ROAD BILL ANALYZED

AIMS SOUGHT IN PROPOSED LAW FULLY EXPLAINED FOR FIRST TIME.

FOUNDATION FOR LAWS TO BE DEVELOPED LATER

Duties of State Commission Outlined - Given Supervisory Powers Only, While County and Township Boards Have Direct Charge of Work and Expenditures.

Special to Times-Republican.

Des Moines, March 3.—One of the most advanced of the members of the legislature on the propaganda for a better road law and a start toward a good system of administration of the highway funds is Senator Frank P. Jones of Mills county, a strong business man with much legislative experience in connection with road work.

Before leaving for his home Senator Jones made a careful analysis of the bill so far as completed, saying:

"The bill provides for the appointment of a state highway commission to be composed of three men, one appointed by the college at Ames and the other two by the governor. The commissioners appointed by the governor receive \$10 per day, not to exceed \$1,000 each for the first year and \$500 each for each year thereafter.

"To investigate. They are to take the initiative in investigating the violations and neglect of duties of all officers, including county boards and township trustees, and report same to the attorney general if any such officer refuses or neglects his duty.

"The bills recommended that the school calendar be made uniform with the other colleges of the state. Instead of a sixteen-weeks' fall semester, a month's holiday vacation period, and a twenty-weeks' spring semester, the semesters will be of equal length, and the winter vacation shortened to three weeks.

"The bills recommended that the school calendar be made uniform with the other colleges of the state. Instead of a sixteen-weeks' fall semester, a month's holiday vacation period, and a twenty-weeks' spring semester, the semesters will be of equal length, and the winter vacation shortened to three weeks.

"To pass upon. They are to pass upon all reports and plans and proposals of roads and bridges sent up by the county board before they are recorded as permanent records of the county.

"To furnish. They are to furnish standard plans and specifications for bridges and culverts and for the ordinary highway improvements, and special plans where requested, to county boards and trustees; also maps for the classification of roads and forms for uniform records, reports, blanks, etc.

"To employ an engineer. The engineer may be employed full time or by the job, or any way to meet the needs of the county.

"They classify the roads. They are required to classify the roads into county roads and township roads and designate same upon maps furnished by the highway commission, and have profiles and surveys made and sent to the commission for approval.

"Records. They are to see that all maps, papers, profiles, reports, estimates and cost records are filed in the county recorder's office as permanent records.

"Expenditures. The county board expends the automobile tax, the road funds and the bridge funds, according to plans and specifications of the highway commission and pays for all such work when completed in accordance with the plan.

"Township trustees. The township trustees have charge of all the township roads except the bridge and culvert building. They are to hire one road superintendent for the township who has charge of the contracts for dragging, repairing and maintenance of those roads. They can secure expert help from the county engineer at the expense of the county for advice and

building of roads to be taken over by the county board. They make their levies same as now and spend them substantially the same, but only in accordance with the approved plans of the highway commission. All culverts will be located and sized figured by the county engineers and have bench marks placed thereon to aid in establishing grades.

"The bill contemplates, in general, the establishment of a permanent plan for road improvement and maintenance. Each locality of county can do the work needed by that county. If ready for hard surfacing they may do that, or if they have gravel and wish to gravel the roads there is nothing to hinder them from doing that. In all instances they expend only the money of the county.

"It is arranged that expert help is to be given in the planning and establishing and building of roads, bridges and culverts wherever done, and that expert supervision shall be given to all road enterprises from the top down. Contracts are safeguarded and expenditures must be accounted for in a business like way.

"Objects Sought. "Certain newspapers object to the bill because the county board is given charge of the county highways. The committee thought this a better arrangement than to have it done by the state commission. It is better to have the county boards in charge of the work than to centralize the power in any highway commission. The papers say that the commission supervision and control sufficient to insure uniformity and quality, and that the work be done in accordance with plans adopted by the commission.

LOBBYISTS ARE BUSY

STRONG EFFORT BEING MADE TO DEFEAT STATE TAX COMMISSION BILL.

FARMERS BEING FRIGHTENED INTO JOINING OPPOSITION

Bill Represented as One Designed Solely to Increase Taxes—Utilities Commission Measure Stands Little Show of Being Adopted—Prison Reform to Win.

Special to Times-Republican.

Des Moines, March 3.—The legislators get back on the job tomorrow, ready for the long pull to the finish. Undoubtedly first consideration will be given to the bill to strengthen and vitalize the state highway commission and improve the laws as to road construction and the expenditure of the road and bridge money.

It is almost as good as settled that there will not be created any state tax commission. Certainly there will be no public utilities commission on the basis of the bill proposed.

As to the prison reform measure, the initiative taken some time ago by Governor Clarke in calling the conference and getting things started is likely to bear good fruit. At the conference on this subject last Tuesday evening, Governor Clarke analyzed the various bills and made it plain to the legislators that here was a field for their activities about which there could be no doubt.

On Wednesday it is expected that a vote will be reached on the house resolution for women suffrage which is on the senate calendar ready for action but without recommendation. The fight thus far has been to keep it on the calendar.

Beards of supervisors in all counties of 50,000 population or over are now in position to greatly reduce expenses of county government by entering into contracts for the boarding and feeding of prisoners. The bill to restore the law to what it was prior to four years ago went into effect by publication on September 21 of last month. It puts an end to the fixed price of 1 1/2 cents a meal which was in the law for a brief time, and gives the board the liberty of entering into a contract as to the price for meals for prisoners in jail. In

Special to Times-Republican.

Ames, March 3.—The date for the opening of the fall semester at Iowa State College will be changed from Sept. 1 to Sept. 15 this year, according to recommendations just made by the deans of the college to the board of education.

The deans recommended that the school calendar be made uniform with the other colleges of the state. Instead of a sixteen-weeks' fall semester, a month's holiday vacation period, and a twenty-weeks' spring semester, the semesters will be of equal length, and the winter vacation shortened to three weeks. This will bring the mid-year examination in January instead of just before Christmas.

The great danger from influenza is its resulting in pneumonia. This can be obviated by using Chamberlain's Cough Remedy.—Adv.

Northern Iowa Items

Marion. About 1,000 men are being housed by the Milwaukee east of Marion to do the work on the double track as soon as the weather breaks. More men are being added to the force daily.

Charles City. Lieutenant Haley, of the local national guards was bitten by a mad dog. The dog has been found and shot. Mr. Haley went to Iowa City for treatment Wednesday night.

Remsen. Last week Henry Dorr, a hog breeder, residing near Remsen, sold sixty blooded Poland China hogs, netting him the neat sum of \$6,635, or an average of \$109.58. P. Mayne, of Grammer City, sold sixty at an average of \$109; Blomendal & Kurvur, Pros. averaged \$81.75 and John List's averaged \$50.

Cedar Falls. The Central Oil and Refining Company is a new organization of local capitalists who, with a capital of \$40,000, will manufacture all kinds of lubricating oils and other greases. Dr. Knickerbocker, F. S. Schmidt and N. J. Wild are the first directors named. The place of business is at 2119 College street.

Sioux City. As an extra inducement to get children of the public schools interested in the work of the humane society, Edward Kearney of the Midwest Bank has offered a prize of \$5 to the child that will send in the most clippings on this announcement, was sent by Albert Venning, secretary of the association, to the teachers of the public schools.

Boona. Charles Crouse, residing on College street, was quite seriously injured at the Heaps coal mine, when a large piece of coal fell on him, dislocating his shoulder, breaking two ribs and considerably bruising him otherwise. It took the united efforts of five men to remove the piece of coal. Mr. Crouse is a man about fifty years of age, and on account of his advanced age, no doubt the injury will be more serious than otherwise.

Sioux City. The girls of Morningside College have formed a suffrage club. At an informal meeting they discussed their views on the subject. While they are not in sympathy with all of the sensational maneuvers of the suffragettes, they do claim that women are equally capable with men of being entrusted with a voice in their government. What activities the organization would undertake was not determined. It was agreed to meet weekly for discussion.

In case of the necessity of any demonstrations, Miss Ethel Ewer will be in charge. Genevieve Balcom was elected president. Beatrice Shannon, secretary; Beatrice Light, vice president; Ethel Ewer, treasurer.

Mason City. The Chicago & Northwestern railroad stole the march on the Chicago & Great Western Sunday. For some time there has been a hitch between the two companies, the Great Western endeavoring to prevent the Northwestern from

Wan, Weary and Worn Out If You Feel Fagged to a Finish and Utterly Used Up Here is Quick Relief. Dr. R. F. and J. F. Fellows.

A Message Do you have pain across the small of your back; blue rings under your eyes and specks before them, and get up in the morning feeling tired? Does your mind wander? Is your memory poor? Are you losing flesh, hair falling out, nervous and irritable; no appetite; hate society—rather be alone; lacking ambition and energy? Do you know what causes you to feel this way? Have you decided where to go to be cured? We are curing others, and it will be your fault if you do not let us cure you.

LIFE is a continuous struggle, and the man afflicted with any disease is outclassed at every turn. In this age of sharp competition no man can hope to be successful unless sound in mind and body. Do not neglect your health until it is too late for a cure. We treat and cure all Pelvic diseases. We are particularly anxious to have people who have been unsuccessfully treated by other specialists to come and see us. If you have violated the laws of health whether through ignorance, misfortune or excess and you are afflicted with any disease or weakness of the Stomach, Bowels, Kidneys, Bladder, Blood, Skin, Nervous system, or you have Varicose Veins, Hydrocele, Blood Poison, Nervous Debility or Physical Decline, we bring a message of hope and cheer.
