LINCOLN HIGHWAY SURVEY APPROVED

ENGINEER FOR STATE COMMISSION "O. K." GRADES ESTABLISHED FOR ROAD.

FORMAL APPROVAL TO BE GIVEN LATER ON

Four Mile Hill to Be Reduced to Not More Than 7 Per Cent Grade—Other Hills to Be Cut Probably Not to Exceed Grade of 6 Per Cent—Survey Completed.

Formal approval from the state highway commission of the grades established by the survey of the Lincoln highway in the county is expected to follow the trip of inspection made over the highway Thursday afternoon by C. E. Coykendall, a field engineer for the commission.

Some changes of grades were suggested by the county engineer while the party was on the road. These approved by the commission's engineer, who likewise approved of other grades as they were established by the survey and not changed. Formal acceptance of the grades and survey will come from the commission when profiles in detail of the entire route are filed with the commission.

As the highway now is, "four-mile hill" west of the city is the steepest of the grades. The survey established a new grade of 7 per cent for this hill, which has now a grade of about 19 per cent. Seven per cent is the maximum grade allowed by the commission which, however, does allow even a steeper grade where conditions make it seem advisable not to cut the grade to 7 per cent.

"Four-mile hill" will be reduced to 7 per cent and perhaps even to a lesser grade. This hill is to be regraded and changed very materially. It is to be straightened and widened, and the right-angle turn at the foot of the hill is to be changed into a curve of a radius of 150 feet.

The survey of all the Lincoln highway thru this county has been finished and the road is now being platted in the county engineer's office.

AMUSEMENTS.

Musical Tabled By Local Composers Given at Orpheum. An amateur night at the Orpheum was greeted by a large audience Thursday night when the Whitacre-Muchmore production of a musical tabled, "The Aviators," was presented.

Statistics show the above enormous amount was paid to the farmers for their 1913 potato crop. What it will be in 1914 is what is of interest now.

Whether it is a garden plot or a number of acres they are going to plant this season, is the first consideration.

You do not want to take chances, spending your good hard money to experiment about the work, experimenting with unreliable seed.

What you want is genuine Red River Early Ohio, grown in Clay county, Minnesota. These are the potatoes that mature early and that yield abundantly.

"Within the Law," the greatest of American theatrical successes, plays a return engagement at the Orpheum Saturday matinee and night, with the same company that presented it here on the first of the season.

The play should fare even better on a return date than it did originally. It is one of those plays that is so brilliantly conceived and written that its performance is actually better than anything the advance notices might attempt to say for it.

The play has earned the unanimous praise of all those who have seen it and no better advertising can be afforded any show on the American stage today.

"Within the Law" won a solid hit here in its first appearance, and is in keeping with the standard of excellence of the productions of the American Play Company, the producers, Odeon.

Millinery Display. Ingledue's wish to announce that their millinery parlor is now open for spring business, with the finest collections of patterns and tailored hats ever shown in Marshalltown.

DANDRUFF SURELY DESTROYS THE HAIR

Makes it Dull, Brittle, Lifeless, and Causes it to Fall Out.

Girls—if you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't do it. It does not do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely.

To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy, every single sign and trace of it.

You will find, too, that all itching and itching of the scalp will stop, and your hair will be silky, fluffy, lustrous, soft, and look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.

Small Volume Is Oldest Record

A little book, scarcely larger than a good-sized memorandum book, is the county's oldest permanent record of the transfers of property, such as are now kept in the huge volumes in the county recorder's office.

The copy of the first document recorded in the county is found in this document which is a bill of sale by which one John Haglins, "of the territory north of Marshall county," so the record reads, sold and transferred to Greenberry Hagins for \$300 a list of personal property including a number of head of livestock.

Among the items listed was "one pair of red work cattle, \$50," and "four hay stacks" listed for the large sum of \$10.

The bill of sale was dated Nov. 29, 1850. It was acknowledged before James W. Miller, justice of the peace, signed by James Pearson and Wells Titcomb's witnesses, and recorded by Zeon B. Freeman, "recorder of Marshall county."

Among the other old time documents in this little volume is a deed from John B. Hobbs, his wife Emily, and Isaac Dawson and his wife Sarah to Marshall county of a part of what was the "township of Marietta or, as the deed says, "it being located as the seat of justice of Marshall county." This old deed was dated Oct. 24, 1851.

"Purple Threads Among the Pink." Suggested by the rainbow wigs: Darling, I am on the blink. Purple threads among the pink. Shine upon my scarlet bean, Orange and ultramarine. New York Tribune.

There must be genuine merit to an article that has stood the test of two generations of users.

In the field of medicine none has had greater success, nor retained that success to a greater degree, than Dr. Caldwell's Syrup Pepsin, which is now being used by three generations of people. Its use in families is constantly becoming more general. The reason, primarily, is that it has merit. It is what it represents itself to be, a laxative- tonic; it does not make exaggerated claims nor use coarse language to set forth its virtues.

It is a medicine, but so mild and gentle a medicine that thousands of mothers give it to their infants, and yet, in a slightly larger dose, it is equally effective for grown-ups. It is for any disorder of the stomach, liver or bowels, for constipation no matter how chronic, for dyspepsia no matter how severe, for biliousness, sour stomach, gas on the stomach, headaches, drowsiness after eating and similar complaints arising from a clogged-up condition of the bowels. It is pleasant to the taste and does not grip. It can be used with safety and good results by anyone at any age or in any condition of health, and that person's health will improve. Every druggist sells it and the price is only fifty cents and one dollar a bottle.

Families wishing to try a free sample bottle can obtain it postpaid by addressing Dr. W. B. Caldwell, 419 Washington St., Monticello, Ill. A postal card with your name and address on it will do.
