CANNING SEASON ON; SUGAR IS SKY HIGH

HAS ADVANCED 85 CENTS IN TWO DAYS, OWING TO ENGLISH DEMAND.

NO LIMIT IF EUROPEAN WAR CONTINUES LONG

Navy Beans Show Advance of 50 Cents a Bushel in Two Days, and Will Likely Go Higher Before New Crop Is in—Predict Advance in Coffee—Spices and Nuts Up.

"If the war in Europe continues six months there will hardly be any limit to the price of sugar," said W. T. Smith, manager of the Letts-Fletcher Company, when asked today about the effect of the war on staple products that would affect the housewife.

Cane sugar this morning was selling at 85 per hundred, an advance of 85 cents in two days. Beet sugar refineries have withdrawn all prices. To make matters worse the high price of sugar comes in the midst of the canning season. Lucky is the housewife who put in a few hundred pounds last winter when the price was below 45.

The Cause of High Sugar.
 England gets its sugar from Australia, Germany and Russia, three of the biggest sugar producing countries in the world, said Mr. Smith. In explaining the cause for the high cost of sugar, England uses 170,000 tons, or 3,400,000 bags, every month. England has to get its sugar somewhere, and has come to this country after trying to buy raw sugar in Cuba, where most of our sugar comes from. Tuesday, in New York, England tried to buy 500,000 100-pound bags of sugar. Naturally the demand sent the price up. If the war continues, and England continues to buy sugar here I don't see how sugar can help but go up \$2 a hundred more."

Beans Also Advance.
 The demand for navy beans in the armies and navies of the warring European countries has sent navy beans up 50 cents a bushel in two days. This is at the rate of about a cent a pound, or 25 per cent. The bean supply is not large in this country now, nor will it be until about the first of November when the new crop will be on the market.

Coffee Up 3 Cents.
 Green coffee has advanced 3 cents a pound in the past week, and wholesalers predict that to the consumer coffee will be up 5 cents a pound within a few weeks. The Brazil crop will not be moved for ninety days, and most of our coffee comes from that country. It is said that there is not enough coffee in the country now to take care of the home demand until the new crop arrives.

Other Staples Increase.
 Increase in other staples, such as spices, olives, all foreign cheeses, Norwegian and French canned and dried fish, dried fruits, spices and nuts, have all shown increases within a few days, or will within a few weeks, it is predicted.

Filberts from Chile and Brazil nuts from the country of the same name, are both up 2 cents a pound. Imported English walnuts from France and Spain are also up.

If there is the expected demand for canned salmon from this country, due to the desire of the European governments to use salmon for meats, that commodity will go up in this country. Dried fruits, which are produced in large quantities in this country, are likely to show a big advance. Germany is the largest consumer of dried apricots in the world, and if it is arranged that the dried fruits can be transported to that country, there will be a big increase in the price here. If transportation is not permitted, the price will not advance.

APPEAR IN MUSICAL PLAY.

Amateur Performers Occupy Stage at Orpheum Thursday Night.
 A company of local amateur theatrical performers appeared Thursday night at the Orpheum in the opening of a three-nights' engagement in "Putting It Over," a two-act musical farce, written and produced by Howard L. Miller, of this city. The audience for the first performance was of very good proportions.

The members of the cast were heartily received by their friends in the audience, who were generous with their applause. Mrs. Vina Herman Valentine, in the leading role of Valette Yvonne, an actress, especially well received in her song with Mr. Miller, "Drink With Me," written by Mr. Miller. George Hockridge was very satisfactory as the baron, and pleased with his song, "I'm the Man Who Paid the Rent." Mrs. Charles Whitehead, as the widow, was pleasing in her song, "Love in a Palace Is Better." Mrs. Marie McFarland essayed Mrs. Whitehead's role in the second performance, and was well received.

The hit of the evening was made by Margaret Buchanan, in her song, "They'd Have to Swim Back to Shore," in which she was ably assisted by Mr. Hockridge. The Misses Buchanan were recalled in their dance, given incidental to Mrs. Valentine's song, "Something Seems Tingle-lingling."

An augmented orchestra added to the success of the performances.

 The practice of the Minneapolis and St. Louis, of offering low round trip rates for excursions from Des Moines and this city to the Twin Cities, has brought about a small rate war for business from Des Moines to St. Paul and Minneapolis.
