An automobile driven by T. C. Blue this morning skidded on the oiled pavement in turning the corner at State and First streets, and ran into the curbing, breaking a front wheel. Mr. Blue was not driving fast when he made the turn, but the freshly oiled asphalt caused the car to skid. Twelve boys, members of the Sunday school class of the Baptist church, taught by Miss Grace Van Orman, 605 West State street, were entertained Tuesday evening by Miss Van Orman. At 6 o'clock the hostess was assisted by Mrs. Mary C. Van Orman and Miss Rena Van Orman in serving a picnic supper on the lawn, after which the boys spent a pleasant evening playing games. Over 100 members of the congregation and Sunday school of the First United Evangelical church held their annual picnic Tuesday afternoon and evening at Riverview park. The picnickers went to the park at 2 o'clock and an interesting afternoon was occupied with contests, races, and various athletic events for which prizes were awarded to the winners. Supper was served at 6:30 after which the young men played ball. Mrs. J. P. Cooper arrived home Tuesday night from Cathay, N. D., where she was summoned two weeks ago by the serious illness of her sister, Mrs. P. W. Hoganamp, formerly of this city. Mrs. Hoganamp, who is suffering with typhoid fever, and whose death was expected when Mrs. Cooper left for Cathay, is now improving steadily, and it is believed will recover. Mr. Hoganamp was formerly an engineer on the Iowa Central railway out of this city. Mr. and Mrs. J. E. Wildman, daughters, Mrs. L. F. Stokes, of Leonard, Minn., and Mrs. F. J. G. Pulsipher, of Jacksonville, Fla.; son, J. W. E. Wildman, and grandson, Ralph Ball, the latter of Des Moines, left this morning for Elystan, Minn., where they will occupy the Wildman cottage at Lake Frances for two weeks. Mrs. W. B. Wildman and Mrs. J. W. R. Wildman and son Wendell, who have been visiting in Minneapolis for a week, will join the family party at the lake, and W. B. Wildman and sons Fritz and Claire, and Miss Anna Maude Kimberley will leave Sunday morning for the lake. Miss Kimberley will be gone only a few days.

The regular meeting of the Eastern Star Circle, held in the Masonic parlors Tuesday afternoon, was attended by thirty-two members who were entertained by Mesdames Walter Soules, A. M. Treat, J. F. Battin, Marie McFarland and Edward Barlow. The rooms were prettily decorated with nasturtiums. The afternoon was spent socially and with fancy work. Late in the afternoon the hostesses served refreshments. Mrs. W. M. Ballinger, of Oskaloosa, and niece, Mrs. J. F. Walton, of Fort Dodge, were in the city Tuesday evening, en route to Oskaloosa from Zearing, where they had been to attend the funeral of Mrs. Ballinger's uncle, Charles LeRoy, which was held Tuesday afternoon. Mr. Ballinger was also at the funeral, and left this city in the evening for Omaha. C. W. Hutson and Mr. and Mrs. Harry Hutson, of this city, were present at the funeral from this city. The little folks of the Junior department of the Methodist Sunday school enjoyed their annual picnic Tuesday afternoon at Riverside park. The children, accompanied by some of their mothers and teachers, went to the park early in the afternoon, and the time was spent happily with various games and contests. A 6 o'clock picnic supper was enjoyed. T. C. Blue, superintendent of the Sunday school, and Mrs. A. L. Gillett, superintendent of the junior department, had charge of the affair.

consolidated district in the sum of \$12,000 for constructing and equipping a new school house. The vote was 65 for to 44 against. SUES FOR \$10,000 Harry E. F. Davis, of Clemons, Brings Action For Personal Injury Against M. L. P. & R'y. Company—Members of Crew Made Defendants Also. Harry E. F. Davis, of Clemons, in plaintiff is a personal injury suit filed late Tuesday in the district court for damages in the sum of \$10,000, asked of the old Marshalltown Light, Power and Railway Company. Davis, in his petition, alleges that while driving an automobile at the intersection of Third and State streets, on Nov. 20, 1911, at a time when the pavements were icy, his car was struck by a car of the defendant company. The street car, so petition avers, was in charge of Motorman G. H. Beekman and Conductor Floyd L. Smith, both of whom are made parties to the suit. Davis declares in his petition that he was injured in the stomach by being struck by the steering wheel, and was further injured in his attempt to prevent Miss Wanda A. Stough, who was also an occupant of the car, from being injured. Miss Stough is now Mrs. Davis, and the petition recites that she also was injured as a result of the automobile being struck by the car. BATESOLE WINS KELLOGG PRIZE. Makes Greatest Number Sales Kellogg Products During Demonstration. E. D. Batesole, the North First avenue grocer, still holds his reputation, winning easily by fifty packages over the other twelve competing grocers in the Kellogg demonstration held last week. Mr. Batesole won the prize for the greatest number of sales on Kellogg products. Mrs. E. D. Batesole had the demonstration under her supervision.—Advertisement. Soldiers' Home Team Defeated. The Iowa Soldiers' Home baseball team, which has made a good showing this season, was badly beaten in a game with the Dunham Company team Tuesday evening, the score being 8 to 0. Bruce, of the Dunham team, held the home team to one hit in the five innings played while the Dunham nine totaled eleven hits off Warren, many of the hits being for extra bases. Asks Guardian For Miss Tow. B. A. Tow has filed suit in the district court in which he asks the appointment of a guardian for Miss Rachel Tow, who is declared to be of unsound mind, and incapable of transacting business. The plaintiff asks that G. F. Stansberry, of Gilman, be named as guardian. Sculpting the Habitat. Charles R. Knight, the artist, whose reproductions of dinosaurs and creatures of long ago are known the world over, professes, to be known as a painter and sculptor of modern animals. He has worked from the living model as much as possible, and this has taken him to the zoos in many cities. He was telling his experience at the zoo in Washington. "One afternoon an important looking negro came along with his best girl," he said. "They stopped for a

minute and looked at the sketch I was making of a deer. "You know what he is doing, don't you?" asked the negro of his companions. "Bebbe," answered the woman. "Does you?" "Shoh. He's making a landscape ob one of dem habitats. Dere's moh habitats in his zoo than anywhere else in her United States." THE DEADLINE OF POISONS. Certain Ones Become More Dangerous When Diluted With Water. The more you dilute certain poisons with water the more deadly they become. This remarkable fact has been recently demonstrated by Dr. F. Roux, the well known French scientist, before the Academy of Science at Paris. The poisons used in the tests were principally of the bacterial variety, but there seems to be no reason to believe that the proposition is not equally true of other poisons. Some of the bacterial poisons experimented with became doubly virile when diluted with 100 times their volume of distilled water. When less water was used the poisons proved less harmful, and when they were diluted to an even greater extent their poisonous action increased. The conclusion was compelled that the greater the dilution the more dangerous the poisons became, and the only explanation offered was that the resistance of the blood stream was diminished by the water. This is not the only paradox connected with the action of poisons that has

come under investigation at the hands of scientists recently. The venom of the cobra, the most dangerous of all Indian serpents, has always proved more or less of a mystery, in view of the fact that if the poison glands are cut out of a newly-killed snake of this species, their contents may be swallowed with impunity by a healthy human being, the poison being digested in a perfectly natural way, while if the person swallowing the venom happens to have any sore place in his mouth at the time his death is almost instantaneous. Just why cobra venom can be readily digested, but brings almost instant death when the virus gets directly into the blood stream is one of the problems now being investigated by scientists. Not Very Busy. "Recorder of Deeds" read the sign over the door of a handsome building on one of the more prominent of the golden streets. A new arrival within the pearly gates entered. "The recording of deeds interests me," he announced. "I used to be a lawyer in the other world. But why is it that all the clerks are working except you?" he inquired of the only idle member of the force. "I record the good deeds," explained that member courteously.—Courier Journal.
