inside the cell. Marshal Clark has communicated with Vinton to learn if there are any relatives there who can take care of him. Egbert was discharged from the home because he was unmanageable.

#### Sends Trustees the Law.

That the township trustees may be informed regarding the details of the law, commonly known as the compulsory road razing law, copies of the law were sent to all of the township trustees today by County Auditor A. H. Welker. This law makes it obligatory that the roads be dragged, and it provides a penalty of a fine for failure to do so.

#### Game is Called Off.

Because of the rain of Friday night the junior boys' baseball team of the Railroad Y. M. C. A. did not go to New Sharon this morning to play with a team of boys of that place. A telephone message from New Sharon was to the effect that the grounds were too wet for play.

#### Court Adjourns to May 31.

District court was adjourned Friday by Judge Bradshaw until Wednesday, May 31. On that date Judge Nichols will come to the city to hold court for a few days to hear equity matters.

A color scheme of pink and green prevailed in the decorations. The evening was spent in playing five hundred.

#### The Spinning Wheel Chapter, D. A. R., was entertained Friday afternoon by Mrs. C. A. Eadie and Mrs. Ada Willbur, at the former's home. The program was very interesting and consisted of reports of the Continental D. A. R. congress at Washington, D. C., the week of April 19, taken from the Washington papers, and read by different members of the chapter, as follows: "Grand Work of a Patriotic Organization," Mrs. W. B. Kibbey; "Opening Day of the Congress," Mrs. Roy Bradbury; "The Day Before the Election," Mrs. A. G. Glick; "The Day After the Election," Mrs. C. C. St. Clair; "The Last Day of the Congress," Mrs. L. C. Abbott. After the reading of these reports, the D. A. R. hymn was sung by the members of the chapter, and Mrs. H. J. Howe then read "A History of Continental Hall," from the American Monthly. A social hour followed, during which the hostesses served a lunch, assisted by Miss Hazel Sandoz. Guests present from out of town were Miss Emily Perkins and Mrs. Otto Dentzer, both of Chicago.

#### The Ladies' Guild of St. Paul's church will meet Monday afternoon at 2:30 o'clock, with Mrs. L. C. Abbott.

#### Tuttle, jeweler, shoe watch repairing. See T. Nelson Downs, Colonial. Four days, starting Sunday.

#### Go to Beiner's drug store and try their delicious soda. All the popular flavors served and mixed with care as to satisfy your thirst in the right way. Try our fruit sodas, made from fresh fruit every day.
