

COMFORT COMES INSTEAD OF PAIN

Rheumatism, Lumbago, Soreness of All Kinds, Quickly Rubbed Out When You Apply Speedway. Pain leaves like magic when you apply Speedway. You just seem to smooth all the trouble out, and instead of hurting while doing it, there is a cooling, soothing sensation right away. Remember—Speedway is doing its work the minute you put it on, even though it can not torture you, or harm the most tender skin, or stain the flesh or disintegrate fabric.

You can absolutely depend upon Speedway going right to the spot and doing all we claim for it. If you're not satisfied, the druggist returns your money. You get delightful relief the very first rub. You run no risk, and our advice to you is to get a large bottle right away if you want to travel "the road to quick relief."

Speedway was discovered and used for many years by an old Scotch physician. It was brought to America, and is now offered to all who suffer from rheumatism, lumbago, sore throat, bruised tendons, tired feet, sprained muscles—any muscular soreness whatsoever.

Why suffer when Speedway is at your service to relieve you? A free book with each bottle gives full directions for all uses. Get a bottle today from A. T. Elder and know the complete comfort that this marvelous remedy gives.

MINNEAPOLIS & ST. LOUIS NORTH BOUND. Twin Cities Mail (daily) 9:15 a. m.

RAIN DADLY NEEDED

CORN AT CRITICAL STAGE AND MOISTURE WILL BE REQUIRED SOON.

PAST WEEK HOTTEST AND DRIEST OF SEASON

Early Planted Fields Tasseling—Considerable Rust Reported in Fields of Late Oats—Early Potato Crop Nearly Failed—Coddling Moth Bad in Unsprayed Orchards.

Special to Times-Republican. Des Moines, July 15.—The weekly weather crop bulletin for the week ending July 12 follows: This has been the hottest and one of the driest weeks of the season.

Favorable conditions have prevailed for haying, harvesting and threshing. Considerable rust is reported in late oats and smut is appearing in many localities where the seed was not treated. The rust, however, is the red variety and came too late to do serious harm.

A summary of the reports on apples for July 1 shows the following percentages of the 1913 crop in the several districts: Northeastern, 23; north central, 41; northwestern, 27; west central, 51; central, 44; east central, 25; southeast, 38; south central, 58; southwest, 53 per cent.

Clayton (Elkader)—Rain, .65; haying almost completed, and the crop is extra good; early potatoes of fine quality in the market; all farm and garden crops in best of condition.

Kossuth (Algona)—Rain, .18; hot and dry; finest kind of weather for haying; 75 per cent of timothy and corn growing rapidly; a shower would be welcome.

Osceola (Sibley)—Rain, .19; corn plowing finished; harvesting of small grain will begin next week; early potatoes are blighting some.

Woodbury (Sioux City)—Rain, .01, or .76 inch less than the normal; average daily excess of temperature, 5 degrees.

Harlan (Iowa Falls)—No rain; corn pushing ahead at rapid rate, but will need rain soon; potatoes, gardens and pastures suffering for lack of moisture; about an average crop of hay secured in fine shape.

6th; some oats being cut; sweet corn on the market; gardens need rain. Poweshiek (Grinnell)—Rain, .15; all crops made good recovery from the beating storms of June; timothy is a magnificent crop and is being secured in fine condition; barley in shock—good quality and color; some rust in oats, but all can be cut.

Dallas (De Soto)—Very hot and dry week; corn making remarkable growth, but is needing rain badly; early oats and winter wheat in shock; threshing begun; yields disappointing. (Waukege)—Rain, .28; dry and hot; corn doing fine and tasseling; haying done; winter wheat cut and some threshed; yield about average; bushes, quality good; wells giving out; rain needed.

Delaware (Delaware)—A very hot, dry week, favorable for haying and harvesting, but moisture is needed for potatoes and corn, which are fine at present.

Black Hawk (Waterloo)—Rain, .65; hot and dry; corn and all grain have never been better; some small grain may be injured by high temperature.

Buffalo "Chico" From Montana Shipped East For Fertilizer. Council Bluffs, July 15.—Many strange articles of commerce pass thru this city, the gateway from the east to the west, and vice versa, on eight transcontinental lines of railroad, but the strangest yet recorded passed thru here last night, being a carload of buffalo "chips" gathered on the remote prairies of Montana and other far western states.

Ida Grove Babies Not Numerous—Ten Divorces and 101 Marriages. Ida Grove, July 15.—During the fiscal year ending June 30, the records in the clerk of court's office show that there were 210 children born in the county, of which 115 were males and 95 females.

Collins. John Belcher has sold his farm lying two miles northeast of Collins to Thomas Bloomfield, the consideration being \$208 per acre.

Boone. Hiram Alesver, aged 74 years, died at the home of his son, C. W. Alesver, at Pilot Mound, Wednesday afternoon. Mr. Alesver was in poor health for some time, and last week took very sick and passed away Wednesday. He was one of the early settlers of Boone county and was well known thruout the section. The funeral was held from the home Saturday at 1 o'clock.

Des Moines. "Tufty" Fisk, former Grinnell college athlete and Western league baseball player, was brought from Anamosa prison where he is serving five years for embezzlement, to Newton to complete the funeral of his mother, who came to Iowa City at Colfax because she was unable to secure a parole for her son. Fisk was not permitted to converse with anyone. The coroner's jury returned a verdict of death by suicide.

Keokuk. A building and plant costing \$75,000 is to be erected at once in Keokuk by the Johnson Electric Smelting Company of New York, according to announcement made by the Industrial department of the Mississippi River Power Company. The plant will be in a measure an experimental one, as the company wishes to see what can be done under certain conditions.

MANY AGED "CHILDREN"

MENTAL TEST IN STATE PRISONS REVEALS DEFECTIVE MENTALITIES.

FEW AMONG INMATES HAVE NORMAL MINDS

Surprisingly Large Number Have Mental Development of Children of 9 or 10 Years—War Against Warden Sanders at Fort Madison Being Prolonged to Embarrass Administration.

Special to Times-Republican. Des Moines, July 15.—Dr. Mary L. Neff, who was employed temporarily to do some work at the state reformatory in making mental tests of the prisoners under the Binet-Simons system, has reported results of some examinations made of the prisoners. Under this system, an examination is made which is recorded as indicating the mental development as compared with a child or adult person.

It has become evident that the war on Warden Sanders and reform methods at the state prison, as carried on at Fort Madison, is being prolonged purposely to the embarrassment of state officials and solely for the purpose of causing all the delay possible. It has been the intention of the attorney general to go to Fort Madison and get the matter before a district court. For one reason or another it is being put off—the attorneys are busy, the warden wants to take a vacation, etc.

An illustration of the way the \$50,000,000 increase in assessed valuation of railroads in Iowa last year affects some of the railroads was given by the receiver of the Atlantic road who appeared before the executive council to settle the finances of the two companies organized to continue the business. He stated that the northern end of the railroad, which was bought in by farmer stockholders has not been paying and the interest on the bonds for Keokuk since electric power was secured.

Davenport. The jury, filed that an unidentified man was killed by a Rock Island freight train, five miles west of Davenport on the afternoon of July 8, and from the evidence we believe that he was of unsound mind and deliberately threw himself under the wheels to commit suicide. The above is the verdict of the jury, which was returned at the trial before the executive council to settle the finances of the two companies organized to continue the business. He stated that the northern end of the railroad, which was bought in by farmer stockholders has not been paying and the interest on the bonds for Keokuk since electric power was secured.

Princeton. Charles Noble, 21 years old, was badly hurt when he dived off the limb of a tree into the Mississippi here. He was swimming with several other young men and in diving into shallow water struck his head on rocks. Dr. H. H. Johnson, who was at Cottage Grove at the time was summoned by Ernest Schaffer who went after him on his motorcycle. The doctor stopped an automobile which was on its way to LeClaire and made a quick trip to town. It was necessary to take several stitches to close the wound.

Davenport. Louis Wirtz, 1011 LeClaire street, was the victim of an almost fatal accident Saturday when he fell into a hole six feet deep underneath a wheelbarrow load of brick. The accident happened at Fifteenth and Brady streets, where he was excavating. Mr. Wirtz was wearing the brick across the hole when one of the boards gave way, precipitating him to the bottom of the hole. The bricks followed. He suffered severe cuts on the head and numerous painful bruises all over his body. A physician was called and the cuts on Wirtz' head were given attention and he was able to go to his home.

Clinton. The popularity of the Central school playgrounds reached its climax Friday evening when throngs of parents and friends gathered as interested spectators to the various athletic exhibitions. The enthusiasm of the parents led them to participate in the games themselves, baseball, tennis and basketball proving the most popular amusements for the grownups. The attendance record was also broken, when a crowd of 1,000 was recorded by official count at 8 o'clock.

Newton. Platt Vincent, an old and revered citizen of Jasper county, died at the home of his daughter, Mrs. Dallas Hanks, about 10 o'clock Sunday night. He had been critically ill only about twenty-four hours, although his health had failed him about six years ago. Death came as a result of poor health and a weakened condition due to over-exertion in the heat. Mr. Vincent was an old-time school teacher, having taught school in Jasper county for a long time. Later he taught in Avoca, for twenty years. He was one of the ablest and best teachers of his time and many a prominent business man in this vicinity attributes his success to the thorough training he received.

was paid from the surplus rather than earnings. It has been impossible to make receipts pay expenses. The taxes on the assessment by the state will amount to about \$1,500. The southern end of the road which was purchased by the contractors is even worse off. About \$6,000 has been sunk in operations since the new company took it over. The taxes are \$3,126 this year. It was declared frankly that unless the taxation can be reduced it is only a matter of time until the companies again go into the hands of receivers. He therefore pleaded for reduction of the assessment.

Some consternation was developed among the state officials on a report this week to the effect that the executive council had directed that the printing in the case of matter going before the interstate commerce commission should not be paid for by the state out of the ordinary printing funds, but must be paid for out of the appropriation for the printing for one department is not to be paid for out of the special fund for prosecution of interstate rate cases it would seriously affect the work of the department.

But it was also found that if this has been ordered, three briefs in very important cases now in the hands of the printer, would be delayed until too late for use at Washington. It was found, however, that no such order has been made and will not be made. The printing for one department is on a par with that of every other. Very likely the amount of the printing in interstate rate cases will be reduced the coming year, as it is not anticipated there will be other cases as important as those the past year.

DEDICATE ALDEN LIBRARY.

New Home to Be Dedicated in August—Judge Birdsall to Speak. Special to Times-Republican. Iowa Falls, July 15.—The new Carnegie library at Alden will be formally dedicated early in August and the principal speaker on this occasion will be ex-Congressman Benjamin P. Birdsall of Clarion. It is fitting that Judge Birdsall should officiate at such an event in as much as Mr. Birdsall was one of the founders of the library which is now to have a fitting and permanent home. Away back in 1882, Mr. Birdsall, together with J. A. Button, Ben Lighthall and a few others conceived the idea of a public library for Alden. Each donated a few books and formed the nucleus of a public library. From this small beginning grew the library of today, having been loyally supported by the public all these years. The Alden library is the sixth oldest library in the state and was maintained when many of the cities of Iowa could not boast of such an institution. The new building is a credit to the town and makes a fine addition, the credit for which should be given to Gene Button, who succeeded in securing the donation from Mr. Carnegie. He was loyally supported by his townspeople in complying with the conditions of gift and they naturally feel proud of the new library building.

Nevada Chautauqua Opens Sunday. Special to Times-Republican. Nevada, July 15.—A five days' chautauqua begins in Nevada on Sunday and will continue thru the week. The new building is a credit to the town and makes a fine addition, the credit for which should be given to Gene Button, who succeeded in securing the donation from Mr. Carnegie. He was loyally supported by his townspeople in complying with the conditions of gift and they naturally feel proud of the new library building.

Manson Brevities. Manson, July 15.—Mrs. J. Thomas, of Sherman township, met with a very painful accident. She was putting the cover on a glass fruit jar, when it broke, cutting a large piece of flesh from her hand. Albert Theen, of Johnson township, caught his finger in a hay pulley, with the result that it was torn from his hand at the first joint. It was the first finger of his right hand. The Paul Hohberger jewelry store is undergoing great improvements. The building has been lengthened in the rear, and now workmen are tearing out the front and a new and handsome front will be built.

Pocahontas News Notes. Special to Times-Republican. Pocahontas, July 15.—Our fourth chautauqua opened yesterday with Liberator's band and opera singers. The attendance was 2,500. The oats harvest is progressing and quality and quantity are better than for years. The contractor has started to dig the cellar for our new three story hotel, which is to be finished by Nov. 1. Born to Mr. and Mrs. Bert Martin, a boy.

Gives Quickest and Surest Cure For All Sore Feet. This information will be welcomed by the thousands of victims of daily foot torture. Don't waste time. Get it at once. No matter how many patent medicines you have tried in vain this treatment, which was formerly known only to doctors, will do the work. Dissolve two tablespoonfuls of Cal-o-cide compound in a basin of warm water. Soak the feet in this for full fifteen minutes, gently rubbing the sore parts. The effects are marvelous. All pain goes instantly and the feet feel simply delightful. Corns and callouses can be peeled right off; bunions, aching feet, sweaty smelling feet, get immediate relief. Use this treatment a week and your foot troubles will be a thing of the past. Calocide works through the pores and removes the cause. Get a twenty-five cent box from any druggist. Calocide compound prepared only by Medical Formula Co., Dayton, Ohio.

Greatest Known Foot Remedy Cal-o-cide. Immediate relief for corns, callouses, bunions, aching feet, sweaty feet.

Mix the Breakfast Biscuits the Night Before—

Set Them Away in a Cool Place and Bake them Fresh in the Morning. If the family do not all eat breakfast together, you can bake a few at a time. If you are having hot biscuits for supper, mix and cut out enough more for breakfast. They will be much nicer freshly baked than warmed over. Of course you can't do this very successfully with sour milk and soda or with any of the old fashioned, single acting baking powders, but this convenient way of making hot biscuits and muffins for breakfast is entirely satisfactory if you use

KG BAKING POWDER which is really a blend of two baking powders, one of which begins to give off leavening gas as soon as moisture is added. The other is inactive until heat is applied. The dough will remain in a partly leavened condition for hours and when put in the oven will come up just as light and fluffy as if freshly mixed. Get a can of K C today and try this easy way of baking biscuits at once. You'll never go back to the old way.
