

ONLY TWO PAVING BIDS; ARE REJECTED

ERROR IN PUBLICATION OF RESOLUTION AND SPECIFICATIONS HALTS PROCEEDINGS.

WILL ADVERTISE FOR BIDS FOR NORTH SECOND STREET

Contract For This Street to Be Let Separately — Resolution For West Church and South Twelfth Streets Lacked Two Publications to Make It Legal—To Receive Bids Aug. 7.

With only two bids offered for paving North Second, West Church, and South Twelfth streets on file, the council rejected the bids and returned them unopened to the contractors, then started to let the contracts for these streets by parcels.

The bids were returned for two reasons, both mistakes. The first was that the resolution of necessity for West Church and South Twelfth streets had been published but two of the necessary four times.

All three streets were included in the resolution of necessity, but the resolution for North Second street, from Lincoln to Center, had been published four times.

Councilman Dorr L. Lamb voted against the resolution to ask for bids for North Second street because he is opposed to letting this small contract separately, lest the price be higher than it would be for a larger yardage.

JOHN P. WOODBURY DEAD

Well-Known Young Man of City Dies at Minneapolis Saturday Afternoon.

John P. Woodbury, a well-known young man of this city, and son of the late John B. Woodbury, for many years president of the First National Bank, died at 3 o'clock Saturday afternoon at Minneapolis of tuberculosis.

Mr. Woodbury had been falling in health much of the time for the past six years, and last spring was compelled to give up his business and seek rest. He had been in Minneapolis since spring, living with his wife in a cottage near Lake Calhoun.

John Peterson Woodbury was born in this city Oct. 9, 1882, the son of John P. and Mrs. Emma Clark Woodbury. A few years later the family moved to California on account of the health of Mrs. Woodbury, who died in California in 1887.

After leaving school John P. Woodbury, Jr., began his training for a banking career, and entered the First National, where he was employed as collection clerk for three years.

Mr. Woodbury was a young man of excellent character and possessed a great many friends who will regret to hear of his death. Particularly sad is the death to the young wife, who has been cheerful and hopeful throughout the years that the spark of life gradually has been becoming fainter.

In addition to his wife Mr. Woodbury is survived by three sisters and one brother. Mrs. Woodbury was formerly Miss Lora Carney, the eldest daughter of Mr. and Mrs. J. L. Carney, of this city.

Accompanied by Mrs. Woodbury and her friend, Mrs. Alice Beeson Warner, of Minneapolis, Mr. Woodbury's body reached this city this morning, and was removed to the J. L. Carney home, 617 West 10th street, from where private funeral services were held at 4 o'clock this afternoon in charge of E. P. Gale and Mrs. W. B. Wood, first and second readers, respectively, of First Church of Christ, Scientist, of which Mr. Woodbury was a member.

In attendance at the funeral from out of the city were Mrs. Franz S. Wildner, of Rochester, Mr. Woodbury's sister, and Prof. Paul F. Peck, of Grinnell College, nephew of J. L. Carney.

Local Couple in Roadside Marriage

A wedding, novel because under the stress of circumstances it was performed by the side of a road near St. Paul, but which was intended to be kept a secret here, has leaked out.

The principals were Miss Nellie Kliebenstein, a seamstress at the soldiers' home, and Fred Gard, an auctioneer of this city. The interested spectators to the nuptial nuptials included Mr. and Mrs. James Carlton and Mr. and Mrs. Fred Ensminger and Miss Kliebenstein, all of this city.

They, together with the bride, formed a camping party that was enjoying an outing at Bald Eagle lake, a summer resort near White Bear, Minn. There Gard joined the party and the wedding was soon arranged.

An interurban junction point and a lack of knowledge of counties and county seats were the primary causes that resulted in the wedding being performed under the trees along the road in Washington county.

Gard, accompanied by a friend, started by street car from Bald Eagle to St. Paul to get a license. Bald Eagle, White Bear, and St. Paul are all in Ramsey county. The transfer for street car passengers is at White wood, on White Bear lake.

Mr. and Mrs. Gard returned to this city a week ago Sunday, intending to keep their wedding a secret for a time at least, but a little bird—perhaps one of the song sparrows that was an unsolicited intruder to the ceremony, told Mrs. Gard has given the required two weeks' notice to the state of her resignation, and will leave the state's employ this week.

FORMER RESIDENT BRIDE

Miss Laura Hoffert Becomes Wife of Earl Flora, of Greene.

The wedding of Miss Laura Lena Hoffert, oldest daughter of Mr. and Mrs. B. K. Hoffert, formerly living east of this city but now at Greene, and Earl Flora, of that place, took place at the home of the bride's parents on Wednesday evening.

The bride wore a pretty gown of tan silk trimmed with white, and the wedding was presided over by Miss Ruth Kincaid. Immediately following the service Mrs. Hoffert, assisted by Miss Isabel Hoffert and Miss Mabel Brooks, served a four-course supper.

Until two years ago the Hoffert family lived east of this city, where the bride has many friends. The groom is a son of Mr. and Mrs. E. H. Flora, of Greene. Mr. and Mrs. Flora will make their home on a homestead near Cass Lake, Minn.

The guests who attended the wedding from away were Miss Bridle Wilson, of Cedar Falls, and Miss Mabel Brooks, of this city.

Wife Files Divorce Petition.

Mrs. Carrie Wilson, of this city, has filed a petition for divorce from Robert Wilson, in the district court. The couple was married at Rock Island, Ill., in December, 1910, the petition says.

JOHN BELL RETIRES FROM BRITAIN & CO.

HAS BEEN WITH LOCAL PACKING CONCERN FOR OVER THIRTY YEARS.

E. A. LUNHAM, CHICAGO, SUCCEEDS AS MANAGER

Son of Late R. T. Lunham, of Boyd, Lunham & Co., Comes to This City From Chicago—Bell Retains Stock in Company, Which Changes Officer Due to Bell's Retirement.

After having been connected with Britain & Co., local pork packers, over thirty years, John I. Bell, of this city, vice president of the company, and manager of the local business, has retired, and has been succeeded by E. A. Lunham, of Chicago, as manager.

Mr. Lunham becomes secretary of the company in the reorganization of the company incident to the retirement of Mr. Bell. Mr. Lunham is a son of the late R. T. Lunham, of Boyd, Lunham & Co., pork packers, Chicago, the officers of which own a majority of the stock of Britain & Co.

On March 25, 1884, John Bell came here from Canada to enter the employ of the local packing concern. He has worked hard, acquired a nice holding of stock, and has had active charge of the business for several years.

Lunham Brings Family Here.

Mr. Lunham, the new secretary and manager of the company, has brought his family, consisting of his wife and five-year-old son, George R. Lunham, to this city. For the present, Mr. and Mrs. Lunham and son have apartments at the S. S. Hutson home, 291 West Main.

T. L. Boyd remains as president of Britain & Co., and his son, T. Kenneth Boyd, of Chicago, succeeds Mr. Bell as vice president. Mr. Lunham is secretary, L. G. Eberhardt, of this city, assistant secretary, and Walter R. Leach, of this city, treasurer. Mr. Leach has been secretary of the company, and Mr. Eberhardt sales manager.

CLEMONS GIRL DIES

Miss Effie Brackney Is Victim of Tuberculosis.

Miss Effie Brackney, aged 22, daughter of Mr. and Mrs. A. Brackney, died at the home of her parents in Clemons at 4 o'clock Saturday afternoon of pulmonary tuberculosis. Miss Brackney had failed in health steadily for several months but it was not until she returned a month ago from Palmer College, Albany, Mo., where she had been attending school, that her condition took a serious turn.

Miss Brackney was born in Clemons July 24, 1892, and had always lived there. Her parents, a brother and two sisters survive her. The latter are Floyd V. Brackney and Eva and Ruth Brackney, all of Clemons.

The funeral will be held from the Christian church at Clemons Tuesday afternoon at 1 o'clock.

MRS. A. E. SPRINGER DEAD

Old Resident of City Succumbs to Second Stroke or Paralysis.

Mrs. Alice Elizabeth Springer, for many years a resident of the city, died shortly after midnight this morning at St. Thomas hospital, where she was removed Sunday afternoon owing to a stroke of paralysis, sustained last Thursday night. Mrs. Springer suffered a first stroke of the same disease four years ago last April.

Mrs. Springer was born Alice E. Wetzner in Indiana, April 12, 1858. Her first marriage was with Joseph Morgan, who died several years ago. Her second husband, to whom she was married in September, 1884, was William Springer, of this city.

Mrs. Springer is survived by eight of her nine children. Three of the number, by the first marriage, are Mrs. W. H. Moreland, of this city; and Burt and Frank Morgan, residence unknown. The children by the second marriage are Mrs. Ben Robbins, William Springer, Jr., Miss Jessie Springer, and Carl and Harry Springer, all of this city. Another daughter by the first marriage, Mrs. Francis Bowman, is dead.

Funeral services will be held at 2:30 Tuesday afternoon from the William Springer home, 303 South Fourth avenue. Burial will be in Riverside.

BODY SHIPPED TO RELATIVES

Corpse of Miss Bertha Galdas Sent to Clarksburg, W. Va.

The body of Miss Bertha G. Galdas, the nurse of the Deaconess hospital, who is thought to have killed herself at the hospital Wednesday night, will be sent to Clarksburg, W. Va. The body was shipped this afternoon. Instructions were received by the undertaker Sunday to ship the body to Miss Galdas' sister, Mrs. F. S. Ballance, who lives near Clarksburg.

There are no new developments in the supposed suicide details of the case. The liquid in the two-ounce bottle that was found hidden under the bed has not yet been analyzed. Rev. Karl Rest said this forenoon that the liquid would be analyzed for the purpose of learning if the liquid contained any poison. It is presumed that this liquid was used in the hypodermic syringe that was also found under the sheet in the bed.

FWOHLER HAS PLAT READY

West Main Street Addition to Be Submitted to Council Soon.

P. L. Fowler, of Osceola, who is promoting an addition of thirty acres lying west of Fourteenth street and between Main and Summit streets, appeared before the council this forenoon with the plat of the addition for the council's approval and acceptance. The tract has been divided into about 100 lots.

The council members wanted City Solicitor F. E. Northup to approve the resolution accepting the plat and dedicating it before action was taken by the council. This action will probably be made special business for a called meeting of the council. The promoter has dedicated for the use of the city for street purposes lots that lie where State and Fremont streets will be cut through and west and Fifteenth, Sixteenth, Seventeenth, and Eighteenth streets north and south.

ALLIGATOR FOR PARK

Roy H. Grim Sends Specimen From Florida—Porcupine Dies.

Still another specimen for the "zoo" of Riverview park will be received shortly. Councilman Dorr L. Lamb, superintendent of the park, received a letter from Roy H. Grim, of this city, that the latter had purchased and was shipping to this city a young alligator for the city park. The reptile has not yet been received.

One of the porcupines sent to the park by C. A. Dunham from his camp in Michigan died the next day after it arrived at the park. Its mate is refusing to eat, and it will probably die.

In the Police Court.

Lloyd Condie, charged with assault and battery by Mrs. Charles Carkhuff, will be arraigned in Justice B. L. Burritt's court this afternoon. Condie is accused of assaulting Jerome Carkhuff, Mrs. Carkhuff's son.

H. C. Carl was summoned into Justice B. L. Burritt's court this forenoon to answer a charge filed by the young man's father, Fred W. Carl, who accuses his son and the latter's companions of taking the Carl automobile Saturday night without the owner's permission. The young men started for Boone. The car broke down at Colo, where it was left, but the occupants hired another car and went on to Boone.

Brick Mason Injured.

Charles Brunke, a brick mason of Chicago, employed on the Y. M. C. A. building, was removed to the Deaconess hospital Sunday suffering with three fractured ribs, the right side. It is presumed Brunke was injured by falling.

The Cleanest Heat on Earth

At last we have found a hot air furnace which makes no dirt. It is cleaner than hot water or steam and does not cost as much to install as either.

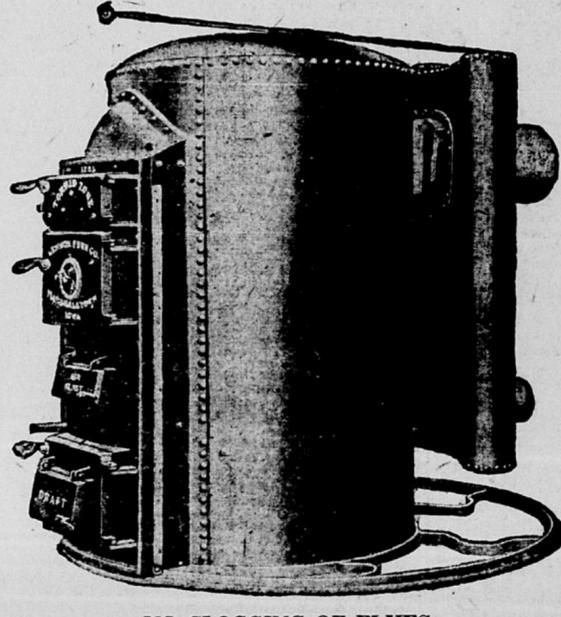

Torrid Zone furnaces made of heavy steel plates riveted and caulked absolutely gas and dust tight like a steam boiler are the modern heating plants of today.

Formerly furnaces built of cast iron sections set one upon another will leak gas between the sections. The joints are cemented but when the iron is heated it expands and loosens the cement. Gas then puffs into the air chamber.

Torrid Zone steel furnaces have the fire, smoke and ash pit all enclosed in a steel shell, riveted gas tight. Dust or gas does not escape into the air pipes.

QUICK RADIATION

Steel is the quickest to radiate heat of any metal that can be used. Hot air response comes the moment a fire is kindled and the maximum heat from the fuel consumed is always obtained from the quick radiating qualities of a steel furnace. Remember that heat from a fire must either be radiated into the house or escape up the chimney.

NO CLOGGING OF FLUES

Upright construction so that the smoke always travels up and down prevents soot collecting to retard radiation and eventually choke up the draft. There are no horizontal tubes or flues about a Torrid Zone.

HEAT FROM SMOKE IS SAVED

The indirect radiator, also of steel, with a partition in the center adds eight feet of extra smoke travel, thus obtaining all of the heat possible from the fire and almost doubling the radiating surface of the furnace.

DOUBLE FUEL DOORS

The double doors make it so easy to feed coal into a fire that any woman can operate a Torrid Zone furnace. Big chunks of wood can be used.

FIRE POT IN IRON SECTIONS

After years of use the cast iron fire pot linings, grates, etc., can be removed in sections through the fuel doors and new parts put in their place without the expense of tearing down casings and pipes to remove a big section of cast iron.

The hot blast arrangement guarantees perfect combustion for hard or soft coal, coke or wood because it can be easily regulated by a draft damper door.

WORKS WELL IN ALL WINDS

The damper for both direct and indirect draft makes possible perfect regulation of the fire in all kinds of weather. By its use fire can be held in a Torrid Zone for three days from one filling of fuel and then direct draft is ready for immediate use when filling the furnace with fresh fuel. No smoke nor gases can escape into the cellar. High winds can not waste your fuel nor foggy days cause your furnace to smoke.

TEMPER THE CLIMATE OF CANADA

Torrid Zone steel furnaces are now sold in twenty-two states from Pittsburgh to the coast and from Texas to Winnipeg and throughout the Canadian north-west where none but the most powerful heating plant can battle with a northern winter. The factory at Marshalltown is now the largest in the world for the making of steel furnaces.

STEEL FURNACE LEADS ALL OTHERS

The steel furnace is capturing the furnace trade of the country. Makers of cast iron furnaces have been making steel radiators for their cast furnaces in order to compete. Now they are adding steel furnaces to their line, but for eighteen years Torrid Zone furnaces have been the pioneers and the leaders in steel furnace manufacture. Today the whole country is alive to the superiority of the steel furnace over all other forms of heating plants.

Consult Our Heating Engineers as Follows:

- List of heating engineers and their locations across various states and cities.

The Governor Says—

"Cut out tea and coffee, my boy. They contain an irritant—caffeine—and you can't have a fluttery heart or sour stomach or a grouchy headache and do big business."

It's a mighty good plan, if tea or coffee puts you "off color," to quit it, and for a delicious table beverage, use

POSTUM

the pure cereal food-drink. There is no caffeine nor other harmful substance in Postum.

In either form—Regular Postum, which must be boiled, (15c and 25c packages) or Instant Postum, made instantly in the cup with hot water (30c and 50c tins) Postum is good in any business.

"There's a Reason"
